WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, Feb. 24.

Amount of live stock at market: Cattle, 877; Sheep and Lambs, 2,175; Calves, 343; Horses, 143; Swine, 10,634.

Prices of Market Beef—A few choice, $8 05 @ $8 30; extra, $7 70 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 00 @ $6 5 ; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen ₩ pair, from $190 @ $185; Farrow cows, $45 @ $30; Fancy cows, $50 @ $30; Milch cows and calves, $35 @ $45; year lings, $10 @ $18; two years old, $14 @ $26; three years old, $24 @ $40.

Swine—Western fat, live, 4¼ @ 4⅞c ₩ lb.

Prices of Sheep and Lambs—In lots, $2 25, $3 00 @ $4 00 each; extra, $5 00 @ $5 25, or from 2¼ @ 2¾c ₩ lb.

Veal Calves 2¾ @ 5½c ₩ lb.

Prices of Hides, Tallow and Skins—Brighton hides, 7¾ @ 7c ₩ lb; Brighton tallow, 4c ₩ lb; country hides, 7 @ 7¾c ₩ lb; country tallow, 2¾ @ 3¼c ₩ lb; calf skins, 11c ₩ lb; pelts, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

The market for cattle is only fair with rather more good quality oxen on sale. The general tone of the market was unchanged. There were a few fancy cattle that sold at 8c, and one pair of especially choice cattle at 8¼c ₩ lb, dead weight, but for corresponding quality of cattle there was no visible change.

Milch Cows—The trade is moderate, with bulk of sales at $30 @ $60 ₩ head.

The Sheep Call—The business opened before daylight, with trains prompt at market. A light show of sheep from the northern states, and prices have not improved, with sales of mixed lots of sheep and lambs at from 2¼ @ 4¼c ₩ lb; an occasional lot of lambs at 6 @ 6c ₩ lb.

Fat Hogs—The market values are steady, with western delivered at East Cambridge at 4¼ @ 4½c ₩ lb, live weight.

Veal Calves—Firm prices are maintained, with active demand.

Live Poultry—No account made of poultry; none of any amount.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unimpaired?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $200 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect reduction* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *22 inches in height*, the Statue bronzed, Pedestal, nickel-plated,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars** each, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, with PLUSH STAND, at **Ten Dollars** each, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $50,000 is yet needed to pay for the iron fastenings and the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

THE WEAK AND DEBILITATED.

Why Women Become Invalids.

(From the St. Paul Pioneer Press.)

The home life of woman has its penalties. Their confinement and close application to household duties and the sedentary pursuits which are a part of their duties, bring with them a train of evils whose name is legion. From her peculiar organization, she is more sensitive than the stronger sex—more easily persuaded and more ready in her belief of causes and effects. Hence, for the thousand ills which flow from her position and habits, she is prone to fly at once for relief to drugs and nostrums. Besides, women are not permitted the advantages men have in the use of proper preventives, and she is left a prey to quackery and bad advice. In turn, cod liver oil, beef tea, iron, nervines and notions are taken, which derange the stomach and enfeeble the nerves, without possessing any food value, and which increase the weakness of their delicate organism. In the development of the special functions from inadequate nutrition, the wasted form is only a too common sight. Under these conditions of an irregular and disordered system, the married state is entered into, and the pangs of maternity are encountered. The harmful effects of all kinds of drugs and nostrums, which women would never take if they knew what they contain, is a prolific source of the ailments with which they are afflicted. A pure stimulant is often indispensable to their malady and is highly recommended by the most eminent physicians. The question has been heretofore, where to procure an absolutely pure and unadulterated article, free from fusel oil and other poisonous ingredients, that could be safely prescribed for their benefit. Eminent scientists and chemists have failed to find a trace of fusel oil in Duffy's pure malt whiskey, nor any adulteration whatever, and hence it has not only become the standard of purity, but a specific in medical practice. For such diseases as dyspepsia, indigestion, heart burn, faints and swoons, and wasting maladies, to which delicate women are prone, the highest medical authorities give this pure stimulant a preference, and recommend its use medicinally.

GOVERNMENT OF CHILDREN

Mothers often govern their children with short-sighted regard for their welfare. Little ones are reared with no rational idea of conduct, and they are left in the dark as to the reasons for the multiplicity of prohibitions that surround them. If little Charley is very desirous of doing some particular thing that he is merely told not to do, he persists with his intent, because he can see gratification ahead, and because the only obstacle that he finds opposed to him when he asks "Why?" is the "Because you mustn't," of his mother. After such an irrational answer, no one should blame the child if he follows his intent. He can take no such wide view of the matter in the conflict of motives as an adult usually takes, for his view is as narrow as the horizon of his experience, and with those limits he finds nothing to restrain his contemplated conduct. Love for his mother would exercise a great influence over him if he found it displayed in a way that he could comprehend; but he cannot comprehend "Because," or "Because I don't want you to do it." That is, he cannot comprehend its intent but he soon draws his conclusions, and they are just contrary to those that his mother would have him draw. While he regards her as friendly to him, he looks upon her as manifesting her regard for him in a very unfriendly way, for she would deprive him of expected pleasure with no assignable reason, unless to limit his pleasure; and the opinion is forced upon him that his mother is a whimsical person, whose injunctions have no rational basis and are to be evaded as best they can. If a mother has an ungovernable child, it is her own fault, or the father's, not the child's.

It is because a parent often stands between a child and what he supposes to be the object of his pleasure, that the resort to bribery is made as the price of self-denial. In restraining such attempted explanations as "It is all for your good," "I know what is proper for you better than you do yourself," are meaningless, because they explain nothing. He is incompetent to understand the future that his mother has in view, or how this treatment conduces to the happiness of that future, but he judges by his own feelings, and, as these feelings are outraged by one professing to be friendly to him, he is sceptical either regarding the friendship or regarding the competence of his own parent to regulate his conduct. The government of the child in time comes to be looked upon as a hopeless task, and he is considered wilful and ungrateful, as well as disobedient. The fact that all vigorous minded children not this way under maladministration of government seems not to impress parents with the idea that their system is wrong, but that there is an unnatural perversity in their children. In developing from infancy to adult life, the child passes through phases of nature peculiar to a race in its development from barbarism to civilization. He is unjust, ignorant, wanting in foresight, tyrannical, destructive, meddlesome, pilfering, combative and cowardly. Besides trespassing on the rights of others, he will do many things detrimental to his future welfare if he is not restrained, and it should be the parent's study to find out how the restraint may be maintained as a mental influence, instead of a physical one, and in such a way that the child can comprehend it.

Nature is the great teacher: her penalties are inexorable, her rewards are precious. Pain is the consequence of transgression; pleasure, of adaptation. The child will understand that it is wrong to do what his mother tells him not to do, if he is made to associate a painful experience with the forbidden conduct and directly resulting from it. It is not every mother's love that will permit this suffering, for it is often incapable of taking account of anything beyond immediate effects; but the way is clear, nevertheless, and the mother, or father, who does not follow it does a wrong to the child. A child learns not to fall, not to put his finger in a hot place, nor to touch a sharp point, because these experiences are painful. Let him, in all instances, derive pain from his wrong doings, and he will avoid them; he can comprehend this, and the employment of the method will be a government of itself, in place of parental injunction alone. There are two branches, however, to the effects of this conduct,—one affects himself, the other affects others. If he uses a sharp knife unskilfully, the penalty is a cut, and this consequently follows with such unvarying regularity that he soon learns to be careful enough to protect himself by proper handling. The injury directly consequent upon himself from his maladaptation he comprehends, and will avoid by not doing that which brings the pain. The only fear is that nature will teach this lesson too well, and maim, or disfigure, or cripple him; whereas, under the watchful care of parents, he might learn the lesson under less severe penalties. Instead of keeping the child away from the sources of physical pain, by all means let him learn what it is in its relation as an effect from a cause, but take care that he does not incur too painful consequences. He can be made to infer these from less painful ones that are related to them. He will realize the danger of cutting off his toe with an axe from the slight wound that a penknife may inflict upon his hand. If he cannot understand why he should not have the axe, lead him to recall his experience with a knife.

But there are some things that cannot be permitted in any form for the sake of the penalty,—walking in water, for instance, and getting wet feet, from which serious lung or other diseases may result. If you bribe the child not to do this, he will always believe that

Only Half Alive.

There are hosts of men and women who, to coin a phrase, are only half alive. That is to say, they have seldom if ever any appetite, are nervous, weak, fidgetty and troubled by numberless small pains and aches. In the presence of vigorous, exuberent vitality they seem mere pigmies. Such persons are usually fond of frequently dosing themselves, swallowing in the course of the year enough drugs to stock any apothecary's shop of average dimensions. This, of course defeats instead of furthering the end in view, viz., the recovery of health and vigor. Were they to seek it from an unfailing source of vitality, Hostetter's Stomach Bitters, how different would be their case. Then vigor would return to their debilitated frames, the glow of health to their wan cheeks, their trembling, uncertain gait would grow firm and elastic, appetite, that grateful relish all sauces, would give a relish for the daily food, were it so coarse, and refreshing sleep would crown the tasks of the day.

The Root of all Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does, by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not even a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

The Mutual Life Insurance Company of New York.

We present, in another column, to the members of the Mutual Life Insurance Company of New York, the succinct and satisfactory statement of the condition of their property as it existed on the 31st day of December, 1885. The growth of this colossal wealth would perhaps seem phenomenal were it not from the fact that the members of this corporation have been so accustomed to the satisfactory management of its affairs which has constantly produced such wonderful pecuniary results connected with a judicious administration of its business, combined with a financial policy alike conservative and progressive.

It is a source of congratulation to the policy-holders that since Mr. Richard A. McCurdy has filled the office of president, a position to which he was invited by the unanimous action of the trustees, and one for which both from his experience and acknowledged ability he is so abundantly qualified to fill, that the growth and strength of the company have been developed to a wonderful degree. A corporation of this magnitude needs in its executive the possession of two equally essential requirements; a thorough comprehension not only of the principles of life-insurance as soundly and honestly administered, but also training in the school of finance, which will enable its possessor to keep abreast of the needs of this department of the institution. The statement of the business of the company and of its assets, as shown to-day, will convince every one that not only has the Mutual Life lost none of its former prestige, but that under the able executive management of Mr. McCurdy, the business has largely increased, while the assets show a wonderful growth.

We are glad to note these facts, and to remind our people of the opportunity they may have of participating in the benefits to be derived from a membership of a company whose results have challenged the admiration of discriminating, thoughtful men in both hemispheres. Our readers already know, and need not again be reminded, that we have always maintained that it is the combined duty and privilege of every insurable man to take a policy of life assurance. The reasons for this are so obvious that the day for argument of the proposition, to any well informed person, has long since elapsed. The duty of the assured is to seek out the strongest company, one which, upon business principles, soundly exercised, can give him with the greatest security, the best results. When one glances at the list of beneficiaries who have been members of this organization, and sees the names of men who week by week are gathered to their last resting places, there will always appear those of acknowledged business and financial sagacity, who have investigated this question and selected the Mutual Life Insurance Company as the thoroughly reliable life assurance factor of the world. It is safe to adopt the judgment and expressions of such men; but more than that, every intelligent man who investigates the question for himself can but reach the conclusion that as to being reliable, permanent and safe beyond contingency, the insurance effected in this company is pre-eminently indisputable.

NEW AND YET OLD.

NUMBER TWO.

Christ, the Son of God, when on this earth told his disciples, referring back to the 25th verse of the 7th chapter of Daniel, the prophet, what should come to pass after he had left the earth, as is recorded in the gospel according to St. Mark, 13th chapter, 19th and 20th verses. He foretold that Justinian, the Roman emperor, would would give the saints of God into the hands of the head of the Catholic church for 1260 years. Christ said in that place that except the Lord had shortened those days, (or years,) no flesh should be saved, but for the elect's sake, whom he had chosen, he hath shortened the days or years. These years were to end in 1814, but in 1483, on the 10th day of November, a man by the name of Martin Luther was born, and lived 63 years and then fell asleep, or died. In the 47th year of his life he came out of the Catholic church entirely and exposed its corruption, and from this date, 1530, the reformation is reckoned though it began nearly twenty years before.

At this time God commenced to shorten those days of tribulation on his people, and also to put the brake upon the power of that church. Follow down the stream of time to 1798; here God puts the brake still harder down upon that church by the head of the French nation sending an army to the city of Rome and taking prisoner the Pope of Rome, and bringing him to France, where he died in exile. Here the words of Christ were fulfilled, "In those days the sun shall be darkened and the moon shall not give her light."

From the time that Martin Luther died, February 17th, 1546, to the time the sun was darkened in 1780 is 234 years; to the year 1814 is 34 years. In the year 1814 God put the brake clean down on that church by the fulfilment of his word in that year. The crowned heads of Europe met in convention and took all the civil and religious power out of the hands of the Catholic church by granting free toleration of all religions. In the year 1870 King Emanuel took the City of Rome and the States of the Chuch into his hands, and the Catholic church is where God said it should be at the end of this world's history: Revelations 17th chapter, 1st and 2d verses; Mark 13th chapter, 19th and 20th verses.

The following shows when the church of Christ went into the wilderness, and the length of the days of her tribulation while there: From 554 to 1814 are 1260 years. From the days of Martin Luther and the reformers in the struggle for liberty from the Catholic church in the year 1530, to 1814, were 284 years; from the time they obtained their liberty in 1530 to the darkening of the sun and moon in 1780, are 250 years. This shows that the power of the Catholic church was broken in the year 1530, and that the sun and moon were darkened in the days that were cut off from the 1260 years. If they had not been no flesh should be saved, said Christ.

From 554, the date of the delivery of Rome into the hands of the Catholic church, to 1889, are 1335 years. At the end of 1335 days, Daniel will stand in his lot at the resurrection.

Ayer's Cherry Pectoral

Should be kept constantly at hand, for use in emergencies of the household. Many a mother, startled in the night by the ominous sounds of Croup, finds the little sufferer, with red and swollen face, gasping for air. In such cases Ayer's Cherry Pectoral is invaluable. Mrs. Emma Gedney, 150 West 125 st., New York, writes: "While in the country, last winter, my little boy, three years old, was taken ill with Croup; it seemed as if he would die from strangulation. Ayer's Cherry Pectoral was tried in small and frequent doses, and, in less than half an hour, the little patient was breathing easily. The doctor said that the Pectoral saved my darling's life." Mrs. Chas. D. Landon, Guilford, Conn., writes: "Ayer's Cherry Pectoral

Saved My Life,

and also the life of my little son. As he is troubled with Croup, I dare not be without this remedy in the house." Mrs. J. Gregg, Lowell, Mass., writes: "My children have repeatedly taken Ayer's Cherry Pectoral for Coughs and Croup. It gives immediate relief, followed by cure." Mrs. Mary E. Evans, Scranton, Pa., writes: "I have two little boys, both of whom have been, from infancy, subject to violent attacks of Croup. About six months ago we began using Ayer's Cherry Pectoral, and it acts like a charm. In a few minutes after the child takes it, he breathes easily and rests well. Every mother ought to know what a blessing I have found in Ayer's Cherry Pectoral." Mrs. Wm. C. Reid, Freehold, N. J., writes: "In our family, Ayer's medicines have been blessings for many years. In cases of Colds and Coughs, we take

Ayer's Cherry Pectoral,

and the inconvenience is soon forgotten."

There will be a meeting of the Portsmouth cricket club at Mr. Wm. Sladen's house at the Creek on Friday evening, to select a member to represent the club at the meeting of club secretaries in Boston to arrange the schedule of games for the coming season.

The dividend due on the stock of the Wolfeboro railroad will be paid to holders of stock in this vicinity at the office of Hon. Frank Jones, on Market street, from ten o'clock A. M. on Tuesday, March 2d, to noon.

We noticed boys in a number of places around town, Monday forenoon, playing marbles in sunny spots while the mercury was only fifteen or twenty above zero. This seems like an attempt to bulldoze the season.

Edward Saltmarsh of Manchester has been appointed a railway mail clerk to run between this city and Concord, in place of Arthur W. Cox, who is to be transferred to the route between this city and Boston, in place of John F. Green, who is to be transferred to the Boston and Lancaster route.

Mrs. Henry Putney, formerly of Dunbarton, died at Andover on the 16th inst., aged seventy-two years. Her remains were taken to Dunbarton for interment. Mrs. Putney was the mother of Mr. H. W. Putney, deputy collector of internal revenue in this city, and his attendance at the obsequies of his mother was the first absence of this official from his post for a very long time.

Sergeant Francis Long, one of the survivors of Greely's farthest-north expedition, will be in this city shortly to offer to our people the account of their trip and sufferings as portrayed in Greely's work entitled "Three years of Arctic service," probably the most interesting narrative of nothern explorations ever published.

Naval Intelligence.

The house naval committee has decided to investigate the reason for the retirement of a number of naval officers. It has been suggested that some have been retired for political or other reasons. As a preliminary to this inquiry a resolution was adopted by the committee calling upon the secretary of the navy for the reasons for the retirement of a number of officers.

The steamer City of Mexico, with Lieut. Elliott and a prize crew from the U. S. S. Galena on board, arrived at Key West on the 21st inst. Also on board were General Delgardo, Colonel Morei and thirty men. Lieutenant Elliott thinks that if there were any troops or ammunition on board they had been landed previous to the steamer's seizure at St. Andrews, United States of Colombia, on the 15th inst.

"JUDGE" NORTON GETS A SET-BACK.

Recently Marcus P. Norton filed in the office of the clerk of the circuit court of the United States in this city, an application to have the verdict in the case of Norton against the city of Dover, rendered in favor of the city, in June, 1883, set aside; and also that the releases given to the cities of Portsmouth, Manchester, Concord and Nashua in full under seal, be declared void, because, as he alleged, the verdict was obtained by means of false testimony. With these motions Mr. Norton filed copies of a printed pamphlet of nearly one hundred and twenty-five pages, containing nineteen affidavits in support of his position. After some delay, a hearing has been had upon these motions; and Judge Colt, by a rescript filed with the clerk on Tuesday, holds that as it appears that since the trial the plaintiff has signed what purports to be a release in full under seal in favor of the several defendants, and that the plaintiff, Norton, contends that these releases are void, under these circumstances the motion for a new trial must be postponed until the validity of the releases is determined. At the hearing Mr. Norton and H. S. Hadlock of Portland, appeared for the plaintiff; the defendants were represented by Hon. Wm. L. Foster, Henry H. Huse and Samuel W. Emery.

IN MEMORIAM.

A pamphlet containing the obituary notices published on the death of the late David Kimball, which occurred in January of last year, has been printed for private use. The notices are preceded by an article from our paper published in July, 1880, upon the retirement of the veteran business man from active business in Market street. Following this are the tributes paid at his decease by the *Chronicle*, *Times*, *Penny Post* and *Journal* of this city, and by the Boston *Journal* and *Traveller*. The best eulogy of such a man, however, is the remembrance of his life-long integrity, his exemplary career, and the traits which so endeared him not only to the members of his own family circle but to our entire community.

AUSTIN'S FARM LAW.

The Law concerning Farms, Farmers and Farm Laborers: together with the Game Laws of all the States. By Henry Austin of the Boston bar. Boston: published by Charles C. Soule; price, in cloth, $2; law sheep, $2.50.

This work is a clear and well arranged presentation of those points of law which particularly interest farmers and their attorneys, with notes and references brought down to 1886. Its scope is indicated by the list of contents, which includes chapters on The Farmer and his Laborer; landlord and tenant; law pertaining to domestic animals; warranty of soundness of animals; law regarding seaweed and fertilizers; sale of crops and timber; liability for damage caused by fire; general principles of law as to real property; private and public wages; law of boundaries and fences; overhanging trees; water rights and mill privileges; game laws; acknowledgements of deeds in all the states.

The book is evidently intended for popular use, being written in simple language and condensed style, technical terms being almost wholly avoided; with it in his possession, the farmer of ordinary common sense will be able to tell just what his rights are under the law, in almost any situation in which he can be placed. There are copious references to farm law cases decided by the several state courts, which the farmer will pass over, but which will render the work of much value to legal practicioners having country clients.

The book is from the University press, which is a sufficient guaranty of its mechanical excellence; and is for sale in Portsmouth by M. Goodrich.

HAMPTON JOTTINGS.

HAMPTON, Feb. 22d.

On Wednesday evening of last week Rev. Mr. Clopp, pastor of the Methodist church, delivered an eloquent lecture on "Our Country." It was a popular glossary on our national origin, progress, and coming destiny. A select amateur choir gave entertaining music.

G. H. Jenness, Esq., this evening has given us a most pleasing and instructive lecture on What We Should Read. It radiated gems of thought, historical incidents and apt illustrations. I wish it could be echoed from every platform and pulpit in our land. Spear's orchestra discoursed fine music. We missed the lecturer's eldest son from this quartette band, and on inquiry learned that he is in Chicago, Ill.

A. O. U. W.

At a meeting of Sagamore Lodge, No. 11, A. O. U. W., held in Good Templar's hall on Monday evening, Feb. 22d, the following officers were installed by C. F. Horton of Newburyport, D. D. G. M. W., assisted by Grand Guide C. Evans and other grand officers:

P. M. W., M. Crowley;
M. W., A. P. Wendell;
Foreman, S. B. Yeaton;
Overseer, H. C. Hewitt;
Guide, John Vogler;
Recorder, W. S. Johnson;
Financier, E. S. Johnson;
Receiver, J. L. Randall;
Inside Watchman, H. B. Amazeen;
Outside Watchman, W. W. Henderson.

THE THEATRE.

A large audience gathered in Music hall on Monday evening, to see Mora and Fred Williams' Birds of a Feather play "Fire-fly," which was presented in such manner as to win marked expressions of satisfaction from the spectators. Tuesday evening the amusing comedy "La Cigale" was given, and all its mirth provoking points well brought out. Mora is in fact "a comedy sunbeam," and the supporting company is a good one; an evening's amusement at a trifling price can be had at Music hall any night this week.

This evening "A day in June" will be given, and reserved seat tickets can be procured at Goodrich's during the day; see advertisement.

There will be a grand soiree dansante at the south wardroom this evening, under the management of Mr. James T. Adams. Good music; grand march at nine o'clock.

The fair, sale of refreshments, and Japanese Wedding, at the Universalist vestry Tuesday evening, was attended by a throng, the room being packed, and everything passed off pleasingly.

The entertainment will be repeated this evening.

William C. Williams was on the 23d inst. appointed second assistant keeper of Boon island light.

One Dollar. Hood's Sarsaparilla is the only medicine of which this can be truly said; and it is an unanswerable argument as to the strength and positive *economy* of this great medicine. Hood's Sarsaparilla is made of roots, herbs, barks, etc., long and favorably known for their power in purifying the blood; and in combination, proportion, and process, Hood's Sarsaparilla is *peculiar to itself.*

"*For economy* and comfort we use Hood's Sarsaparilla." MRS. C. BREWSTER, Buffalo.

"Hood's Sarsaparilla takes *less time and quantity* to show its effect than any other preparation I ever heard of. I would not be without it in the house." MRS. C. A. M. HUBBARD, North Chili, N. Y. 100 *Doses*

One Dollar

Hood's Sarsaparilla cures scrofula, salt rheum, all humors, boils, pimples, general debility, dyspepsia, biliousness, sick headache, catarrh, rheumatism, kidney and liver complaints, and all affections caused by impure blood or low condition of the system. Try it.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. I took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

"Hood's Sarsaparilla did me an immense amount of good. My whole system has been built up and strengthened, my digestion improved, and my head relieved of the bad feeling. I consider it the best medicine I have ever used, and should not know how to do without it." MARY L. PEELE, Salem, Mass.

CITY OF PORTSMOUTH.

PROPOSALS FOR LOAN.

MAYOR'S OFFICE, Feb. 19, 1886.

THE CITY OF PORTSMOUTH, N. H., will issue bonds of the par value of $18,000, dated April 1, 1886, $8,000 payable April, 1, 1896, $10,000 payable April 1, 1901,) with interest at four per cent. per annum, payable semi annually at the office of the City Treasurer. Said bonds will be issued in accordance with "an ordinance authorizing a loan, to be added to the amount already; provided for the building of a sewer by the North Mill Pond," passed Aug. 27, 1885. Money invested on these Bonds, belonging to inhabitants of this city, is exempted from taxation.

Proposals will be received for the purchase of the whole or any part of said Bonds until 12 o'clock M., March 1, 1886.

MARCELLUS EDDREDGE, Mayor.

Washington's birthday was very quietly observed in this city, the ringing of the bells at morning, noon and evening, the display of flags, and the general cessation of business in the afternoon, being the principal features. A salute of twenty-one guns was fired from the navy yard at noon.

The first annual ball of the Portsmouth Athletic club, in Franklin hall on Tuesday evening, March 2d, will be a brilliant affair, if the best of music, a large attendance and a careful discrimination as to who are admitted, can make it so. The promenade concert which will precede the dancing is expected to be the best given here this season. The members of the club have already sold a large number of tickets, but others are still procurable.

ECZEMA

And Every Species of Itching and Burning Diseases Cured by Cuticura.

ECZEMA, or Salt Rheum with its agonizing itching and burning, instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and uninitiating, the bowels open, the liver and kidneys active, will speedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Pruritus, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

Will McDonald, 242 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seventeen years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, reports a case of Eczema under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from Salt Rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs. Isaac Phelps, Resenna, O., writes: "For the last year I have had a species of itching, scaly, and pimply humors on my face to which I have applied a great many methods of treatment with out success, and which was speedily and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have nothing but the highest praise for the results obtained from your CUTICURA REMEDIES, of which have sold more than of all others of the kind.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospect-uses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *nine inches in height*,—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver Plated**, with Pledge card, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $40,000 is yet needed to pay for the iron fastenings and the erection of the Statue.

Lib-r-l subscriptions for the Miniature Statuettes will produce the desired amount.

A very few doses of Athlophoros greatly relieved me, and a single bottle nearly drove the rheumatism out of me. I have seldom felt it since, and only slightly at most. Rev. G. E. Fisher, pastor of the Second Church of Amherst, Mass.

The newspaper and job pressmen of Boston have organized a protective union under the auspices of the International Typographical union.

Your system is now more susceptible to the benefits of a reliable medicine than at any other season. Take Hood's Sarsaparilla.

A tidal wave swept over the wharves at St. John's, N. F., submerging the floors of many buildings to a depth of from one inch to four feet.

Dyspepsia in its worst forms will yield to the use of Carter's Little Nerve Pills aided by Carter's Little Liver Pill. They not only relieve present distress but strengthen the digestive apparatus.

Miss Grace Hendricks, a niece of the late vice-president, and one of the belles of the town of Arita, Iowa, on Friday, publicly whipped with a cowhide H. L. Brown, a leading citizen, for slandering her.

O. H. Holberg, Pastor Woodhaven M. E. Church, South Woodhaven, Queens Co., N. Y., states: "I have used Allcock's Plasters for thirty years. Never found them fail to cure weakness of the back, spine and kidney difficulties. They are very agreeable and strengthening. A short time ago I got in a profuse perspiration while preaching. Imprudently going home without my overcoat, I lost the use of my voice, and the next day had a violent pain in my back, kidneys and chest. I could hardly breath. Three Allcock's Plasters applied to my back, chest and kidneys cured me completely in six hours. I was astonished how quick my breathing became easy after applying."

The German government has decided to employ only German labor and materials in the construction of the Baltic canal.

There are many forms of nervous debility in men, that yelid to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, &c., should try them.

The car drivers, conductors and omnibus drivers of Baltimore have organized an assembly of Knights of Labor.

We recommend Carter's Iron Pills to every woman who is weak, nervous and discouraged; particularly those who have thin, pale lips, cold hands and feet, and who are without strength or ambition. These are the cases for which Carter's Iron Pills are specially prepared, and this class cannot use them without benefit. Valuable for men also. In metal boxes, at 50 cents. Sold by druggists or sent by mail. See advertisement elsewhere.

O. W. Travers, a New York traveling salesman, fell under the cars at Windsor Locks, Conn., and was killed.

The great popular remedy of the day for coughs, colds, asthma, and all lung difficulties, is Adamson's Botanic Balsam. Inexpensive, reliable, pleasant to take, cures as by magic, and gives universal satisfaction. A trial is the best testimonial. Price 35 and 75 cents. Trial size 10 cents.

The strike in the coke district of Pennsylvania has ended.

Something new. Beach Soap Company's elegant Banner Picture, 20x30 inches.

All the shoe shops of Beverly, Mass., have stopped work for an indifinate period. The Knights of Labor ordered one factory to strike, and the manufacturer's union closed the others.

Erysipelas and Salt Rheum was driven entirely away from Mrs. J. C. Anderson, Peshtigo, Wis., by Burdock Blood Bitters. No equal as a blood purifier.

Steamer Saxon, Wyman master, from New York for Cape Haytien, has been wrecked, and the captain, two mates and three seamen lost. The chief engineer and rest of the crew were saved.

Murdered.

The body of Julius Baer was found by freighters five miles west of here Tuesday morn, in a terribly mangled condition. His head and face were smashed, so as to be hardly recognized, and numerous wounds were found on his body. Mr. Baer was agent for the great blood medicine, Sulphur Bitters. Robbery was undoubtedly the motive, as he was well known to have a large sum of money on his person. As we go to press there is no clew to the perpetrators.—*Colorado Press.*

According to the United States report the number of immigrants to this country last year was twenty per cent less than that of the preceding year.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

A MAN WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS LINE THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in the system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points North, Northwest and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a well, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison, are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers (the latest design), and sumptuous Dining Cars, in which elaborately designed meals are served at rates. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and Western Provinces. Over this route the Fast Express Trains are run to the watering places, summer resorts, sportsmens headquarters, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

To full another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

Good and Reliable.

A good and reliable family medicine is Sulphur Bitters. Every Spring for six years I have been troubled with boils. Since I began using Sulphur Bitters, I have not had a single one. You can rely on Sulphur Bitters every time.—*Editor Weekly News.*

At Salem, in this state, early in the morning on Feb. 23d, a barn belonging to Edward Farr was burned, with all the hay, two horses and a cow. Mr. Farr, in trying to save his horses and cow, was overcome by smoke, and burned to death. He was twenty-five years old, and leaves a young wife and a child three years old.

Backache is almost immediately relieved by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Try one and be free from pain. Price 25 cents.

The senate on Feb. 23d confirmed Charles B. Harmon as United States marshal for the district of Maine.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

The members of the Christian society of Kittery Point gave their pastor, Rev. Mr. Webster, a surprise donation party on Monday evening of this week, carrying with them money, clothing and groceries.

It is a good rule to accept only such medicines as are known to be worthy of confidence. It has been the experience of thousands that Ayer's Cherry Pectoral is the best medicine ever used for throat and lung diseases.

An attempt is being made to unite the towns of Salisbury and Amesbury, Mass., and hearings are being had before a committee of the Massachusetts legislature.

Everybody needs a spring medicine. By using Ayer's Sarsaparilla, the blood is thoroughly cleansed and invigorated, the appetite stimulated, and the system prepared to resist the diseases peculiar to the summer months. Ask for Ayer's Sarsaparilla. Take no other.

ONLY TWO BOTTLES. Messrs. Johnston, Holloway & Co., wholesale druggists of Philadelphia, Pa., report that some time ago a gentleman handed them a dollar, with a request to send a good catarrh cure to two army officers in Arizona. Recently the same gentleman told them that both of the officers and the wife of a well-known U. S. A. General had been cured of catarrh by the two bottles of Ely's Cream Balm. Not a liquid or snuff. Price 50 cents.

The Manchester *Mirror* of a recent date contained an article of over a column, the result of an interview with Mr. Henry Peyret, formerly of this city, in which that gentleman relates his experience some years ago in the sardine business, he having visited France solely for the purpose of learning the secret of putting up the little fishes after the French method. It was intended by Mr. Peyret, it seems, to learn the business and put up sardines taken on the Maine coast, but after seeing the fish and finding them to be only a species of herring, he would have nothing to do with the enterprise. He says he once put up some smelts after the French style, and after they had been canned a year they were opened and found to be as fresh and sweet as when first put up.

The great popular remedy of the day for coughs, colds, asthma, and all lung difficulties, is Adamson's Botanic Balsam. Inexpensive, reliable, pleasant to take, cures as by magic, and gives universal satisfaction. A trial is the best testimonial. Price 35 and 75 cents. Trial size 10 cents.

The Only

medicine I ever found that helped me at all is ATHLOPHOROS, and I have not had the rheumatism since I took it."—EDWIN SEARS, Provincetown, Mass.

A professor in a medical college once said to his class "put your hand in a vice, screw it down until the pain is all you can bear, and that's rheumatism; turn the screw once more, and that's neuralgia—and gentlemen, the medical profession knows no cure for either." That was before the discov. of ATHLOPHOROS which does and will cry of ATHLOPHOROS quickly cure both rheumatism and neuralgia, and many physicians use it regularly—frankly admitting that they can prescribe nothing else so effective.

Many persons have tried so many so-called remedies, without benefit, that they have no faith to try more, but it is worth your while to try Athlophoros, if you have any doubts as to its value write for names of parties in your own State who have been cured by its use.

Ask your druggist for Athlophoros. If you cannot get it of him we will send it express paid on receipt of regular price—$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

The Chicago Manual Training School.

Manual training has laid hold upon the imagination of the American people. The register of the Chicago Manual Training School contains the names of visitors from all parts of this country, from Canada, and from England. On last Commencement-day seven hundred persons visited the school, passing through the several laboratories and witnessing the exercises. It is true, many of those visitors were relations and personal friends of students; but relations and personal friends of students of schools of the old *regime* visit them very infrequently. Many of the visitors of manual training schools are women. They are enthusiasts on the subject of the new education. Their comprehension of it is clearer than that of men. This is doubtless because they are possessed of a higher degree of intuition, are more imaginative, more unselfish and less ambitious, and have less aversion to labor. Froebel found women better adapted to the work of teaching than men. The Kindergarten and manual training are identical in principle; but the Kindergarten has struggled long, and as yet unsuccessfully, except in a few instances, for admission to the schools, while manual training, a thing of yesterday in its educational aspect, has conquered all the educational outposts, and now waits only the formal surrender of the garrison of the citadel. It possesses the fascination of the concrete as opposed to the drowsy effect of abstract speculation. The Manual Training School Building itself powerfully attracts the healthy active boy. Smoke issues from the tall chimney that rises high above the roof, and the hum of machinery is heard, and the heavy thud of the sledge resounding on the anvil makes music in the ear.

The interior is more attractive still. The rhythmic motion of the polished Corliss engine responds to the now throbbing heart of the expectant lad. The shaving in the wood-turning laboratory speaks of mystery. It is a labyrinth of belts, large and small, of wheels, big and little, of pulleys and lathes. A student moves a lever a few inches, and the breath of life is breathed into the complicated mass of machinery. From the engine far away come the currents of its power. The whir of steam-driven machines salutes the ear, and the class of twenty-four students take their places at the lathes. So in the laboratory of forging the furnace fires give back an answering glow to glow of the visiting lad's flushed cheeks. All this is in very sharp contrast to the monotony of the recitation-room of the old *regime*. The superiority of the new over the old education consists largely in the fact that it alternates the purely mental with the mental and manual exercise combined.

During the pauses of labor in the laboratories of the Manual Training School the well-equipped instructor delivers a series of brief lectures on subjects growing logically out of the exercises. In the drawing-room the sketches in bold outline the biographies of the great masters of the graphic art. In the laboratory of carpentry he discusses the natural history of certain trees, and considers the qualities of woods, their adaptability and various uses. In the wood-turning laboratory the subject of the history of turnery is found to be not less delightful than inexhaustible, and the manipulations of the iron and steel laboratories are closely allied to all the great events of the world's history. The moulding and casting laboratory is richly suggestive of subjects for discussion.—*Charles H. Ham, in Harper's Magazine for February.*

Keepsakes.

Sailors, the most superstitious of men, and oftenest away from Poll or Sue, are great at love tokens. They wear a charm on a silken string round their necks; they tattoo their manly arms with two hearts transfixed with a single arrow, and marked respectively "Jack" and "Molly," and they believe, or pretend to believe in the magic power of such symbolical unions to keep their affections true to their lady loves against all the allurements of alien beauty. Moreover, the keepsake, beside containing as often as possible the hair of the beloved object is almost always made of the precious metals or precious stones. There is a common though indefinite feeling that it ought to be something rather useless in gold or silver. It remains remotely true, in fact, to its amulet origin. Gold and silver and precious stones are of immense antiquity. Something to hang around your neck on a string; something to wear as a charm on your watch chain; or, failing these, something in the way of necklet, bracelet, brooch, ear-ring—that is the ordinary ideal of the keepsake. The ideal, in short, descends from a time when clothing was scanty, personal ornament was a matter of high importance, barbaric decoration alone was known, and goods and chattels very few and simple. We seldom think of giving as a keepsake anything that can not be worn about the person.—*Longman's Magazine.*

A Western pork raiser thus tells how he cured his drove of hog cholera: "As soon as the animals were taken sick I turned them out of the pens and began to drive them to warm up their blood. The first day I drove them three miles and the second day two miles. They would vomit freely while being driven. After the second day they showed signs of improvement, which continued, and finally all the hogs recovered." An Abbeville County, S. C. farmer, whose hogs have never been attacked by the disease, attributes their immunity to a quart of turpentine slops which he gave them weekly.

Only Half Alive.

There are hosts of men and women who, to coin a phrase, are only half alive. That is to say, they have seldom if ever any appetite, are nervous, weak, fidgetty and troubled by numberless small pains and aches. In the presence of vigorous, exuberent vitality they seem mere pigmies. Such persons are usually fond of frequently dosing themselves, swallowing in the course of the year enough drugs to stock any apothecary's shop of average dimensions. This, of course defeats instead of furthering the end in view, viz., the recovery of health and vigor. Were they to seek it from an unfailing source of vitality, Hostetter's Stomach Bitters, how different would be their case. Then vigor would return to their debilitated frames, the glow of health to their wan cheeks, their trembling, uncertain gait would grow firm and elastic, apppetite, that grandest of all sauces, would give a relish for the daily food, were it ever so coarse, and refreshing sleep would crown the tasks of the day.

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, in order to raise funds for its completion, have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *22 inches in height*,—the Statue bronzed; Pedestal, nickel-silvered,—at One Dollar each, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickelled, at Five Dollars each, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, pedestal nickel-silvered, silver-plated, with PRIME STAND, at Ten Dollars each, delivered.

Much time and money have been spent in perfecting the statuettes, so that they are much improved over previous issues. The Committee have received from subscribers many letters of commendation.

The Statue, *Liberty Lighting the World*, cost $100,000 complete the Pedestal, but it is estimated that $50,000 yet needed to pay for the iron fastenings and the erection of the Statue.

100 full subscriptions for the Miniature Statuettes will produce the required amount.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

Biliousness

Is very prevalent at this season, the symptoms being bitter taste, offensive breath, coated tongue, sick headache, drowsiness, dizziness, loss of appetite. If this condition is allowed to continue, serious consequences may result. By promptly taking Hood's Sarsaparilla, a fever may be avoided or premature death prevented. It is a positive cure for biliousness. Sold by all druggists.

The Democrats Partake of a New Dish.

The Bay State Democratic Club celebrated the birthday of Washington with a banquet at the Revere house in Boston. The new district attorney of Massachusetts, Mr. Stearns, read the democracy a lesson which they doubtless with difficulty digested with their walnuts and wine. The burthen of his speech was that the democracy should follow the president; and he glorified the civil service reform to the impatient democrats who desire to know "What are we here for if not for the offices?"

District Attorney Stearns said: "Civil service reform must not be spat upon by the democratic party. It is the winning card." Of the mugwumps, he said that their votes were wanted and may be wanted again, and asked if it is to be supposed that democrats are going to hold the mugwumps by making them stand in the rain while they themselves feast in the palaces of power.

Mayor Grace made a humorous speech. Congressman Lovering said, evidently referring to the dissatisfaction of many Bay State democrats because the offices had not been given out fast enough, that patience was hardly needed, for the democratic party is the living personification of patience, based on the patience that has been shown in the last twenty-four years. He spoke of the president as a democrat of democrats, and said that although he moves slowly, he moves surely.

Hiram Atkins, the Democratic Warwick of Vermont, assured the company that the democratic votes of Vermont might be counted upon for the renomination of President Cleveland. The Vermont wire puller might have added, but he didn't, that it was in the conventions that the democratic vote in Vermont was of any consequence. It is never felt at the polls.

There is something peculiarly sad about these democratic festivities of late. The democracy of the Bay State are divided into two distinct sections, the Irish and the Aristocrats. On this occasion Mr. Patrick Collins, who leads on the Irish hosts to office, found it convenient to be absent. Judge Woodbury, the Mark Tapley of the party, was not present to suggest the p. d. q. distribution of spoils; nor was the still, small voice of John H. George heard in the banquet hall. Instead of listening to these and kindred consolatory speech makers, to be obliged to laugh "with counterfeited glee" at the bright sayings of the Berkshire civil service representative of the President while he crowded the anti-democratic dose of Cleveland's method of office-filling down the receptacle of mountain dew, rendered the occasion far less hilarious than in the old times when the democracy viewed the promised land with the sanguine expectation that when once reached, it should be enjoyed, offices and all. But even democracy, like everything else, is liable to change.

Storm in a Teapot.

Capt. Scott, R. N., has been summoned from Ottawa to St. John, N. B., by the marine and fisheries department, to arrange a plan of action for protecting the Canadian fisheries in the event of a refusal by Congress to appoint a commission. In an interview with the reporter of a Boston paper the captain stated that nothing would be done until an answer had been received from the United States authorities. "If it is unfavorable cruisers will at once be put on to drive the American fishermen off our shores. A fleet of steamers and schooners, mounted with guns, will be employed for that purpose. There will be about ten vessels required, six schooners and four steamers, and they will cruise all the way from Gaspe to Eastport. The schooners will carry twenty-three men each. One steamer is now on her way to the Magdalen islands to drive away any American fishermen who may seek to steal Canadian fish there."

The captain further declared that not a moment would be wasted after the answer was received, and no quarter would be given to poachers. If they would not be driven off they would be captured. The policy of the American fishermen, he says, "has been to lie about our fish and then to steal them, and the Canadian government is determined that they shall be allowed no privileges."

A Historic Ship.

The English ship Three Brothers has been sold, to be used as a coal hulk. She was originally the steamship Vanderbilt, built by Commodore Vanderbilt in 1855 for the New York and Harve line. No expense was spared in her construction or fitting, and she cost about $800,000. Early in the civil war she was presented to the government by Vanderbilt, and was fitted up and had guns put on board, when she became the flagship of Admiral Wilkes, commandant of the West Indies squadron, and made two unsuccessful searches after the privateer Alabama in 1862. After the war she was laid up at Mare island navy yard, Cal., and in 1867 was sold at auction. George Howes & Co. purchased her, and at an expense of nearly $200,000 converted her into a sailing vessel and named her the Three Brothers. She made several voyages between New York and San Francisco, some of which were the quickest ever made, and in 1883 she was sold to a Liverpool firm.

For several days past there have been rumors adverse to the solvency of the Exeter national bank. The directors and cashier on the 23d inst. stated positively than the bank had net lost a dollar by the rumored operations, and that most of the rumors were absurdly false. The bank's deposits amount to about $82,000 and the surplus to about $42,000.

Ayer's Cherry Pectoral

Should be kept constantly at hand, for use in emergencies of the household. Many a mother, startled in the night by the ominous sounds of Croup, finds the little sufferer, with red and swollen face, gasping for air. In such cases Ayer's Cherry Pectoral is invaluable. Mrs. Emma Gedney, 152 West 126 st., New York, writes: "While in the country, last winter, my little boy, three years old, was taken ill with Croup. It seemed as if he would die from strangulation. Ayer's Cherry Pectoral was tried in small and frequent doses, and, in less than half an hour, the little patient was breathing easily. The doctor said that the Pectoral saved my darling's life." Mrs. Chas. B. Laudon, Guilford, Conn., writes: "Ayer's Cherry Pectoral

Saved My Life,

and also the life of my little son. As he is troubled with Croup, I dare not be without this remedy in the house." Mrs. J. Gregg, Lowell, Mass., writes: "My children have repeatedly taken Ayer's Cherry Pectoral for Coughs and Croup. It gives immediate relief, followed by cure." Mrs. Mary E. Evans, Scranton, Pa., writes: "I have two little boys, both of whom have been, from infancy, subject to violent attacks of Croup. About six months ago we began using Ayer's Cherry Pectoral, and it acts like a charm. In a few minutes after the child takes it, he breathes easily and rests well. Every mother ought to know what a blessing I have found in Ayer's Cherry Pectoral." Mrs. Wm. C. Reid, Freehold, N. J., writes: "In our family, Ayer's medicines have been blessings for many years. In cases of Colds and Coughs, we take

Ayer's Cherry Pectoral,

and the inconvenience is soon forgotten."

One Dollar. Hood's Sarsaparilla is the only medicine of which this can be truly said; and it is an unanswerable argument as to the strength and positive *economy* of this great medicine. Hood's Sarsaparilla is made of roots, herbs, barks, etc., long and favorably known for their power in purifying the blood; and in combination, proportion, and process, Hood's Sarsaparilla is *peculiar to itself.*

"*For economy* and comfort we use Hood's Sarsaparilla." MRS. C. BREWSTER, Buffalo.

"Hood's Sarsaparilla takes *less time and quantity* to show its effect than any other preparation I ever heard of. I would not be without it in the house." MRS. C. A. M. HUBBARD, North Chili, N. Y. 100 *Doses*

One Dollar

Hood's Sarsaparilla cures scrofula, salt rheum, all humors, boils, pimples, general debility, dyspepsia, biliousness, sick headache, catarrh, rheumatism, kidney and liver complaints, and all affections caused by impure blood or low condition of the system. Try it.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. I took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

"Hood's Sarsaparilla did me an immense amount of good. My whole system has been built up and strengthened, my digestion improved, and my head relieved of the bad feeling. I consider it the best medicine I have ever used, and should not know how to do without it." MARY L. PERLE, Salem, Mass.

VITAL STATISTICS, 1885.

The statistics of births, marriages and deaths recorded in this city during the year 1885, as made up in the city clerk's office to be sent to the secretary of state in accordance with the provisions of the statute, show that there were registered 147 births, 114 marriages and 238 deaths.

Of the 147 births, the names of only fifty-eight of the children are recorded, the other eighty-nine not having been named when the certificates of birth were sent in, the law requiring the certificate of birth to be returned to the city clerk within six days after the event. We are authorized to say that parents whose children were not named within the time specified, but who would like to have the names placed on the record, can have it done at any time by leaving the names at the clerk's office. That the record of births is incomplete is a self-evident fact; hardly a birth is reported except where a regular physician is in attendance, though many others occur, and the law is as obligatory on midwives and nurses, or whoever may be in charge at a birth, to make due return of the same, as on physicians,—and the penalty for not making proper report, $100, to be summarily recovered before any police magistrate or justice of the peace, is the same in either case.

Of the 114 marriages recorded, 109 were solemnized in this city; five weddings which took place in other cities were placed on record here.

The death record includes not only the deaths which took place in this city, but those which occured elsewhere when the decedents were brought here for interment. The total number is 238, the table of ages, (as far as ascertained, in a number of instances no age having been inserted in the returns made to the city clerk,) being as follows:

Under ten years of age	50
Between 10 and 20	7
" 20 and 30	15
" 30 and 40	20
" 40 and 50	26
" 50 and 60	23
" 60 and 70	27
" 70 and 80	36
" 80 and 90	25

POLICE COURT--BATCHELDER J.

WEDNESDAY, Feb. 24th.

William H. Randall, drunk, (colossal drunk, apparently,) fine $10, costs $6.90: Brentwood.

Wm. Falvey, very large drunk, fine $8, costs $6.90; Brentwood.

James Lee, large drunk, fine $5, costs $6.90; Brentwood.

William Mason, drunk, ordinary affair, ordered to skip the town; very much pleased.

VESSEL SOLD.

The schooner Margaret Leonard, which recently arrived at this port with a cargo of frozen herring, was offered for sale by auction at Shea's wharf on Wednesday, Feb. 24th, Mr. H. F. Wendell being the auctioneer, and was knocked down to her captain, who previously owned one-fourth of her, for $850—apparently a very good bargain for the purchaser. The schooner was built in Boston in 1871, registers 31.65 tons, and hails from Eastport, Me., for which port she sailed immediately on the conclusion of the sale.

"MARK, THE PERFECT MAN."

Foster's Democrat is somewhat outspoken against the practice of a self-constituted ring directing the federal appointments, as against the wishes of a majority of the democratic party. What Foster desires to learn is how a young man with every qualification for the position of postmaster at Dover, backed by substantial and orthodox endorsements, coupled with the assurance of support of the powers that be, could have been superceded by a minority candidate. Joshua should consult the scripture, Psalms 37, first part of verse 37.

THE OLDEST MASON

In New England is said to be David McDaniels of Morristown, Vt., made a Mason in 1812. Oliver Gerrish of Portland, a native of Portsmouth, was made a Mason in 1819. John Christie of this city was master of St. John's Lodge fifty-three years ago.

THE CASINO.

The Casino is to be made into a public gymnasium, and operations toward that end will be commenced by workmen early next month, or immediately following the Methodist fair, which will be held there during the first or second week of the month. Numerous changes in the present arrangement of the building will be made, and the most approved apparatus will be purchased and put in. The space on the floor now occupied by chairs and devoted to spectators, will be turned into a bowling alley, while the galleries will remain as they are now for spectators. The gymnasium will, when completed, be made public to visitors, and will be governed by such rules and regulations as are necessary to maintain good order and decorum. The proprietor of the Casino has not yet decided as to the rules for admission, but will devote some time to learning the manner in which the Y. M. C. A. and other gymnasiums of Boston and other cities are conducted, and will adopt such rules of those institutions as he deems proper for our city. —*Times.*

PROTRACTED MEETING.

Elder George W. Sederquist, of Salem, will assist Elder C. R. Crossett in a protracted meeting at the Advent chapel in this city, which will commence on Tuesday, March 2d, to continue through the week. Afternoon meetings commence at three o'clock; evening meetings at 7:30.

AFFAIRS IN KITTERY.

KITTERY, ME., Feb. 22d.

A grand concert will be given in Trefethen hall on Thursday evening, the 25th inst., by Misses Flora Hayes and Florence E. Sanderson, assisted by "A Kinder Symphony" composed of the following members:

Miss Mabel Moore, piano.
Miss Edith Warren, "
Miss Lizzie Hill, comb.
Miss Minnie Paul, "
Miss Ella Paul, "
Miss Hattie Fernald, "
Mrs. Walter Ball, "
Mrs. Charles Hayes, "
Mr. Walter Ball, whip and comb.
Miss Grace Ball, tambourine and triangle.
Master B. Moore, castinets and triangle.
Mr. Will Jackson, trumpet.
Mr. Carroll Bartlett, bells.
Mr. Will Abbott, drum.
Mr. Alfred Hayes, piccolo.
Mr. Ralph Pillsbury, piccolo.
Miss Flora Hayes, soprano soloist.
Miss Florence E. Sanderson, soloist and elocutionist.
Miss Grace Ball, pianist.

The programme will consist of singing, solos, duetts and trios, piano solos and duetts, reading, etc. The above are all local talent and residents of our village, and need no recommendation as to their merits. Miss Grace Ball, the pianist, is but a child, yet her wonderful musical ability is a surprise to many older artistes. If a pleasant evening the extreme low price of twenty cents admission ought to insure a crowded house. If stormy the concert will be given the next evening.

The First Methodist society of North Kittery are preparing for an entertainment, to be held in their church vestry on Thursday evening, March 11th, to raise money to defray the expenses of the society the past year.

Morrill Lodge of Good Templars, of North Kittery, at their meeting on Friday evening, the 19th inst., voted to accept the new organ which their committee recently had placed in the hall on trial. The organ is of Dyer & Hughes' manufacture, of Foxcroft, Me., chapel style, fourteen stops, five octaves, four sets of reeds, octave coupler, and two knee swells; it is of superb tone and finish, and pronounced by competent judges a superior organ.

Frank C. Eaton, of the Foreside, was elected by a unanimous vote District Deputy of York District Lodge, I. O. G. T., at the annual meeting held in Saco on Wednesday, the 17th inst. Joseph T. Mason, of Biddeford, who has held that office the past five years with great credit to himself and the Good Templars throughout the county, felt obliged to decline another term; and as Mr. Eaton has been prominent before the order in this state for many years, he was considered the best man to succeed Mr. Mason in the office of deputy. SUB ROSA.

The Methodist society have rented the Casino for a three days fair to take place during the first part of next month.

The fishing schooner Maud M. Story, which was given up as lost, arrived at Gloucester, Mass., Feb. 23d. The vessel had been absent since Dec. 12th, and sailed over 4000 miles since, and now looks like an old wreck after experiencing the winter's hardships. This is the first instance on record where a Gloucester fishing vessel has been gone so long as to be definitely given up by her owners, and afterward returned. The insurance on the captain's life was paid to his wife some time ago, and her crew are looked upon as virtually risen from the dead. One of the members of this exceptionally fortunate crew is a Portsmouth man.

The Raymond & Whitcomb Excursions to the Pacific Coast.

Messrs. Raymond & Whitcomb, the well-known excursion managers, have just issued their prospectus of spring transcontinental trips. These excursions differ in plan from the winter trips, inasmuch as they provide a more extended sight-seeing round. There will be three grand tours, the dates of departure being April 22d, April 29th, and May 6th. All three parties will visit Colorado, New Mexico, Arizona, and southern California on the outward trip, and later on sojourn at both San Francisco and Monterey. There will also be ample time in each case for visiting the Yosemite Valley and Big Trees. Two of the parties will return from San Francisco through Nevada, Utah, Colorada and Nebraska by the most picturesque routes, and the third will make a further round through the Pacific Northwest, visiting Astoria, Portland, Tacoma, Seattle, and Victoria, B. C., before journeying eastward on the Northern Pacific railroad through Oregon, Washington territory, Idaho, Montana, the newly created territory of Lincoln, (formerly Northern Dakota,) Minnesota, etc. In connection with the last-mentioned excursion, side-trips may be made to Alaska and the Yellowstone National Park. Circulars giving full details of the several trips may be had by addressing W. Raymond, 296 Washington street, (opposite School street,) Boston.

ECZEMA

And Every Species of Itching and Burning Diseases Cured by Cuticura.

ECZEMA, or Salt Rheum with its agonizing itching and burning, instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and nutritious, the bowels open, the liver and kidneys active, will specedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Pruritus, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

Will McDonald, 2342 Dearborn St., Chicago, gratefully acknowledges a case of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seventeen years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, reports a case of Eczema under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from Salt Rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs. Isaac Phelps, Ravenna, O., writes: "For the last year I have had a species of itching, scaly, and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was speedily and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have nothing but the highest praise for the results obtained from your CUTICURA REMEDIES, of which have sold more than of all others of the kind.

Elevated to an Art.

Dressmaking is fast becoming one of the high arts. A few days ago a celebrated English journal, which is noted for its published interviews with celebrities, reported a conversation with Mme. I——, a leading modiste, who, it would appear, is an exceptionally intelligent person, having studied at Girton and dabbled considerably in philosophy. The journal reports that her business is conducted on highly artistic principles, and that madame goes every week to the National Gallery to make sketches of costumes of various nationalities and epochs, she making artistic and antique gowns a specialty. She makes a close study of the style, form and feature of each customer, and advises each to not wear what is fashionable simply because it is la mode, but to make the appropriate and becoming the chief consideration. She thinks that if once this principle is thoroughly accepted the world over a great triumph will have been achieved, and that then there will be no need of any further agitation of the question of dress-reform. Among her apprentices are a number of young ladies, daughters of wealth, who are making a study of "artistic home dressmaking" under madame's skilled guidance, Kensington and "crazy work" being quite forsaken for this more praiseworthy and serviceable occupation.

Bursting "Water-Backs."

"There is one danger to which hot water apparatus, of all kinds, is subject, and that is the bursting of the water-back in winter time. One frequently encounters in newspapers account of such explosions, which are often the cause of serious injuries to the kitchen servants or, at least, of damage to property. Such accidents are liable to occur whenever a boiler is supplied from direct pressure or from a tank, and they can be prevented only by some intelligent care on the part of the householder. The reason of such an explosion, which very often causes the entire destruction of the cooking range, is very simple. If the kitchen fire is allowed to go out on a very cold night, particularly if the kitchen is much exposed, the water in the water-back and the connecting pipes may freeze. If the fire is lighted in the morning, steam is generated in the water-back, and inasmuch as the circulation is interrupted and the steam has no exit from which to escape, a powerful pressure is exerted upon the water-back until it finally explodes with great violence. It should be understood that neither vacuum or safety valve, nor the expansion pipe of the tank supply system render the system free from the danger of this accident. The only sure way to prevent the occurrence of such a disaster is to keep, on cold nights, a fire going in the range, so as to maintain the circulation of water through the water-back. If the fire should accidentally or carelessly be allowed to go out in winter time, it may be a wise precaution to ascertain in the morning, before lighting a fire, if the water is frozen in the connecting pipes between the boiler and the water-back.—*William Paul Gerhard, in Good Housekeeping.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly instalments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectus and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

Murdered.

The body of Julius Baer was found by freighters five miles west of here Tuesday morn, in a terribly mangled condition. His head and face were smashed, so as to be hardly recognized, and numerous wounds were found on his body. Mr. Baer was agent for the great blood medicine, Sulphur Bitters. Robbery was undoubtedly the motive, as he was well known to have a large sum of money on his person. As we go to press there is no clew to the perpetrators.—*Colorado Press.*

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a well-ballasted, thoroughly ditched and well-stocked tracks of continuous steel rail, substantially built culverts and bridges, selling stock whose perfection as human skill can make it, the safety appliances of patent Platform Couplers and Westinghouse and that unerring discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Best Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, fine upholstered Day Coaches, Magnificent Pullman Palace Sleepers of latest approved design, and sumptuous Dining Cars in which elaborately cooked meals are furnished a la carte. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route the Best Express Trains are run to the watering places, summer resorts, and hunting and fishing grounds of Iowa and Minnesota. It is also the most popular route for the Black Hills and Central and interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

I wished Death

would end my agony, my suffering from neuralgia was so great. I had terrible spells every two or three weeks before taking ATHLOPHOROS, which was a year ago last April, and have only had two since. Words can never express my relief."—So writes Mrs. C. N. FAIGE, Bellonville, Vt.

Many ladies suffer from headaches which are of neuralgic origin. In such cases Athlophoros is invaluable, as it will quickly remove the cause.

Thousands are enduring untold agony from neuralgia who might find instant relief by using ATHLOPHOROS. The most delicate can use it, as it is absolutely safe and it never fails to drive neuralgia away. Neuralgia and rheumatism are twin diseases. Athlophoros cures both. Hundreds of people have tried it and now warmly recommend it. Send for names of parties in your own State who have been cured by it if you have any doubt as to its merit.

Ask your druggist for Athlophoros. If you cannot get it of him we will send it express paid on receipt of regular price—$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

POLAR CLIMATES.

Only a Slight Change Would Cover Greenland With Verdure.

The theory has long been advanced that the poles of greatest cold are not coincident with the terrestrial poles, and that the lowest mean temperature is to be found in the region of the Lena river Siberia. This idea was encouraged by the fact, among others, that the Polaris party reported a milder climate at Thank God Harbor than Kane experienced about 200 miles further south. The part of the argument, however, which relates to the Lena river valley is directly contradicted by Lieut. Greely's observations for two years at Lady Franklin Bay, where he found the lowest mean temperature yet observed, about—4° Fahrenheit. Grinnell Land, therefore, as far as we yet know, is the coldest part of the northern hemisphere.

Danish Greenland, whose mean temperature hovers around the freezing point, is buried under hundreds of feet of ice simply because about two inches of ice forms in winter more than is thawed out in summer. The authorities in terrestrial physics agree that it would require only a slight change in climatic conditions to remove Greenland's ice blanket and cover the land with verdure. Were it not for the presence of these immense ice masses constantly refrigerating the air, the summers of Danish Greenland would be as warm as those of England. Mr. Wallace is of the opinion that if the two arctic currents that flow south along sides of Greenland were diverted from that country, the great ice mantle would rapidly disappear, and the country might even become forest-clad and habitable. Mr. Croll agrees with him in this opinion, and both Mr. Croll and Sir William Thomson believe that it would not take a very large increase in the temperature and volume of the arctic branch of the gulf stream to produce the same result.

The powerful modifying influence that the great ocean currents from the south exert upon climates is nowhere so strikingly manifested as along the north coast of Norway, which has a milder temperature than any other part of the world in the same latitude. At this moment the little town of Bossekop, lying at the foot of a fiord which opens into the icy waters of the Arctic Ocean, wrapped in the twilight of the winter night, is subsisting largely on the grain that was raised last summer on the valley farms in a latitude about 600 miles north of the south end of Greenland. This fertile spot is the most northern place in the world where wheat and rye ripen.

It is the opinion of Sir William Thomson and other physicists that the prolific animal and vegetable life which covered Greenland and the neighboring lands in a former geological age, whose fossil remains have been found in abundance, was due to warm ocean currents flowing north at a time when our continent had not yet risen above the surface to impede or divert their course. There seems, after all, to be no inherent improbability in the theory, to elucidate which two books have been recently written, that human life existed, and perhaps originated, in these polar lands before the present populous part, of the earth were habitable.—*N. Y. Sun.*

Too Realistic.

Among others who saw the "Gold King" at the Park theater last night was a young man of fair complexion, blue-eyed, and neatly dressed, who, after taking several glasses of wine at the bar, went up-stairs, and took the right proscenium box. In the play, toward the close of the second act, is the cue for Hector, the Newfoundland dog, to spring from behind the scenes upon W. J. Thompson, the villain of the play, and apparently choke him to death as the curtain goes down. Accordingly, at the appointed time, a large, dark object was seen to launch itself forward and settle with a growl upon the shoulder of the villain. The two fell to the stage, and the seeming struggle of death began. Just at this moment the young man in the proscenium box leaned forward out of the box, and, pointing a pistol toward the man and dog, not twenty feet away, fired. The audience rose as one man and made a rush for the street. They thought a tragedy was being enacted. The young man dashed out of the box and ran down-stairs. A moment later he was collared. Search revealed the pistol, a 38-caliber. In explanation of the shooting he said that he thought the dog was killing the man, and he wanted to kill the latter. He was put behind the bars. The bullet, which lodged in the scenery could not have missed Mr. Thompson by over a foot.—*Nashville American.*

"Killy-manjahro," that is the way in which "the sole monarch of African mountains, remote, inaccessible, silent, and lone," would have his name pronounced. It signifies the mountain of the cold-making demon, and is applied to the loftiest of the range of extinct volcanoes which form an irregular chain along eastern Africa from Abyssinia to Natal. It lies inland about 200 miles from the sea-coast, and is inhabited to a hight of from 3,000 to 7,000 feet above the sea-level. Above the inhabited region the lofty peaks of the snow-covered mountain ascend to a hight of 18,880 and 16,260 feet. Vegetation climbs up to an altitude of 15,000 feet. Mr. H. H. Johnston managed to climb 1,315 feet higher, and then he stopped. Kilimanjaro is still virgin to the foot of the explorer.

The completeness of the work done by the earlier astronomers is shown by the fact, recently stated, that out of the 6,000 or more nebulæ now known the Herschels had discovered 5,000.

A Word to Workers.

If your avocations are mentally or physically laborious, if they confine you to the desk, and are of a nature to involve wear and tear of brain, and nervous strain, you may occasionally require some renovating tonic. Hostetter's Stomach Bitters is the article for you, it stimulates the failing energies, invigorates the body and cheers the mind. It enables the system to throw off the debilitating effects of undue fatigue, gives renewed vigor to the organs of digestion, arouses the liver when inactive, which it very often is with people whose pursuits are sedentary, renews the jaded appetite, and encourages healthful repose. Its ingredients are safe, and its credentials, which consist in the hearty endorsement of persons of every class of society, are most convincing. Admirably is it adapted to the medical wants of workers.

Nine hundred convicts in the Central prison at Thouars, France, revolted and mastered the guards. A force of troops succeeded in suppressing the outbreak.

The great popular remedy of the day for coughs, colds, asthma, and all lung difficulties, is Adamson's Botanic Balsam. Inexpensive, reliable, pleasant to take, cures as by magic, and gives universal satisfaction. A trial is the best testimonial. Price 35 and 75 cents. Trial size 10 cents.

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, in order to raise funds for its completion, have prepared, from model furnished by the artist, a *perfect fac-simile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed, Pedestal nickel-plated,—at One Dollar each, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at Five Dollars each, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal nickeled, at Twenty Dollars each, delivered.

Silver-Plated, with ebony stand, at Ten Dollars each, delivered.

Much time and money have been spent in perfecting the Statuette, so that they are much improved over the previous work. The Committee have received from subscribers many letters of congratulation.

The New York Pedestal Fund of $100,000 completes the pedestal, but it is estimated that $50,000 yet needed to perfect the iron fasteningsand the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

The new factory of the Manchester Shoe Co. was dedicated on the evening of Feb. 24th with a ball and banquet.

Three Reasons

Why every one needs, and should take Hood's Sarsaparilla in the spring:—

1st: Because the system is now it its greatest need. Hood's Sarsaparilla gives strength.

2d: Because the blood is sluggish and impure. Hood's Sarsaparilla purifies.

3d: Because, from the above facts, Hood's Sarsaparilla will do a greater amount of good now than at any other time. Take it now.

It is charged in London that an attempt is being made to whitewash the record of Sir Charles Dilke.

G. W. B.—It is quite true that you can get a bottle of that splendid medical discovery,—Red Star Cough Cure, for twenty-five cents. Our experience of it is that its powers are magical, and we feel confident that it will cure your throat trouble.

The Catholic Church and the Knights of Labor.

It was stated on Feb. 24th in a despatch that the Roman Catholic archbishop of Quebec had issued a mandament condemning the Knights of Labor and all other orders where the oath of secrecy is taken; and on the same date a despatch from Montreal said:

Bishop Fabre will shortly issue a mandament denouncing the Knights of Labor organization, placing it in the same category as all other secret societies under the law of the church. The Roman Catholic Knights are greatly excited over the matter, especially the French memoers.

Upon being shown these despatches, Vicar-General Conway, of Chicago, said he doubted their authenticity, and added:

We see nothing reprehensible in the Knights of Labor or other trade unions as we have them here. They are no worse, no more oathbound, than our Hibernians or Foresters, and I am chaplain myself in several such orders. There are few priests in the diocese who are not. Their secrecy is a business secrecy, and intended for no evil purpose. The labor organizations believe in settling their troubles oy arbitration. They do not teach the destruction of property. I think the working men are made better by such organizations. There may be local abuses in the order, as known to the archbishop of Quebec, of which I know nothing. In any event, his jurisdiction does not extend to the United States.

Desired Cremation.

The will of the late Commander George W. Hayward, U. S. N., who died at Alexandria, Egypt, where he was in command of the U. S. S. Quinnebaug, was opened at Buffalo, N. Y., Feb. 13th, and found to contain the following provision regarding the disposition of his body: "I direct that my body after death be decently prepared at the least practicable expense, and under the same conditions taken to the crematory at Washington, Pa., or any other crematory which may be more convenient and less expensive to reach, and there reduced to ashes; that these ashes be taken to Erie, Pa. If the consent of Dr. J. L. Stewart can be obtained, or, in case of his death, that of the person controlling the lot in which lie buried the remains of my beloved wife, I desire that these ashes be placed in a suitable urn of copper in her grave, at her feet. If it were possible I should insist that they be placed inside her coffin, in which case I should not wish them to be enclosed, but that they be strewn over whatever may remain of her precious body."

A Popular Senator.

The Washington correspondent of the Boston *Traveller* says it is whispered in Washington "that a combined effort is to be made by the Knights of Labor to secure a reorganization of the United States senate. It is stated that the leaders of this organization are determined upon a gradual extinction of wealthy men from the upper branch of the national legislature. This fight is to be made irrespective of party. There are many wealthy men in the senate, and there are not a few who are prominently identified with corporation influences. Blackburn of Kentucky, and Blair of New Hampshire, are both poor men. Blair actually needs his salary. Ever since he has been in the senate he has paid more attention to the labor and educational problem than any of his associates. Blair is perhaps the most popular of the senators with the labor element of the country. He is chairman of the committee having their interests in charge, and he sympathizes with their aims and purposes."

A Pugnacious Parson.

Rev. W. W. Downs, of Boston, is once more asking for indemnity for a damaged reputation. On Feb. 24th he commenced a suit against Rev. Franklin Johnson, D. D., laying his damages at $10,000. It is alleged in the writ that the said Johnson by force and arms, did use slanderous words against Rev. Mr. Downs, at a late meeting of the Baptist Ministers' conference, in saying that that gentleman had been found guilty of crime. The writ is returnable at the special term of the superior court. Mr. Downs' good name is a very tender article, and he won't stand it to have it too roughly handled.

The board appointed to report on the workings of the Washburn electric steam steering gear attached to the Tallapoosa, now in Newport harbor, has forwarded its report to Washington. It is understood that the trials so far have proved very unsatisfactory. After the Tallapoosa goes over the measured mile course, and tests her compasses, she will return to New York, where some additional repairs and improvements will be made prior to starting on her European mission.

Orders have been issued for all vessels in the North Atlantic squadron, except the Brooklyn, to rendezvous at Key West about the first of March. The Brooklyn will remain at Aspinwall, and the Adams of the Pacific squadron at Panama. The Brooklyn is now engaged in a search for the ship Neptune, which is reported to have left this country on a filibustering expedition against Honduras.

The *Traveller* suggests that "It is just a little singular that of the seventy-seven candidates for postoffice inspectorships, who had passed the civil service examinations, the twenty-one who were appointed yesterday should all happen to be democrats. Civil service reform is a great institution. The civil service law gives all an equal chance—to pass examinations. When it comes to making appointments, why, this is a democratic administration."

One year ago Tim Capen, a farmer of Barrington, it was alleged eloped with Mrs. Wilbur Freeman, the wife of a neighboring farmer. The parties returned after some weeks' absence. Freeman sued Capen for $1,000 damages. Referee Pray of Dover, to whom the suit was referred, reported Feb. 24th, awarding Freeman $75.

At the Aulnay (France) fair on the 23d of February a herd of bullocks, worried by a gang of thieves, broke loose and charged into a crowd of spectators, killing three persons and injuring 140 others. The thieves made a rich harvest picking pockets.

The Servian government has ceased military preparations.

INDIGESTION

To strengthen the stomach, create an appetite, and remove the horrible depression and despondency which result from Indigestion, there is nothing so effective as Ayer's Pills. These Pills contain no calomel or other poisonous drug, act directly on the digestive and assimilative organs, and restore health and strength to the entire system. T. P. Bonner, Chester, Pa., writes: "I have used Ayer's Pills for the past 30 years, and am satisfied I should not have been alive to-day, if it had not been for them. They

Cured

me of Dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since." L. N. Smith, Utica, N. Y., writes: "I have used Ayer's Pills, for Liver troubles and Indigestion, a good many years, and have always found them prompt and efficient in their action." Richard Norris, Lynn, Mass., writes: "After much suffering, I have been cured of Dyspepsia and Liver troubles

By Using

Ayer's Pills. They have done me more good than any other medicine I have ever taken." John Burdett, Troy, Iowa, writes: "For nearly two years my life was rendered miserable by the horrors of Dyspepsia. Medical treatment afforded me only temporary relief, and I became reduced in flesh, and very much debilitated. A friend of mine, who had been similarly afflicted, advised me to try Ayer's Pills. I did so, and with the happiest results. My food soon ceased to distress me, my appetite returned, and I became as strong and well as ever."

100 Doses

One Dollar. Hood's Sarsaparilla is the only medicine of which this can be truly said; and it is an unanswerable argument as to the strength and positive *economy* of this great medicine. Hood's Sarsaparilla is made of roots, herbs, barks, etc., long and favorably known for their power in purifying the blood; and in combination, proportion, and process, Hood's Sarsaparilla is *peculiar to itself.*

"*For economy* and comfort we use Hood's Sarsaparilla." MRS. C. BREWSTER, Buffalo.

"Hood's Sarsaparilla takes *less time and quantity* to show its effect than any other preparation I ever heard of. I would not be without it in the house." MRS. C. A. M. HUBBARD, North Chili, N. Y. 100 *Doses*

One Dollar

Hood's Sarsaparilla cures scrofula, salt rheum, all humors, boils, pimples, general debility, dyspepsia, biliousness, sick headache, catarrh, rheumatism, kidney and liver complaints, and all affections caused by impure blood or low condition of the system. Try it.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. I took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

"Hood's Sarsaparilla did me an immense amount of good. My whole system has been built up and strengthened, my digestion improved, and my head relieved of the bad feeling. I consider it the best medicine I have ever used, and should not know how to do without it." MARY L. PERLE, Salem, Mass.

POLICE COURT--BATCHELDER J.

THURSDAY, Feb. 25th.

Edward Lolley, otherwise known as "Juba," was brought up on a charge of embezzling a suit of oil-clothes belonging to Wm. H. Randall, more generally known as "Rapp" Randall. Mr. Lolley pleading guilty to the charge, no evidence was heard by the court, but the circumstances of the case are said to be as follows: Mr. Randall, having been on a drunk of the largest size, was on Feb. 24th ordered to Brentwood to work out a fine of $10 and costs, and gave Mr. Lolley an order on a fishing schooner for the delivery of the oil-clothes and certain other articles, which he was to deposit at Mr. Randall's home. Mr. Lolley proved himself a friend in need; he needed a little spare change, so instead of handing over the oil-clothes with the other effects he carried them off, and "spouted" them in one of the places where he was accustomed to hang out. He was held in $500 for the supreme court, and nothappening to have that amount by him to deposit, went to jail.

FIRE.

About 8:30 o'clock Thursday evening, as Mr. Charles Tucker was taking down a lamp in his store on Cabot street he dropped it close to a kerosene barrel, and it broke and started a fire. An alarm was given and the fire was soon out, the principal damage being from water and smoke.

THE MISSING MAN.

The New York papers of Tuesday, Feb. 23d, contained information that a man named Joseph Kelly was taken before Justice Smith of the Tombs police court on the previous day, charged with flourishing a revolver at the Barclay street ferry house in that city, threatening to kill everyone who came near him. The unfortunate man was under a hallucination that he was pursued by his wife, who wanted to kill him. The authorities in this city telegraphed the police authorities of New York for further information, sending a description of the Joseph Kelly who disappeared from this city on Feb. 13th, it being considered more than probable that he was the man taken into custody in New York.

The Daly combination will be at Music hall on Thursday evening, March 4th, in their laughable "athletic comedy" entitled "Vacation." This is the company which gave such satisfaction on their visit here Feb. 16th.

The soiree dansante at the south ward-room, under the management of Mr. J. T. Adams, will take place Wednesday evening, March 3d. The previous announcement was an error.

Elbridge G. Peirce, Esq., our late postmaster, has been elected superintendent of the Boston & Hingham Steamboat Co. Both parties are to be congratulated—Mr. Peirce that he has received an appointment a good deal better than the postmastership, and the company on securing so capable and courteous a gentleman for superintendent.

The house and barn of R. Frank Alley at Newmarket were burned on the night of Feb. 24th. Loss $2200; insurance $1600. Mr. Alley's mother, aged eighty-six years, narrowly escaped death.

The Japanese wedding entertainment at the Universalist vestry on Tuesday and Wednesday evenings of this week netted about $125.

We are pleased to announce, on undoubted authority, that Hon. Frank Jones, who has for some days been ill at the Quincy house in Boston, is rapidly improving and will return home in a few days.

Mr. Willis G. Myers, vice president of the Kansas City Investment Co., arrived home on the evening of Feb. 24th from a somewhat extended business trip west.

A little son of Mr. J. E. Dixon of Manchester, formerly of this city, was brought here for interment a few days since.

A gossipy writer in the Boston *Traveller* thus refers to what might have been: "Old Billy Gray made much of his money in Salem, then a centre of the East Indian and African trade. Salem is twenty miles from Boston, and sixty years ago began to feel its centripotal influence. Mr. Gray decided to remove, and preferred Portsmouth, N. H., which has the best harbor on the coast. The rich merchants there were jealous of him, and raised the price of the wharf property so high that he went off in disgust. Portsmouth could never have been a permanent rival to Boston, for it lacks the thickly populated back country and the railroad connections of the larger city. Still, had it welcomed Gray, its decadence would have been delayed, and its population have reached twenty or thirty instead of ten thousand. It is now about as dead as Salem. No square-rigged merchant vessel had entered its harbor for twenty years until the other day, and the last vessel from Africa moored at Salem in 1872."

KITTERY, ME., Feb. 24th.

Mr. Editor: We believe in the Scriptural injunction, "Continue in brotherly love," but we fear such is not the case with the members of Morrill Lodge, Spruce Creek. On the 19th inst. a member of York I. O. G. T. visited Morrill Lodge, coming from Ground Root hill on foot, inspired with temperance enthusiasm. At the close of the meeting, not receiving an invitation from any kind brother or sister to pass the night with them, and as a violent rain storm had set in, he called at a farm-house near the vestry for permission to stop in the barn. At the time the farmer's buxom daughter, thinking him a tramp, informed him that he had better leave, which he did without ceremony. She avers that the look of anguish on his venerable countenance, as he sorrowfully turned away, she can never forget, and concludes that one at least among their many prefixes is inappropriate. OBSERVER.

According to the New York *Sun*, Naval Constructor Pook, of the Brooklyn navy yard, is proud of the mechanics who are working under his supervision. "The Brooklyn yard," said he, "is now the best equipped and most efficient of the four big navy yards of the government. Its workmen are thoroughly drilled mechanics, and their workmanship can't be excelled by that of any private contractor. Owing to the active interest that Secretary Whitney takes in the department, improvements go steadily on. Work is now done economically and thoroughly." Mr. Pook's glorification of the yard to which he is attached does not chime in very well with the complaint of the captain of the U. S. S. Brooklyn, who wrote to the department that the repairs made on that vessel under Mr. Pook's supervision at the time the New York election was pending were wretchedly done, notwithstanding their enormous cost. The *Sun* gives another sample of Mr. Pook's wild talk, as follows: "Mr. Pook says that when the new national ordnance foundry is established there will be nothing in the world like the naval construction facilities that Uncle Sam will possess. Mr. Pook predicts that the new national ordnance foundry will be superior to the Krupp foundry, now the greatest in the world."

Edward B. Towne of Nashua has been held in $500 to answer charges of selling liquor and cigars without payment of the United States special tax. The Nashua *Telegraph* says the offences were committed while Mr. Putney was collector. Towne kept a saloon in Nashua, and "the collector didn't press him to pay his license. He promised to pay, but bad bad luck, gave up the business, and has not seen the time since when he could spare from his pocket the necessary $50 to meet his indebtedness to the government. We guess Uncle Sam won't be very hard on him."

The will of Edwin S. Sanborn, $75,000 of whose wealth came from his mistress, Julia A. Hilton, late of Wells, has been admitted to probate, and the prospect now is that his $225,000 of ill-gotten money will go into his uncompleted academy in Kingston for the moral and intellectual training of New Hampshire youths.

New Hampshire Patents.

The following list of patents, granted Feb. 23d, to citizens of New Hampshire, is specially reported by Franklin H. Hough, solicitor of American and foreign patents, No. 925 F street, N. W., Washington, D. C.:

No. 336,338. J. T. Gordon and J. H. Hamilton, Concord, sliding-door latch.

The whole number of patents granted to citizens of the United States for the week ending Feb. 23d was 340.

Workingmen as Partner --New Scheme

BOSTON, Feb. 25.—Every employe and every workingman should read the next Boston *Sunday Globe*. A prominent New England company, doing a large business, has just taken all of its workmen into partnership, so that 300 employes will get a share of the profits in 1886. Full particulars of the new plan, and the terms of the agreement, will be given in the *Sunday Globe*. Order it to-day.

Make Hens Lay.

The agricultural papers and poultry journals throughout the New England states have within the two weeks published several articles in respect to making hens lay by the use of Sheridan's Powder, which have aroused a deep interest in the subject. The idea of making hens lay in winter seems to have been a new revelation, but since these articles appeared thousands have demonstrated the fact that it can be done with great profit. With a view of establishing beyond all question the great value of Sheridan's Powder to make hens lay, and with a view of obtaining the experience of a large number of intelligent users for publication, the proprietors, I. S. Johnson & Co., 22 Custom House street, Boston, have offered $50 gold coin, in four prizes, for the best results after four weeks trial. All persons interested can get full particulars free by mail, by addressing Johnson & Co. as above. Strictly fresh eggs now bring thirty-five cents per dozen in Boston, at retail, and the supply is not half equal to the demand. We don't advise people to keep hens unless they want to, but we do advise these who do keep them to look into this matter at once.

It is a good rule to accept only such medicines as are known to be worthy of confidence. It has been the experience of thousands that Ayer's Cherry Pectoral is the best medicine ever used for throat and lung diseases.

WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, Feb. 23d.

Amount of live stock at market: Cattle, 678; Sheep and Lambs, 2,646; Calves, 366; Horses, 170; Swine, 12,145.

Prices of Market Beef—A few choice, $8 00; extra, $7 50 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 00 @ $6 5 ; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen ⅌ pair, from $100 @ $185; Farrow cows, $15 @ $30; Fancy cows, $50 @ $80; Milch cows and calves, $25 @ $48; yearlings, $10 @ $18; two years old, $14 @ $28; three years old, $24 @ $40.

Swine—Western fat, live, 4½ @ 5¼c ⅌ lb; northern dressed hogs, 5¼c ⅌ lb.

Prices of Sheep and Lambs—In lots, $2 25, $3 00 @ $4 00 each; extra, $5 00 @ $5 25, or from 2¼ @ 5¼c ⅌ lb.

Veal Calves 2½ @ 6½c ⅌ lb.

Prices of Hides, Tallow and Skins—Brighton hides, 7¼ @ 7c ⅌ lb; Brighton tallow, 4c ⅌ lb; country hides, 7 @ 7½c ⅌ lb; country tallow, 2½ @ 2¾c ⅌ lb; calf skins, 16c ⅌ lb; polls, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

The market supply of cattle was about as light as last week, the range in prices much the same as last week. Not any cattle selling higher than 8c dressed weight, and but few at that figure. What were considered extra cattle for beef were sold at 7 @ 7¼c; coarse old oxen as low as 5½ @ 5c ⅌ lb, dressed weight. There was not a very brisk demand.

Milch cows find a moderate demand, with sales at $25 @ $60 mostly.

The Sheep Call—The movement in sheep was considered a little better, as they were sold without the usual amount of urging. Quicker sales, and on some of the best flocks very firm prices were paid. We heard of none all sheep flocks being sold at over 5¼c from the northern states, and the highest on lambs 7c; very nicely fatted at that figure; common flocks as low as 2½ @ 3c ⅌ lb.

Fat Hogs—Market prices unchanged, with but few northern, at 5¼c ⅌ lb, dressed weight.

Veal Calves—Steady prices obtained, 2½ @ 6½c ⅌ lb.

Live Poultry—500 lbs, at 10 @ 12c ⅌ lb.

Check-List Notice.

THE Board of Inspection of Check-Lists give notice that they have posted copies of all the check-lists of the city in the corridor of the city building, and also have posted a list of Ward One at the Boston & Maine railroad passenger station, and a list of Ward Three at the store of John Mitchell on Islington street, and a list of Ward Four at the store of John J. Laskey on Pleasant street, for the inspection of the voters of the city.

They also give notice that they will be in session at the city building on Friday the 26th day of February, on Wednesday the 3d day of March, and on Friday the 5th day of March, 1886, from 9 o'clock A. M. to 12 M., and from 3 to 5 P. M., on each of said days, for the purpose of revising and correcting the list of voters.

They will also be in session at the same place from 8 to 10 A. M. and from 1 to 2 P. M., on the day of election, for the purpose of furnishing certificates to any persons whose names may have been omitted and who the Board are satisfied have resided in the ward one year next preceding said election. By Order of the Board.

What there is in a Bottle.

SMARTING — Sufficient to stop in five minutes the smarting, stinging pain of any Burn or scald. It will stop the pain as soon as applied.

COUGHING — Abundance to cure a score of colds and the coughing that often leads the way to Consumption. IT WILL POSITIVELY cure a Cough in 15 minutes.

CHOKING — More than enough to save a dozen children Choking with Croup. One minute after the first dose the hardest attack of Croup will be relieved.

WHEEZING — Plenty to relieve the oppression and wheezing of the most severe case of Asthma. The direct cures of Asthma by this medicine is proof that Dr. Thomas' Eclectric Oil has no equal as an Asthma cure.

In the above cases Dr. Thomas' Eclectric Oil can be relied upon. It has given relief to thousands. Keep it in your house. There is hardly a week of the year it will not be useful.

ECZEMA

And Every Species of Itching and Burning Diseases Cured by Cuticura.

ECZEMA, or Salt Rheum with its agonizing itching and burning, instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and unirritating, the bowels open, the liver and kidneys active, will speedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Prurigo, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

Will McDonald, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seventeen years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, reports a case of Eczema under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from Salt Rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs. Isaac Phelps, Ravenna, O., writes: "For the last year I have had a species of itching, scaly, and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was speedily and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have nothing but the highest praise for the results obtained from your CUTICURA REMEDIES, of which have sold more than of all others of the kind.

George Washington's Mother.

She was a woman born to command, and since she was left alone with a family and an estate to care for, she took the reins into her own hands, and never gave them up to any one else. She used to drive about in an old-fashioned chaise, visiting the various parts of her farm, just as a planter would do on horseback. The story is told that she had given an agent directions how to do a piece of work, and he had seen fit to do it differently, because he thought his way a better one. He showed her the improvement.

"And pray," said the lady, "who gave you any exercise of judgment in the matter? I command you, sir; there is nothing left for you but to obey."

I think that George Washington owed two strong traits to his mother—a governing spirit, and a spirit of order and method. She taught him many lessons and gave him many rules; but, after all, it was her character shaping his which was most powerful. She taught him to be truthful, but her lessons were not half so forcible as her own truthfulness.—*St. Nicholas.*

Compassion and the Dog.

Among the most faithful and intelligent companions of man is the dog. To raise a hue and cry against him by a stupid invention of cases of rabies is to play the part of a barbarian. The man of fine instincts and true courage will not treat domestic animals, especially the dog or horse, with unnecessary harshness. In urging its readers to look to the comfort of live stock during the winter months the Nashville *American* says:

"No higher compliment was ever paid General Jackson than the one recorded by Henry A. Wise, who, when a young man, drove in a buggy from Nashville to the Hermitage one cold wintry day. When he reached that place he found General Jackson in a comfortable room nursing a motherless lamb. The same compassionate feeling led him to take a live infant from the breast of a dead squaw, on the battle-field of the Horseshoe, and have it carefully raised.

"Brave men are filled with compassion for the suffering of all inferior animals. One could almost point out the best and bravest in every community by the care and attention which they give to their domestic animals."

The muzzle is irritating to the well-nourished dog, and to take him out for an airing with a chain to his collar is to restrict his freedom. He does not get the exercise which he should have. It partakes of cruelty to muzzle and chain a dog when there is no necessity for doing so. The compassionate feeling which led that resolute type of man, Gen. Jackson, to care for the motherless lamb, demands that dogs shall not be hounded into a species of madness by people whose fears have been excited to an unnatural degree by the spread of false stories. It also demands that they shall not be compelled to wear muzzles when no dangerous symptoms are manifest. John Hollingwood's definition of hydrophobia is excellent. He said some years ago that it is a "peculiar madness that seizes men and impels them to destroy dogs."—*Turf, Field, and Farm.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtJan

"A Novel Feature in Investments."

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unimjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting the certificates for forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $8,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospect-uses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

O. H. Holberg, Pastor Woodhaven M. E. Church, South Woodhaven, Queens Co., N. Y., states: "I have used Allcock's Plasters for thirty years. Never found them fail to cure weakness of the back, spine and kidney difficulties. They are very agreeable and strengthening. A short time ago I got in a profuse perspiration while preaching. Imprudently going home without my overcoat, I lost the use of my voice, and the next day had a violent pain in my back, kidneys and chest. I could hardly breath. Three Allcock's Plasters applied to my back, chest and kidneys cured me completely in six hours. I was astonished how quick my breathing became easy after applying."

Loyall Farragut, son of the late Admiral Farragut, has offered to return to Capt. James D. Johnson, of Savannah, the sword Johnson surrendered to Farragut on the 5th of August, 1864, when the Confederate ship Tennessee was captured in Mobile bay. The offer has been thankfully accepted.

Murdered.

The body of Julius Baer was found by freighters five miles west of here Tuesday morn, in a terribly mangled condition. His head and face were smashed, so as to be hardly recognized, and numerous wounds were found on his body. Mr. Baer was agent for the great blood medicine, Sulphur Bitters. Robbery was undoubtedly the motive, as he was well known to have a large sum of money on his person. As we go to press there is no clew to the perpetrators.—*Colorado Press.*

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important midcontinental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built bridges, rolling stock as near perfection as human skill and experience, the survey Appliances of patent buffers, platforms and air-brakes, and that exacting discipline which conserves the efficient operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Palace Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are equipped of well ventilated, finely upholstered Day Coaches, magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, pleasure resorts, hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to reach the wheat fields and pastoral lands of Interior Dakota.

Still another Direct and Favorite Route to Kansas and Nebraska, has been opened between Chicago, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

No. 1 Statuette, *ten inches in height*—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, WITH PLUSH STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The New York World fund of $100,000 completes the Pedestal, but it is estimated that $40,000 is yet needed to pay for the iron fastenings and the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

I have spent for medicine to cure my Rheumatism without finding any relief until I tried ATHLOPHOROS. It has taken **six bottles** of ATHLOPHOROS, and I am now a well man." So writes Mr. E. PARKHURST, Woonsocket, R. I.

From all over the country come similar testimonials of the efficacy of **ATHLOPHOROS** in curing both cases of rheumatism and neuralgia. No other remedy has been discovered that is a real cure for either of these terrible diseases. **Athlophoros** is not an experiment, it has been tried and its value **proved** by thousands of people all over the United States. No remedy has ever been put on the market that has brought such universal relief to sufferers from rheumatism and neuralgia. **Athlophoros** is absolutely safe to take and will surely bring relief. If you doubt its merits send for names of persons in your own State who have been cured by its use.

Ask your druggist for **Athlophoros.** If you cannot get it of him we will send it express paid on receipt of regular price—**$1.00** per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

The Inner Man.

Although there are some bookworms who adore,
Above all things in womankind, great learning,
Nine men in ten, who honor yet their lore,
For food, and not philosophy, are yearning.

Well versed in Greek and Latin though he be,
Should she he calls his wife indite a ballad;
O'ercome by hunger's pangs, I doubt not he
Were better pleased had she prepared a salad.

Thus any man—a poet, if you will—
Whom all the world with laurels has been crowning,
And living in the realms of fancy, still
Would much prefer a steak, well browned, to Browning.

Though he be cast in Nature's noblest mould,
Man has an appetite, if saint or sinner,
And cares less, if the solemn truth were told,
For dissertations than dessert and Dinner.

SIME'S FARM.

I.

It was years ago that Sime and his brother, Dan'l, came to the city. They were young fellows, then, full of hope and ambition; now they are time-withered and old. Sime is 50, perhaps, and his brother some ten years younger. In fact, Dan'l, in his brother's eyes, is quite a youngster—a harum-scarum young fellow, liable to kick over the traces at any time. Sime is stoop-shouldered and thin, with a short, grisly beard and cold blue eyes. The younger brother is short and stout, with a curly mass of gray hair falling almost to the shoulder. Dan'l was never known to laugh, but his full lips, puckered into a sneaking smile, give one an impression of good-nature, which is strengthened by the soft brown eyes. The two brothers work in a box-factory, and their wages, though small, heaven knows, satisfy all their wants and leave a bit beside. Back in the Vermont hills is a scrap of a farm that slipped from their father's hands years ago.

"Well, well," Sime would say, "p'raps not to-day, but we kin wait a bit, an' I reckon the ol' farm 'll be ours some day."

"Some day, eh?" breaks in Dan'l—a thoughtless, impatient young dog, that Dan'l—"why, we hain't got $800 a'-ready; I reckon we oughter speckulate."

Sime smiles paternally on his young brother. "I calkilate we'll keep outen that, Dan'l, an' we kin wait a bit, I reckon, Dan'l."

Dan'l doesn't reply, but he shakes his gray head as though reserving his own opinion. Sime pulls softly at his beard, thinking what an improvident youngster that brother of his is and what a blessed thing it is that there is some one to keep an eye on him.

One night Sime was busy getting supper when Dan'l came tramping up the three pairs of stairs to the two-room den carrying something under his coat. The night was sharp and cold—a night one would hesitate to leave his wife's relatives out of doors. Dan'l shook the powdered snow from his hat as he stood in the doorway. "Brother," he said hesitatingly. Dan'l had made a fool of himself, and he knew it.

"Well, youngster," returned Sime encouragingly. Dan'l laughed in an embarrassed way, like a schoolboy caught winking at the rosy-cheeked girl in the back seat. At last he began to open his coat.

"Meouw!"

"Brother Dan'l," said Sime sternly, as a shivering, wretched cat fell to the floor.

"But think o' sucher night, Sime, twould be downright unchristyon to leave the beast in the snow."

"Kin we afford sich luxuries as feelin's, Dan'l?"

"Brother, we kin wait a bit longer fur the farm an' I reckon it'll seem all the better when we git it, Sime."

"You allus was a willful lad, Dan'l, a willful lad," said Sime gently, laying his hand on his brother's arm. They shook hands in silence and sat down to supper.

"This looks more homelike," said Dan'l, watching the cat purring near the stove.

"Yes," replied Sime.

"That's the word—more homelike. Somehow or other, Dan'l, a cat allus makes you feel that-a-way—cats an' women," he added meditatively.

"Brother."

"Well, Dan'l?"

"How'd a woman look like here?"

"Dan'l," said Sime sharply, "you're not a-thinkin' of that agin, Dan'l?"

"No, brother, no, I reckon not," replied Dan'l.

A good twenty years ago Dan'l had met a right comely girl—a true Vermont girl she was, buxom, red cheeked and tall. He had never seen her since, but he often referred to her—it was the one little romance he cherished. Sime felt obliged to frown upon this.

"Youngsters," he said solemnly, "have no business with them dismal thoughts. Women ain't farms, Dan'l, remember that. Never have them dismal thoughts, Dan'l. It's feelin' that-a-way what kills."

And yet Dan'l nursed his little dream, though the buxom Berkshire lass, God bless her, was a full-faced woman now with five babies at her skirts.

II.

Perhaps a month after pussie's first appearance the brothers came home somewhat early. Pussie did not run to meet them as usual and purr and rub against Dan'l's leg as he stood in the doorway.

"Pussie," called Dan'l; "Pussie!"

"Where kin she be?" asked Sime, excited as his brother. They searched high and low, along the stairs, and through the dark passages, but pussie was gone. For a long time they sat by the stove in silence.

"'Twas jest sich a night I found 'er," said Dan'l at last.

"Jest so," returned Sime; "an' I reckon it's allus so, brother. You was too young to remember how mother'd

It is a good rule to accept only such medicines as are known to be worthy of confidence. It has been the experience of thousands that Ayer's Cherry Pectoral is the best medicine ever used for throat and lung diseases.

A Chautauqua county, New York, cheese maker went to Buffalo and brought home a fine imported Swiss cheese. All praised it but his wife, who, after the praise had ceased, said she had found her husband's private mark on the cheese. He had paid thirty-three cents a pound for the very cheese that he had made and sold for six cents.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

Reconstruction of the Navy.

The report of the house committee on naval affairs on the reconstruction of the navy is almost ready for presentation to the house. It will recommend the completion of the monitors already begun, a liberal appropriation for naval ordnance, the construction of from fifteen to twenty torpedo boats, costing about $60,000 each, a large expenditure for torpedoes, and the construction of six or seven steel "belted cruisers" of from five to six thousand tons each.

There is a difference of opinion as to whether this work should be done in the navy yards by the government, or by contract, and both plans will probably be given a trial. All the ordnance work will be done in the yards, and most, if not all, at Washington. The committee is unanimously favorable to the Washington yard as the main ordnance factory, and a pretty liberal appropriation will be made for the establishment of a good plant, so that the most approved naval ordnance may be constructed. This will be made the almost exclusive work of that yard.

A Shoemaker Wins $15,000 in a Lottery.

Frederick Scharf, a shoemaker of No. 704 DeKalb avenue, Brooklyn, has suddenly found himself possessed of troops of friends. Men who formerly paid no attention to him, have been exceedingly affable and anxious about his welfare. This change has been brought about by what he regards as a piece of exceptional good luck. A few days ago he received notice that a lottery ticket, of which he owned one-fifth part, had drawn the capital prize of $75,000, entitling him to $15,000. He expects to receive the money this week. Scharf is a poor, hard-working man with no family, who barely earned his own support by his trade, and who found his only luxury in drinking a social glass of beer with some friends. One of these, named Meyers, one day bantered him to buy a lottery ticket. Scharf at first refused, but Meyers told him that he had bought one-fifth of a ticket for $1, and urged Scharf to do the same. After some delay the shoemaker did so. One day last week the two men got a list of the lucky numbers, and Scharf's was among them. He proposes to give Meyers $1,000, and give a supper to his friends. What to do with the rest of the money he has not decided, although a multitude of advisers are seeking to give him wisdom.—*New York Tribune, Feb. 16th.*

A CARD.

NEW ORLEANS, Feb. 15, 1886.

The undersigned certifies that he held for collection, for account of Frederick Scharf, 704 DeKalb avenue, Brooklyn, N. Y., one-fifth of Ticket No. 57,705 in the Louisiana State Lottery, which drew the First Capital Prize of Seventy-five Thousand Dollars on Tuesday, Feb. 9th, 1886, and that the amount was promptly paid by check on the New Orleans National Bank, on presentation of the ticket at the office of the Company.

A naval court-martial appointed to meet at Boston on March 1st for the trial of a number of enlisted men, is made up as follows: Captain Allen Kantz, Lieutenant-Commanders George E. Wingate, Charles H. Rockwell and W. A. Morgan, Lieutenants John Downs and C. B. T. Moore, and First Lieutenant Henry Whiting, U. S. M. C., with First Lieutenant William E. Spicer, U. S. M. C., judge advocate.

There was a destructive fire on Long wharf, Portland, Me., Feb. 25th, a large wooden building occupied by E. H. Chase, fish packer, and Wm. S. Small, seine maker, being burned; loss on building, $4000; insured. Chase lost his entire stock, but was insured. Small's loss was serious. Besides his own stock very many seines belonging to others were stored in his loft; one firm, it is said, will lose to the amount of $7000 or $8000, without insurance. The loss will very greatly injure the prospects of the fishing fleet. From seventy-five to 100 seines in all, worth from $800 to $1000 each, and belonging to vessels all along the Maine coast, were burned, besides seines kept in stock by Mr. Small. The total loss is estimated at from $60,000 to $70,000 on this one line, outside of what Small had on his stock.

At a cabinet meeting, Feb. 25th, the question of making some reparation to the Chinese residents of Rock Springs, Wyoming, for the losses sustained by them in the riots there last fall, was considered, and it is probable that the matter will be brought to the attention of Congress, with a recommendation that the sufferers be recompensed for their losses.

At Chicago, on the morning of Feb. 25th, nearly 1000 strikers gathered at the McCormick reaper works, and stopped the foreman and two others. Revolvers were drawn, but no violence was done. One workman was arrested.

The investigation which was held at Biddeford Pool on complaint of inhabitants preferring charges of negligence against the employes of the life-saving station at that place, resulted in the removal of J. E. Goldthwait, the former keeper. John H. Amber, a member of the crew, has been appointed keeper in his place.

The Two Cradles; or, a Mother's Guilty Sacrifice.

BOSTON, February 27.—The French story of a "Dead Man's Millions" created a great sensation in the *Boston Globe* last December. A new story by the same author will be begun in the *Daily Globe* next Wednesday, March 3. It is entitled, "The Two Cradles; or, a Mother's Guilty Sacrifice." It deals with the tragic consequences of a mother's act in replacing with her own child another while she had taken to nurse, the latter having been stolen by her husband, who supposed he was taking his own child. It will have an immense sale, and thousands of people, especially ladies, who do not take the *Globe* regularly, are ordering it of their newsdealers for next Wednesday, March 3d.

INDIGESTION

To strengthen the stomach, create an appetite, and remove the horrible depression and despondency which result from Indigestion, there is nothing so effective as Ayer's Pills. These Pills contain no calomel or other poisonous drug, act directly on the digestive and assimilative organs, and restore health and strength to the entire system. T. P. Bonner, Chester, Pa., writes: "I have used Ayer's Pills for the past 30 years, and am satisfied I should not have been alive to-day, if it had not been for them. They

Cured

me of Dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since." L. N. Smith, Utica, N. Y., writes: "I have used Ayer's Pills, for Liver troubles and Indigestion, a good many years, and have always found them prompt and efficient in their action." Richard Norris, Lynn, Mass., writes: "After much suffering, I have been cured of Dyspepsia and Liver troubles

By Using

Ayer's Pills. They have done me more good than any other medicine I have ever taken." John Burdett, Troy, Iowa, writes: "For nearly two years my life was rendered miserable by the horrors of Dyspepsia. Medical treatment afforded me only temporary relief, and I became reduced in flesh, and very much debilitated. A friend of mine, who had been similarly afflicted, advised me to try Ayer's Pills. I did so, and with the happiest results. My food soon ceased to distress me, my appetite returned, and I became as strong and well as ever."

A Great Victory

A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exuding an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous eruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." CHARLES A. ROBERTS, East Wilson, N. Y.

This statement is confirmed by W. J. Huntley, druggist, of Lockport, N. Y., who calls the cure *a great victory* for Hood's Sarsaparilla. Send for book giving statements of many cures.

THE WEATHER.

For New England to-day:—

Clearing, much colder weather, high northwesterly winds, rising barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 2 degrees below zero.

Clear.

THE WEATHER.

Anybody demanding more weather than we had in this vicinity between Thursday morning and Friday night, must be greedy. Thursday morning the temperature was down to six or eight degrees above zero, the barometer was up to 30.47 inches, and there was little or no wind. Along in the afternoon the wind had hauled out to the southeast and a snowstorm commenced; this was soon varied by a rain, which was followed by another snow, and from that time on rains and snows alternated, except when both fell together, the wind being from the northwest all day Friday. The barometer was down to 28.84 inches at nine o'clock Friday morning, a fall of 1.63 inches in twenty-four hours; and the temperature during the day was from twenty-eight to thirty-six degrees above zero. The walking was as bad as could be desired.

SUDDEN DEATH.

City Treasurer Franklin Freeman, of Dover, was at work in his office until one o'clock P. M. on Thursday last, and went home as well as usual to dinner. He laid down on the lounge and said he did not feel very well, having a pain round his heart; and a short time afterwards he died. He settled in Dover in 1842. In 1865 he went into the retail grocery business, and in 1869 became an insurance agent, which business he was engaged in at the time of his death. In 1868 he was elected an overseer of the poor, and was a member of the common council in 1871 and 1872. In 1879 he was elected city treasurer, and has held that position up to the present time. He was a prominent Mason, and had taken the thirty-second degree. He was married three times, and leaves a widow and five children.

THE WIND.

The northwester on Friday was as hinlarious as a Cleveland office-holder when the civil service reform of the president is suggested. It was too uproarious for anything. It blew with a gusto not seen since the Ides of last March. It caught Derbys and sent them high in the air and spinning along the streets. It insinuated itself beneath the waterproof of the otherwise unprotected female pedestrian, and caused the wearer to assume wonderful proportions. It sent the sharp, icy particles into the eyes of all travelers. It rattled like pebble stones with particles of flying ice against the windows; turned umbrellas inside out when they were dared to be opened; blew the snow in great unsightly drifts; caused foot passengers to scud before it with no hope of stopping until a tree or building was collided with, or to labor wearily in beating up against it; painted the town red, as far as noses and ears would go; and generally rioted around as if it was in no way responsible to the signal service. In fine, the wind was on a rampage, and every one felt that it was better to get out of the way of the blasted thing and wait till the spree should subside.

MEMORIAL SERVICE.

In compliance with the request of John E. Finch, Right Worthy Grand Templar of the Order of Good Templars, that Sunday, April 11th, be observed everywhere as a memorial day in honor of the late distinguished temperance reformer, John B. Gough, and that the charters of the lodges be draped in mourning for thirty days from that date, appropriate action was taken by Rockingham Lodge of this city on Wednesday evening, Feb. 24th, and a committee consisting of Charles T. Wiggin, James Janvrin and Mrs. Emma Horne appointed to confer with the pastors of the several churches of Portsmouth in relation to a memorial service to be held on that day.

THE THEATRE.

This evening is the last opportunity to see Mora and the "Birds of a Feather" at Music hall for the present, their engagement ending to-night. The highly sensational drama "Jack Sheppard" will be performed. Tickets as during the week; see advertisement. Reserved seats at Goodrich's.

The incomparable Dalys, in "Vacation," at Music hall next Thursday evening. Tickets on sale at Goodrich's, Monday.

We learn that E. S. Fay has begun the manufacture of men's and boys' clothing for out of town parties. The cloth is sent to this city already cut, and Mr. Fay employs sewers, pressmen, etc. He will shortly fit up a room for this branch of his business, which will give employment to a goodly number of persons to whom it will prove a boon.

Police Officer James McCarthy has resigned his position on the force, to take charge of a hack for R. B. Beacham & Son.

There was no theatrical performance in Music hall on Friday evening, the "Birds of a Feather" thinking their feathers would be all blown away should they attempt to reach the theatre in such a howling nor'wester.

The United States fish commission steamer Fishhawk was in the lower harbor on Thursday, and essayed to go to sea in the afternoon, but getting two or three miles outside of Whale's-back thought better of it, and returned to an anchorage, where she remained throughout the gale of Friday.

At the annual meeting of the Municipal Signal Co., held in this city on Thursday, Feb. 25th, the following were chosen as directors for the ensuing year: George W. Willard, Gregory Willard, Albert A. Pope, Charles N. Barnard and Thomas Roche of Boston, Charles S. Randall of New Bedford, and John C. Wilson. This company controls the invention of Mr. Wilson and others for municipal signals. The company are now making arrangements to place a sample precinct of their system in operation in South Boston, and this will be done at an early date.

The Portsmouth correspondent of the Manchester *Union* under date of Feb. 25th says: "About thirty people sat down to a fine supper at Mr. G. Faulkner's residence on Woodbury street last night after witnessing a wedding. The contracting parties were John Faulkner of Illinois and a lady named Booth. The parties met for the first time Tuesday, and were married Wednesday night. Mr. Faulkner will soon return to his large farm in Illinois."

Gen. W. B. Hazen, chief of the signal service, has sued the New York *Times* for $100,000 for alleged libel. It may be impossible to libel the alleged weather that Hazen has served out to a long-suffering public since he has been at the head of the signal service.

The Biddeford *Journal* thus disrespectfully alludes to the temperance sentiment of this city: "There is quite a temperance boom in Kittery, according to a correspondent. As Kittery is on the New Hampshire line, this is well. Rum is plenty on the Portsmouth side, and they not seem to favor temperance over there. A beer manufacturer named Eldridge is mayor of the city, and the third-largest beer brewery in the country is located there. Its proprietor, Frank Jones, controls most of the patronage of the great reform party thereabouts. It must be very gratifying to the noble temperance workers in the democratic party to know this fact. It is said that Mr. Jones made Mr. Whitney secretary of the navy, and it is rumored that Mr. Cleaves, who with Mr. Jones' aid was demolished by Gen. Anderson in the contest for the Portland custom house, will be allowed to come out of his hole and take charge of the navy-yard supply-train, and make another struggle for Congress. Mr. Cleaves is used to being beaten."

The young women of the class will be confirmed at the morning service, and the young men of the class at the evening service.

The "no school this afternoon" signal was sounded on the fire alarm at 11:30 o'clock A. M. Friday forenoon.

A large white-headed eagle, with a bell attached to its neck, was flying around Newcastle a few days ago. The bell was a spherical sleigh-bell of large size and loud tone, such as were in ordinary use forty years ago; and it and its bearer were evidently a disturbing element to the gulls along the shores.

WHAT IS DYSPEPSIA?

Among the many symptoms of Dyspepsia or indigestion the most prominent are: Variable appetite; faint, gnawing feeling at pit of the stomach, with unsatisfied craving for food; heartburn, feeling of weight and wind in the stomach, bad breath, bad taste in the mouth, low spirits, general prostration, headache, and constipation. There is no form of disease more prevalent than Dyspepsia, and none so peculiar to the high-living and rapid-eating American people. Alcohol and tobacco produce Dyspepsia; also, bad air, rapid eating, etc. BURDOCK BLOOD BITTERS will cure the worst case, by regulating the bowels and toning up the digestive organs. Sold everywhere.

ECZEMA, or Salt Rheum, with its agonizing itching and burning, instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and uninitating, the bowels open, the liver and kidneys active, will speedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Pruritus, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail!

Will McDonald, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seven-en years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounc d his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, reports a case of Eczema under his observa ion for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesberre, Pa., writes: "I have suffered from Salt Rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs. Isaac Phelps, Ravenna, O., writes: "For the last year I have had a species of itching, scaly, and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was specially and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have sching lent the highest praise for the results obtained from your CUTICURA REMEDIES, of which have sold more than all other remedies of the kind.

say that if a body was born a stormy night, on just sich a night he'd die. I reckon it's so, Dan'l; I reckon it's so. We come an' go, brother, like playpeople goin' in outen the snowin' night, an' walkin' round on the stage, an' goin' out inter the snowin' night agin."

"What's that brother?"

There was a sound of flying feet up the dark stairway—a stumble—a cry, the rattle of one of a fall by the door. Sime took the lamp in his hand and went to the door, his brother close behind him. As the light shone into the hall a slip of a girl, ragged and dirty, scrambled to her feet and darted into the room, panting for breath.

"O, sir, don't let them get me, please. I didn't do it, sir—don't let them—I didn't touch it—I didn't see it, sir—O, you won't let them take me!" and the little one clung to Dan'l's arm, her frightened eyes fixed on his face.

"Brother, Dan'l," said Sime, "kin we afford sich luxuries——"

"Don't let them, sir," begged the child in an ecstacy of terror, shrinking down in the corner as a step was heard on the stairway.

"What d'ye want here?" asked Sime, opening the door a foot or so and catching the glimmer of a star and a glimpse of helmet and club.

"I'm afther askin' if ye've sane a gurrul—a little ragged baste of a thafe, an' the divil foy away wid her entoirely?"

"No, I haint," said Sime, promptly.

"Isn't nuthin' ye've hurrud, thin?"

"Nuthin'," said Dan'l.

"Faith, I'm belavin' yees, thin."

As the door closed the brothers gazed at each other in solemn horror.

"A lie, brother," said Sime at last.

"Brother," returned Dan'l, slowly, "I don't know, but I reckon God-A'mighty 'll be downright proud o' that lie."

"Kin we keep her, Dan'l?"

"I sorter seems more'n nat'ral she should come just now to fill Pussie's place, brother Sime."

"Dan'l, it costs a mortal sight to feed a gal."

"An' her clo'es, brother."

"An' washin' Dan'l, an schoolin."

"Brother, I reckon we'll have to let the farm go, if things go this-a-way," said Dan'l, astonished at his own boldness. Sime buried his face in his hands. It was hard, very hard, to give up the purpose, the hope, the dream of a lifetime. For a moment the green Vermont hills, the chalky brook, the old, low-browed house came into his mind and over against them stood the factory with its useless din and hurry. Only for a moment, for glancing up he saw the child nestled in Dan'l's arm; while he with clumsy care, was drawing off the tattered stockings and chafing the wee cold feet.

"Dan'l?"

"Yes, brother," said Dan'l looking up.

"Gals is better than farms, I reckon."

"Yes, brother."—*C. V. Thompson, in Chicago Tribune.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $600,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectus and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in the system of through transportation which it controls and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison, are composed of vestibuled, fully upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest pattern, and sumptuous Dining Cars in which elaborately cooked meals are leisurely eaten. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Possessions. Over this route Fast Express Trains are run to the watering places, summer resorts, sportsmen's localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address. DR. T. A. SLOCUM, 181 Pearl St., New York.

DYSPEPSIA.—Its Nature, Causes, Prevention and Cure. By JOHN H. MCALVIN, Lowell, Mass. 14 years Tax Collector. Sent free to any address.

THE WEATHER.

For New England to-day:—

Fair weather, slowly rising temperature, nearly stationary barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 3 degrees below zero.

Clear.

THE BIG NOR'WESTER.

The wind, which blew as hard as it could all day Friday, blew harder still Friday night and Saturday morning, doing some damage to trees, wires and buildings. Nine or ten large panes of glass were broken in the Mechanics' Association building, and one of the chimneys was tumbled over on the roof, going down through into one of the rooms of Smith's academy. Mr. Willis G. Myers, who only retured last week from the west, where the blizzard is supposed to make its home, was roused at an unpleasant hour to board up a window that blew in, and before he got through another one was blown in. Mr. J. H. Hutchinson's windmill was damaged, and the roof over the car-scales of the Concord railroad was blown away.

Shortly after midnight the steam gong of the fire alarm gave a number of unnecessary hoots, caused by the telegraph and fire alarm wires being blown into contact by the wind. The gruesome sound caused many people's apprehensions to rise, for a fire at that time would have been no trifling affair; the south wardroom bell was rung, but no general alarm resulted. The superintendent of the alarm was early on hand, Saturday morning, and the wires were all cleared in time for striking the 12:30 blow.

The trains from the eastward were belated on Friday; the one due at three o'clock arrived at seven; the Flying Yankee, due at 7:30, arrived at midnight. The Pullman train was two hours late on Saturday morning; the Conway train was reported as blocked in, and freight trains due early the previous night had not arrived up to noon. Trains from the westward were not much behind time.

During Friday night the schooner Sarah C. Whorf was collided with by the United States fish commission steamer Fish Hawk, while both were lying at anchor in the cove inside of Fort Constitution, Newcastle. The schooner had her mainboom broken, bowsprit sprung, and port rail smashed, her damages it is said amounting to about $500. Capt. Henry Brown, master of the schooner, had both feet frozen; and of her crew, Samuel Parsons, Jr., was jammed between the two vessels, Wm. Steelback froze both cheeks, and Samuel Parsons, Sr., froze his toes and fingers. A revenue cutter which was in the lower harbor went to their assistance, and cleared them by cutting the schooner's cable, letting her go ashore, the crew landing in their dories. The schooner was towed up on Saturday by the Clara Batemen, and berthed at C. E. Walker & Co.'s wharf. The schooners Champion and W. B. Keen were fouled by the Fish Hawk before she struck the Sarah C. Whorf; the Keen, badly iced up, was also towed up by the Clara Batemen on Saturday, after slipping her cables.

EBENEZER WYATT.

Mr. Ebenezer Wyatt, one of the oldest and best known citizens of Portsmouth, died on Friday afternoon last of pneumonia, consequent on a cold contracted while attending to his duties as janitor of the First National and Rockingham National banks, and the Portsmouth Savings bank, at the time of the "ice storm." He was in his 80th year at the time of his death.

Mr. Wyatt was a man of quiet, cheerful manner, faithful in the performance of his duties, and respected by all his friends and acquaintances. He was janitor of the banks for very many years, and was sexton of the South Parish (Unitarian) from 1845 to 1880, resigning the latter position on account of ill health, on which occasion the wardens sent him a letter saying "It is with regret that we learn your failing health will not admit of your continued service as sexton of the South Parish, which has been prolonged through so many years, and we cannot sever this connection without an expression of our full appreciation of your most faithful service." Subsequently he received a very handsome silver pitcher, bearing an inscription as follows:

EBENEZER WYATT.

For faithful services as Sexton of the South Parish, Portsmouth, N. H., from the first Sunday in Nov., 1845, to the last Sunday in April, 1880. From the pastor, James DeNormandie.

Christmas, 1880.

Mr. Wyatt was a Freemason, and years ago was for some time tyler of St. John's lodge. He leaves a widow, one son and two daughters.

THE THEATRE.

Fred Williams' "Birds of a Feather" closed their week's engagement at Music hall on Saturday evening, playing the sensational drama "Jack Shepard" finely, to an audience of three or four hundred—not a very large gathering, but much larger than could have been expected on such a night. Notwithstanding the bad weather of the last of the week, the company's engagement was fairly successful.

The Dalys, in their uproarous "athletic comedy" of "Vacation; or, Harvard vs. Yale," will be at Music hall on Thursday evening, and reserved seat tickets are now on sale at Goodrich's.

The Wallace Musical Comedy Co. will give their first entertainment in this city on Friday evening next, at Franklin theatre, playing a new musical absurdity, "Mouser, Crummy & Co.," arranged by Frank W. Moses, who will make his first professional appearance here on that occasion, as will also Miss Grace Varrell. The entertainment will be repeated on Saturday evening. Tickets at Goodrich's on and after Tuesday.

SEND THE BIG ONES HERE.

A committee from the New York chamber of commerce have appeared before the house committee on rivers and harbors at Washington, to set forth the needs of New York harbor. Vessels are unable now to take full cargoes, and freights are in consequence higher; $150,000 are needed to dredge the channel and satisfy the contractors, and $500,000 more for Hell Gate.

One remedy would be to send the large steamers to Portsmouth, where those drawing the most water could depart at dead low tide without a possible danger of scraping their keels in a channel, or finding a bar.

Rt. Rev. W. W. Niles, Episcopal bishop of New Hampshire, officiated at St. John's church in this city on Sunday forenoon, and at Christ church in the evening. Fourteen young women were confirmed at the morning service, on which occasion the regular choir was strongly and acceptably reinforced by members of the choir chapter of St. John's Guild; at the evening service a number of young men were confirmed.

Mr. Wilbur L. Davis started on Saturday for Kansas City, Mo., where he proposes to locate in the drug business.

A SUCCESSFUL PASTORATE.

The Boston *Traveller* of Saturday last had an article on the First Religious Society of Roxbury, with pen-and-ink sketches of the several pastors, ending with Rev. James DeNormandie, of whose ministration it says:

When he first took charge of the church he found it in rather a chaotic and disorganized condition, such as even the best-regulated society will sometimes fall into. He earnestly began to make an effort to build up the society and put into it a new life and activity, and in this he has been eminently successful. When he first came to the society there were many pews vacant in the church, but during his ministry they have all gradually been taken, so that now it is hard to find a pew unoccupied. He is doing a great deal to make it a successful church, and takes a personal interest in everything that is connected with it. He is giving the greatest satisfaction to his society, and his efforts are much appreciated by them.

The article is headed with a picture of Mr. DeNormandie, which comes nearer to being an excellent likeness of the person it is intended to represent than any other cut we ever saw in a daily paper.

Most of the fishing fleet were laid up on Sunday at the southend wharves, considerably iced up. Some fish on hand were forwarded at a somewhat advanced price, in consequence of the cold weather.

ECZEMA

And Every Species of Itching and Burning Diseases Cured by Cuticura.

ECZEMA, or Salt Rheum with its agonizing itching and burning, instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and unirritating, the bowels open, the liver and kidneys active, will specedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Pruritus, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

Will McDonald, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seventeen years. He was able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced it his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, reports a case of Eczema so badly as observes him for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from Eczema on my face for eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs Isaac Phelps, Ravenna, O., writes: "For the last year I have had a species of itching, scaly, and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was speedily and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have editing for the higher results obtained from your CUTICURA REMEDIES, of which have sold more than of all others of the kind.

ing—nine in spite of the past—was ill, probably dying, and wished to see me. I never once thought of her being another's wife. I would go to her, of course.

All the bitterness I had felt towards the poor little girl left me, and the love for her that I had partially smothered surged over and through me with renewed vigor.

It was early morning when I started on my journey, and the darkness of night was settling over the world when I reached my destination.

No one was at the station to meet me, and, without losing the time to hire a vehicle, I started out to walk to the Merton mansion across the fields, as I used to do of yore. It was no great distance, and the walk would do me good. My way would take me by the old trysting-tree, where Dora had met me so often in the happy days of the long ago.

My mind was busy as I walked over the old familiar pathway. I thought of the girl—now, probably, lying within the pale of death—who had wandered over these very fields, clinging trustingly to my arm, and uttering vows of eternal love for me. I thought, too, of the man who had come between us with his accursed gold and parted us forever, well-nigh wrecking my life, and breaking the heart of poor Dora.

I was now near the old tryst-tree, and in the fast-gathering twilight I saw a sight that sent the blood rushing through my veins like a current of fire.

Leaning against the trunk of the tree, clad in a dress of spotless white, I saw the outline of a fragile female form.

It was Dora! There could be no doubt about that. I knew the graceful figure too well, and the attitude was just the same as she used to assume when she waited for me in the spot long ago.

Yes, it was Dora. She was not so ill, then, as they had thought her; she had recovered, and had come out to meet and surprise me.

Thus I thought as I rushed on to greet her. There never was such joy as mine. It was so great I often wonder it did not kill me then and there.

I was now close to her; but she never moved.

Uttering many endearing words I seized her hands which were clasped before her, and attempted to draw her to me.

The hands were cold—oh, so stony cold, and the great brown eyes had such a strange expression, and the face was so worn and white, that I released her hastily and recoiled several feet.

"My God!" was my inward ejaculation, "can my Dora have gone mad? Has her illness dethroned her reason?"

Suddenly she turned, and fixing her great star-like eyes on me, slowly said:

"Paul, your Dora is dead; you came too late—I died for love of you! Forget me never, oh, my darling! Farewell, farewell!" and, noiselessly approaching me, she pressed her icy lips to mine and disappeared.

Overcome with horror I fell fainting to the ground.

When I recovered I found myself in bed at the residence of the old village doctor, under whom I had first studied.

He told me that I had been found under the old maple-tree in a death-like swoon; that three weeks had elapsed since then, and I had been suffering from an attack of brain-fever, and in all that time I had talked of nothing but Dora, ghosts, and human cruelty.

When I grew stronger he said:

"Old fellow, you have had a tough pull. They came pretty near killing you as they did Dora, poor girl! She died a short time before we found you. She was calling for you all the time during her illness, and died with your name on her lips."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1Jan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by express to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD".

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *ten inches in height*—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each, delivered.**

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each, delivered.**

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal **Heavily silver-Plated**, with PLUSH STAND, at **Ten Dollars each, delivered.**

More than enough money have been spent in perfecting the statuette, and they are much improved over the first issue. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $60,000 yet needed to pay for the iron fasteners and for erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will polish the desired amount.

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS MAP THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

by reason of its central position and close relation to all principal lines East and West, at junction and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points in Iowa, Nebraska and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth rails of continuous steel, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air brakes, and that unceasing discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers, of the best design, and unsurpassed Dining Cars in which elaborately cooked meals are leisurely served. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

is the direct and favorite route between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run in the summer time, affording opportunity for pleasure localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUDNGER & BRO., New Haven, Conn., is on every package.

Newspaper Investigation.

PHILADELPHIA, PA.—The *News* says: "A remarkable discovery made last winter, which involves a most important question,—that of public health, is being discussed by eminent physicians and public men. It is shown conclusively that throat and lung troubles can be cured without resorting to use of morphia or opium,—especially dangerous in the case of children. The governor of Maryland and all the officials of that state endorse the remedy; and hospitals and charitable institutions in this and other cities use it with remarkable results. This remedy, which is only twenty-five cents a bottle, is Red Star Cough Cure. It is purely vegetable; it contains no poison or narcotics, and is a positive cure.

too much for ATHLOPHOROS. It cured me of Rheumatic fever. I was so bad it took three men to move me. I tell the doctors that I can cure any case of rheumatism, I don't care how bad, in twenty hours with one bottle of ATHLOPHOROS. I carry it with me all the time."—WM. GAWEN, West Hampden, Me.

Such is the universal testimony of a remedy known only to ATHLOPHOROS which is the only remedy for rheumatism that has ever had a successful sale; and it sells because it is a sure, safe, speedy cure. Athlophoros contains no opium or other dangerous or injurious ingredient. It is absolutely safe, and is so pronounced by leading physicians of the country who prescribe it regularly for neuralgia and rheumatism. If you have any doubt as to its merit, write to the manufacturers for names of persons in your own State who have been cured of rheumatism and neuralgia by its use.

Ask your druggist for Athlophoros. If you cannot get it of him we will send it express paid on receipt of regular price—$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

PRISON REFORM.

Education as a Factor in Rousing the Dormant Minds of Convicts.

In order to reform any person addicted to evil living, an adequate motive must be offered. At Elmira the powerful motive is the desire of regaining liberty. This would seem enough, but it is not always sufficient to arouse ambition in a sluggish nature, especially when the period of incarceration is fixed and is short. This motive, then, has to be supplemented by others. A way must be found to arouse the sluggish body and interest the dormant mind. It is sometimes long before this way can be discovered. These ruined natures have often very little that can be appealed to successfully. But I do believe there is in most men and women, however degraded, the seed of a better life. The first step will probably be the awakening of an interest in something outside themselves; not a purpose of change, but simply an interest. It may be a desire to learn the alphabet, or an awakened taste for reading, or a little inclination to know something. It may be a pride in personal appearance, or a wish to get commendation for good behavior, or a dawning sense of the agreeableness of order, neatness, cleanliness. Or it may be some pleasure in a discovered power to do well a piece of work. This interest, once aroused, can be stimulated by various incitements, slight rewards of promotion, the fear of social degradation; and this path of doing well will become powerfully attractive when it is seen to be the path, and the only one, to liberty. But this interest in any form, with even the prize of liberation, can not be depended on to last. The will of the criminal is weak and vacillating. He can not be depended on, he can not depend upon himself, for continuance. He may fail and fall again and again. The only remedy in his case—and it is the common case—is to keep him at it, keep him trying, until a habit is formed, until his will is strengthened, until, in fact, it is mentally and physically just as easy for him to live a normal, healthful life as it was to live a disorderly life.

In the life that is required of him under the Elmira system it is very difficult for a man to sham. The study, the work, the behavior, demanded of him continuously almost preclude hypocrisy. The neophyte may try to pass himself off as docile, and even as pious, but no deceit lasts long under this severe, exacting, trying discipline, which is applied equally to his attention in the workshop, his alertness in school, and to all the details of his personal behavior and appearance. The requirements are too rigid. If the man does not put himself willingly and honestly into harmony with his position, he is pretty certain to break down and go back into the harder conditions of prison life. These he finds very unwelcome after a taste of something better, and he tries again, with a new resolution. The pressure is incessant. The incentive of liberty, better apprehended as he gets into a normal state, is always inviting him. Meanwhile habit is doing its work. He can continue longer in a straight course. He begins to feel in all his renovated physical and moral nature not only the desire for liberty, but a longing, however faint, to make a man of himself.

The important thing, as necessary in this system to getting out of confinement as to becoming a man, is the formation of habit. And here is where the notion of an indeterminate sentence comes in as the only condition of forming a fixed habit.

An indeterminate sentence is the sentence of a convict to continement until in the judgment of some tribunal he is fit to go out into society again, until it is evident that he is likely to be law-abiding. If a person is determined upon a criminal life, the best thing that can be done for him and for society is to confine him where he can do no mischief, and where his labor will pay for his keeping, so that he may not be an expense to society nor a terror to it. And, logically, he should be confined until there is good reason to believe that he will be a self-supporting, law-abiding member of community. Now, the difficulty heretofore has been to determine when a person might safely be released on an indeterminate sentence. Under the system a person might be released depended simply on good behavior, on external observance of rules, most criminals are shrewd enough to behave admirably, and to even offer evidence of Christian conversion, in order to get release. Where is there a tribunal that could pass upon his character? The Elmira system compels a person literally to work out his own salvation. It will take some men a longer and some men a shorter time to do it, that is, to acquire such a habit that for a given period they can stand perfect in study, in work, in conduct. Under our present rule of determinate sentences there are many incorrigible cases. Probably there are some natures incapable of being changed to anything better. Let such stay where they can pay for their living and not injure society. But it is difficult to say of any man that he can not be reached and touched by discipline, physical, mental and moral, for a long time and continuous; that it is impossible to drill him, in years of effort, into a habit of decent living and a liking for an orderly life. It is impossible, psychologically and physiologically, for a person to obey rigid rules of order and decency, to be drilled in mental exercises, to be subject to supervision for intelligent and attentive labor, for a considerable length of time, and not form new habits, not to be changed sensibly and probably radically. It may be in one year, it may be in ten years, but ultimately habits will be formed, and the man can not, without a greater or less effort, be what he was before he was subjected to this process.

This is the education of which I speak;

A Word to Workers.

If your avocations are mentally or physically laborious, if they confine you to the desk, and are of a nature to involve wear and tear of brain, and nervous strain, you may occasionally require some invigorating tonic. Hostetter's Stomach Bitters is the article for you, it stimulates the failing energies, invigorates the body and cheers the mind. It enables the system to throw off the debilitating effects of undue fatigue, gives renewed vigor to the organs of digestion, arouses the liver when inactive, which it very often is with people whose pursuits are sedentary, renews the jaded appetite, and encourages healthful repose. Its ingredients are safe, and its credentials, which consist in the hearty endorsement of persons of every class of society, are most convincing. Admirably is it adapted to the medical wants of workers.

The long-delayed trial of James T. Holland, the Texan, for the shooting of Tom Davis, the confidence man and gambler, on Aug. 31st, 1885, has been begun in the court of oyer and terminer, New York.

The warmer weather often has a depressing and debilitating effect. Hood's Sarsaparilla overcomes all languor and lassitude.

The rail mill of the North Chicago Rolling Mill company at Bay View, near Milwaukee, Wis., which has been idle over eight months resumed operations Monday, and will employ only union men.

Something that will quiet the nerves, give strength to the body, induce refreshing sleep, improve the quality of the blood, and put life and brighten the complexion, is what many persons would be very glad to obtain. Carter's Iron Pills are made for exactly this class of troubles, and are remarkably successful in accomplishing the ends desired, as named above. They are useful for both men and women. Sold by druggists. Price, 50 cents a box. See advertisement.

Masters of fishing vessels running out of the port of Boston have decided that no captain shall sell fish for any less price than $1.25 per hundred weight from now until May 1st, 1886.

The Telephone Scandal.

The connection of Attorney General Garland or any other stockholder in the legislative, judicial or executive departments whose hands have been tarred with the same brush, to the Pan-Electric Telephone Co., is to be investigated by the house of representatives, and the democrats, having some time since cast aside the besmearing bristles, are anxiously looking up the white-wash brush.

Of course, even if Mr. Garland's blunder had nothing criminal in its inception, there is no investigating committee under the sun whose report can convince the people of this country that the possession of this stock, and the action of the Department of Justice, could be an honest, straightforward transaction. Not all the sophistry of Mr. Geo. T. Curtis, nor the former fair record of the Arkansas senator, nor the protestations of Mr. Goode, can lead the American people to any other conclusion than that in regard to this affair "there is something rotten in the state of Denmark."

The real investigation will be, how far the democratic craft, rolling in the adverse seas of public opinion, can proceed without unloading Mr. Garland. The president sticks to his attorney general with so much persistency, that at times it is feared that the new scheme to attain the place occupied by the Bell monopoly has permeated the entire circle of democratic leaders. But the president thinks slowly, and changes his views reluctantly. Just at this time there are many of his own party who would like to see Mr. Cleveland receive a gentle rap over the knuckles.

The result will be looked for with a great degree of interest. While so many leading democratic papers condemn Mr. Garland, and fear the ill effects upon the fortunes of the party if he remains the legal adviser of the president, it will be a question likely to exercise the utmost sagacity possessed by the party managers, whether it will be better to have the committee whitewash the administration in regard to its Pan-Electric mistake, or with a righteous indignat on fire out the offending member of the cabinet and thereby retain the sympathy and respect of its mugwump aids, of whose influence and votes Mr. District Attorney Stearns of Massachusetts cautions the party, officially, it so much stands in need. *Nous verrons.*

The Business Outlook.

A prominent gentleman who has watched public events closely recently remarked: "There has not been a time since I can remember when the business of the country has suffered as it is suffering now, from the course of Congress. The uncertainly about the action of Congress has literally killed business enterprise. We don't know what it will do with the silver question. We don't know what it will do with the tariff question. The knowledge that it would do nothing would give some confidence, but the uncertainly is vitiating and demoralizing. The country would be well off if Congress was abolished for five or ten years, while we get acquainted with what laws we have now. It was bad enough when we had a republican Congress, whose general policy we knew. But it is infinitely worse with a democratic Congress, whose intentions no man can fathom."

Sydney Luska, whom the vivacious literary critic of the Boston *Traveller* denominates "a new genius discovered and introduced by Edmund Clarence Stedman," is soon to publish, through Cassell & Co., his new novel Mrs. Peixada. In the story is a glowing account of a honeymoon visit made at Newcastle.

Mr. Stedman is engaged in the preparation of a literary paper for the New Princeton Review.

The American Humane Association, impressed with the importance of the report of the committee of the American Ornithologists' Union, for the protection of birds, which appears in the current number of *Science*, is making arrangements for the distribution of 100,000 copies, and would be glad to receive substantial aid from friends of our American birds. The report shows that unless immediate measures are taken to prevent the present rate of destruction, our woods and fields will shortly be without birds. "Think of your woods and orchards without birds," and lend a hand to the Association. Address G. E. Gordon, president, Milwaukee; Thomas E. Hill, secretary, 103 State street, Chicago; or Levi Knowles, treasurer, 252 North Broad street, Philadelphia. Checks to the order of the treasurer.

YORK CORNER, ME., March 1st.

Mr. Charles H. Young received a present last Friday evening,—a "young" daughter. Wish you much joy, Charlie.

We understand town meeting has been affixed for March 22d—or rather, March 22d is the date fixed for town meeting.

Mr. Albert Trafton, the present worthy superintendent at the alms-house, says he has been there as long as he wants to be, and eleven and one-half months over! He will not remain another year. His accounts make a very favorable showing, and will compare favorably with those of any previous superintendency.

Hon. E. C. Moody and Henry C. Evans, Esq., of Hotel Bartlett, have each presented to the town authorities claims for damages occasioned by the late freshet. It seems that the culverts through the Long Sands road, recently built, were not sufficiently large to pass the great volume of water. Mr. Chas. D. Preble, who has lived there his whole life-time, told the authorities when they were building the culverts that they were not large enough. Mr. Moody's claim is, we learn, fifty dollars for damage to Gorgeanna Cottage; and Mr. Evans' claim is for damages to the cellar of Hotel Bartlett and to a cottage near by—amount claimed unknown to writer.

Mr. Charles Austin, one of the crew of the schooner Rockaway, died suddenly at Boston on Saturday last. No particulars.

Yours, P.

The Granite State Fire Ins. Co. of this city, and the People's Fire Ins. Co. of Manchester, were on the 1st inst. admitted to do insurance business in Massachusetts.

Hon. James G. Blaine has declined an invitation to deliver the Memorial address in this city, May 31st.

INDIGESTION

To strengthen the stomach, create an appetite, and remove the horrible depression and despondency which result from indigestion, there is nothing so effective as Ayer's Pills. These Pills contain no calomel or other poisonous drug, act directly on the digestive and assimilative organs, and restore health and strength to the entire system. T. P. Bonner, Chester, Pa., writes: "I have used Ayer's Pills for the past 20 years, and am satisfied I should not have been alive to-day, if it had not been for them. They

Cured

me of Dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since." L. N. Smith, Utica, N. Y., writes: "I have used Ayer's Pills, for Liver troubles and Indigestion, a good many years, and have always found them prompt and efficient in their action." Richard Norris, Lynn, Mass., writes: "After much suffering, I have been cured of Dyspepsia and Liver troubles

By Using

Ayer's Pills. They have done me more good than any other medicine I have ever taken." John Burdett, Troy, Iowa, writes: "For nearly two years my life was rendered miserable by the horrors of Dyspepsia. Medical treatment afforded me only temporary relief, and I became reduced in flesh, and very much debilitated. A friend of mine, who had been similarly afflicted, advised me to try Ayer's Pills. I did so, and with the happiest results. My food soon ceased to distress me, my appetite returned, and I became as strong and well as ever."

Sensation for Story Readers.

BOSTON, March 2.—"The Two Crucibles; or, A Mother's Guilty Sacrifice," will create a furore among story readers all over New England. It will be begun in the Boston *Daily Globe* tomorrow (Wednesday.) Thousands of people are ordering the *Globe* who do not take it regularly.

ELIOT, ME., March 1st.

Mrs. M. V. Freeman had an ice-cream party at her residence, Sturgeon Creek, on Saturday evening, when and where, were gathered some of Eliot's pretty girls, among the number being the Worcesters, the Abbotts, the Nasons, Miss Annie Raitt from Lynn, Mass., and Miss Henriette Shaw of East Boston. They had a nice time, and Mr. Bert had the pleasure of escorting home Miss Nellie Mathes, who has just returned from the commercial school at Boston, where she has graduated. It was a very cold night, but *Bert* did not mind freezing one ear for the privilege.

Mr. John F. Worcester is spending a few weeks at his father's in Eliot, but will soon return to Gloucester, Mass., where he has been stopping for the past two years.

Mr. Fred H. Rowe lost a valuable horse last week by sickness, and a number of other horses in town are sick with the same disease, which appears like fever.

Miss Josie Raitt has gone back to New York to spend a few months with her friends.

Miss Nellie Worcester is taking music lessons in Boston two days out of a week.

Rheumatism

It is an established fact that Hood's Sarsaparilla has proven an invaluable remedy in many severe cases of rheumatism, effecting remarkable cures by its powerful action in correcting the acidity of the blood, which is the cause of the disease, and purifying and enriching the vital fluid.

It is certainly fair to assume that what Hood's Sarsaparilla has done for others it will do for you. Therefore, if you suffer the pains and aches of rheumatism, give this potent remedy a fair trial.

A Positive Cure.

"I was troubled very much with rheumatism in my hips, ankles, and wrists. I could hardly walk, and was confined to my bed a good deal of the time. Being recommended to try Hood's Sarsaparilla, I took four bottles and am perfectly well. I cheerfully recommend Hood's Sarsaparilla as one of the best blood purifiers in the world." W. F. WOOD, Bloomington, Ill.

For Twenty Years

I have been afflicted with rheumatism. Before 1883 I found no relief, but grew worse. I then began taking Hood's Sarsaparilla, and it did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley, Mass.

"I suffered from what the doctors called muscular rheumatism. I took Hood's Sarsaparilla and am entirely cured." J. V. A. PROUDFOOT, letter carrier, Chicago, Ill.

We shall be glad to send, free of charge to all who may desire, a book containing many additional statements of cures by

PRESENTATION.

Mr. James McCarthy, for some time past a member of the Portsmouth police and night watch, having arranged to take charge of a hack for R. H. Beacham & Son, and resigned his position on the force, to take effect at the close of his duties for the month of February, his associates planned to surprise him with a token of their good will and esteem. Accordingly, at four o'clock Monday morning, when the entire night watch reported at the station, and Officer McCarthy, having finished his last faithful tramp over his beat, turned over to Captain Hobbs the city property in his possession, the captain on behalf of the watch presented him with a very handsome gold-mounted whip, assuring him in well chosen terms that as he had ever merited the respect of his associates while a member of the watch, so in retiring he carried with him their earnest good wishes for his prosperity. The affair was, as it was intended to be, a complete surprise to the retiring officer, who however was able to return his thanks for the handsome gift, and assure the donors that he should prize it highly, and most of all for the friendly feelings and kindly wishes of which it was the token. A plate on the butt of the whip is engraved, "Presented to James McCarthy by the Portsmouth Police, March 1st, 1886."

"Gentleman Jim" has been a good officer, prompt and efficient, yet not needlessly officious and obtrusive, and always courteous and polite—traits which will no doubt render him as popular with the public, as a hack driver, as they did with his late comrades on the police force.

THE CITY LOAN.

Bids were opened on Monday for the city loan of $18.000, as follows: $8,000 payable April 1, 1896, and $10,000 payable April 1, 1901—dated April 1, 1886, with interest at four per cent, bids to be for par value of bonds. The whole sum was taken by Messrs. Blake Bros., bankers, of No. 28 State street, Boston, at 104 58-100, they being the highest bidders. There were eight bidders in all, some for a part only of the loan. The city's credit must be good, and money cheap, when four per cent bonds with only a moderate term of years to run command a premium of over 4 1-2 per cent.

EXHIBITION AT RYE.

The West school of Rye will give an exhibition in the town hall on Thursday evening, March 4th. The entertainment will consist of music, readings, recitations, dialogues, tableaux, etc., and the farce "Thirty Minutes for Refreshments," with the following cast:

Major Pepper,.....Wilmot Mace.
Mrs. Foxton,.....M. Kate Locke.
Miss Pepper,.....Clara Parsons.
Polly,.....Gertrude Garland.

Spear's orchestra will assist in the exercises, with instrumental music. Ten cents admission will be charged, and the performance will commence at eight o'clock.

POLICE COURT--BATCHELDER J.

MONDAY, March 1st.

James O'Neil, hailing from Newmarket, was fined $3, costs $6.90, for drunkenness; county farm in default of payment.

MARITINE NOTES.

The circumstances of the collision of the U. S. steamer Fish Hawk with several fishing schooners in Fort cove, off Newcastle, last Friday afternoon, were substantially as follows: The Fish Hawk, which has large upper works and no great hold of the water, was anchored with a long scope of chain out, and steam up. About five o'clock, in spite of the endeavors of those on board, under the action of the tide and furious wind she got to sheering about badly, first swinging foul of the schooner Etta, of Swampscott, and having a pane of glass broken, the schooner sustaining no damage. Next she hit the Sarah C. Whorf, the schooner's bowsprit going through the steamer's port upper works. Getting clear of the Whorf, the steamer was next in collision with the W. B. Keen, being struck on both quarters, with slight damage to the steamer and none to the schooner. At this time the Fish Hawk's steam launch, which was towing astern, was dropped and anchored, and has not been seen since, having either gone down or broken adrift. Next the steamer was foul of the Sarah C. Whorf again, the starboard side of the steamer's upper works being stove in this time. Then the schooner Champion, in taking a sheer to avoid the steamer, broke the Whorf's mainboom; and then the steamer fell in between the Whorf and Champion, and was held quiet for the rest of the night, the Champion having five dories smashed and seven or eight stanchions broken by collision with the steamer. Saturday morning a revenue cutter came to their assistance and towed the Whorf clear; the Champion and Fish Hawk laid alongside each other until three o'clock Saturday afternoon, when the steamer passed her riding cable to the schooner, and leaving her at anchor came up to the navy yard, where she remained over Monday.

The navy yard ferry steamer Emerald was just fifteen minutes in making her trip from the navy yard to the Daniel street landing at noon on Monday, She ordinarily makes the trip in half that time.

The schooner Sarah C. Whorf, with 35,000 lbs. of fish on board, having temporarily repaired the damages sustained by collision with the steamer Fish Hawk on Friday evening, sailed for Gloucester early Monday morning.

The schooner Ella M. Johnson went ashore at Newcastle, outside of Fort point, Friday, but came off on the flood with the loss of her shoe.

It is said that the schooner W. B. Keen, after the fish commission steamer Fish Hawk backed foul of her on Friday evening, broke out her anchors and commenced drifting out by Fort point, when she was abandoned by her crew of seven men, who in landing at Newcastle lost their dory and all their clothes, and came near losing themselves. The schooner was found riding at her anchors all right, Saturday morning.

The schooner E. A. Williams broke her main-boon on Monday.

Mr. Stephen Crosby, in attempting to cross from this city to Badger's island, Friday evening, lost an oar, and after being an hour and a quarter on the river reached the steamboat landing at the navy yard, exhausted and almost frozen.

THE ATHLETIC CLUB'S BALL.

Franklin hall was never more finely and elaborately decorated than for the Portsmouth Athletic club's ball this (Tuesday) evening, the city having been throughly scoured for flags, bunting, etc., for the purpose.

The following is the programme of the concert preceding the dancing, by Reinewald's orchestra of twelve pieces, Ralph L. Reinewald conductor, J. N. Parker prompter:

March, "Independence,".....Grunewald.
Overture, "Morning, Noon, and Night,"....Suppe.
Cornet Solo, selected,.....Mr. A. F. Killam.
Selections, "Mikado,".....Sullivan.
Czardas, Hungarian dance,..... .....Hasselman.

The sale of tickets has been large, and there is no question that the floor and the galleries will be fully occupied.

Monday was another objectionable day. The thermometer ranged from zero to ten degrees below in different parts of the city in the morning, and did not get very high during the day; the wind kept high all the time.

"Vacation" tickets in large numbers were taken on Monday, the first day of sale.

The concert proposed to be given in Music hall by the Nowell brothers has been given up for lack of encouragement. Persons who have purchased tickets at Preston's drug store will have their money refunded on returning the tickets.

The sidewalk's of the city are generally in a bad condition with ice and snow. Especially bad spots can be found on Elm street, directly in front of the estate of Mr. Nathan Jones, formerly occupied as "Hotel Flanders," and on State street, opposite the unoccupied store on the corner of Penhallow street. By the way, another gas-light is very greatly needed on State street, in the vicinity the Methodist church; the street is very much used at night, and there is no light between the corner of Pleasant street and a point almost half-way to the river, leaving the street and walks practically unlighted in the vicinity of the church. *j*

BURDOCK BLOOD BITTERS RELIEVES *Weary, Aching Bones.*

BURDOCK BLOOD BITTERS CURES *Dyspepsia.*

Dyspepsia.

GENTS:—I feel it my duty to say respecting Burdock Blood Bitters, that it is the best medicine I ever took. I suffered two or three years from stomach troubles and dyspepsia as well as from liver and kidney complaint. I was not able to attend to my business. My wife was afflicted in much the same way. We read of your Bitters in the papers and made up our minds that we would *try them*. The result is my wife and I began to improve at once, and I am now able to do more hard work than before in ten years. It relieved my kidney troubles as well. We both wish you, the makers of it, Godspeed.

ECZEMA

And Every Species of Itching and Burning Diseases Cured by Cuticura.

ECZEMA, or Salt Rheum with its agonizing itching and burning instantly relieved by a warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great Skin Cure. This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and nutritating the bowels open, the liver and kidneys active, will speedily cure Eczema, Tetter, Ringworm, Psoriasis, Lichen, Pruritus, Scald Head, Dandruff, and every species of Itching, Scaly and Pimply Humors of the Scalp and Skin, when the best physicians and all known remedies fail.

Will McDonald, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Eczema, or Salt Rheum, on head, neck, face, arms and legs for seven or eight years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 State St., Boston, records a case of Eczema under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from Salt Rheum under my elbows for six years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of CUTICURA and four bottles RESOLVENT have entirely cured me of this dreadful disease."

Mrs. Isaac Phelps, Ravenna, O., writes: "For the last year I have had a species of ill-bloodness, scaly, and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was specially and entirely cured by CUTICURA."

Physicians Prescribe Them.—I have echoed the high praise of the CUTICURA remedies, published from your CUTICURA REMEDIES, of which have sold more than of all others of the kind.

this is the education which does not fit or incline a man to be an expert criminal, but which makes a disorderly life in his case improbable. And he himself determines when he is fit to go out of confinement and out of discipline to which he has been subjected. His record shows it, for his record shows whether he has acquired new habits and is really changed. Of course some tribunal must pass upon this record and upon the whole appearance and tendency of the man, but its work is comparatively easy, and liable to few mistakes. After release, of course, something must be done to place this man, who has acquired a habit of and a liking for a correct life, in a position in community where he has a chance to maintain himself. He can not be turned loose to all temptations in face of the contempt of the world. But philanthropy can provide for that as a part of the system which has given him, by long discipline, the habit of decent living. And it will happen that when the community understands this system, the finding employment for men who have been in State-prison will not be so difficult as it is now.—*Charles Dudley Warner, in Harper's Magazine for February.*

Shall We Drink to a Day of Judgment?

It does no good to put certain drinks under a ban. "What is a man's meat is another's poison," reads just as well if drink is substituted for meat, and does not need repeating here. The immense variety of beverages which a person of ordinary contrivance can concoct, argues for a corresponding number of thirsty and willing throats waiting for them. They may be all good in their way; only see that each throat receives its proper portion. Do not give green tea to that nervous woman already so irritable she cannot dress the little children God has given her, without twitching and slapping them to the tune of cross words. It is poor enjoyment to pay for her morning cup,—the consciousness that she has lost the love of an innocent little child with the knowledge that she has soured its merry disposition for that day.

And do not, we beg, insist on a child over whom you have control, showing you the bottom of a large milk cup drained dry. Pleadings and tears do not avail with a mother whose mind is made up that "milk is good for her." How does that mother know, pray tell? Has she ever given the matter one earnest thought, beyond that of assenting to the general statement that milk is wholesome? That all children should like it, is equivalent with her to saying that they do. She does not consider that the little stomach, to be treated intelligently, should have this fact remembered and borne in mind, that its father could not drink milk when a child, and that now in middle life he recoils at the mention of it, with a memory for many an hour of a stomach soured after its trial. But that to her is all nonsense, even if she does remember it. That he could drink milk, so delightful to her, she does not for an instant doubt, were he really to make up his mind that he would. The will is at fault. And she secretly determines that their child shall learn early in life to "drink what is set before her." So the little thing is made wretched by nausea, and inward disturbance that makes outward irritability, keeping her in disgrace half the time, and in defiance the whole of it, simply because that mother would not bring her common sense and Christian judgment to bear upon the matter.—*Margaret Sidney, in Good Housekeeping.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and for sale by all druggists throughout the world. Price 25 cents a bottle. codlJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and enriched?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent. 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly instalments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free.* The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to complete Union Pedestal for its completion**, have proposed, from model furnished by the artist, a *perfect facsimile* Miniature Statue, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*—the Statue bronzed; Pedestal, nickel-silvered—at **One Dollar each** delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and enameled, at **Five Dollars** each, delivered.

No. 3 Statuette, *twenty inches high*, finely chased, Statue bronzed, pedestal, heavily silver-plated, with silver stars on it—at **Ten Dollars** each, delivered.

Much time and money have been spent in perfecting the Portraits, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $100,000 yet needed to pay for the iron fastenings and the erection of the Statue.

Only 1 subscription for the Miniature Statuettes will produce the desired amount.

Address, with remittance,

A Fool and His Money Soon Part.

Low true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him.—Editor *Journal and Courier.*

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental line. That system of through transportation which forms and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, unsurpassed by any railway in the world, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that sense of security which comes from a practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison, are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are served at the lowest rates. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

is the direct and favorite route between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Iowa.

Still south, DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

DYSPEPSIA.—Its Nature, Causes, Prevention and Cure. By JOHN H. MCALVIN, Lowell, Mass. 11 years Tax Collector. Sent free to any address.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer who will send me their Express and Post Office address. Dr. T. A. SLOCUM, 181 Pearl St., New York.

DEAFNESS its CAUSES and CURE, by one who was deaf twenty-eight years. Treated by most of the noted specialists of the day with no benefit. Cured *himself* in three months, and since then hundreds of others by same process. A plain, simple and successful home treatment. Address T. S. PAGE, 128 East 26th st., New York City.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I MEAN A RADICAL CURE. I have made the disease of FITS, EPILEPSY OR FALLING SICKNESS a life long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason I do not now hear from those who have tried my remedy. Send at once for a treatise and a FREE BOTTLE of my infallible remedy. Give express and post office address. Dr. H. G. ROOT, 186 Pearl St., New York.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBBNER & BRO., New Haven, Conn., is on every package.

Two Doses of ATHLOPHOROS cured my wife of acute neuralgia. Instead of being laid up for two or three days as usual, it was all over in three hours and she has not had an attack since.—JOHN ADAMS, 12 Howe Street, New Haven, Conn.

Some ATHLOPHOROS will not act as quickly as in other cases, but it is sure and the more severe the pain the more quickly it will act. There is no disease on earth more and none more intensely painful than neuralgia. Ladies particularly are subject to headaches of neuralgic origin. Neuralgia in any form can be surely cured. Athlophoros is absolutely safe and absolutely sure. Thousands who have suffered intensely with neuralgia and been cured by the use of Athlophoros prove the truth of this statement. Is it not worth a trial in your case?

Ask your druggist for Athlophoros. If you cannot get it of him we will send it express paid on receipt of regular price—$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

A robust farm hand at Orville, Col., is reported to get along quite well on about four hours' sleep a week, and to go without sleep for ten days and nights at a stretch occasionally.

American cheesemakers are not the only sufferers from the low price of their product. In France, Germany, Italy, and Holland prices range from 20 to 25 per cent lower than they did last year.

General Toombs's "last words" will hardly do to put in the list of the last words of great men. Said the dying Georgian to his grandson-in-law: "Lend me $100," and that was the final utterance of the old man.

The Oregon Legislature has passed a law to the effect that tricyclists and bicyclists must stop riding whenever they approach within 100 yards of a team, and after dismounting remain standing until the team has passed.

It is the fashion to place gold paper hearts and dried rosebuds wrapped in magnolia leaves on the tomb of Juliet at Verona. Juliet's tears are sold in Verona; but they are confectionery, a sort of Verona brandy ball.

Ouida's love affair with the marquis of Stafa, who dropped her for a younger and prettier woman, is said to have made the novelist a laughing stock of Florence, and to have inspired her story entitled "Friendship."

The Union Pacific Railway Company now operates 4,499 miles of road, and either controls or has proprietary interests in 1,305 miles more, total 5,804. In operating this system, which penetrates five states and territories, over 20,000 men are employed.

Mrs. McGahan, the widow of the noted war-correspondent, resides in New York with her little boy. She is a Russian lady, and her house is furnished in Russian fashion—one noticeable feature being a picture of Christ in each corner of every room, with a dim light burning before it.

It seems that the offense for which Li Fonfi Pao, lately Chinese ambassador in Berlin, was degraded from his rank and declared unfit for the public service, consisted in his having violated the etiquette of Pekin by endeavoring to secure a position in the provinces before reporting himself at court.

Miss Cleveland is bent upon tobacco reform in the White House. The smoke-laden atmosphere of the lobby has annoyed visitors during public receptions and she is using her influence to secure a ukase compelling all visitors to leave their lighted cigars upon the front steps of the Executive Mansion.

The "ordeal bean" of Madagascar, which innocent people are supposed to be able to eat with impunity, though it is sure death to criminals, is described as being a very poisonous drug which kills by arresting the respiration. Nevertheless, the chemists are working it up into a new medicine, and one investigator hopes to make it useful in palsy and other nervous troubles.

A New Haven boy recently "for fun," inserted an advertisement in a local paper for a husband. A Western farmer answered it, and the young man wrote at length, describing himself as a handsome, middle-aged woman, with a long bank account. The granger came on last week to see the woman. He is now after a young man with a suit for fraud and loss of time and money.

In his recent work on anthropoid apes, Dr. Hartmann, of Berlin, admits that "the most fanatical advocates of the doctrine of descent are becoming more and more convinced that man cannot be the issue of any extinct form of anthropoids," and says, "that hypothetical being, the common ancestor of man and apes, is still to be found—a task assigned to paleontology."

When Italian brigands paid their respects to chance foot travelers and loaded diligences, two or three decades ago, their occupation was a romantic one, but they are merely "road agents" now. Not long ago a daring band attacked a railroad train, and, after shooting the guard and securing a large sum of money, they "safely jumped from the train when it was going in full speed."

The London *Standard* says that the population of Paris is decidedly decreasing. Last autumn there were nearly 115,000 fewer inhabitants of the French capital than four years ago, and this diminution bears heavily on the cab and omnibus companies. Apparently the chief absentees are the foreign residents and the poorer working class, who can get food and house room cheaper outside than in the city.

The baby Infanta Mercedes of Spain cannot understand the death of her father, whom she may succeed as sovereign. The child believes the King to be still staying at the Pardo, and lately pulled a rose to pieces, put the leaves in an envelope, and gave them to King Alfonso's favorite valet, saying, "Here, Prudencio, go to the Pardo and give this to papa. Tell him to come soon, for it is so sad here—nobody does anything but cry."

At least one man in New York has seriously made a collection of bottle corks, another has consumed time and risked liberty and life in getting tiny chips of stone from noted monuments, and there is said to be a large room in a house up-town the walls and ceilings of which are hidden by cast-off hats of every degree of dilapidation. Where the craze will end it is impossible to say;

A Word to Workers.

If your avocations are mentally or physically laborious, if they confine you to the desk, and are of a nature to involve wear and tear of brain, and nervous strain, you may occasionally require some renovating tonic. Hostetter's Stomach Bitters is the article for you, it stimulates the failing energies, invigorates the body and cheers the mind. It enables the system to throw off the debilitating effects of undue fatigue, gives renewed vigor to the organs of digestion, arouses the liver when inactive, which it very often is with people whose pursuits are sedentary, renews the jaded appetite, and encourages healthful repose. Its ingredients are safe, and its credentials, which consist in the hearty endorsement of persons of every class of society, are most convincing. Admirably is it adapted to the medical wants of workers.

The life-raft on which seven men left the steamer Idlewild when she went on the rocks off Stamford, Conn., Feb. 26th, was found near Oldfield light on the 1st inst., empty. There is hardly a hope of the safety of its passengers.

"That tired feeling" from which you suffer so much, particularly in the morning, is entirely thrown off by Hood's Sarsaparilla.

Rev. Edward L. Houghton of Arlington, Mass., has received and accepted a call to St. Paul's Universalist church in Springfield, Mass.

Something that will quiet the nerves, give strength to the body, induce refreshing sleep, improve the quality of the blood, and purify and brighten the complexion, is what many persons would be very glad to obtain. Carter's Iron Pills are made for exactly this class of troubles, and are remarkably successful in accomplishing the ends desired, as named above. They are useful for both men and women. Sold by druggists. Price, 50 cents a box. See advertisement.

Purify Your Blood.

Among spring preparations, do not neglect that which is most important of all—your own body. During the winter the blood absorbs many impurities, which, if not expelled, are liable to break out in scrofula or other disease. The best spring medicine is Hood's Sarsaparilla. It expels every impurity from the blood, and gives strength to every function of the body. Sold by all druggists.

John C. Varney, one of the best known men in New Hampshire, died at Dover on Sunday morning of pneumonia. He was born there in May, 1823, and was a calico block printer by trade, but had conducted a newspaper and periodical store for thirty-three years. He was a member of the common council in 1870 and '71, was in the legislature of 1872-73, and was a prominent Mason, Odd Fellow, Knight of Pythias and Knight Templar. He leaves a widow and five children.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

The Amoskeag company of Manchester reported a gain of five hundred looms at work on Monday, the 1st inst., which brought the number of looms employed to nearly 2200, and this ratio of gain was looked for during several days to come. The strikers held their usual mass meeting in Smyth's hall in the afternoon, which was addressed by their leaders as heretofore. The meeting was followed by a dance.

A purgative medicine should possess tonic and curative, as well as cathartic properties. This combination of ingredients may be found in Ayer's Pills. They strengthen and stimulate the bowels, causing natural action.

The President's Message.

The President sent to the senate on Monday a message stating his reasons for declining to send papers relative to suspensions from office. These he contends are the private and confidential letters of political friends who wanted the offices for their adherents and were not intended for the public eye. If the president had said that he was actuated in these matters of removal solely by political considerations, he would have strengthened himself with his party, especially with the appointees whose nominations await confirmation. He argues the case, contends that he has been consistent with his professions, and succeeds admirably in bidding defiance to the senate and keeping himself and his political expectant friends in hot water. Verily, uneasy lies the head that wears the presidential hat.

A Too-Much-Lubricated Senator.

Mr. Payne, the father-in-law of Secretary Whitney, is likely to have a warm time in his endeavor to hold his seat in the United States senate. The mode by which he was elected at Columbus is being investigated by the Ohio legislature, and it is said the senate of the United States will be asked to examine into his case. He took his seat just a year ago, as the successor of Geo. H. Pendleton. The democrats who dislike to see the Standard Oil company manage the politics of their party, are favorable to a full investigation. Like the Knights of Labor, they hold that wealth should not be the sole qualification of incumbents of the senatorial office.

A despatch from Columbus, Ohio, says: "There are some rather sensational outgivings from members of the Payne investigating committee. One is that the majority of the committee are ready to report upon the testimony already taken; that a general conspiracy to corrupt the legislature has been proven, and that the committee thought of turning the investigation, with the testimony, over to the United States senate, but had concluded to go on taking testimony on the specific charges of bribery against members of the present legislature. A member of the committee says money will be specifically traced, and that members of both the present houses of the state legislature will be so involved as to create vacancies. He also says the committee placed a detective upon the track of John Huntington, who was popularly alleged to be the distributor of corruption funds at the time of the democratic legislative caucus, and that it was discovered that he was in Cuba, whither he went immediately after the investigation was instituted. Mr. Huntington was a prominent officer of the Standard Oil company. But the most sensational rumor, coming from the same source, is that a member of the legislature intends to turn state's evidence, and under a promise of immunity to go before the committee and make a clean breast of it."

The Arraignment of the Administration.

Representative Perkins, of Kansas, roused the house last week by a sweeping denunciation of the administration. His speech was a surprise. Rising to join in the general debate on the silver question he made a few pointed remarks, then, suddenly facing about, brought his batteries to bear on the government. "As to the administration," he said, "I wish to turn a Pan-Electric light upon it. It has broken its profession and violated the requirements of the law. It professes a desire to have an honest public service, and has appointed convicted felons to places of trust."

Here Mr. Buchanan, of New Jersey, rose to a point of order, and remarked satirically that it was in order for only the other side to criticise the administration.

Resuming, Mr. Perkins said: "If the house wishes the names of some of these men, there are democrats on the floor who can give them. There are vacancies in important diplomatic posts because odious persons have been appointed and rejected. The administration professes a wish to enforce the law, and yet it can be seen violating statutes and organizing to enforce its own ideas. It professes a desire to promote the interests of labor, yet it authorizes the employment of convict labor on national works, and breaks down the country's largest industrial institutions. It refuses to carry out the laws of Congress for the protection of American shipping. It has taken the mails from the most important line of American vessels, and has demanded of American ship-builders tests never heard of in naval warfare. It refused to take the Dolphin until she had encountered blizzards and storms so severe that the naval officers could not stand up to manage the ship. The national banks, Standard Oil and telephones are found represented in the cabinet. It professes a desire to lessen the burdens on the growth and development of sections, but it has no word for internal improvement, for the improvement of the great waterways of the country—the cheap transportation of the people. In its coils enterprise is strangled, workmen discharged, and doubt cast on the ability of American engineers, and eulogiums heaped upon John Bull's engineers. 'It's English, you know.'"

Rev. W. W. Downs, of Boston, whose name has appeared in the papers several times within a year past, has struck another streak of free advertising. On the evening of the 1st inst., at the Parker house, he made a violent assault upon Mr. H. I. Dillenbeck, a *Post* reporter. The contributions at Mr. Downs' ministrations next Sabbath will probably be satisfactory.

Served 'Em Right.

The senate on the 1st inst. rejected the nominations of Eben F. Pillsbury to be collector of internal revenue for the district of Massachusetts, and Charles H. Chase to be collector of internal revenue for the district of Maine. The republicans voted solidly for rejection, and as it was known that the full democratic support could not be counted on, the friends of the rejected "count-outers" did not venture to demand the yeas and nays. Pillsbury and Chase were not rejected for being democrats, but for their active participation in the notorious "Gareelon steal" of the state of Maine.

Three Peculiarities

Hood's Sarsaparilla, the great blood purifier and regulating medicine, is characterized by three peculiarities, namely:

1st: The combination of the various remedial agents used.

2d: The proportion in which the roots, herbs, barks, etc., are mixed.

3d: The process by which the active medicinal properties are secured.

The result is a medicine of unusual strength and curative power, which effects cures heretofore unequalled. These peculiarities belong exclusively to Hood's Sarsaparilla, and are

Unknown to Others

Hood's Sarsaparilla is prepared with the greatest skill and care, by pharmacists of education and long experience. Hence it is a medicine worthy of entire confidence. THE ATHLETIC CLUB'S BALL.

The attendance at the ball, both of spectators and dancers, was very large, as had been anticipated, the galleries being packed, and the floor so fully occupied that to dance was a real work of art; there were 100 couples in the grand march. The orchestral concert justified the expectations which had been raised, and the dancing music had the requisite snap to it. The decorations were much admired, and a large proportion of the ladies took the opportunity to visit the young fellows' gymnasium, which was thrown open to their inspection that evening. The club are to be congratulated on the success of their first annual ball.

MARITIME NOTES.

The steamer Williamsport, Miller master, left Philadelphia at 6:30 A. M. on Feb. 24th for this port, made Cape Cod at seven A. M. on the 28th, (Sunday,) and arrived in the lower harbor at seven P. M. on Monday, the 1st inst., having been thirty-six hours battering her way from Cape Cod here, against the northwest gale and a heavy, choppy sea, the spray freezing as it struck, and weighting the steamer down until she was "logy," out of trim and almost unmanageable. She was nineteen hours making forty-three miles between Cape Cod and Cape Ann, but had the worst of the trip after passing Thatcher's island, the seas being higher, the spray flying worse, and the vapor rising from the water being as bad as a fog; her crew were pleased enough when they picked up the sound of the Whale's-back fog-horn, and worked with a will for two hours cutting away the ice forward so as to let go the anchor, one of the officers and several of the crew receiving slight frost-bites while doing it. As she came up the river to the Concord railroad wharf, Tuesday morning, she was "a sight to behold," her sides from the water-line up, her decks and houses, and her rigging and masts for twenty feet above the deck being thickly coated with ice; slender ropes were in some cases as big as a man's body with ice, and forward of the pilot-house the vessel looked like an iceberg. One big lump of ice, about five feet high and three or four feet in diameter, the mate said was an anchor stock. The captain reports the passage as unpleasant a one as he ever made, or wishes to make. The ice brought in by the steamer was estimated at 200 tons or more. She was inspected by many citizens during the day of her arrival, and was photographed by Davis Bros. and L. V. Newell.

Charles Austin of York, Me., fifty-eight years old, one of the crew of the schooner Rockaway, was drowned on Friday night last by falling into the dock at Carter's wharf, Boston, while trying to board the schooner. His body was found floating in the dock Saturday.

Ezra H. Winchester, Esq., reached home from San Francisco on Monday.

To-morrow evening, in Music hall, the pranks of the Dalys in their "athletic comedy, Vacation," will attract a big crowd; this is assured by the manner in which the plan of the hall at Goodrich's store is already marked up. Better secure your seat to-day, if you want one.

A reception in honor of Bishop Niles and wife was given at the rectory of St. John's church from two to 4:30 o'clock Monday afternoon, and notwithstanding the blustering inclemency of the weather the rectory was thronged with those who were desirous of testifying their regard for the estimable prelate and his consort.

Mr. John Griffin, a marine of thirty years enlistment, came home to Portsmouth on liberty, Monday morning, and on Tuesday in company with three men and an officer returned to the Wabash at Boston.

At the late annual meeting of the York Association, Capt Frank P. Emerson was chosen president for the ensuing year; Henry Moulton, Lemuel Mitchell and Charles Grant, vice presidents: Edward S. Marshall, treasurer; Allen Moulton, clerk; Dr. John C. Stewart, Charles H. Junkins and Hon. Edward C. Moody, prudential committee. Dr. Stewart, in behalf of G. Alexander Emery of Portsmouth, tendered the association the gift of five hundred books for a public library, and the offer was accepted.

Hon. Roscoe L. Bowers, republican, was on the 1st inst. re-elected mayor of Saco, defeating Hampden Fairfield, the candidate of the democrats and "citizens."

A sergeant of marines in command of eight men arrived in this city on Tuesday morning by rail, and proceeded to the navy yard.

Naval Intelligence.

Chief Engineer P. A. Rearick has been ordered to the Norfolk navy yard.

Assistant Engineer Howard Gage has been detached from the New York navy yard, and ordered to the bureau of steam engineering.

Chaplain James J. Kane, U. S. N., sailed on Saturday, Feb. 20th, to join the U. S. S. Pensacola on the European station. Chaplain Kane only returned from Europe in the Cunard steamer Umbria in December last, from sick leave. His present voyage will be his twenty-first trip across the ocean as a passenger, fourteen of which have been since he entered the naval service in 1861. The chaplain was wounded during the late war while serving as an ensign, and nearly the whole sick leave granted him since the war has been spent in Europe.

At the recent fair held in Newcastle by the lodge of Knights of Pythias in that town, the parlor stove offered as a prize was drawn by Albert Amazeen, a young man who had no use for the stove. It was put up by him again, and was drawn the second time by Capt. Thaddeus Tarlton, who very kindly presented it to Mr. John N. Vennard and wife, an aged couple who, we have no doubt, will appreciate such a good deed and enjoy the welcome warmth it sends out.—*Times.*

Recent transfers of real estate in York county, as recorded in the office of the register of deeds: Kittery—George H. Hayes to Calvin L. Hayes, real estate for $2; Calvin L. Hayes to Mary F. Hayes, real estate for $2. York—Mark Knight of Eliot to Florence J. Knight of South Berwick, woodland in York for $45; Harriot J. Emerson to Daniel N. Armstrong, real estate for $50; Joseph G. Swett of York to Samuel S. Allen of Brookline, Mass., the Sweet estate in York for $10,000. Wells—Christopher Baugdon of Wells to Portland Star Match Co., woodland in Wells for $500; George E. Baker to Arthur B. Norton et al., woodland for $125.

In Portland, Me., March 1st, Charles J. Chapman, republican, was elected mayor by a plurality of 1214 over Enoch Knight, democrat. Last year John W. Deering, democrat, had 967 votes more than the republican candidate, and a clean majority of 311. The republicans have the city councils.

The British steamship Missouri, from Boston for Liverpool, is probably a total wreck off Holyhead, Ireland. The steamer has capsized and lies broadside to the sea, and her destruction is believed to be only a question of time. The crew left her just before she went over. They reached the land in safety. The cargo is washing out of the wrecked vessel, and boats are near her rescuing what portions of it they can. Two hundred and ninety-five head of cattle were lost.

Read what the people say concerning the ability of Dr. Thomas' Eclectric Oil to cure asthma, catarrh, croup, colds, etc. Mrs. Dora Koch of Buffalo, says: "For croup it is decidedly efficacious." [Mrs. Jacob Mellinger of Marion, Ohio, says the same thing.] S. S. Graves, Akron, N. Y., writes: "Had asthma of the worst kind; took one dose of Thomas' Eclectric Oil and was relieved in a few minutes. Would walk five miles for this medicine and pay $5 a bottle for it." Druggist C. R. Hall, Graysville, Ill., says: "Cured an old cleared throat for me in twenty-four hours." "Sat up to bed and coughed till the clothing was wet with perspiration. My wife insisted that I use Thomas' Eclectric Oil. The first teaspoonful relieved me." E. H. Perkins, Creek Centre, N. Y., Thomas' Eclectric Oil is also a Tetter external application for rheumatism, cuts, scalds, burns, bites, bruises, etc. When visiting the druggist, ask him what he knows of Dr. Thomas' Eclectric Oil; if he has been long in the drug trade he sure he will speak highly of it.

Worked Wonders.

"My daughter was very bad off on account of a cold and pain in her lungs. *Dr. Thomas' Eclectric Oil cured her in twenty-four hours.* One of the boys was cured of sore throat. This medicine worked wonders in our family." Alvah Tucker, Lake Mohonk, N. Y.

it is reported that the last victim proposes to spend the winter in Washington and secure a collection of buttons, all of the contributors to be Congressmen.

Stories of the great wealth of Colorado mine-owners are often greatly exaggerated. When Senator Tom Bowen of Colorado first made his appearance in Washington two years ago he was said to be worth at least $2,000,000. Mr. Stapleton of the Rocky Mountain *News* is authority for the statement that Mr. Bowen had to borrow the money to defray his expenses to Washington, and was never at any time worth more than $50,000. The story of Bowen's great wealth, Stapleton says, grew out of the fact that Bowen had an interest in several mines that would have made him a millionaire if they had paid anything, but they did not. Many of the alleged Colorado millionaires, Mr. Stapleton said, have the same foundation for their wealth.

Good beer was classed as being the drink next best to water by Dr. Lancereaux, at the Antwerp convention against alcoholic drinking. His remark applied to pure, unadulterated, well-made beer. He said that in France, where the beer of the country is scarcely ever doctored or tampered with, alcoholism is rare, so long as they confine themselves to that beverage. Wine of good quality is less innocuous. For children it is always bad, and in adults it predisposes to tuberculosis, nervous troubles, nightmare, and other affections. But grain and potatoes are the agents whence is obtained the most deleterious form of alcohol. These spirits provoke nervous disorders which commence in the extremities, pricking sensations, chills, insomnia or else hideous visions, tendency to suicide by hanging or drowning, and in every instance premature old age.

Two New York Widows.

Two of the richest widows in New York writes a correspondent from that city, have died during the last year—Mrs. Commodore Vanderbilt and Mrs. Edwin D. Morgan. The former was the most remarkable instance of conjugal influence on record. She married a covetous old man, who held his immense wealth with a grip which had always been proof against every appeal, but she triumphed over this confirmed parsimony in two notable instances. One was the purchase of a church for her pastor (C. F. Deems), who has its free use during life, and the other was the gift of a million to the Nashville University. The beauty of this work is its disinterestedness. She never attempted to get control of her husband's wealth, but only sought to move him to deeds of beneficence. This was a noble record and deserves grateful remembrance. Mrs. E. D. Morgan was a kind-hearted and very useful woman, who rose with her husband to wealth and social rank, but always preserved the simplicity of early life and was deeply beloved by all who knew her. Her benefactions to the Woman's Hospital and other important institutions are too well known to require further reference, but (personally speaking) I shall always remember her for kind acts done to a friendless boy who served her husband as clerk and who lived in the family, thus coming directly under her domestic influence, which he cherishes in grateful memory.

Customer—"Why, hang it, man! You're wiping off my plate with your handkerchief." Now waiter—"That's all right, I'm going to put it in the wash next week, anyhow."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of MRS WINSLOW'S SOOTHING SYRUP for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some Brunswick hundred millions have been invested in the Ranches and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise Funds for its completion,** have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue proper; finished metal, nickel-silvered,—at **One Dollar** each, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully finished and nickeled, at **Five Dollars** each, delivered.

No. 3 Statuette, *twelve inches high*, richly chased, finished in gold, silver, **Heavily Silver-plated**, with PLUSH STAND, at **Ten Dollars** each, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The Lady Bartholdi Fund of $100,000 completes the Pedestal, but it is estimated that $250,000 are needed to pay for the iron fasteners and the erection of the Statue.

Lists of subscriptions for the Miniature Statuettes will position the desired amount.

Address, with confidence,

RICHARD BUTLER, Secretary,
American Committee of the Statue of Liberty,

Cream and Cold Weather.

What a luxury is a bath in summer. Surely, but a greater luxury is a clear head in winter; just when almost everybody is sneezing and suffering with a cold in the head. When you are attacked use Ely's Cream Balm. It cures colds in the head, and what is better, it cures the worst cases of chronic catarrh and hay fever. Not a liquid, not a snuff. Pleasant to use. Quick relief. Radical cure.

Mr. I. B. Noxon, cashier of First National bank, of Sing Sing, N. Y., suffered greatly from costiveness and dyspepsia, due to overwork and want of regular exercise. After wasting much time and money in seeking a remedy, he began taking the old reliable Brandreth's Pills, two every night for three weeks. He now has a good appetite and capital digestion, and will answer any written or personal inquiry regarding his remarkable cure.

A Fool and His Money Soon Part.

Low true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him. —Editor *Journal and Courier.*

The Only

Medicine I ever found that helped me at all is ATHLOPHOROS, and I have not had the Rheumatism since I took it."—EDWIN SEARS, Provincetown, Mass.

A professor in a medical college once said to his class "put your hand in a vice, turn the screw until the pain is all you can bear, and that's rheumatism; turn the screw once more, and that's neuralgia—and gentlemen, the medical profession know no cure for either." That was before the discovery of **ATHLOPHOROS** which does and will cry out **Rheumatism** and **Neuralgia** quickly cure both rheumatism and neuralgia, and many physicians use it regularly and freely admitting that they can prescribe nothing else so effective.

Many persons have tried so many so-called remedies, without benefit, that they have no faith to try more, but it is worth your while to try **Athlophoros**, if you have any doubts as to its value write for names of parties in your own state who have been cured by its use.

Ask your druggist for **Athlophoros**. If you cannot get it of him we will send it express paid on receipt of regular price—**$1.00** per bottle. We prefer that you buy it from your druggist, but if he haven't it do not be persuaded to try something else, but order at once from us as directed.

PRESIDENT'S MESSAGE.

In Reply to the Senate Rgarding Removals and Appointments.

To the Senate of the United States:

Ever since the beginning of the present session of the senate, the different heads of the departments attached to the executive branch of the government have been plied with various requests and demands from committees of the senate, from members of such committees and at last from the senate itself, requiring the transmission of reasons for the suspension of certain officials during the recess of that body, or for the papers touching the conduct of such officials, or for all papers and documents relating to such suspension, or for all documents and papers filed in such department in relation to the management and conduct of the offices held by such suspended officials.

The different terms from time to time adopted in making these requests and demands, the order in which they succeeded each other, and the fact that when made by the senate the resolution for that purpose was passed in executive session, have led to a presumption, the correctness of which, will, I suppose, be candidly admitted, that from first to last the information thus sought, and the papers thus demanded were desired for use by the senate and its committees in considering the propriety of the suspensions referred to.

Though these suspensions are my executive acts, based upon considerations addressed to me alone, and for which I am wholly responsible, I have had no invitation from the senate to state the position which I have felt constrained to assume in relation to the same or to interpret for myself my acts and motives in the premises.

In this condition of affairs I have forborn addressing the senate upon the subject lest I might be accused of thrusting myself unbidden upon the attention of that body.

But the report of the Committee on the Judiciary of the senate, lately presented and published, which censures the Attorney-General of the United States for his refusal to transmit certain papers relating to a suspension from office, and which, also, if I correctly interpret it, evinces a misapprehension of the position of the Executive upon the question of such suspensions, will, I hope, justify this communication. This report is predicated upon a resolution of the senate directed to the Attorney-General and his reply to the same.

This resolution was adopted in executive session devoted entirely to business connected with the consideration of nominations for office. It required the Attorney General "to transmit to the senate copies of all documents and papers that have been filed in the Department of Justice since the first day of January, 1885, in relation to the management and conduct of the office of District Attorney of the United States of the Southern District of Alabama." The incumbent of this office on the 1st day of January, 1885, and until the 18th day of July ensuing, was George M. Duskin, who on the day last mentioned was suspended by an Executive order and John D. Burnett designated to perform the duties of said office. At the time of the passage of the resolution above referred to the nomination of Burnett for said office was pending before the senate and all the papers relating to said nomination were before that body for its inspection and information. In reply to this resolution the Attorney General, after referring to the fact that the papers relating to the nomination of Burnett had already been sent to the senate, stated that he was directed by the president to say that "the papers and documents which are mentioned in said resolution and still remaining in the custody of this department, having exclusive reference to the suspension by the president of George M. Duskin, the late incumbent of the office of District Attorney for the Southern District of Alabama, it is not considered that the public interests will be promoted by a compliance with said resolution and the transmission of the papers and documents therein mentioned to the senate in executive session." Upon this resolution and the answer thereto the issue is thus stated by the Committee on the Judiciary at the outset of the report.

"The important question then is, whether it is within the constitutional competency of either house of congress to have access to the official papers and documents in the various public offices of the United States created by laws enacted by themselves."

I do not suppose that "public offices of the United States" are regulated or controlled in their relations to either house of congress by the fact that they were "created by laws enacted by themselves." It must be that these instrumentalities were created for the benefit of the people and to answer the general purposes of government under the Constitution and the laws, and that they are unincumbered by any lien in favor of either branch of Congress growing out of their construction and unembarrassed by any obligation to the senate as the price of their creation.

The complaint of the committee that access to official papers in the public offices is denied the senate, is met by the statement that at no time has it been the disposition or the intention of the president or any department of the executive branch of the government to withhold from the senate official documents or papers filed in any of the public offices, while it is by no means conceded that the senate has the right in any case to review the act of the Executive in removing or suspending a public officer upon official documents or otherwise, it is considered that documents and papers of that nature should, because they are official, be freely transmitted to the senate upon its demand, trusting the use of the same for proper and legitimate purposes to the good faith of that body, and though no such paper or document has been specifically demanded in any of the numerous requests and demands made upon the departments, yet as often as they were found in the public offices they have been furnished in answer to such applications.

The letter of the attorney general in response to the resolution of the senate in the particular case mentioned in the committee's report was written at my suggestion and by my direction. There was therein no official papers or documents filed in his department relating to the case within the period specified in the resolution. The letter was intended by its description of the papers and documents remaining in the custody of the department to convey the idea that they were not official; and it was assumed that the resolution called for information, papers and documents of the same character as were required by the requests and demands which preceded it. Everything that had been written or done on behalf of the senate from the beginning pointed to all letters and papers of a private and unofficial nature as the objects of search, if they were to be found in the departments, and provided they had been presented to the executive with a view to their consideration upon the question of suspension from office. Against the transmission of such papers and documents I have interposed my advice and direction. This has not been, as suggested in the committee's report, upon the assumption on my part that the attorney general or any head of a department "is the servant of the president, and is to give or withhold copies of documents in his office according to the will of the executive and not otherwise," but because I regard the papers and documents withheld and addressed to me or intended for my use and action, purely unofficial and private, not infrequently confidential, and having reference to the performance of a duty exclusively mine. I consider them in no proper sense as upon the files of the department, but as deposited there for my convenience, remaining still under my control. I suppose if I desired to take them into my custody I might do so with entire propriety, and if I saw fit to destroy them no one could complain. Even the committee in its report appears to concede that there may be with the president or in the department papers and documents which, on account of their unofficial character, are not subject to the inspection of the Congress.

A reference in the report to instances where the house of representatives ought not to succeed in a call for the production of papers is immediately followed by this statement: "The committee feels compelled to state, after a somewhat careful research, that within the foregoing limits there is scarcely in the history of this government until now any instance of a refusal by a head of a department, or even of the president himself, to communicate official facts and information, as distinguished from private and unofficial papers, motives, views, reasons and opinions, to either house of Congress, when unconditionally demanded."

To which of the classes thus recognized do the papers and documents belong that are now the objects of the senate's quest?

They consist of letters and representations addressed to the executive or intended for his inspection. They are voluntarily written and presented by private citizens, who are not in the least instigated thereto by any official invitation, or at all subject to official control. While some of them are entitled to executive consideration, many of them are so irrelevant or in the light of other facts so worthless that they have not been given the least weight in determining the question to which they are supposed to relate. Are all these, simply because they are preserved, to be considered official documents and subject to the inspection of the senate? If not, who is to determine which belong to this class? Are the motives and purposes of the senate, as they are day by day developed, such as would be satisfied with my selection? Am I to submit to their's at the risk of being charged with making a suspension from office upon evidence which was not even considered?

Are these papers to be considered official because they have not only been presented but preserved in the public offices? Their nature and character remain the same, whether they are kept in the executive mansion or deposited in the departments. There is no mysterious power or transmutation in the departmental custody, nor is there magic in the undefined and sacred solemnity of departmental files. If the presence of these papers in the public offices is a stumbling block in the way of the performance of senatorial duty it can be easily removed. The papers and documents which have been described derive no official character from any constitutional, statutory or other requirement making them necessary to the performance of the official duty of the executive.

It will not be denied, I suppose, that the president may suspend a public officer in the entire absence of any papers or documents to aid his official judgment and discretion. I am quite prepared to avow that the cases are not few in which suspensions from office have depended more upon oral representation made to me by citizens of known good repute and by members of the house of representatives and senators of the United States than upon any letters and documents presented for my examination. I have not felt justified in sustaining the veracity, integrity and patriotism of senators, or ignoring their representations because they were not in party affiliation with the majority of their associates, and I recall a few suspensions which bear the approval of individual members identified politically with the majority of the senate.

While, therefore, I am constrained to deny the right of the senate to the papers and documents described, so far as the right to the same is based upon the claim that they are in any view of the subject official, I am also led unequivocally to dispute the right of the senate by the aid of any documents whatever, or in any way save through the judicial process of trial or impeachment to review or reverse the act of the executive in the suspension during the recess of the senate of federal officials. I believe the power to remove, or to suspend such officials, is vested in the president alone by the constitution, which in express terms provides that "that the executive power shall be vested in a president of the United States of America," and that "he shall take care that the laws be faithfully executed."

The senate belongs to the legislative branch of the government. When the constitution by express provision supervested to its legislative functions the right to advise and consent to appointments to office and to sit as a court of impeachment, it conferred upon that body all the control and regulation of executive action supposed to be necessary for the safety of the people, and this express and special grant of such extraordinary powers, not in any way relating to or growing out of general senatorial duty, and in itself a departure from the general plan of our government, should be held, under a familiar maxim of construction, to exclude every other right of interference with executive functions.

In the first Congress which assembled after the adoption of the constitution, comprising many who aided in its preparation, a legislative construction was given to that instrument in which the independence of the executive in the matter of removals from office was fully sustained. I think it will be found that in the subsequent discussions of this question there was generally if not at all times a proposition tending to in some way curtail this power of the president by legislation, which furnishes evidence that to limit such power it was supposed to be necessary to supplement the constitution by such legislation.

The first enactment of this description was passed under a stress of partisanship and political bitterness which culminated in the president's impeachment. This law provided that the Federal officers to which it applied could only be suspended during recess of the senate when shown by evidence satisfactory to the president to be guilty of misconduct in office, or crime, or when incapable or disqualified to perform their duties, and that within twenty days after the next meeting of the senate it should be the duty of the president "to report to the senate such suspension, with the evidence and reasons for his action in this case." This statute, passed in 1867, when Congress was overwhelmingly and bitterly opposed politically to the president, may be regarded as an indication that even then it was thought necessary by a Congress determined upon the subjugation of the executive to legislative will to furnish itself a law for that purpose instead of attempting to reach the object intended by an invocation of any pretended constitutional right.

The law which thus found its way to our statute book was plain in its terms and the intent needed no avowal. If valid and now in operation it would justify the present course of the senate and command the obedience of the executive to its demands. It may, however, be remarked in passing, that, under this law the president had the privilege of presenting to the body which assumed to review his executive acts, his reasons therefor, instead of being excluded from explanation or judged by papers found in the department.

Two years after the law of 1867 was passed and within less than five weeks after the inauguration of a President in political accord with both branches of congress the sections of the act regulating suspensions from office during the recess of the senate were entirely repealed and in their places were substituted provisions which, instead of limiting the causes of suspension to misconduct, crime, disability or disqualification, expressly permitted such suspension by the president "in his discretion," and completely abandoned the requirement obliging him to report to the senate the evidence and reasons for his action. With these modifications and with all branches of the government in political harmony, and in the absence of partisan incentive to capricious obstruction, the law, as it was left by the amendment of 1869, was much less destructive of Executive discretion, and yet the great General and patriotic citizen who, on the 4th day of March 1869, assumed the duties of Chief Executive, and for whose administration of his high office the most hateful restraints of the law of 1867 were, on the 5th day of April, 1869, removed, mindful of his obligation to defend and protect every prerogative of his great trust, and apprehensive of the injury three ended the public service in the continued operation of these statutes, even in their modified form, in his first message to congress addressed to the question, set forth their unconstitutional character and hurtful tendency in the following language:

"It may be well to mention here the embarrassment possible to arise from leaving on the statute books the so called 'tenure of office acts' and to earnestly recommend their total repeal. It could not have been the intention of the framers of the Constitution when providing that appointments made by the president should receive the consent of the senate; that the latter should have the power to retain in office persons placed there by federal appointment against the will of the president. The law is inconsistent with a faithful and efficient administration of the government. What faith can an executive put in officials forced upon him, and those, too, whom he has suspended for reason? How will such officials be likely to serve an administration which they know does not trust them?"

I am unable to state whether or not this recommendation for a repeal of these laws has been since repeated. If it has not, the reason can probably be found in the experience which demonstrated the fact that the necessities of the political situation but rarely developed their vicious character. And so it happens that after an existence of nearly 20 years of almost innocuous desuetude these laws are brought forth, apparently, the repealed as well as the unrepealed, and put in the way of an Executive who is willing if permitted to attempt an improvement in the methods of administration.

The constitutionality of these laws is by no means admitted. But why should the provisions of the repealed law, which required specific cause for suspension, and a report to the senate of "evidence and reasons," be now in effect applied to the present executive instead of the law afterward passed and unrepealed which distinctly permits suspension by the president "in his discretion," and carefully omits the requirement that "evidence and reasons for his action in the case" shall be reported to the senate?

The request and demands which, by the score, have for nearly three months been presented to the different departments of the government, whatever may be their form, have but one complexion. They assume the right of the senate to sit in judgment upon the exercise of my exclusive discretion and executive function, for which I am solely responsible to the people from whom I have so lately received the sacred trust of office. My oath to support and defend the constitution; my duty to the people who have chosen me to execute the powers of their great office and not to relinquish them, and my duty to the Chief Magistracy, which I must preserve unimpaired in all its dignity and vigor, compel me to refuse to comply with these demands.

To the end that the service may be improved, the senate is invited to the fullest scrutiny of the persons submitted to them for office in recognition of the constitutional power of, that body to advise and consent to their appointment. I shall continue as I have thus far done to furnish, at the request of the confirming body, all the information I possess touching the fitness of the nominees placed before them for their action, both when they are proposed to fill vacancies and to take the place of suspended officials. Upon a refusal to confirm I shall not assume the right to ask the reasons for the action of the senate nor question its determination. I cannot think that anything more is required to secure worthy incumbents in public office than a careful and independent discharge of our respective duties within their well defined limits. Though the propriety of suspensions might be better assured, if the action of the president was subject to review by the senate, yet, if the constitution and the laws have placed this responsibility upon the executive branch of the government, it should not be divided, nor the discretion which it involves relinquished.

It has been claimed that the present executive having pledged himself not to remove officials, except for cause, the fact of their suspension implies such misconduct on the part of a suspended official as injures his character and reputation and therefore the senate should review the case for his vindication. I have said that certain officials should not in my opinion be removed during the continuance of the term for which they were appointed solely for the purpose of putting in their place those in political affiliation with the appointing power, and this declaration was immediately followed by a description of official partisanship which ought not to entitle those in whom it was exhibited to consideration. It is not apparent how an adherence to the course thus announced carries with it the consequences described. If in any degree the suggestion is worthy of consideration it is to be hoped that there may be a defense against unjust suspension in the justice of the executive.

Every pledge which I have made by which I have placed a limitation on my exercise of executive power has been faithfully redeemed. Of course the pretence is not put forth that no mistakes have been committed; but not a suspension has been made, except it appeared to my satisfaction that the public welfare would be improved thereby. Many applications for suspension have been denied, and the adherence to the rule laid down to govern my action as to such suspensions has caused much irritation and impatience on the part of those who have insisted upon more changes in the offices.

The pledges I have made were made to the people, and to them I am responsible for the manner in which they have been redeemed. I am not responsible to the senate, and I am unwilling to submit my actions and official conduct to them for judgment.

There are no grounds for an allegation that the fear of being found false to my professions influences me in declining to submit to the demands of the senate. I have not constantly refused to suspend officials, and thus incurred the displeasure of political friends and yet wilfully broken faith with the people for the sake of being false to them. Neither the discontent of party friends nor the allurements constantly offered of confirmations of appointees conditioned upon the avowal that suspensions have been made on party grounds alone, nor the threat proposed in the resolutions now before the senate that no confirmations will be made unless the demands of that body be complied with, are sufficient to discourage or deter me from following in the way which I am convinced leads to better government for the people.

FLORIDA NOTES.

JACKSONVILLE, Feb. 24th.

New Hampshire people are found all over the state.

Geo. W. Fernald of Portsmouth owns and runs the Fernald house at Tarpon Springs.

Nat. S. Patten is doubling his ample Kentucky fortune with a saw mill at Tarpon Springs.

Capt. Ross has just sold a half-interest in his mill for the sum he paid for the whole, at Tavares.

Frank Jones has captured Tavares.

Capt. James W. Fitzgerald is superintendent of the People's line of steamers, and has amassed a fortune of $100,000.

Capt. John Fitzgerald commands the Chattahoochee and is content with $50,000.

Engineer Ed. Fitzgerald is following in his brothers' footsteps on the De Bary-Baya line.

Capt. John L. Amazeen, superintendent of the Artificial Stone company, has been appointed harbor master by Governor Bloxham.

Capt. George Raitt reproduces his grim smile on the Everglades, and the deck-hands understand that said smile means business. George is a hustler.

James Burns has further renovated himself into a competency—a veritable jack-at-all-trades.

Wallace R. Moses is the happy preemptor of 160 acres of land on the Indian river, but resides near Sanford, being an official of the Florida Southern railroad.

Col. James S. Peirce is cutting a big swarth with his patent artificial stone process. A Minneapolis syndicate eagerly snapped up the right for Minnesota last summer, and erected forty-one dwellings. Recently a syndicate of steamboat men have purchased the right for Florida, and companies are forming for New York, Michigan, Illinois, Dakota, South Carolina and Louisiana. The material used hardens in ten days for building, and is stronger each successive year. It is manufactured at thirty-three per cent less cost than brick. The Jacksonville company have rented a large wharf and storehouses, and at present have more orders for tiling than they can fill.

Hosea B. Carter, late of the United States, and now of Orlando, Florida, and Rockingham county, N. H., will invade Hampstead soon.

From Titusville on the Indian river, south of Eden, the orange trees are in full leaf. The frost touched that region lightly.

Sapodillos are in the Jacksonville market.

Eden, on the Indian river, is rightly named. Gen. Harry A. Pierce, of Topeka, Kansas, is authority for the statement that it is impossible for a person to "take cold" there. Gen. Pierce boasts of a rubber tree four feet in diameter, on a section of land he recently purchased at Eden. The milk-white fluid flows at once from the stab of a pen-knife.

The J., T. & K. W. R. R. now runs trains direct to Titusville, on the Indian river, in eight hours—a reduction from former speed of twenty-seven hours.

The most popular resident of Florida is Land Register John F. Rollins, brother to your Ex-Senator "Ned," and owner of the beautiful Fort George island at the mouth of the St. Johns.

Five manatees, sea-cows, were seen at Jupiter inlet, three weeks ago, by Gen. Pierce. Four were frozen, and one had been shot and dragged ashore. The species has been regarded as nearly extinct.

An enthusiastic lover of birds states that the mocking bird is wholly domestic. He is not found in solitudes, but will seek mankind. Build a house in the woods, and he will follow you. Abandon it, and he leaves his nest to fly to the vicinity of other habitations. He is now tuning up for the spring burst of melody.

One Portsmouth man went to bed at his hotel in Jacksonville, when the mercury was at twelve above zero, with his clothes and shoes on—to keep warm. Cause, houses here are not built to be weather-tight.

Peach trees (Peen-To) were in full bloom at Jacksonville, the first week in February.

The most successful fruit grower in Florida is Major Rooks of Fruitland Park. He was a treasury expert at Washington six years ago, and came here with less than $2000. His health was poor. In six years, his weight increased from 107 to 170 pounds. He has fifty acres of one hundred variety of fruits, and values them at $50,000.

A a company is putting in 3000 acres of cocoanuts on the shores of Lake Worth. As they cannot average fifty nuts to the tree, and can be bought in Central America at one cent each, northern men wishing investments in Florida property would do well to go slow on cocoanut farming.

The Manchester Strike Ended.

The striking weavers of the Amoskeag mills received on the 3d inst. a telegram from the national assembly of the Knights of Labor, at Philadelphia, saying no help could be given them; this rendered the collapse of the strike certain. About 3200 looms were running that day, and in the afternoon overtures were made by the strikers to the management about going to work again.

Secretary Whitney has written a letter explaining his connection with the Broadway Surface Railway business in New York city. For a distinctively reform administration, the present one seems to require an unusual amount of time for giving explanations.

The Dingley bill, so called, which provides for the abolition of compulsory pilotage, has been favorably reported to the house, and ought to pass. Its strongest opponents are the New York pilots, who like to draw pay for services neither rendered nor needed.

—"I feel sorry for Judge Yates of Peoria." "You do?" "Yes. You know he tried to kill himself a little while ago and failed." "Yes." "Well, now, I see he has gone to Canada. I tell you there is a touch of pathos in the spectacle of a man trying in vain to go somewhere else and finally having to go to Canada."

FRANKLIN THEATRE.

Christine Brown took the honors of the evening, singing the plaintive solo "Poor, Wandering One" with a voice that captivated the audience with its sweetness and purity. It was the gem of the evening, and she was encored again and again.—*Rutland (Vt.) Herald, Jan, 15th.*

Miss Brown will appear at Franklin theatre Friday evening, and Saturday afternoon and evening, with Miss Grace L. Varrell and Frank W. Moses. See advertisement.

THE EIGHT HOUR LAW.

A Washington despatch of the 2d inst. says the house committee on claims has agreed to report favorably a bill granting compensation for overtime to government employes who worked more than eight hours after the passage and before the enforcement of the eight-hour law. Sould this bill become a law, as it ought, there will be a good number of dollars coming to workmen in this vicinity who were employed on the navy yard during the long-continued disregard of the eight-hour law by various heads of the navy department. The letter of the law was defied and its plain intent disregarded for years, by the very men whose sworn duty it was to enforce and carry out its provisions; and the men who worked ten hours a day, or any other number above eight, are as much entitled to the portion of their pay wrongfully withheld as they were to the portion they received.

The ice pack, which lay above Portsmouth bridge on Monday and Tuesday of this week, went up river at high tide on the night of Tuesday, and coming down was broken into fragments and carried off to sea on Wednesday morning. The river channel continues free of fixed ice from Dover point to the ocean.

The Chorus voted a few evenings since not to accept free tickets to the Charity Concert.

Seventeen years ago on the 1st inst. Mr. Hanson Hoyt moved his household effects from a dwelling on Dennett street to a house on what is now Northwest street, Christian Shore, and remembers the day particularly because there was two feet of snow on a level to plough through, and the thermometer stood at ten degrees below zero.

The house committee on claims has agreed to report favorably bills to reimburse the officers and crews of the United States steamers Ashuelot and Tallapoosa for losses sustained by the wrecking of those vessels, and to pay the relatives of those persons who lost their lives in those wrecks a sum equal to one year's sea pay of the deceased. The Ashuelot was lost on a reef in the China seas through the drunkenness of her commander, and the Tallapoosa was sunk in Vineyard sound, while on the trip from this port to New York, by a three-masted schooner.

Rev. D. M. Fiske, a native of North Hampton, has accepted a call to the Congregational church at Jackson, Mich.

The result of the town meeting in Kennebunk was a surprise to both political parties; an excited and somewhat turbulent meeting elected the candidate on the "citizens'" ticket by a majority of twenty-three over the republicans,—a decided turn-over, as the republicans carried the town by over 400 majority at the late presidential election. In Kennebunkport four republicans and six democrats were elected to the several town offices.

AFFAIRS IN KITTERY.

KITTERY, ME., March 24.

Mr. Frank C. Eaton leaves town this week, with his family, for Kennebunk village, where he will reside, having obtained a permanent situation with a manufacturing company there.

Fred A. Fernald finished the winter term of school in district No. 1 on Friday last, and to-day left town for Boston; thence he will go to Hanover, N. H., to resume his studies at Dartmouth college.

Mr. John W. Ball, formerly of this town but now of Lynn, Mass., had the misfortune to fall from the top of a bay window on which he was at work tinning, one day last week; he was carried to his home insensible, but has since then greatly improved. The distance which he fell was fourteen feet, and it was miraculous that he escaped without a more serious injury. His many friends here are glad to learn that he is getting better.

Mr. Robert S. Amee and wife returned last week from an extended visit to Portland, where they went during the good sleighing last month. The homeward trip was however made with some difficulty, Mrs. Amee returning by rail, while our friend Bob made the stretch from Portland to Ogunquit on runners, where he was obliged to abandon his sleigh and take wheels to make the remaining distance home. He returned, however, as soon as practicable, to get his sleigh, for fear some of those "Gunkit" fishermen would take it to go clamming in.

Sunday, the 28th ult., was the day appointed for quarterly conference at the 1st and 2d Methodist churches, but the inclemency of the weather during the day and evening made it anything but pleasant to be out of doors, and it was thought best that the presiding elder, Rev. W. S. Jones, should not visit the 1st church at North Kittery this quarter, consequently he preached at the 2d church day and evening.

Rev. Perry Chandler has been invited to deliver an address at the ministers' meeting to be held at the house of Rev. C. D. Hainer in Portsmouth on Monday, the 8th inst.

The concert in Trefethen hall by Misses Hayes and Sanderson, which was to have occurred Thursday evening, the 25th ult., on account of cold and stormy weather postponed to Monday evening, the 1st inst.; and then it was so cold and blustering that only a small audience were present, but those who did brave the elements and venture to the hall were well paid for their trouble. The singing by Misses Hayes, Sanderson and Paul was of high order; the reading by Miss Sanderson was fine, her articulation being very clear and distinct; the piano solos by Miss Grace Ball were exceedingly good for one so young; and Master Moore, with the castanets, would have been hard to beat by older artists. Miss Hayes was presented with an elegant bouquet of flowers after rendering her first song—a gift of several of the young gentlemen, the presentation of which was made by Miss Gertrude Marr. As a whole the concert was very satisfactory, and we hope the company will consent to repeat it under more favorable circumstances in the near future. SUB ROSA.

CONSTIPATION!

There is no medium through which disease so often attacks the system as by Constipation, and there is no other ill flesh is heir to more apt to be neglected, from the fact material inconvenience may not be immediately felt from irregular action of the bowels. When there is not regular action the retention of decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing piles, fistula, headache, impure blood and many other serious affections. BURDOCK BLOOD BITTERS will immediately relieve, and one bottle positively cure or relieve any case of Constipation.

"Was troubled for a year with torpid liver and indigestion, and after trying everything imaginable used BURDOCK BLOOD BITTERS. The first bottle revived me and the second cured me entirely."—J. S. Williamson, Rochester, N. Y.

A Novel Feature in Investments.

The wide country after having undergone a period of depression is now asking itself, what business has least been affected and unjurjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly instalments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $8,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectus and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion,** have prepared from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height,*—The Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each,** delivered.

No. 2 Statuette, *in same metal, twelve inches high,* beautifully bronzed and nickeled, at **Five Dollars each,** delivered.

No. 3 Statuette, *twelve inches high,* finely chased, Statue bronzed, Pedestal **Heavily Silver-Plated,** with patent stand, at **Ten Dollars each,** delivered.

Much time and money have been spent in perfecting the Statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* fund of $100,000 completes the Pedestal, but it is estimated that $60,000 yet needed to pay for the Iron Fortifications and the erection of the Statue.

Lists of subscriptions for the Miniature Statuettes will produce the desired amount.

Address, with remittance,

After being laid up six weeks with acute rheumatism, by taking two doses of Athlophoros I enjoyed a good night's rest. I can recommend it as a very valuable medicine, and always keep a bottle in the house. Mrs. Cordelia Marcotte, No. 8 Walnut street, Haverhill, Mass.

Suit has been instituted in favor of the State vs. Colonel Thomas W. Pierce, to determine the liability of sheriffs in connection with the service of precepts committed to them. Damages are laid at $4000, and the action is returnable at the May term of the court to be held in Plymouth.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

IA MAP

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS MAP THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important midcontinental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It makes the favorite and best route to and from points West, Northwest and Southwest, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air brakes, and that exacting discipline which governs the practical operation of all its trains. Over specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Best Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth, Atchison or Topeka are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of latest design, and sumptuous Dining Cars, in which elaborately spread meals are furnished at cost. Between Chicago and Kansas City and Atchison also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, Lake Superior resorts, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

The Only Cure For Consumption.

(From the Washington, D. C. National Republican.)

The practice of drenching the human stomach with cod liver oil for consumption, is fast falling into disuse. This is owing to the utterly indigestible properties of this nauseating quackery. There is no stomach in the world that can digest cod liver oil in its pure state. For this reason, a certain, per cent. of alcohol enters into the composition of this so-called relief. Consumptives, so soon as they discover the nature of their malady, rush to the nearest drug store and begin at once to take all kinds of nauseating medicines, but are stimulants and poisonous intoxicants. Their stomachs soon become deadened and deranged, and under such circumstances it is no wonder that they cannot build up the system, nor repair the waste of tissue. In the United States there is probably no disease so universally fatal and so universally feared as consumption. There are few households where there has not been at least one death from it. The public as well as the medical profession have long ago decided that medicinal agents having the character of food, are the only things to relieve any value in the treatment of this disease. So important is the use of alcohol in the treatment of disease, that Professor H. C. Wood, Professor of Therapeutics, University of Pennsylvania, says: "In phthisis (consumption) and its congeners (scrofulous) affections, there can be no doubt as to the great value of alcohol." From a work entitled "An epitome of Medicine, Surgery, Obstetrics and Bethology," consisting of lectures by Professors of the Faculty, University of Penna. viz: Alfred Stille, M. D., L.L. D., D. Hayes Agnew, M. D., L.L. D.; R. A. F. Penrose, M. D., L. D.; James Tyson, M. D., under the head of diseases of the Bronchi and Lungs, it says: "Whiskey and food must not be neglected." In the treatment of Influenza, "Alcohol and food may be considered as the type of treatment." In the treatment of Chronic Bronchitis, "Alcoholic stimulant must not be lost sight of, either as permanent or temporary stimulant." In Spasmodic Asthma "Give alcohol." In Pneumonia, "Alcohol an good food are the principal elements in the treatment." In phthisis (consumption) "Alcoholic drinks are nutrients or retarders of tissue waste;" they promote digestion and nutrition. Medicinal alcohol is, of course given in the form of pure whiskey. Duffy's pure malt whiskey is the standard and the purest. The proprietors are the discoverers and only manufacturers in the world of an absolutely pure whiskey.

I wished Death

would end my agony, my suffering from neuralgia was so great. I had terrible spells every two or three weeks before taking ATHLOPHOROS, which was a year ago last April, and have only had two since. Words can never express my relief."—So writes Mrs. C. N. PAGE, Bolton Ville, Vt.

Many ladies suffer from headaches which are of neuralgic origin. In such cases ATHLOPHOROS is invaluable, as it will quickly remove the cause.

Thousands are enduring untold agony from neuralgia who might be cured by using

ATHLOPHOROS

Thousands of people will not fear to drink neuralgia away. Neuralgia and rheumatism are twin diseases. Athlophoros cures both. Hundreds of people have written us that they would recommend it. Send for names of parties in your own State who have been cured by it if you have any doubts as to its merit.

Ask your druggist for Athlophoros. If you cannot get it of him we will send it express paid on receipt of regular bottle, $1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

There are moments in the life of even the wretched country editor when his tired nerves are thrilled by the touch of joy. There are little intervals when the odor of ink and benzine vanishes like the dewy jewels that sparkle on the rose when kissed by the morning sun, and the polluted air seems laden with richest perfumes. Such a moment came to us yesterday evening, when three of Brockville's best citizens burst in on us all at once like a ray of light and subscribed for the *Tribune*, each paying a year in advance.—*Punxsutawney Tribune.*

"Will you pay me this bill, sir?" said a tailor in Regent street, London, to a gentle masher who owed him a pretty long bill. "Do you owe anybody anything, sir?" asked the youth. "No, sir," said the tailor. "Then you can afford to wait!" and off he walked. A day or two afterward the tailor called again. The masher was not at his wit's end yet; so, turning to his creditor, he says: "Are you in debt to anybody?" "Yes, sir," said the tailor. "Well, why don't

Where the President Stands.

The president takes the ground that letters and statements in writing, sent for the purpose of influencing his decision in the performance of a public duty, are private papers. That is, he reached an official result by secret evidence which he will not bring to light. Just what becomes of the celebrated mugwump maxim taught the president concerning a public office being a public trust, it is difficult to perceive; and how far this doctrine tallies with the principles of a government which is of the people is what some of the democratic senators will possibly attempt to explain, while they have not a particle of faith in the position assumed by the president, which compels them to argue against their convictions.

The Constitutional Convention.

An anonymous circular, bearing no date, has been mailed from Boston, possibly in the interests of the insurance or other corporations of Massachusetts, advocating opposition to a constitutional convention in New Hampshire on the ground of its probable cost. One of the reasons adduced is that

The last constitutional convention and its results was a very "expensive luxury" to the people and tax payers of this state, and it is very likely if some of the changes then made were to be tried over again they would *not* be adopted; consequently we believe it sensible to profit by our experience and reject this scheme.

It would be as well perhaps when our Boston friends undertake to manage New Hampshire political affairs through the mails, to have their communications posted at some office in the state.

The New Navy.

Washington advices of the 3d inst. say the house committee on naval affairs that day agreed by a unanimous vote to report a bill to increase the naval establishment. It authorizes the president to have constructed two sea-going, double-bottomed, armored vessels of about 6000 tons displacement, designed for a speed of at least sixteen knots an hour, costing not more than $2,500,000 each; toward the construction of said vessels $1,250,000 is appropriated. Three protected, double-bottom cruisers, cost each not more than $1,500,000; toward the construction of said cruisers the sum of $1,100,000 is appropriated. Four first-class torpedo boats, costing in the aggregate not more than $400,000, which amount is appropriated. One torpedo cruiser, to cost not more than $300,000, which is appropriated.

The bill requires that the vessels shall be built of steel of domestic manufacture, having a strength of not less that 60,000 pounds per square inch, and an elongation in eight inches of not less than twenty-five per centum. The president is authorized to direct the completion of the double-turreted monitors Puritan, Amphitrite and Terror at a total cost not to exceed $5,600,000, to be distributed as the secretary of the navy shall deem necessary, and for this purpose $2,000,000 is now appropriated.

The secretary of the navy is directed to cause at least one or more of the new vessels provided for to be constructed, and one or more of the said monitors to be completed, in one or more of the navy yards of the United States. The engines, boilers and machinery of all the new vessels are to be of domestic manufacture, and procured by contract, unless the secretary of the navy shall be able to procure the same at fair prices. It is provided that the secretary shall purchase abroad only such shafting and other material as it may be impossible to obtain in the United States in time for use in the completion of the vessels provided for.

The sum of $1,000,000 is appropriated toward the armament of the vessels authorized by act of March 3d, 1885, of vessels authorized by this act, and of the unfinished monitors mentioned, and the secretary is authorized to direct the application of such portions of this sum as may be necessary to the manufacture or purchase of such tools and machinery or the erection of such structures as may be required for use in the manufacture of such armament or any part thereof, provided that he may contract with domestic manufacturers for the construction of such portions of the heavy guns provided for as may not be built by the government.

The sum of $125,000 is appropriated for the manufacture or purchase of torpedoes of domestic manufacture, and to make experiments with torpedoes. Two hundred and fifty thousand dollars, or so much thereof as may be necessary, is appropriated to be expended under the direction of the secretary of the navy, in order to carry out the purposes of this act in improving the plant of such of the navy yards of the United States as the secretary may select.

Heavy Failure.

F. W. Nickerson & Co., shipping agents and commission merchants of Boston, made an assignment on the 3d inst. to Joseph B. Russell, the liabilities being placed at $900,000. The credit of the firm stood high up to the time of the assignment. The wreck of the steamship City of Columbus in January, 1884, caused an immediate loss to the firm of over $100,000, and heavy incidental expenditures; and non-paying investments since have further crippled their resources. The failure was a surprise in Boston's business circles.

Among the signs that spring is coming pretty soon are the arrivals of Capt. Charles Drew from Dover, looking after the up-river tugboat Ann, and Capt. Wm. G. Cheney of the gondola Hardchance, (formerly the H. P. Spinney,) from South Berwick. The gondola, which has laid up during the winter at the "Cowpens," has commenced carrying coal from J. Albert Walker's to the navy yard. Capt. Cheney is looking well after his rustication, though he says he has been working hard all winter.

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

NOTICE TO MARINERS.

The lighthouse board gives notice that on and after April 1st, 1886, a light of the fifth order will be shown from the structure recently erected on the north end of Conanicus island, Narragansett bay, R. I. The apparatus will show a fixed red light and illuminate the entire horizon; the focal plane is forty-seven feet above mean sea level, and the light should be seen in clear weather eight and one-half nautical miles. The structure consists of a square wooden tower rising from the corner of a one and a half story frame dwelling; the dwelling and tower are painted white, and the tower is surmounted by a black lantern. During thick and foggy weather a bell will be struck by machinery, a double blow every twenty seconds.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, March 4th, Mayor Eldredge in the chair:

Present the full board, except Alderman Coffin, absent through sickness.

The records of the last meeting were read and approved.

Petition of Engine Co. No. 3 and Hook & Ladder Co. for fire alarm indicator, was laid on the table.

On petitition of Richard D. Smart and other members of the police force, for increase of pay, leave to withdraw was voted.

Matter of getting Cambridge time via Western Union wires at a cost of $50 per year, was referred to the mayor.

Mayor reported a reduction in price of gas to the city, of 16 2-3 per cent.

Mr. Carey was granted leave to withdraw his claim for damages for injury to his wife from a fall on the sidewalk.

On Frank O. Brown's claim of $45, for three calves killed by dogs, it was voted that $30 be paid.

Approved department bills amounting to $2,818.25 were ordered to be paid.

Resignation of officer James McCarthy was accepted. An informal ballot was had for a successor to be appointed by the mayor, and resulted as follows: John S. Wendell had two votes James, Kehoe one, Wm. Canty one, H. C. Amazeen one, Alvah C. Amazeen three. The matter was then laid over.

The same supervisors of elections were appointed as served last year.

Street light asked for on Mulberry street was granted.

There was a long discussion about the fire alarm, and about the muddle in answering it at the Cabot street fire. Ald. Cook said the alarm was inefficient. Ald. Magraw moved that a larger bell be placed on the south ward building, and the city clerk wrs instructed to correspond with the makers of bells, as to prices.

The city marshal was ordered to keep a nightly record of the beats of the officers.

Adjourned to the call of the mayor.

GOOD TEMPLARS.

On Wednesday evening, the 3d inst., Strawberry Bank Lodge, I. O. G. T., had one of the most enthusiastic and successful meetings held since its organization, the occasion being an official visit by George A. Bailey, G. W. C. T., and other members of the grand lodge. Five new members were admitted, and several candidates proposed; rousing speeches were made by Chief Templar Bailey, Rev. J. D. Waldron, Chas. H. Clough and others, and there was singing by Miss Lizzie Brown. The members of the lodge are thoroughly awakened to the work, and propose to follow the example of Whipple Kodge of Kittery, and make large additions to their number at every meeting.

FRANKLIN THEATRE.

Miss Christine Brown was the bright particular star of the evening, and came in for the largest share of the applause. Her singing was excellent and her acting charming.—*Morning Telegram*, Plattsburg, N. Y.

The lady complimented by the *Telegram* will appear at Franklin theatre this evening, in the new musical sketch, "Mouser, Crummy & Co.," with Miss Grace L. Varrell and Mr. Frank W. Moses. Reserved seat tickets can be procured at Goodrich's.

MARITINE NOTES.

The United States fish commission steamer Fish Hawk dropped down to the lower harbor on Wednesday afternoon, the 3d inst., and got hold of her anchor chains, which were slipped when she came up to the navy yard on the 27th ult. Thursday morning she hove up and cleared her anchors, and also brought up another anchor, with one fluke broken and having forty-five fathoms of chain attached. The Fish Hawk was ready to sail Thursday afternoon, for the southward.

The following despatch was sent from Newburyport, Mass., on the 3d inst:

The Philadelphia & Reading coal steamer Achilles sailed from Philadelphia on Tuesday, Feb. 23d, for this port, with 800 tons of coal. Nothing has been heard from the steamer by the company's agents here, and much alarm is felt for her safety.

Capt. Miller, master of the steamer Williamsport, of the same line, which left Philadelphia on Feb. 24th, the day after the Achilles sailed, reports that he passed her to the eastward of Cape Cod; she was going very slowly at the time, not making over two miles an hour, but appeared to be all right. The Williamsport, much the larger boat, was not going very much faster, but arrived in Portsmouth lower harbor on the evening of the 1st inst. The Achilles was built at Chester, Pa., in 1870, registers 571 tons, and carries a crew of fifteen men. She may have been blown off.

Later.—After the above was in type on Thursday the following was received:

NEWBURYPORT, MASS., March 4th.—The overdue coal steamer Achilles arrived at the bar this morning, and attempted to reach her pier, but as the river is frozen some distance below the company's wharf the steamer was obliged to put to sea again.

The fishing schooner Northern Eagle went on the rocks at Clark's island, lower harbor, Wednesday night of this week, and was towed off and up river Thursday forenoon. Whatever repairs may be needed will be made on the railway at Kittery.

A small fishing schooner was ashore on Four-tree island, Thursday forenoon, high and dry at low water; but she came off without assistance on the succeeding high tide.

The steamer Williamsport, Miller master, which arrived at Concord railroad wharf on the 2d inst. with a cargo of coal in the hold and a load of ice on deck, sailed for Philadelphia on the 4th at eleven o'clock A. M.

Mr. Charles F. Staples of Eliot neck reports much less fish in the Piscataqua during the late cold weather than for many years previously. But the eagles and fish-hawks have of late been coming down numerously from the frozen waters above to the open river in search of chilled cunners and small cod, and on Thursday he saw three large eagles flying at once above Boiling rock.

The engines of the U. S. S. Vandalia, lying at the navy yard wharf, were turning on Thursday.

Mr. Willis Tetherly, who comes down every day from Eliot Neck to Ira C. Seymour's smithery on Bow street to work, crossed Sturgeon creek to Kittery on the ice, Thursday morning last.

BIRTHDAY PARTY.

On Friday evening, Feb. 26th, Mr. Josiah F. Adams and wife celebrated the twentieth birthday of their youngest daughter, Mardie I. Adams, by an elegant party given at their home. In spite of the extremely inclement weather a large number of guests were present, and the evening was spent in social and intellectual enjoyments appropriate to the festive occasion. The fair young hostess won many compliments for the grace with which she entertained so large a company, and was the recipient of many and elegant presents from friends and relatives, including a costly gold watch and chain from her parents. Daniel McKenzie, drunk, fine $3, costs $6.90. County farm in default of payment.

"Young Mrs. Winthrop," Bronson Howard's most beautiful domestic play, will be presented in Music hall on Wednesday of next week, by the Madison Square Theatre Co. of New York.

Mr. Solomon Seymour on the night of the 28th ult. lost a fine cow from milk fever. She was eight years old, raised by him of imported Jersey and Durham stock, yielded eighteen quarts of milk a day, and was valued at $100. A wealthy farmer might—but probably wouldn't—bear such a loss with complacency, but Mr. Seymour's blacksmith establishment on Christian Shore is dormant on account of the increasing infirmities of the worthy proprietor.

Atkinson's Jollities will be at Music hall on Thursday evening, March 11th, and will present the three-act farcical romance "Aphrodite," with a strong cast and their own special scenery, the last act being given in Japanese costumes throughout.

PSORIASIS

And All Itching and Scaly Skin and Scalp Diseases Cured by Cuticura.

PSORIASIS, Eczema, Tetter, Ringworm, Lichen, Pruritus, Scald Head, Milk Crust, Dandruff, Barbers', Bakers', Grocers' and Washwoman's Itch, and every species of Itching, Burning, Scaly, Pimply Humors of the Skin and Scalp, with Loss of Hair, are positively cured by CUTICURA, the great Skin Cure, and CUTICURA SOAP, the exquisite Skin Beautifier externally, and CUTICURA RESOLVENT, the new Blood Purifier internally, when physicians and all other remedies fail.

PSORIASIS, OR SCALY SKIN.

I, John J. Case, D. D. S., having practised dentistry in this county for thirty-five years and being well known to thousands of households, with a view to help any who are afflicted as I have been for the past twelve years, testify that the CUTICURA REMEDIES cured me of Psoriasis, or Scaly Skin, in eight days, after the doctors with whom I had consulted gave me no help or encouragement. NEWTON, N. J. JOHN J. CASE, D. D. S.

DISTRESSING ERUPTION.

Your CUTICURA REMEDIES performed a wonderful cure last summer on one of our customers, an old gentleman of seventy years of age, who suffered with a fearfully disfiguring eruption on his head and face, and who had tried all remedies and doctors to no purpose. J. F. SMITH & CO. TEXARKANA, ARK.

MORE WONDERFUL YET

H. E. Carpenter, Hoboken, N. J., cured of Psoriasis or Leprosy, of twenty years' standing, by CUTICURA REMEDIES. The most wonderful cure on record. A disfigurement of the face for him daily. Physicians and his friends thought he must die. Cure sworn to before a Justice of the Peace and Henderson's most prominent citizens.

$500 FOR NOTHING.

Wm. Gavlon, 67 Arlington Ave., Charlestown, Mass., writes: "Having paid about $500 to first class doctors to cure my baby, without success, I tried the CUTICURA REMEDIES, which completely cured, after using three packages."

Col. McBride Sumpter, of Austin, while in New York, dropped into a fashionable restaurant, and having surprised his stomach with a small repast, asked the waiter what was the damage. On being told, Col. Sumpter handed out a $5 bill, but on receiving back his change he made the ghastly discovery that there was a dime missing. He demanded an explanation from the waiter, who was a Frenchman. "Ze dime is for my doucer." "I didn't order any, and I won't pay for it," retorted Sumpter. "I mean, sare, ze dime is for my poor boire." "It's for your poor boy, is it? That's a different thing. I didn't know you had sickness in your family. Here's a quarter for him, poor feller." And, with the consciousness of having relieved the sufferings of the sick and afflicted, Col. Sumpter put his hat on the side of his head and sauntered out of the hostelry.—*Texas Siftings.*

Cure for Snake Bites.

Writing to the *Medical Times* from the Deleware water gap, where poisonous snakes abound, Dr. J. B. Shaw says that he was called to see a child aged 10, female. She was bitten by a copperhead on the foot, about one inch above the middle toes. He saw her in four hours from the time she was bitten. Her symptoms then were: Extreme prostration with nausea; respiration very slow; pulse weak; eyes fixed dilated, with a wild look. The foot and leg were very much swollen and purple, and very painful. He gave her sixty minims of spirit of ammon. aromat. hypodermically, ordered one ounce of whisky every two hours, and a large poultice of bruised raw onions to be applied to the foot and to be renewed every hour. The whisky and onions were kept up until the child was well, which was on the third day. The above has been his treatment for the last six years, and he has never lost a case, nor has he heard of a death from snake bite where the treatment has been carried out.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing one installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond; First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospect-uses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect-in-detail* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed; Pedestal, nickel-plated,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, with FLUTED STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* fund of $100,000 completes the Pedestal, but it is estimated that $50,000, yet needed to pay for the iron fastenings and the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Cream and Cold Weather.

What a luxury is a bath in summer. Surely, but a greater luxury is a clear head in winter; just when almost everybody is sneezing and suffering with a cold in the head. When you are attacked use Ely's Cream Balm. It cures colds in the head, and what is better, it cures the worst cases of chronic catarrh and hay fever. Not a liquid, not a snuff. Pleasant to use. Quick relief. Radical cure.

A Dominion dispatch says there is at the present moment a deficit of $6,000,000 in the treasury, and there remains no alternative but the reimposition of duty on tea and coffee to help make up the deficiency. Duty on a large number of other articles will probably be largely increased.

A Fool and His Money Soon Part.

How true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him. —Editor *Journal and Courier.*

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important addition which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of Magnificent Day Coaches, Elegant Reclining Chair Cars, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars in which unsurpassed cooked meals are leisurely eaten. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the northern lakes, through summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of Interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul, and intermediate points.

THE HOPE OF NEW ENGLAND.

The last census is not altogether pleasant reading in many portions for the sons of New England, but it conveys lessons which they cannot afford to ignore. If it tells that Maine and Vermont stood stationary as regards populations between 1870 and 1880, it also records the rapid growth and prosperity of many cities and towns which are beginning to tread upon the heels of older communities. It seems to say that to manufactures, not to agriculture, must New England apply herself, and that to the skill of her artisans must she look for her old-time supremacy. This changed condition of affairs is recognized in many enterprising cities, a good example of which may be found in Waterbury, the bustling Connecticut city upon the Naugatuck that is so rapidly coming to the front as a manufacturing center. Waterbury has wide-awake citizens who take every opportunity to push it and to welcome new ideas. The advantage of such a progressive spirit is well shown in the case of G. W. Angell, who lives at No. 204 South Main street, Waterbury, and who gives this personal experience:

"For twenty years I have suffered tortures from chronic rheumatism. The doctors said I was incurable, but thanks to Athlophoros, I have now taken a new lease on life. I had tried numerous remedies with the hope of at least allaying my suffering, but all failed until a friend advised me to try Athlophoros. I did so, and as the result am now looking and feeling as though I had never known what rheumatism was."

Mrs. E. Vickers, of No. 46 Pleasant street, says:

"It is owing to Athlophoros that I am now alive. I suffered with inflammatory rheumatism for years, most of the time being perfectly helpless. One bottle of Athlophoros cured me. I can sincerely say that there is nothing like it for the speedy relief and permanent cure of rheumatism and can recommend it to all suffering from that disease."

The testimony is reinforced by that of Mrs. Jane Downey, of No. 24 Pleasant street, a near neighbor of Mrs. Vicker's, in this story of her case:

"Two bottles of Athlophoros cured me of inflammatory rheumatism. My family physician advised me to take the remedy, saying that he had done all he could for me, but could give me no relief. Athlophoros drove the rheumatism away, and I am happy to say that it has never come back. My daughter, who suffered terribly from rheumatism, was also cured by taking half a bottle of the medicine."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist but if he haven't it, do not be persuaded to try something else, but order at once from us as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

A GEORGIA SCENE.

How the Boys and Girls Used to Amuse Themselves in the Olden Time

After the writer had grown some older and had been regularly adopted in the family of "we uns" and ran with the boys he was allowed all the privileges of the young men of the community and was told to consider himself at home, which he did with a good will. On a certain occasion it was decided by the young ladies and gentlemen to have a frolic at J. W.'s, and I was warned to be on hand with a few pounds of sugar for sweetening and a couple of skeins of silk for fiddle strings. Strings were scarce about here then and they asked you a quarter a piece for them. I was on hand at the time appointed with the sweetening and the silk and ready to go after my "gal." It was different then from now. If you carried no partner with you, you had to take the chances, as every man had the exclusive right to his own partner. When I got there she was ready with a new homespun dress which had never been worn. I, of course, praised the check, and the stripe, and the fit. It only took six yards of cloth to make a girl a dress in those days. But she announced that she was ready to start and out we went. I jumped upon Bark Mill. She lit up behind me and caught a good hold. And that pony might fear, but she was there if I did not come off. Away we went, and came in sight of J. W.'s about sundown. The crowd was gathering in rapidly, but no fun had commenced. As we rode up some of the girls sang out:

"Now we will have some fun. Here comes J. and his gal."

My partner rolled off like a bag of rolls. I tied my pony to a fresh sapling and we went in. The girls all yelled out:

"Why, here comes J.," like they did not know I was coming, and that I was always on hand at every folic.

"Now we will have a reel," they said. "Did you bring the silk?"

"Certainly. Did you ever know me to fail?"

The old lady wanted to know where the sweetening was, as she wanted it for the eggs. J. W. B. spoke up and said by all means give it to the "gabs," we would get it back in kissing them. We took our partners, away went the fiddle and on went the dance—a long one. We danced for a while and then we would play awhile. "Old Sister Phoby," "Johnny Brown," "It rains and it hails," "The London bridge is breaking down" and "The big cat kicked out the little cat's eye" were among the favorite plays. The beauty of it was every play wound up with a rain of kisses. It was a glorious frolic. The kissing made all hands feel like they were at home. The writer made a small mistake and liked to have caused trouble by merely an oversight. We were playing a play where kissing was mixed up smartly. One young lady was fanning her face and snuff freely. Her tooth-brush was in her mouth and a little stream of amber ran down at each corner. I kissed her on the cheek. She stopped the song and yelled out:

"J. is not playing fair. He kissed me on the cheek."

I begged her pardon and meekly asked her to hold her face around. Doing so I bussed her square in the mouth. You might have heard the echo a quarter. But this restored peace and the frolic went on. W. B. was in his right element. He called all the sets and arranged all the couples. No frolic could get on without him. Uncle Jack was there, too, and along toward the morning hours he wanted to dance. We began to see signs of red-eye. Men began getting noisy, dancing stronger, and butting on their manhood, and finally wound up in a little row, but with a few skinned heads and some bruises, about day all made for their partners and carried them home to think and fix for another frolic soon.—*Franklyn (Ga.) News.*

Swordfish

Strange though the fact may seem, the terrible swordfish, of which we have all heard so much, is a near cousin to the gentle and delicious mackerel. The resemblance is a scientific one, and hence one that must be sworn by, for, if scientists say a thing is so, we must take it for granted, because they know better than we. They tell us that the swordfish and mackerel, are as nearly related as the dog and wolf, or the eagle and hawk. The difference, leaving out of the question that of size, which is of no importance from a scientific standpoint, is mainly in the long, sword-like upper jaw, which gives the fish its name.

A fish so curious as this could not help attracting the attention of all observers, and for this reason we see it spoken of by nearly all the early writers from Pliny down. Christopher Columbus in the height of his triumph as a discoverer deposited in the old collegiate church at Siena, in northern Italy, where he was educated, a memento of his first voyage across the seas, consisting of the helmet and armor worn by the discoverer when he first landed in America, together with the weapon of a warrior killed by his party. This weapon is the sword of a swordfish.

Members of the swordfish family are found in all seas of the old and new worlds, and is one of the most widely distributed groups of fishes. I have seen them basking in the sun on the surface of the water south of New England, scores of them all around with nothing but their dorsal fin projecting above the water. They seem to enjoy lying still in the sun as if asleep. One day we wanted to get a specimen for the National museum, so the long-boat was put over from the steamer Albatross and I was allowed to go with them to see the sport. We rowed nearly half

Physicians Have Found Out

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive sub-cutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous, chalky deposit which produces stiffness and distortion of the joints. No fact, which experience has demonstrated in regard to Hostetter's Stomach Bitters, has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

The striking street car men in New York attempted to interfere with the running of the cars, and a serious riot would have resulted had not prompt action been taken by the police.

"The tree of deepest root is found less willing to quit the ground." So friends and citizens, don't let neuralgia and rheumatism get rooted in the system, but kill them with Salvation Oil, the greatest cure on earth for pain. For sale by all druggists at twenty-five cents a bottle.

Ex-Gov. Frederick Smyth was united in marriage to Miss Marion H. Cossar at the resident of the bride's grand-parents in Scotland on Monday, February 22d. The governor will return with his bride about the first of next month.

Three Reasons

Why every one needs, and should take Hood's Sarsaparilla in the spring:—

1st: Because the system is now it its greatest need. Hood's Sarsaparilla gives strength.

2d: Because the blood is sluggish and impure. Hood's Sarsaparilla purifies.

3d: Because, from the above facts, Hood's Sarsaparilla will do a greater amount of good now than at any other time. Take it now.

The strike of weavers in the Amoskeag mills at Manchester is over, they having all gone into the mills Friday morning, in accordance with a vote of the previous day.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

Stephen S. Sleeper, a selectman of Fremont, was prosecuted by the agent of the S. P. C. A. for beating a cow to death, last week. He was held probably guilty, and put under bonds for his appearance before the supreme court in April.

Doctors Who Disagree.

"For creeds of faith let graceless bigots fight, he can't be wrong whose life is in the right." So says the poet; and we may add that while homœpaths and allopaths are fighting over the merits of their systems of medicine, the man who uses St. Jacobs Oil for rheumatism will always be right.

The President's Dilemma.

The New York *Tribune* has the following in regard to the real features of the dilemma in which President Cleveland has placed himself:

The president's real difficult may as well be understood. The public files, in relation to most of the officials he has removed, show that there are absolutely no charges against them except the charge that they are republicans. But that is not all. Those same public files disclose how the removed officials actually conducted their duties, both before and after the inauguration of a new president, and that they were exceptionally worthy and useful men. Thus they prove, not merely that there was no just cause for removal, but that, except for dirty partisan work, these were just the men a president should have desired. That is the reason the president does not dare to have the public files examined. It would not help him to pass himself off as a reformer, if the papers drawn from official files should prove that a man removed had been commended by all his superiors, and especially by President Cleveland's own cabinet officers, as exceptionally faithful and efficient. It would not help the president to have the record of those men contrasted with the conduct of many of the political strikers he has appointed. President Cleveland does not dare to have the official records produced, because they would prove that, not in a few isolated instances only, but in most of his removals, he has been false to his own pledges and professions and false to public interests.

The Case in a Nutshell.

The New York *World*, which in point of circulation and influence is easily first among the democratic papers of the country, states the issue between the president and the senate in these terse and true terms:

The case is in a nutshell. The president's absolute power to suspend an officer "in his discretion" during the recess of the senate is not questioned. His "reasons" for this suspension are not asked. His private correspondence is not demanded. His "prerogatives" are not invaded. Papers put on file in a public department become public documents. The attorney-general does not deny this. He says that the president does not consider "the public interests will be promoted" by sending to the senate the papers still remaining on file in the department of justice, because they refer to a suspension and not to a nomination.

The issue, therefore, is not as to the president's right to make any suspension he pleases; not as to his obligation to give the senate any reasons for or explanation of his official action, but as to the right of the senate to public papers on file in a government department.

How will the democratic senators meet this issue? How ought it to be met? Have they not made a great mistake by resolving to stick to secret sessions? Is secrecy democratic? Is concealment democratic?

Suppose Grant or Hayes or Garfield had locked up the public records of the departments from Congress, is it not certain that the democratic senators would have denounced the act in vigorous language?

The Knights of Labor in New England.

BOSTON, March 5.—The history of the Knights of Labor and the increase of the membership all over New England, will be given in a broadside to-morrow's Boston *Sunday Globe*. It will give a good idea of the order, and will be widely read. Thousands of extra copies of the *Sunday Globe* will be sold.

The Mechanics Fire Association had their annual dinner on the evening of the 5th inst., at the Rockingham house, the host of the evening being Mr. George F. Thompson, late manager of the Wentworth and Rockingham hotels. The officers of the organization for the past year were: President, Jos. P. Morse; secretary, D. J. Vaughn; auditors, Geo. W. Pendexter, William R. Martin, William A. Hodgdon. The number of members is thirty-three, the full number allowed.

"WITHIN THE SHADOW:" by Dorothy Holroyd; 12mo, price fifty cents. This volume is the latest addition to the Household Library, and is a story of such brilliancy and power as to at once entitle its author to recognition as a writer of high ability. She possesses strong originality, a keen eye for character, and a vigorous style, three qualities which are essential to success in the construction of a work of fiction. The plot she here sets herself to work out is ingenious, and yet not complicated or improbable, and the events happen so naturally that the reader is never called upon to exercise his imagination or to manufacture reasons for the action of the narrative. The heroine is Cecil Chester, a young girl who has been tenderly and carefully nurtured, and whose unusually fine natural gifts have been developed by judicious culture. By the death of both of her parents she is suddenly left alone in the world, without relatives and without money. Of an independent spirit she rejects all offers of help from friends, choosing rather to avail herself of her accomplishments to support herself. She enters the home of a wealthy widow as a companion, and while there, by an extraordinary combination of circumstances, is made to appear as having committed a criminal offence, for which she is arrested and brought to trial. The story of her sufferings is vividly told, and the chapter in which the climax is reached is strongly dramatic. The book cannot help making a sensation. Boston: D Lothrop & Co., publishers.

The president has called for the resignation of Fred Douglass, and it was supposed that he would vacate his office March 1st, but it seems that the president decided to appoint a colored man to succeed him, and he had not been able to find a competent colored democrat for the place.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

HOME AGAIN.

Joseph Kelley, who disappeared from his home in this city Feb. 13th, and who was confined in a New York hospital for some days, returned home alone Friday morning. Although he does not seem exactly right in his head, he remembers nearly everything which has occurred to him since he left home.

"UNDER WHICH KING?"

Nearly every resident of this city is aware that for a long time there has been a dispute between Portsmouth and Newcastle in regard to Pest island, but the exact state of the case is not so well known. The first claim made by Newcastle, within our memory at least, was for rent for the island, but this claim was met by the production of two deeds showing that Pest island was bought by the town of Portsmouth in 1748, portions of which deeds we here give:

"To all people to whom these presents shall come, William Cotton of Falmouth, in the county of York in the province of Massachusetts Bay in New England, tanner, sendeth greeting—Know ye that I, the said William Cotton, for and in consideration of the sum of eighty-six pounds thirteen shillings and four pence (old tenor) to me in hand before the ensealing and delivery hereof well and truly paid by Samuel Hart, Esqr., Henry Sherburne, merchant, Nath'l Mendum, shopkeeper, and Mark Langdon, joyner, all of Portsmouth aforesaid as they are selectmen for said Portsmouth for the present year one thousand seven hundred and forty-eight, have given, granted, bargained and sold and by these presents give, grant, bargain and sell unto them the selectmen aforesaid and their successors as selectmen for the town of Portsmouth aforesaid for the use of the said town of Portsmouth forever, the one-third part of the island called by the name of Anthony's island, lying in the river of Piscataqua within the limits of the town of Newcastle in New Hampshire aforesaid, and is encompassed around with the salt water, the whole containing five or six acres, (be the same more or less,) John Leech's island lying southwest neareat the island called Newcastle on the northeast, together with all the flats and shoals around the said island to low water mark," etc.

This deed, which also contained a release by Sarah Cotton, wife of William, f "all her right of dower and power of thirds of, in and to" the property devised, was signed, sealed and delivered on the 11th of January, 1748. The other deed, from "John Cotton of Portsmouth in New Hampshire in New England, tanner," and Bethiah his wife, on the 4th of April, 1748, conveyed to "Samuel Hart, Esqr., Henry Sherburne, merchant, Nathaniel Mendum, shopkeeper, Mark Langdon, joyner, Thomas Waldron, gent," as selectmen of Portsmouth, "the full and equall two third parts (in three equally to be divided) of the island called by the name of Anthony's island, lying in the river of Piscataqua, within the limits of the town of Newcastle in New Hampshire aforesaid," etc.

These deeds conclusively show not only that Anthony's (now Pest) island was purchased by the town of Portsmouth in 1748, but that at that time the island was conceded to be within the boundaries of Newcastle, and the Newcastle people claim that it is within those boundaries still, and subject to taxation by Newcastle.

In November, 1824, Thomas P. Drown of Portsmouth, secretary to the board of selectmen, sent to Samuel Sparhawk, then secretary of state, a letter as follows:

Dear Sir: In consequence of not being able to find any record of the lines between this and the adjoining towns which may have been run heretofore, the selectmen have thought, in case of accident, it would be prudent to lodge the enclosed in the office of the secretary of this state, that they might be preserved and referred to if necessary.

The enclosure, which was signed by William Ham, Thomas Haven and Alexander Ladd, as selectmen of the town of Portsmouth, and Thomas F. Foye and Wm. Vernard, Jr., as selectmen of Newcastle, is on file in Concord, and the following is a copy:

Line between the towns of Portsmouth and Newcastle as agreed upon by the selectmen of said towns on the fifth day of August in the year of our Lord one thousand eight hundred and twenty-four:

Beginning at the corner of the town of Rye at Sampson's point, so called, near mouth of Sagamore creek, and running in a line from said point to the westerly and northerly side of Leach's island, so called, belonging to the heirs of Doctor A. R. Cutter, deceased, thence running round the southerly and easterly side of Pest island, so called, and on the westerly side of the small islands including Governor's island, so called, belonging to Ephraim Amazeen, to the ship channel.

In testimony whereof we, the undersigned, selectmen of the towns of Portsmouth and Newcastle, have hereunto set our hands the day and year above written.

By this line Leach's island and Governor's (now called Goat) island were left in Newcastle, while Pest island was scooped out and delivered to Portsmouth. The Newcastle people claim that the selectmen of a town had no power to alter or establish the town boundaries, and that this action of the two boards was never ratified by the legislature; or if it was, no record of such ratification exists, which amounts to the same thing. Hence, they claim, Pest island though owned by Portsmouth is in Newcastle, and that town has a right to tax it.

At the funeral of Ebenezer Wyatt, who was sexton of the Unitarian church for so many years, an appropriate tribute of respect was paid to the memory of a good and esteemed citizen by [three of the oldest sextons in the city, who with Mr. Charles H. Hutchins, successor to Mr. Wyatt at the Unitarian church, contributed a massive sheaf of wheat, emblematical of the reward of a well-spent life. Mr. Josiah F. Adams has performed the duties of sexton of the Universalist church for thirty-five years, being the only successor of the venerated Wm. Ilsley; Mr. George Ayers has officiated in the same capacity at the North church for more than a generation; and Mr. John S. Wendell has tolled the bell and responded "dust to dust" at St. John's church until he too has assisted at the last rites of almost a generation of men. It caused solemn thoughts to see them walking as pall bearers at the funeral of the old, old sexton. T.

Have you secured your tickets for the grand charity concert? All who have not done so and intend go to, should do so at once.

AMENDING THE CONSTITUTION.

"I say; what are we going to vote for next Tuesday?" demanded an intelligent and generally well informed citizen on Friday.

"On the question 'Is it expedient that a convention be called to revise the constitution?'" we replied.

"Yes," continued our friend, "I understand that; but what I want to know is, are we going to vote only to have the time of the legislature's meeting changed, or are we going to give that convention full power to tear the constitution all to pieces just as they like? I'll vote for changing the time of meeting, but I won't for anything else!"

Not more than one minute later another earnest citizen anxiously enquired, "Who are the candidates, anyway?"

As there seems to be a great lack of information on the subject, we will explain that if every voter in the state threw a "Yes" on Tuesday, it would still take two or three years before any amendment to the constitution could be made the routine being as follows: In case of an affirmative majority throughout the state, the legislature will declare it, and take measures for the choice of delegates to the convention; and any amendment to the constitution proposed by the convention must be submitted to the people, and receive two-thirds of all the votes thrown, before it can become part of the constitution. The convention is merely an advisory board, with power to prepare amendments to be accepted or rejected as the voters see fit.

Sick Headache.

GENTS:—I have been subject to Sick Headache for years, and have tried, in vain, many advertised remedies and several physicians, but all to no purpose. At last I tried your B. B. Bitters—without much faith, I admit—but to-day I can truly say, that after taking the third bottle I have not suffered from it. I recommend it to all my friends; several have been cured by it. My little grandson was permanently cured of Biliousness and Sick Headache, which were so severe as to cause convulsions. They have all ceased since he commenced the use of B.B.B.

a mile toward the projecting fin, a sailor in the bow, harpoon in hand, ready to spear the unsuspecting fish as soon as we were near enough. Just as the harpoon was hurled the fish made a dive and barely escaped his death, for the harpoon went true to the mark, but the fish had gone. Another was seen in the distance on the port side. The boat spun rapidly away under the strong strokes of the oars, and we neared the razor-like fin. The sailor stood in the bow until we were nearly upon the fish, and then, just as it turned, as if in idle curiosity to see what the great moving shadow meant, he hurled a spear, and the next moment the huge fish sprang from the water and with a furious twist tried to shake out the iron so firmly imbedded in its body. So great was the effort that it fell upon its side with a crash, and for a second was still. Then with terrific plunges, dashing through the water with tremendous force, the fish disappeared from our sight. The line rushed out so rapidly that we could not follow it as it swayed to and fro, making the water fly like rain. If the rope had been tied it would have snapped like twine. About fifty feet of rope had gone out when six of the sailors managed to get a fair hold on the line and matched their strength against that of one fish. I never saw six individuals jerked around in a more vivacious manner. Now the swordfish would land them altogether in a heap, then slacken up and take them unawares, throwing them into the bottom of the boat with a force that the sailors did not seem to enjoy. At times it would seem that all six must go overboard, and, indeed, I believe they only saved themselves and the rest of us from a good wetting by letting go the rope entirely. This sort of fun was kept up for about fifteen minutes, when the fish perceptibly weakened and the long rushes to the right and left grew feebler and feebler, until they ventured to haul in. At last the brute was alongside, and the sailors sat panting on their seats, not anxious to try again. The monster was nine feet six inches long.

Making Java Coffee.

Coffee, like wine, becomes better as it grows older. Age also improves its appearance. The best old Java is bright yellow—the effect of time upon a well-formed bean of a dirty-green color. But all yellow, nice-looking coffee is not Java, nor is its color proof of its merit. Cheap Java by a newly discovered method may be converted to resemble the best of Java. A bean of coffee if put into water will swell. This is the initial means employed to produce imitation coffee out of small, imperfect grains. Once swollen the coffee retains its inflated size. It is then bleached and dried, and in a few days is made to resemble coffee that comes to a fresh, desirable hue through age alone. But the imitation coffee does not deceive the elect. Any dealer of experience can perceive the difference between the fraudulent and the genuine. The imitation looks better and sells better to the consumer, and fetches a better price than it would had it not been doctored, but close inspection will show the grains to be of a withered appearance, lacking in what may be called tone, and sadly wanting when they come to pot, in aroma.—*Indianapolis News.*

A Frenchman has, it is said, found means to restore the life-like expression to the eyes of dead persons. He places a few drops of glycerine and water on the corneas; life-like expression is reproduced.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtfan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when a purchaser has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—*The N. Y. Financier.*

The Committee in charge of the construction of the pedestal and the erection of the statue, **in order to raise funds for its completion,** have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each,** delivered.

No. 2 Statuette, *of the metal, twelve inches high,* beautifully bronzed and enameled, at **Five Dollars each,** delivered.

No. 3 Statuette, *twelve inches high,* finely chased, Statue bronzed, Pedestal, Heavy Silver-Plated, with plate stamp, at **Ten Dollars each,** delivered.

Much time and money have been spent in perfecting the statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $50,000 yet needed to pay for the work including the direction of the Statue.

Only Subscriptions for the Miniature statuettes will go into the reserved amount.

Address, with remittance,

RICHARD BUTLER, Secretary,

American Committee of the Statue of Liberty,

33 Mercer Street, New York.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

Cream and Cold Weather.

What a luxury is a bath in summer. Surely, but a greater luxury is a clear head in winter; just when almost everybody is sneezing and suffering with a cold in the head. When you are attacked use Ely's Cream Balm. It cures colds in the head, and what is better, it cures the worst cases of chronic catarrh and hay fever. Not a liquid, not a snuff. Pleasant to use. Quick relief. Radical cure.

THE WRONG WAY TO GO UP STAIRS.

Going up stairs on one's hands and knees is a method of ascent not uncommonly seen among infants who are just learning the mysteries and perplexities of ambulation, but fortunately it is seldom that those of mature years have to resort to such means of progress. Mrs. J. C. Chapman, a well known resident of Mansfield, Mass., says that she once tried it and failed, and that others may be deterred from a similar experience it is perhaps worth while to give her experience. Mrs. Chapman now walks as upright as any one, and gives this account of her attempt:

"I was perfectly helpless with an attack of acute rheumatism, and was all doubled up. I could not sit upright even long enough to eat a meal. I tried once to get up stairs on my hands and knees, but failed. After taking everything recommended by my friends, and not getting the least benefit from anything, I despaired of ever getting around again. I had lost all hope of being cured when, like a gleam of light, Athlophoros was recommended to me by a friend who had used it with entire success. I took it and have never been troubled with rheumatism since, now three years. I can cheerfully recommend Athlophoros to any body suffering with rheumatism, for I know from experience that it will make a complete and permanent cure."

From J. A. Crane & Co., prominent druggists of Orange, Mass., comes this statement of a case that came under their observation:

"Mr. Shubel Briggs, of this place, has bought Athlophoros of us. He stated to us to-day that his wife before taking it could not move herself in bed, as she was suffering from a severe attack of rheumatism. After taking a few doses of Athlophoros she could move easily, and before two bottles were finished she had recovered completely and has not been troubled since. Mr. Briggs himself, who was troubled with stiffness in the joints, used some of the Athlophoros and experienced decided relief."

Charles H. Minchew, of Taunton, tells this story of his wife's cure, which was not unlike that of Mrs. Briggs:

"My wife had been afflicted with rheumatism for some time, and I employed a doctor who failed to do her any good. I happened to see Athlophoros advertised and concluded to get and try it. It worked like a charm, curing my wife completely, and I cannot speak too highly of it."

Mr. George H. Surgens is foreman of the cloth room of the Flint mill, Flint Village, Fall River, Mass. He lives at No. 140 County Street, Fall River. Of his wife's case he says:

"My wife was treated by four different doctors for a severe case of neuralgia of six years' standing. Her sufferings were terrible and the physicians could not allay them, though using the most powerful medicines all the time. As she was getting worse and worse I bought a bottle of Athlophoros, and that brought the first and only relief my wife had. Now she can attend to her household affairs and other duties as though she had never experienced the torture of that dread disease, neuralgia. When Athlophoros can be had at the nearest drug store nobody should suffer from neuralgia or rheumatism."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

Jekyll's.

The descent of Mr. W. K. Vanderbilt on our Southern coast may mean the capture of our outlying islands by Northern nabobs. Mr. Thomas Carnegie (not Mr. Andrew Carnegie, as is erroneously printed,) is already intrenched on the southern end of Cumberland, in the ancient home of the Greenes. He has retouched the incomparable avenues and rose-gardens of Dungeness at a cost of $50,000, and is said to have spent $150,000 in restoring the mansion and grounds. There, amid his orange-groves and live oaks, he has a home worthy of a Prince. Both Jay Gould and James Gordon Bennett have cruised along the Georgia coast and looked with longing eyes on the beautiful isles that stand between it and the sea.

Jekyll's Island, which Mr. and Mrs. Vanderbilt rode 2,000 miles to see, is one of the smallest on the coast, measuring about seven miles in length and averaging two in width. Its climate is perfect. St. Simon's on the north and Cumberland on the south sheltering it from boisterous winds. It fronts Brunswick, and stands high and clear above the sea. The growth is live-oak and palmettoes. Oranges thrive on the island and the grass is luxuriant. Jekyll's was the point selected by the slave-ship Wanderer for landing its cargo of slaves. I have heard men tell of visiting the island that year and seeing hundreds of wild Africans ducking and scurrying amid the long grass. A force of canoes deported them rapidly from Jekyll's to neighboring islands and mainland, and when the Wanderer was captured less than a hundred of the slaves were found there.

Jekyll's now belongs to Mr. John Du Bignon, and is used mainly for grazing purposes. If Mr. Vanderbilt buys it a wonderful transformation may be expected. He inherited $50,000,000 in one block from his father, and is good for as much more. His wife is the leader of all the Vanderbilts in fashion. It was she who spent $150,000 on a single ball two seasons ago. When she joins her husband in making of Jekyll's a winter home, where spring reigns perpetually, a fashionable train will follow, and the inland waters of our coast will sparkle with yachts.—*Atlanta (Ga.) Constitution.*

Roofs of Paper.

A roof pronounced superior to that of slate because of its lightness and other advantages is now made of any fibrous pulp, says the Boston *Journal of Commerce*. From this material tiles of any shape desired are formed by pressure under machinery or by any other method which may suggest itself. Pressed into the design wished for the pulp tiles are partially dried, previous to being subjected to a water-proof solution. Thoroughly impregnated with the preparation to resist moisture they are baked to harden in them the water-proof mixture. After the baking the tiles are treated to a mixture imparting an enamelled surface; to this is added a coating of sand, whereby the pulp is rendered proof against the action of heat or flame. By the use of different colored sands a variety of tints may be imparted to the tiles, which, after the application of the enameling mixture and sands, are baked a second time, after which they are ready for use. Besides the inherent lightness of pulp tiles, which obviates the necessity of a heavy frame to support a weighty roof, the pulp tile, being tough and not brittle like slate is far less liable to be broken from blows, stones thrown upon them, or human footsteps. Again, slate tiles cannot be laid compactly together on a roof on account of their brittleness, which prevents their being drawn tightly together by nails. Through the fibrous pulp nails may be driven as close home as in shingles, thereby binding them closely to the bed and together without any possibility of lateral movement or being blown away in a high wind, as slates loosely fastened on roofs so frequently are. Nails penetrate the pulp tiles more easily than shingles, and lie closer together, being more elastic than wood.

Overcoat Colds.

This is the season most appropriate for a little serious reflection on the subject of overcoats. Nothing seems more simple than to adapt clothing to the weather by the addition of an overcoat, light or heavy, as the occasion requires. It must not, however, be forgotten, that in proportion as the garment superimposed upon the ordinary clothes is effective in producing a sense of warmth it acts by arresting the evaporation of warm vapor from the body. This warm vapor continues to rise through the ordinary clothing, but it is prevented from escaping, and the clothes are saturated with it. The general effect is well enough while the overcoat is kept on, but the moment it is removed evaporation recommences, and the body is placed in a "cooler" constructed on the principle adopted when a damp cloth is wrapped round a butter-dish, the vapor passing off, abstracting the heat, and leaving the contents of the cooler refrigerated.

The point to make clear is that the overcoat, let it be fashioned and ventilated as it may, does not prevent the underclothing from being saturated with moisture, but actually tends to make the moisture accumulate therein. This is proved by the sense of genial warmth felt while the overcoat is worn, and the evidences of perspiration easily perceived under the arms and at the sides of the chest particularly, immediately after the overcoat has been removed. Moreover, we take off the overcoat when we enter a warm house, and precisely at the moment when muscular activity is suspended. A very little consideration will suffice to convince the common-

Physician Have Found Out

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive sub-cutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous, chalky deposit which produces stiffness and distortion of the joints. No fact, which experience has demonstrated in regard to Hostetter's Stomach Bitters, has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

The Reading railroad company, of Pennsylvania, has restored to its employes an eight per cent reduction in wages made some time ago.

Never neglect a constipated condition of the bowels, or serious results surely follow, such as piles, impure blood, and many chronic complaints. Burdock Blood Bitters.

The American House Partly Burned.

The American house, one of the best known hotels in Boston, was damaged to the amount of $50,000 by fire on Saturday. The building was insured for $100,000, and the furniture for $30,000.

A Great Strike.

All the Knights of Labor employed on the Gould system of railroads centering in St. Louis, Mo., went out on a strike, March 6th. At Sedalia, Mo., 700 employes of the Missouri Pacific went out; and at Little Rock, Ark., 300 men left the shops of the St. Louis & Iron Mountain road. A despatch from St. Louis at one o'clock P. M. said 9000 men on the Gould system were out.

Analyzing Malt Beverages.

At a recent meeting of the New York State Board of Health, various papers upon sanitary subjects were read.

The executive committee report on beer contained a tabulation of nearly 500 samples recently examined by the state analyst, Professor F. E. Englehardt. These samples were collected at the various breweries and in open market throughout the state and numbered. Mr. Englehardt knew nothing as to the source of any sample, and hence the full result of his work is only known to the members of the board. The board's discussion of this question shows that there is no legal definition of what constitutes normal beer, nor any standard established by the authorities on the subject. In concluding its report the committee makes the following recommendations:

That the law be amended so as to define the normal condition of malt beverages.

That a malt beverage should, as its name indicates, contain only malt, hops, water and yeast and their constituents.

That Congress should pass a law making it obligatory upon the Internal Revenue Department at all times to permit publicity to be given to the ingredients reported by the brewers and dealers of malt beverages.

That local boards of health throughout the state should have special control over breweries within their jurisdiction; should visit them and report publicly upon the condition of these establishments.

That nothing but pure water should be allowed in the brewing of malt beverages.

That local health boards of the state should have special supervision over saloons; should have samples purchased of the beverages sold and forward the same for examination, and that arrangements should be made that the expense of such analyses should be defrayed by the boards of excise.

That no conditions of secrecy should be imposed in the law relating to beer, spirituous or malt liquors, and that it should be admissable in case any sample be found impure to make the matter public.

The great trouble with the ales brewed in New York state, like those coming from Milwaukee and other places, including Boston, is, that the brewers cannot obtain water of the same standard of purity as that used by the Portsmouth breweries. It is this which has given such an impetus to Eldredge's lager in the market, because some persons, especially men employed in the brewery in this city, drink no other!

The officers of the Mechanks' Fire Society for the current year, elected at the meeting last week, are: President, Samuel C. Whittier; clerk, Daniel J. Vaughan; wardens, George W. Pendexter, William R. Martin and William F. Noyes.

Trefethen & Connor, sub-contractors on the Deer street sewer, on Sunday moved their hoisting machine across the end of Vaughan street, so that public travel from Vaughan into Deer street is now stopped.

Richard Hines, a workman at Jones' brewery, was injured by a fall from the Eldredge brewery team at the Concord railroad station on Wednesday, the 3d inst., and on Sunday was reported to be very ill, with but little hope of recovery.

Orders have been issued that during bad weather, or when the temperature is below zero, all the force except the bosses, clerks and apprentices in the department of construction at the navy yard shall be laid off. All the mechanics and laborers in that department are to lose ten days in March, regardless of the weather, on account of the shortness of funds; the bosses and clerks will make full time. This appears to be about the old republican style of doing business, concerning which our democratic brethren could never restrain their wrath when they thought of it.

There was a grand "chivaree" at the witching hour of midnight on Friday, opposite the residence of Mr. Edgar D. Stoddard, who had lately returned from his bridal tour. All occasion for further disturbance was removed by that gentleman responding liberally.

Timothy Hennessey of this city has shipped on board the U. S. S. Vandalia as a coal passer; John Crowley as sick-bay nurse; Amos Locke as engineer's yeoman; Guy S. Shannon as barber.

Mercer Goodrich is selling his entire stock of books of all kinds at greatly reduced prices, in order to close them out. This sale affords all an excellent opportunity to purchase valuable books at a low figure.

Fishing schooner Charles D. Tappan, at Gloucester on the 5th inst. from Georges, reported the loss of Thomas Johnson, swept overboard from the deck by a sea. Fishing schooner Pendragon, which arrived at Boston on the 6th, reported that while laying-to on Georges she was boarded by a sea, which took overboard Charles Haskins.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

March April May

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

"There is no blood purifier equal to Hood's Sarsaparilla." E. S. FRELPS, Rochester, N.Y.

"MOUSER, CRUMMY & CO."

The Wallace Musical Comedy Co. had a large audience in Franklin theatre on Friday evening, when the new "musical absurdity, Mouser, Crummy & Co.," was presented in this city for the first time, Mr. Frank Wallace and Miss Grace L. Varrell also making their professional debut here on the same occasion. At the matinee on Saturday afternoon one of the largest audiences ever in the theatre assembled; and the attendance in the evening was much larger than is usual at a Saturday night performance in this city. The plot of the piece is but a trifle, serving little more than to introduce a goodly number of well selected and well executed songs, quartettes, etc., the whole making a very pleasant entertainment. Miss Christine Brown, the prima donna of the company, has a powerful, sweet and flexible voice, which has been carefully trained and is skillfully used. Miss Varrell was enthusiastically received, was arch and graceful in her manner, and rendered her selections with spirit and expression, her "Our baby beats them all" being apparently the favorite. Messrs. Wallace, LaBrie and Farrell satisfactorily filled their parts, and as a whole the first presentation of the musical sketch was a success.

A FATAL CAROUSE.

Saturday evening four men employed on the Hayes farm at the Plains, two of them brothers, named George and Edwin Roundy, went to the Hotel Pickwick, at the Rockingham trotting park, "on a time." The party played cards and drank for a while, but one soon tired of it and went away, and was shortly followed by another, leaving the two Roundys, who remained till about ten o'clock, when after taking a tumblerful of whiskey each, to top off with, they started for home.

According to George's story he remembers leaving the house with his brother, but nothing else until about four o'clock Sunday morning, when he awoke and found himself lying on the ground thirty or forty feet inside the park gate, with his coat sleeve frozen to the gound, and his cap gone. Getting on his feet he looked around for his cap, and saw his brother lying face downward some yards nearer the house, and endeavored to rouse him, failing in which he went to the house for help, and the bartender came out. The prostrate man was removed to the house, and attempts made for two hours to revive him by chafing, applying hot water, etc., without avail, when the survivor went home and informed Mr. Hayes that Edwin was dead.

Mr. Hayes telephoned to Dr. W. O. Junkins at Greenland, and County Commissioner Johnston, both of whom drove at once to the trotting park, Mr. Johnston being accompanied by Col. J. Horace Kent. Considering that an inquest should be held, the sheriff and commissioner called on Mayor Eldredge, who ordered the holding of one; and Coroner S. C. Whittier, summoning E. A. Tilton, Thomas Entwistle and Samuel W. Emery as a jury, proceeded to the park, where an autopsy was made by City Physician Berry, assisted by Dr. Parsons, the vital organs of deceased being found in a normal condition; all the evidence attainable was taken, the inquest lasting until about four o'clock, but a verdict was not rendered Sunday evening.

The face of the deceased was cut and bruised, and the chest bruised, but nothing more than might be caused by falling on the frozen ground and ice, and struggling to rise. There was considerable blood where the body laid, and the print of the face could be seen where it had melted into the ice. So far as is known there was no quarrel among the carousers, and there seems no reason to suspect foul play.

The Roundys belong in East Vassalboro', Me., and have been woodchoppers by occupation. George is thirty-seven years old; the deceased was aged twenty-six, and lost his wife ten weeks ago.

A SABBATH INCIDENT.

There were several drunken marines about the city on Sunday afternoon, and about 4:30 o'clock one of them entered the residence of Rev. Henry E. Hovey on State street, while Mr. Hovey was away at church. Notice was sent to the police station, but before an officer arrived the man had left, and was found and arrested in the yard of A. K. Brown on Jefferson street. There was quite an excitement on the street while the drunken sea soldier was being taken to the station; the officer was ahead, towing him by means of the "twisters," and two citizens who had been called on for aid were shoving him along; he was howling like a demented catamount, and several other marines and about all the hoodlums of Water street and the Puddle Dock district were following up the procession. On the arrival of another officer another one of the marines was taken into custody, as he was making himself very "fresh."

From the incidents of the day it is suspected that somebody in this city has commenced the sale of liquor on Sunday.

SATISFIED "FIREMEN."

The following complimentary letter received by Mr. W. K. Hill last week, explains itself:

PORTSMOUTH, March 5, 1886.

Mr. W. K. Hill, Manager Rockingham House: Dear Sir: It is my pleasant duty, instructed by vote of the Federal Fire Society, to tender to yourself and your assistants the thanks of the society for the eminently creditable and successful manner in which all the arrangements relating to the dinner of the society at the Rockingham on Thursday last were carried out. It was, by unanimous consent, the most elegant entertainment in every respect that we have ever enjoyed.

I remain, Very Respectfully Yours,
CHARLES E. BATCHELDER,
Secretary F. F. S.

The compliment conveyed in the above note will be understood when it is stated that the annual dinners of the society have been served at the Rockingham for many years, excepting last year, when there was no Rockingham and in consequence no dinner. The bill of fare was printed on heavy, rough paper of a new style, and ornamented on the outside with a picture of a fire bucket, hand-painted in red and black, and bearing the monogram of the society and a representation of a yoke for carrying water, in gilt. The menu was as follows:

MARITIME NOTES.

The schooner Satellite, Aderton master, is the first of the brick fleet to make a start this year. She was lying at the draw pier of Portsmouth bridge on Saturday, ready to haul through and proceed up river to load as soon as practicable, having on Friday arrived from Portland, where she was hauled up during the winter.

The schooner Clara E. Simpson sailed for the Kennebec on Saturday, to load ice for a southern port.

"Young Mrs. Winthrop," which is to be played in music hall on Wednesday evening, was brought out at the Madison Square theatre on October 9th, 1882, and a striking commentary upon its success lies in the fact that no other play which was running at that date now holds the metropolitan stage. The play reflects the interior of many a fashionable metropolitan dwelling, and teaches that wealth with all its surroundings does not ensure domestic happiness; and it especially commends itself in the fact that it does not contain a word or suggestion which savors in the least of impropriety. Tickets on sale at Goodrich's.

"Aphrodite," the new musical comedy, by Thomas Addison and Chas. D. Blake, was produced at Music hall, Wednesday night, by Adamson's Aphrodite Co., and was received with great applause and laughter by a very large house. The piece was handsomely mounted and costumed, and received able interpretation at the hands of the company. The play is of a most laughable nature, and possesses what very few of the alleged comedies have, a good, clearly-cut plot, that holds the attention from first to last. The music is original, very catchy, and of the style that haunts one's ears long after the curtain has fallen.—Lynn Daily *Item.*

This piece will be produced at Music hall by the Atkinson combination on Thursday evening next; reserved seat tickets at Goodrich's on Tuesday.

Capt. Ed. Baker has opened the new post-office at York village in the furniture store of Charles Blaisdell, who has recently removed from Sewall's bridge to the Golden Cross block.

Mrs. Eliakim Richards, wife of a prominent merchant of Biddeford, died on the 5th inst., five hours after taking, by mistake for salts, 240 grains of chloral.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unimjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness to One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the increase of which alone will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectus and full information to The United States Land and Investment Company, 145 Broadway, New York.—*The N. Y. Financier.*"

sense thinker that nothing can well be worse managed than this process both as regards its nature and the time and conditions of its operation. It is opposed to all the canons of health to allow the clothing to become saturated with perspiration and then to take of external covering, and suffer rapid cooling by evaporation, while, if it were designed to do this at the worst possible time, probably none worse could be found than when muscular exercise has been discontinued. The suggestion we have to offer is, that it would be far better policy to wear only one coat at a time, and to make whatever change may be necessary by removing a thin coat and replacing it by a thicker one when going out of doors, and the reverse when coming in. If, instead of wearing overcoats, people would wear coats of different thicknesses, according to the weather and conditions generally, they would avoid the danger of cooling by evaporation; the garments saturated with moisture would be removed and dry off the body instead of on it. We believe no inconsiderable proportion of the "colds," attacks of lumbago, and even more formidable results of what are popularly called "chills," may be traced to the practice of wearing overcoats which arrest the ordinary process of evaporation, cause the clothing within to be saturated with accumulated perspiration, and are then removed, when rapid cooling takes place. The avoidance of this peril is to be attained by such change of coats as the conditions require.—*London Lancet.*

History of the Bicycle.

In the year of 1816, says the Philadelphia *Record*, Baron von Drais constructed a curious vehicle, consisting of two wheels of equal size, placed one in front of the other, and connected by a bar on which was a small seat. The rider sat astride the bar and propelled the vehicle by striking his feet against the ground. The machine, very simple in mechanism, was named the Draisine, and was the progenitor of the modern bicycle. In 1818 a kindred contrivance was introduced to use in England and for your following made its appearance in New York, Philadelphia and Boston, and was for a time quite popular. In 1863 a Frenchman applied cranks to the fore wheels of the Draisine, having discovered that a certain speed would maintain the equilibrium of the two-wheeler, and in 1866 further improvements were effected, the new machine being introduced in New York. It received little or of two attention until 1878, when a sudden popularity honored it, and everybody began to use it. This continued something more than a year, when it was as summarily abandoned as it had been enthusiastically taken up. Some English mechanics continued to work upon the plan, however, and in 1876 the first improved bicycle was imported and put on exhibition at our centennial fair. In 1878 the first American company for the manufacture of bicycles was organized, and the raffle in these articles has since increased so steadily that no less than 6,000 were manufactured and sold in this country last year, and it was estimated that there were then 30,000 in use in the United States, exclusive of boys' machines. The manufacture this year will be much larger, the constantly growing popularity of the bicycle annually increasing the demand.

According to an ancient idea, pelicans were hatched dead, but the male pelican brought them to life by wounding his breast and letting one drop of blood fall upon each.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codJan

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *sixteen inches in height*,—the Statue branded; Pedestal, nickel-silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully finished and enskelled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue branded, pedestal **Heavily Silver-Plated**, with PLUSH STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *Liberty Bell* Fund of $100,000 completes the Pedestal, but it is estimated that $80,000 is yet needed to pay for the iron fastenings and the erection of the Statue.

Elks' Subscriptions for the Miniature Statuettes will produce the desired amount.

A CURE IS GUARANTEED.

"I have kept your medicine, Athlophoros, and have sold quite a lot of it. I find that it is a good thing for rheumatism and neuralgia, and that people get good results from it," reports George Mallard, a prominent druggist, of Laconia, N. H.

Great excitement exists at Brooklyn, Mo., over the murder of Mrs. George E. Graham by her husband and Mrs. Mallory and Cora Lee, and a petition has been sent to the judge to call a special session of the grand jury to dispose of the cases. If this is not done Judge Lynch will doubtless officiate.

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia, without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. I did try them, and now I am a well man and can eat anything. Sulphur Bitters are a great foe to doctors.—George Bastett, N. Y. C. and H. R. Railroad.

At Montreal, March 5th, during the trial of John S. Dyde for forgery, the father of the accused dropped dead in the witness box.

If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable and these little pills cure both.

Henry Ward Beecher has recovered the gold watch stolen from him on the night of the New York election last fall.

My friend, look here! you know how weak and nervous your wife is, and you know that Carter's Iron Pills will revive her, now why not be fair about it and buy her a box?

Samuel Newton, a wife murderer, was executed in Gaines county, Chocktaw Nation, on Friday.

A fine ornament. Beach Soap Co.'s Banner Picture. Just what you want to hang in your home.

At Lowell, Mass., on Friday night, a man named Cahill stabbed Edward Burns, who had remonstrated with him for paying unwelcome visits to his (Burns') sister.

Take Ayer's Sarsaparilla, in the spring of the year, to purify the blood, invigorate the system, excite the liver to action, and restore healthy tone and vigor to the whole physical mechanism. Remember that quality, not quantity, constitutes the value of medicine.

The Buffalo Merchant's Exchange has elected President Cleveland an honorary member.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by all classes of people for over forty years. It has proven itself the best specific for colds, coughs and pulmonary complaints.

The lower branch of the Massachusetts general assembly has passed an act providing for weekly payments, by a vote of 188 to thirty.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

The great tobacco factory of the Goodbody estate in Tullamore, King's county, Ireland, has been destroyed by fire. The loss will probably reach $400,000.

From B. F. Liepsuer, A. M., Red Bank, N. J. I have been troubled with catarrh so badly for several years that it seriously affected my voice. I tried Dr. ——'s remedy without the slightest relief. One bottle of Ely's Cream Balm did the work. My voice is fully restored and my head feels better than for years.

In regard to Ely's Cream Balm, for catarrh, my answer is, I can recommend it as the best remedy I ever used.—Dr. J. S. Vaughan, Dentist, Muskegon, Mich. See adv't.

The committee on woman suffrage of the Massachusetts legislature will report bills allowing women to vote in all town and municipal elections, and on the question of granting liquor licenses.

Purify your blood, tone up the system, and regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

IA MAP

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS MAP THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental line. It is that system of through transportation which unites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Combines in patrons that sense of personal security afforded by a solid, thoroughly built, well-ballasted, smooth track of steel, equipped with substantially built cabs, bridges, rolling stock, and every appliance known to skill can make to the safety and comfort of travelers, and further, it adopts the best system of discipline which governs the practical operation of all its trains, by the speaking of the time card, at all connecting points in Union Depots, and the employment of cabs and hackmen in Its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison, are composed of well-ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers, the Palace Sleeping, and Luxurious Dining Cars, in which elaborately cooked meals are served to order, Reclining Chair Cars, Free Colonist Sleepers and Chair Cars are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and shortest line between Chicago and Minneapolis and St. Paul, where connections are made for all points in Minnesota, in the Territories and British Provinces. Over this route Fast Express Trains are run to the waterfalls of Minnehaha, magnificent parks, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior points.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Chicago, Lafayette, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

Those persons who do not need iron, but who are troubled with nervousness and dyspepsia, will find in Carter's Little Nerve Pills a most desirable article. They are mostly used in combination with Carter's Little Liver Pills, and in this way often exert a most magical effect. Take just one pill of each kind immediately after eating and you will be free from indigestion and dyspepsia. In vials at 25 cents. Sold by all druggists.

A dispatch from Uniontown, Pa., says the grand jury has ignored bills against strikers who were recently locked up charged with the destruction of mining property during the late riots.

J. P. Morris, cashier of the Girard house, Philadelphia, Pa., writes, November 27th, 1884: "For the past twelve years I have been a sufferer with what is known to the medical profession as lumbago. Having been recommended, about five years ago, to try Allcock's Porous Plasters, I did so, and was more than astonished at the result. I found almost immediate relief on their application. I wear one constantly now, and would not be without them. I consider them invaluable."

William L. Trefethen was before the court in Portland, Me., last week, charged with having in his possession 1368 lobsters less than 10 1-2 inches in length. He was found guilty and fined $1368 and costs.

A dead certainty: The Hop Plaster is more active than any other plaster on earth. Kills pain.

The captain of the steamer Newfoundland, which has arrived at Halifax from Conception Bay, reports that hundreds of families of that place are destitute and starving.

Hop Plasters are soothing, stimulating, pain-killing and strengthening, clean, sweet and sure.

Twelve of the white men who participated in the anti-Chinese riots at Oregon City, Ore., on the night of Feb. 21st, have been arrested and taken to Portland, Oregon, where they were placed under $3,000 bonds to await the action of the grand jury.

A Fool and His Money Soon Part.

How true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him. —Editor *Journal and Courier.*

He Makes Fish of One and Flesh of Another.

"The president," said a very prominent republican in Washington last week, "has one rule for the senate and another for the house. He sends us messages claiming that all papers relating to appointments to office are confidential, and his personal property. He refuses to furnish any of them at the request of the senate, and his cabinet officers also refuse, on the ground that the president directs them to do so. But a mere subordinate, several degrees below a cabinet minister, of his own volition and without any request from that body, has furnished papers of a similar character, which are of the most confidential nature, to members of the house, and their contents are publicly used in the debates of that body, without the least rebuke or interference from the president, who of course must be aware of all the circumstances, and approve them." The senator referred to the papers concerning the appointments, etc., in the pension bureau, which have been furnished without any stint by Commissioner Black, and which the democratic side of the house have been using in their speeches.

A Department Which Needs Watching.

A correspondent of the Boston *Traveller*, writing from Washington says that "those who have watched the proceedings of the house committee on foreign affairs, where the administration is developing its plans for the construction of a new navy, say that if the outside world could be present, they wou'd imagine they were attending a session of the British Admiralty. 'It's so English, you know.' The leading authorities constantly cited on the part of the Administration Democrats are 'Lord' this and 'Admiral' that, and the republican members are tired of it. It has come to the knowledge of some of the republican members of this committee that officers of our navy who have obtained long leaves of absence have returned here, and were at the navy department this week in the capacity of agents of some English parties, and were urging the adoption of various materials by our navy. The subject will be very carefully inquired into."

In the senate last week a resolution offered by Mr. Hale was agreed to, calling on the secretary of the navy for a variety of information concerning the new cruisers Dolphin, Boston, Atlanta and Chicago. The call includes information as to changes from the original plans of those ships and the causes of such changes; correspondence with the naval advisory board at various specified periods; a memorandum showing when the opinion of the attorney general as to the Dolphin was received by the secretary, and by whom, and when and in what manner it was published; also information as to the present condition of the Dolphin, and whether she has been accepted by the department; all correspondence and information concerning the payment of the "reservations" on the four ships named, all opinions of the attorney general relating thereto, and any correspondence showing that the contractor was in financial difficulty when such payments were made.

Naval Intelligence.

Capt. Byron Wilson is ordered to command the Shenandoah. Capt. Charles S. Norton is detached from command of the Shenandoah on the reporting of his relief.

Ensign Richard T. Mulligan is detached from the Tennessee, and placed on waiting orders.

Lieut. Francis Cook is ordered to temporary duty on the coast survey.

Secretary Whitney has issued orders for the annual drill of the North Atlantic squadron, Admiral Jouett: in command, to come off near Pensacola, Fla. The vessels which will participate are the Despatch, Tennessee, Powhatan, Yantic and Swatara.

The *Army & Navy Journal* says: "The Dolphin is not yet a vessel of the United States navy, and therefore nothing can be learned of her at the navy department. She is regarded by officials as the secretary's vessel, and over her he has complete control. He is unwilling, however, to say what he intends to do about her, beyond what he stated to a *Journal* correspondent on Thursday, that she is still at Norfolk, where she has been for some time, and where she will remain for the present. He has no intention he said of sending her to sea again in the near future."

There were two political banquets in Boston on the 4th inst., to celebrate the anniversary of Mr. Cleveland's inauguration of an era of reform and pure administration. One was a feast by the Middlesex County democrats; the other by the Mugwumps. Each of the elements claimed the president as "their" president, and ignored the other. The mugwumps especially were delighted at the position the president has taken toward the senate, it was so consistent with their ideas of reform, you know. Rev. Wm. Everett, the embodiment of Boston mugwumpery, heartily commended the president's course, though in his eloquence, which appears in sad contrast with that of his celebrated father, he made no allusion whatever to the exploded bible idea that no man can serve two masters.

City Marshal Russell of Kingston, Texas, was shot on the 5th inst. by W. B. Howard, editor of the *Hunt County Chronicle*, who used a double-barrelled shot-gun, and also accidentally hit a man named Overholt and a boy named Kirkpatrick; all the wounded will die. Howard has been assailing the liquor dealers, and charged Russell with being a gambler. For this Russell and two saloon keepers attacked and beat him, and in revenge he shot Russell. Many of the better citizens sustain Howard

The Newmarket *Advertiser* of March 6th says: "The ferry-ways (between Great and Little bays) was frozen over solidly the first of the week, something which has not occurred before within the memory of the oldest inhabitant, as there have always been open places, owing to the swiftness of the current."

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

Hood's Sarsaparilla

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

THE TROTTING PARK TRAGEDY.

The jury summoned by Coroner S. C. Whittier to investigate into the cause of the death of Edwin Roundy, found dead in the Rockingham trotting park on Sunday morning, on Monday afternoon returned a verdict that the deceased came to his death from suffocation.

Not an atom of evidence tending to show that the man was murdered was brought out by the inquest, everything indicating that the man got helplessly drunk at the "Hotel Pickwick," and on leaving there fell on the ice, face downward, and being too stupefied to turn his head was suffocated, the flow of blood from his nostrils probably aiding.

As a specimen of what a skilled sensational reporter can do in the way of erecting a heart-rending monument of words on the slenderest foundation of fact, the report of this affair in the Boston *Globe* of Monday was a marvel.

LENT.

The Lenten season occurs this year on the latest possible dates, commencing March 10th and ending April 24th. Rev. Henry E. Hovey, rector of St. John's and Christ churches (Episcopal) of this city, has issued a neat and convenient folding card containing a list of the services in the parish during Lent, a brief homily on the season, etc., from which we take the following, omitting a portion of the homily, and the rector's earnest appeal to his parishioners to observe the season in the spirit of its institution, as well as by the letter of the instructions and recommendations of the church:

THE SERVICES.

MORNING PRAYER—

Ash-Wednesday (St. John's church)	10:30
Sundays (St. John's church)	10:30
Every day in Holy Week (St. John's church)	10:30

EVENING PRAYER—

Sundays (Christ church)	4:30
Every day in Holy Week (Christ church)	7:30
Fridays (St. John's chapel)	7:30
All other days in Lent (St. John's chapel)	5.00

THE HOLY COMMUNION—

Ash-Wednesday (St. John's church)	12:00 M.
The fourth Sunday in Lent (St. John's church)	12:00 M.
All other Sundays in Lent (St. John's church)	8:00 A. M.
Festival of the Annunciation (St. John's church)	10:30 A. M.
Maundy-Thursday (Christ church)	7:30 P. M.

"The season of Lent again calls us to self-denying discipline.

The uses of Lent—what are they? May not its sacred duties be summed up in two words—discipline and devotion? Would it not be well if all eagerly embraced the yearly recurring opportunity of learning these secrets of a holy life? If the self-denying discipline of Lent has been ungrudgingly adopted, would not the experience gained prove to be a great blessing to those whom changed circumstances may compel to accept frugality as the constant rule of life?

Lenten experience in plain living has also a bearing upon personal health. The health may be benefitted largely by such experience. Unbroken luxuriousness of diet often induces a bodily state bordering on ill health, if not bodily derangement that destroys all the comfort of life, and leads to premature death. Simplicity of living, such as Lent gives its sanction to, will often help on a restoration to health so thorough as to bring with it a surprise that such a beneficent result can be so easily secured. As to specific forms of abstinence, it is difficult to give rules. It may be irksome to abstain, but it must be a self-denying effort, abstinence from wonted indulgences. We must gain control of the body, and this is impossible without self-denial—obedience to a rule of life. Such strictness is of great benefit to the soul as well as the body. It leads not only to improved bodily health, but also to increased mental vigor. Lent, as it yearly recurs, provides a beneficent opportunity to all who symbolize, by their adoption of some form of abstinence, their willingness to be obedient to the higher influences of the church, in her services and sacred duties and holy sacraments." * * *

Twenty-four years ago last Monday the United States frigate Cumberland, a wooden sailing ship, was sunk in Hampton roads by the confederate iron-clad Merrimac. There were a number of Portsmouth men on board the Cumberland, one only of whom survives, Walter S. Gray, who on the following day had the pleasure of seeing the terrible Merrimac beaten off and driven up river by the little Monitor.

The Charity Concert in aid of the Children's Home, Cottage Hospital and Old Ladies' Home, comes off in Music hall this evening. The price of admission is low, the object of the concert most commendable, and a choice musical feast will be afforded.

The house on the westerly corner of Linden and Daniel streets was being demolished on Monday, to make room for a fine new dwelling to be erected there for Mr. John O. Downs.

The Eldredge Brewing Co. last week finished their third and last cutting of ice for this season, having put in about 1300 tons in all, the last cutting being thirteen inches thick, and all of fine quality.

The old bills, amounting to $9,000, belonging to the estate of the late Wm. Downs & Co., were sold on Monday at the office of C. M. Gignoux, assignee, to John W. Caswell, for $200.

The sub-committee of the house committee on naval affairs, to whom was referred the subject of building dry docks at the navy yards, has decided to recommend the construction of three wooden dry docks of the Simpson pattern, one each at Boston, New York and Norfolk. This will involve the expenditure of $1,800,000, and the sub-committee will recommend an appropriation of $1,000,000 as a starter. A good big appropriation to put the dry dock at the Portsmouth yard in good condition, and provide two more hauling-out ways, would be a judicious move.

The total tax of Wells for the year 1885 was $9,986.16; expended for schools, $4,172, and for highways $2,800; liabilities, $1,187.39; resources $2,136.69; surplus above liabilities, $949.30.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

PSORIASIS

the rural belle, with charming naïveté, replies: "Demonstrative position; isn't it?" Goldmark withdraws in disgust.

Professor Arnold quotes in a half approving way the opinion of a German chemist that beer is a better food for nursing mothers than milk made from brewers' grains. The mineral constituents are largely leached out of barley in malting, and consequently the material for bone growth is lacking. But milk from brewers' grains is for this very reason the best for adults. What is needed for adults is heat producing food, to supply waste, not bone and muscle producing food to assist growth.

Senator Evarts' library in his house in New York is full of costly books, engravings, pictures, and works of art. He had a visit there some time ago from one of his law-clients, who had always supposed the Senator to be not any too luxuriously supplied with this world's goods. He looked the room over with a critical eye and remarked that he did not see how the Senator could afford so many fine and costly things. The Senator mentioned the remark to a lawyer-friend a day or two afterward, with the dry comment: "He will know when I send him my bill."

An urn of clay lately found while a ditch was being dug on the east side of the Isle of Gothland has been sent to the Stockholm Museum. It contains 2,696 unbroken and 191 broken silver coins, part with old German and part with Anglo-Saxon stamps. There are besides silver bracelets, some with figurings appended to them, and also some rods of the finest silver, such as in early times were cut and used instead of money. The total weight of the treasure is about nine pounds. The chief interest for antiquarians lies in the fact that old German and Anglo-Saxon coins have been found together.

A writer in the *English Illustrated Magazine* says that there is no such thing as debate in the House of Lords in the sense that it exists in the Commons. The number of peers who are successful in making themselves heard might be counted on the fingers of both hands, but these, happily, are the members whose opinions are looked for. When Lord Salisbury, Lord Granville and perhaps a couple of peers not sitting on the front benches have spoken members just leave the house, and if any outsider wants to speak he finds himself without an audience, and so desists.

The talk of the day: Mrs. A.—"I near that the Montmackintoshes are going to spend the winter in Italy." Mrs. B.—"Indeed! You surprise me! When were they bitten?"—*Boston Transcript.*

Optician—And how do you find the glass eye I put in for you, sir? Satisfactory, I hope? Old gent (gleefully)—Satisfactory! 'Po' my life, sir, I—I frequently can't tell which is the glass one without taking it out!—*New York Graphic.*

"Papa—"Glad to see you to-morrow evening. My daughter Alice will sing, and Beatrice will recite to us a new poem she's composed. We sup at 9." Young man—"Thanks! You're very kind. Most happy. I'll be with you at 9!"

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing syrup for children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtJan

DYSPEPSIA.—Its Nature, Causes, Prevention and Cure. By John H McALVIN, Lowell, Mass. 14 years Tax Collector. Sent free to any address.

CONSUMPTION. I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured, and I shall consider it my duty to send to any sufferer a bottle of my remedy, free of charge, with VALUABLE TREATISE on this disease on receipt of Express and P. O. address. Dr. T. A. SLOCUM, 181 Pearl St., New York.

DEAFNESS its CAUSES and CURE, by one who was deaf twenty-eight years. Treated by most of the noted specialists of the day with no benefit. *Cured himself* in three months, and since then hundreds of others by same process. A plain, simple and successful home treatment. Address T. S. PAGE, 128 East 26th St., New York City.

I CURE FITS! When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not sending your case. Send at once for a treatise and a free bottle of my infallible remedy. Give Express and Post Office address. DR. H. G. ROOT, 183 Pearl St., New York.

Those persons who do not need iron, but who are troubled with nervousness and dyspepsia, will find in Carter's Little Nerve Pills a most desirable article. They are mostly used in combination with Carter's Little Liver Pills, and in this way often exert a most magical effect. Take just one pill of each kind immediately after eating and you will be free from indigestion and dyspepsia. In vials at 25 cents. Sold by all druggists.

Lieut. Francis Winslow has been ordered to special duty on the coast survey.

J. P. Morris, cashier of the Girard house, Philadelphia, Pa., writes, November 27th, 1884: "For the past twelve years I have been a sufferer with what is known to the medical profession as lumbago. Having been recommended, about five years ago, to try Allcock's Porous Plasters, I did so, and was more than astonished at the result. I found almost immediate relief on their application. I wear one constantly now, and would not be without them. I consider them invaluable."

Ensign Thomas Worthington is ordered to duty at the naval observatory.

A Fool and His Money Soon Part.

How true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him. —Editor *Journal and Courier*.

Purify Your Blood.

Among spring preparations, do not neglect that which is most important of all —your own body. During the winter the blood absorbs many impurities which, if not expelled, are liable to break out in scrofula or other disease. The best spring medicine is Hood's Sarsaparilla. It expels every impurity from the blood, and gives strength to every function of the body. Sold by all druggists.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, size by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

Don't Like It.

The many voices in the democratic party which have loudly proclaimed that this just now is a white man's government, are dinning in the ears of Mr. Cleveland that the democracy, sir, are shocked at the appointment of a gentleman of color to the office of recorder of deeds in the District of Columbia. The democratic Washington *Post* says that "Expressions of disapproval come from all directions, and this amounts to a demand upon the modern Jackson to recede from his attempt to conciliate the negro vote, and to withdraw the nomination of Matthews and send in the name of a democrat of another color."

The Dolphin.

And now the inquisitive senators invite Secretary Whitney to send them the last report on the sea-going qualifications of the Dolphin. But Mr. Whitney has too much to do to look after his friends' interests in the New York Horse railways, and his father-in-law's seat in the senate, to find time to send "private" papers to the senate. There was a time when this kind of information was always forthcoming when called for, but that was before the days of innocuous desuetude which have come with the Cleveland reign.

A Decidedly "Cheeky" Reformer.

In the British house of commons, one evening last week, Mr. Labouchere offered a motion that a hereditary legislative chamber is inconsistent with the principles of a representative government. The motion was rejected by a vote of 202 to 166; the largeness of the minority vote indicates the wide spread of British opposition to the hereditary rule of the house of lords.

J. C. Carr is offering splendid bargains at his boot and shoe store, No. 44 Market street, in every description of ladies', gentlemen's and children's winter boots and shoes, to make room for his spring stock.

The late Edmund Pillsbury, whose widow, Mrs. Eliza D. Pillsbury, died in this city on the 7th inst., was in the war of 1812 a soldier in Capt. Dearborn's company of New Hampshire militia, stationed in the forts of this harbor.

It is reported that Dr. Samuel F. Ham, a Boston dentist, will shortly open an office in this city.

At the Newcastle town election, Tuesday, Frank P. Locke was elected moderator; George W. Towle, Thaddeus Tarlton and William T. Maloon, selectmen; Howard M. Curtis, clerk and treasurer.

Arrangements have been made by Hon. Frank Jones, who owns a large tract of land in Orlando, Florida, to erect at once in that town a brick block of ten stores, each with a 25-foot front. The building is to be three stories high, the two upper stories to be fitted up for tenements. Half a million bricks are now piled up on the ground, and the schedule of lumber has been forwarded. Mr. J. H. Sears supervising architect, C. H. Downs, master carpenter, and Charles L. Locke, mason, are to start on Thursday of next week to superintend the work. Orlando is an enterprising town in Orange county, of about 5000 inhabitants, the junction of three railroads, and the indications are that it will have a very rapid and steady growth of population. The fact that Mr. Jones and others in this city have put their money into land in that vicinity, has induced other capitalists in the North to invest some of their surplus funds there.—*Times.*

Paymaster Rufus S. McConnell of the navy died at Cleveland, Ohio, on the 7th inst. He was at one time stationed on the receiving ship at this naval station. He was placed on the retired list last January, on account of disability incurred in the service on foreign stations.

The Norfolk (Va.) *Landmark* says: "Our city council, with commendable zeal, has sent a committee to Washington to invite the naval committee of the United States senate and house of representatives, and the secretary of the navy, to visit Portsmouth as the special guests of the city in order to inspect the advantages that our navy yard and vicinity present as a location for the central dock yard proposed by Congress." The Portsmouth which the Norfolk council wish the congressional committee to visit is Portsmouth, Va., and not Portsmouth, N. H. We are not aware that anybody is urging the advantages of the latter place as a naval dock yard, on the consideration of Congress.

Many of the towns and cities of Maine held their annual town meetings on Monday. In North Berwick the republicans elected their entire ticket, the first time for several years; Nathaniel Hussey, Amos L. Prescott and David Brackett, selectmen and assessors. In Wells the democrats elected their entire ticket; and in Biddeford the democrats carried all seven of the wards, and elected Samuel S. Parcher mayor by a majority of 360 over Lucius H. Kendall, the republican candidate. In Augusta the republicans made a clean sweep, electing every member of the city government; for mayor, George E. Macomber had 1053 votes, to 528 for James E. Fuller, democrat; the salvation army also had a canoidate for mayor, but his vote only appears in the "scat." In Bangor the republican candidate for mayor had 516 majority.

Tennessee Justice.

A Tennessee court recently closed a term at which six murderers escaped conviction. As the evidence against each of them was conclusive, it was necessary that somebody should be punished, to vindicate the majesty and impartiality of the law; so a wretched woman who when starving stole a quart of buttermilk and drank it, was found very guilty of larceny, and sent to the penitentiary for two years. The murderers were all white and the thief was black, but of course color had nothing to do with the administration of "justice."

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

"HE IS GOING TO MARRY, YUM YUM."

A prominent newspaper worker in this city is about to turn over a new leaf and become a happy married man. His bachelor friends will soon see another "loved one blotted from life's page."

MARITIME NOTES.

Capt. Call, of the schooner Chilion, now lying at Call's wharf, inside Noble's island, has been looking after his vessel, which he expects to have ready for sea by the first of April. Capt. Littlefield, of the schooner Estella, expects to start on the brick route about the same time.

The Gloucester fishing schooner Sarah M. Jacobs arrived on Georges' bank during the gale of Feb. 26th; she had her deck swept, lost her cable, and John Cogan and Thomas Landry, two of the crew, were swept overboard and drowned. Cogan was fifty-five years of age, and leaves a widow and three children in Gloucester. Landry was eighteen years of age.

A Winner of Thousands Mended a Coat.

Mr. Isidore Schwartz is a German tailor, residing at 734 Cherry street, Kansas City, Mo. The fifth of a Louisiana State Lottery ticket had been purchased by Schwartz's wife as a birthday present to her husband. On the 12th inst. the ticket drew a prize, but as her husband's birthday did not occur until the 18th inst., she decided to keep it a secret until then. Thursday night, however, unable longer to hold her secret, she told her husband of the luck that had befallen him. He went to his shop after sending his ticket away through the Bank of Commerce, and finished a coat on which he was working. Besides the $30,000 drawn by Schwartz and Benson, Mr. John W. Barnes, proprietor of the Diamond saloon, held a whole ticket which drew $6,000. Altogether it was a pretty good month for Kansas City.—*Kansas City (Mo.) Times, Jan. 14th.*

Spring Medicine

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

Hood's Sarsaparilla

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

POLICE COURT.

TUESDAY, March, 9th; *Buford J.*

John Crowley, Frank Coyle, Jeremiah Murphy and William Yulden, for drunkenness, were each fined $3, with costs taxed at $6.90. Yulden paid his assessment, but the other three all go the county farm.

GOOD RIDDANCE.

George E. Roundy on Tuesday morning started for East Vassalboro, Me., with the body of his brother, Edwin A. Roundy, who died in the Rockingham trotting park last Saturday night after getting drunk at the "Hotel Pickwick." In consequence of revelations made at the inquest, Sheriff Kent and City Marshal Norton on Tuesday forenoon proceeded to the park to arrest the proprietor of the place, Mrs. Annie E. Grey, and her barkeeper, Henry C. Littlefield, on several complaints for violation of the liquor law; but the precious pair were absent, having left the "hotel" on Monday afternoon, and the only occupants of the crib were a dog and cat. The woman, who is said to be the wife of a former engineer on the Boston & Maine railroad, purchased the property not long ago, and it is supposed she and her friend the barkeeper are now in Boston, from whence they came and where they had better remain. That résort in the trotting park has had the worst of reputations ever since it was opened some years ago, and it is to be hoped the authorities will keep the vile den closed in the future.

MUSIC HALL.

Music hall was packed on Tuesday evening, when the charity concert was given. As would naturally be supposed, under the inspiration of such an audience the performers appeared at their best, and an excellent entertainment was afforded.

The Madison Square Theatre Co. will appear at Music hall this evening, in "Young Mrs. Winthrop." See advertisement.

Of the piece to be presented in Music hall on Thursday evening, the first scene is laid in an English public garden. "Aphrodite" as a statue appears in it, and when a young barber tries his truelove's engagement ring on her finger in fun, he can't get it off. The statue comes to life, appears in his barber shop, and is finally turned back into marble after he has succeeded in getting the ring from her at a Japanese tea in the last act.

WHIPPLE LODGE ANNIVERSARY.

The 5th of March being the 20th anniversary of Whipple Lodge, I. O. G. T., of Kittery, Me., the members celebrated the event by an entertainment and supper at their lodge room in Trefethen's hall on the evening of the 4th. The hall was tastefully decorated with flags, kindly loaned by Capt. Trefethen and other citizens, and with the many tables and elegantly furnished and arranged stage presented a very pleasing sight. The entertainment continued from 7:30 to 9:30 o'clock, opening with a song by a chorus of some of the members, and followed by Mr. M. C. Fernald, L. D., giving the history of the foundation and growth of the lodge.

The lodge was first organized on the evening of March 5th, 1866. There were twenty-six persons, fourteen gentlemen and twelve ladies, at the first installation, which was held in Mr. A. A. Hayes' hall. Mr. M. V. B. Stimson was elected W. C. T., and Mrs. C. H. Bartlett W. V. T. At the beginning of the 2d quarter the lodge numbered ninety-four members, and was in well working condition. In the month of May of the same year the lodge changed their place of meeting from Mr. Hayes' hall to Armory hall, but in the following November, finding the weather too severe there, they returned to Mr. Hayes', where they remained until March 23d, 1870.

During this time the lodge had a membership ranging from seventy-five to 100. Several actions were taken in regard to compelling the liquor saloons to be closed, but the most of their energies were expended in trying to draw in young members and interest them in the cause of temperance, and to keep them from joining the ranks of the rumdrinkers, our village at that time offering many inducements and advantages for commencing the downward course.

On March 23d, 1870, the lodge moved from Mr. Hayes' hall to the vestry of the Christian church, where they remained, with the exception of a few months during the summer of '72, when they again tried Armory hall, until the 1st of May, 1879, when they moved into Mr. J. B. Trefethen's hall, but returned to the vestry again the following November, remaining there ever since until last February, when they again moved into Mr. Trefethen's lower hall.

Since the founding of the lodge there have been admitted by initiation and card 899 persons. There have been thirty-six different members who have served in the chair of the Worthy Chief Templar, the one serving the most number of times being Mr. M. C. Fernald, he filling the chair eleven quarters at different periods during the last twelve years. The present lodge treasurer, Mrs. Lucinda A. Hayes, is now serving her thirty-seventh quarter, making over nine years that she has been in the office.

There are now in the lodge only five of the charter members, Mrs. B. P. Lewis, Mrs. A. M. Neal, Mrs. C. H. Bartlett, Mr. Richard Williams and Mr. Joseph Cox. The lodge has now 188 members, comprising some of the best people in town. The influence of the lodge for good cannot be well estimated. Partially through its influence the older citizens have seen banished from their midst the thirteen liquor saloons that at one time did exist. It has had some young men go out from its lodge-room with principles and experience which its training had given them that any town could well be proud of when claiming them as its own. Mr. Fernald gave some other interesting facts, but space forbids publishing anything but the most prominent.

Next was a song entitled "The Light of Home," by a quartette, followed by Miss Annie May Pettigrew, she reading a very interesting piece entitled "An Angel in a Saloon." The next was a piece written for the occasion by Mr. C. C. Bartlett, and read by him amidst much merriment, as all the persons mentioned were present in the hall. The following is a copy of the "poem:"

OLD MEMORIES.

[A piece purporting to be written in 1950.]

Now when the strife is over
And the bottles are all won,
And no more we have to struggle
Against the curse of rum,
But can calmly sit and ponder
On the days when clouds were black,
When we had to stand united
To keep the curse in check,
We can sit by the chimney corner,
My brother so tried and true,
And think of too many contests
The temperance reform has been through.
I can see, my brother, before me,
And so can you I trow,
By the yearning, wistful look
Which is creeping o'er your brow,
Our dear old Whipple Home
Where we learned to love the cause,
When we gathered there together
And were subject to her laws.
I can see before my vision
The faces of sisters and brothers true.
Who first started that hall of temperance
And remained to put it through.
It was near a score of years
Before we took the pledge,
That they gathered in a body
And formed that temperance wedge,
And having the law as a mallet,
With its officers the law to wield,
Soon made our good old township
A thorough temperance field.
You know when we were members
In that spring of '86,
When we had our grand old supper
In our minds, its 20th year to fix,
We had then with us only five
Who first helped lay its keel—
Two brothers, Cox and Williams,
Sisters Lewis, Bartlett, Neal;
For many passed away, or left,
Before we joined the band,
But still there remained these few
Who first, in circle, joined the hand.
And there were many others with us
Who came the goat to ride,
And climb the pole and other things
Which we soon after tried.
Yes, there's the face of Father Cox,
Who was one of the first in line
To take up the cause of temperance,
Which shall last through future time.
And the familiar face of Aunt Julia
Comes before my gaze, as though
I had seen her but yesterday,
Instead of years ago.
And sisters Adams, Manent, Neal,
And Resick, Lewis, Hayes,
Come filing singly, one by one
Before my vision's gaze.
And brothers Manent, Fernald, Ball,
Jackson, Adams and many more,
All of them stanch members with us
Who came in long before.
And I see in the desk of the Worthy Chief
Brother George with the ritual,
Quietly turning the leaf,
With his eyes now and then sharply turned
On the Financial Secretary's desk
To see if he is out of mischief,
And knowing which, Brother Zeke acts best.
And, old friend, I see before me
Where we youngsters used to set,
A long row of familiar faces
None of which I can forget.
The first among us young boys,
And one always ready for work or fun,
Comes the classic face of Brother Eaton;
Bro. Frank? Yes, he's the one,
And I see his noble forehead running upwards,
Showing that it's on his brain he leans,
Not as many thought at suppers,
That it must be pork and beans.
He was one who was never backward,
And was always ready to lead
Whenever the work of temperance
Needed any extra speed
And behind and o'er his shoulder
Comes a smile from Bro. Swain,
Telling that by being near the sisters
He's above earth's cares and pain.
And many other forms and faces
Come before me as I look.
Oh! there goes Brother Redford,
I know by the way the building shook.
And I can see the form of Bro. 'Gustus
As he arose and soon took his seat,
After passing a few words with the Chaplain
In regard to age, and gout.
And Bro. Hayes comes before me;
And how he solemnly used to sit
Wedged in between the young sisters
Is something I cannot forget.
There's Ralph, Minge, Al and Zina,
Vic, Fred and many more,
With the smiling face of Bro. George,
Our Pro. Tem. guard for the door.
Well, old boy, those days are past,
And our battles are near o'er,
And soon Death in gathering his harvest
Will take us from this shore,
But while life hangs around us
And its duties still we owe,
We'll hold dear and sweet in memory
Those days of long ago.

Miss Flora Hayes sang a solo, Mr. Chas. Lovell playing the accompaniment. A dialogue entitled "The Bridal Wine Cup" vividly brought before the mind the evils of moderate drinking, and was presented by a company of the young members. Next on the programme came singing by the Pettigrew sisters, a piece entitled "How cheerily goeth the day." Mr. E. E. Otis then presented in character the shining face and speech of Reverend Quacko Strong when he applied to Peter for admission at the golden gate. In the next Miss Mabel Jenkins held the assembly in rapt attention as she vividly pictured the experience of a slave, in a piece entitled "The Pilot's Story." The next was a duet by Misses Mary and Lizzie Hill, followed by a piece entitled "Betsey Harkens' visit to the city," by Miss Nellie Paul, in which she kept the members smiling as she imitated Betsey's country speech. Mr. Stephen Patch then spoke a piece entitled "Love's Sacrifice," followed by Mr. Chas. Lovell in two songs, assisted in the last by a chorus of some of the members. The first was entitled "Mrs. Fogarty's Christmas Cake," in which Mr. Lovell, dressed as Mr. Gilhooley, kept the lodge in one burst of merriment as he related the adventures he had at a Xmas party. It was doubtful with some of the members whether they would ever be able to resume their former expression of countenance, but when Mr. Manent, the W. C., announced that the baked beans were ready and were patiently waiting to be eaten, they immediately relaxed and assumed a business-like look.

The tables were elaborately spread and were covered with many kinds of pies, cakes, sweetmeats and fruit. After the supper the younger members took advantage of the lodge rules and enjoyed themselves with games, while the older ones talked over the entertainments the lodge has had in years past, and agreed that few or none had equalled the present one. The party gradually broke up, until at about twelve o'clock the lights were blown out and all gone home, fully satisfied that it was one of the pleasantest evenings they ever spent in their lives, and that being a Good Templar did not deprive any one of pleasure, but only helped them to enjoy life with more zest. The committees in charge have the heartfelt thanks of the lodge members for their entertainment, and are to be congratulated on the success of their endeavors.

WHO IS GUILTY?

There has been a murder at the trotting park, so called; who is guilty? Some may say, the victim; there is truth in that—he was guilty of suicide. Others may say, the person who sold him the liquor; there is much truth in that,—he was guilty of manslaughter. Are others guilty? There is a law in New Hampshire prohibiting the sale of liquor; county and city executive officers are bound by oath to see that the law is executed; are they not guilty? Ministers and churches give their silent consent to the violation of that law, while they know the suffering and misery that it causes; are they not guilty.

THOMAS WIGGIN.

BIG BUSINESS.

The quietest town meeting ever known in Portsmouth was held on Tuesday, to vote on the question of calling a constitutional convention. Very few people took interest enough in the matter to go near the polls. The vote of the city was 282, of which 195 were noes and 87 ayes, divided among the wards as follows: Ward one, yes 36, no 91; ward two, yes 33, no 24; ward three, yes 11, no 56; ward four, yes 7, no 24.

The *Penny Post* says that "Col. J. Horace Kent wishes it understood that he is in no way responsible for the sensational and untruthful stories telegraphed to the Boston *Globe* from this city in relation to the Roundy affair." The author of that remarkable story was a Boston reporter who happened to be in this city on Sunday, and who evidently "let himself loose."

There seems to be a good deal of interest taken by the citizens generally in the fair of the Methodist Episcopal society of this city, which comes off in the Casino next week. There will be no lotteries in connection with the fair, but a fine entertainment will be provided, and everything practicable will be done to render it a success.

It is reported that the Eastern railroad wharf at Noble's island is to be lowered, and extended toward Portsmouth bridge.

three verses a day, and wrote them regularly. Still there are noble passages in it. I remember that dear Starr King was very fond of it, and used to quote exquisite verses from it.

But as every boy knows, who will read these lines, the tenderness, the vigor, the simplicity, and the truth of Lord Tennyson's "Idyls" have made men and women forget all other poetry about King Arthur. The "Idyls" have been published at various times, and are now published in the chronological order of their own story. But in the late editions you will find them in the order the author means that they shall be read.—*Edward Everett Hale, in Wide Awake.*

Compassion and the Dog.

Among the most faithful and intelligent companions of man is the dog. To raise a hue and cry against him by a stupid invention of cases of rabies is to play the part of a barbarian. The man of fine instincts and true courage will not treat domestic animals, especially the dog or horse, with unnecessary harshness. In urging its readers to look to the comfort of live stock during the winter months the Nashville *American* says:

"No higher compliment was ever paid General Jackson than the one recorded by Henry A. Wise, who, when a young man, drove in a buggy from Nashville to the Hermitage one cold wintry day. When he reached that place he found General Jackson in a comfortable room nursing a motherless lamb. The same compassionate feeling led him to take a live infant from the breast of a dead squaw, on the battle-field of the Horseshoe, and have it carefully raised.

"Brave men are filled with compassion for the suffering of all inferior animals. One could almost point out the best and bravest in every community by the care and attention which they give to their domestic animals."

The muzzle is irritating to the well-nourished dog, and to take him out for an airing with a muzzle to his collar is to restrict his freedom. He does not get the exercise which he should have. It partakes of cruelty to muzzle and chain a dog when there is no necessity for doing so. The compassionate feeling which led that resolute type of man, Gen. Jackson, to care for the motherless lamb, demands that dogs shall not be hounded into a species of madness by people whose fears have been excited to an unnatural degree by the spread of false stories. It also demands that they shall not be compelled to wear muzzles when no dangerous symptoms are manifest. John Hollingwood's definition of hydrophobia is excellent. He said some years ago that it is a "peculiar madness that seizes men and impels them to destroy dogs."—*Turf, Field, and Farm.*

Meissonier, according to the *Art Amateur*, is heavily in debt to his agent, M. Petit, and will probably remain so to the last day of his life. His studio is crowded with unfinished pictures, i. e., the masters so consider them—which if sold, even at auction, would make him rich "beyond the dreams of avarice." But he is extremely fastidious, and in more than one instance, after having received enormous payments in advance on commissions to be executed, he has failed to finish within a reasonable time the picture ordered and has had to pay back the money. His generosity also stands in the way of his success, as he will often, when in need of money, stop to paint pictures and give them to friends.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1Jan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some hundred millions have been invested in the Rancho and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being received in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. The pimples and blotches which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Rheumatism? Why have pain in the Kidneys? Why buy and use so much Medicine? Why have the liver torpid? What makes you feel so miserable? Why are you troubled with Dyspepsia? Why have you a dull pain in the back? Why are your nerves unstrung and weak? Why do you feel so easily tired? Why are your spirits so low? Why do you feel so nervous? Why do you have the blues? Why do you feel so dull? Why do you feel so generally miserable? Why do you feel so much pain and misery? Why do you have so much sickness? Because your blood is impure, and your system needs a gentle soothing tonic to assist Nature in her work of purifying the blood, and to restore the system to a healthy condition. Sulphur Bitters is not a cure-all, but is a gentle tonic, and will do all that is claimed for it when used according to directions. Sulphur Bitters is not a cure for Rum or Poisonous Whiskey. It is not a cure for Poisonous Bitters, made to deceive the people, and sold by the million gallons. Sulphur Bitters is not a cure for Poisonous Medicines

A LETTER-CARRIER'S STORY.

"A letter-carrier has his ups and downs as every one else has, I suppose," said one of these messengers of Uncle Sam the other day, in speaking of his experiences, "but take it all in all I would rather be a carrier at $1,000 a year than a clerk at $1,200. In the first place our position is assured as long as we are honest and attentive to our duties, and then we have our little perquisities that net us more than people generally think. I used to have a route along Beacon street near the Public Gardens, and it was a very cold Christmas indeed when the rich nobs didn't remember me to the extent of $300 or $400. For letters that brought good news I have often been given crisp $5 notes from the pleased recipients. And then the little romances, and sometimes deep disappointments and heart-burning that we know of! I shall never forget the pale, anxious face with which an old millionaire used to greet me every morning for a long time, as he opened the door himself in answer to my whistle, and nervously reach for his letters. His hands would tremble as he tore open the envelopes, and then would come a long sigh of relief when he found there was no bad news. At last there came a letter that blanched his face whiter than the paper on which it was written, and he fell down senseless all in a heap at my feet. I helped to carry him up to his room, but never saw him again. Pretty soon a new family moved into the house. It was some financial trouble, I suppose, and the letter had brought ruin to the old gentleman, who had a big family to support."

Letter-Carrier W. B. Goodale, of Hartford, Conn., tells a not less interesting story, though happily its ending is not so tragic. Mr. Goodale is well known in Hartford, and his many friends to whom he had often as a carrier brought tidings of sorrow and of joy, were much pleased to receive his present message:

"For three months," he says, "I was confined to my house with inflammatory rheumatism. So severe, indeed, was my affliction that the doctors took such heroic measures as to prescribe forty grains of morphine a day, beside steaming me five times and dosing me with all sorts of medicine. I had three doctors, but their combined skill failed to give me any relief. Finally I became discouraged and determined to let the disease do its work. I had a pair of crutches made and was nervously awaiting the worst, when a friend came to see me and advised me to try Athlophoros. After much persuasion I consented. I took the first dose at six o'clock in the evening and two more during the night. The next morning, for the first time in three months, I was able to go to work, greatly to the astonishment of my friends, who all thought I would never get around again. As Athlophoros cured me I believe it will cure anybody suffering with rheumatism. It has many friends in Hartford since the people have seen that it will do all that is claimed for it."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he doesn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS Co., 112 Wall Street, New York.

THE NATION'S PAGES.

Characteristics of the Boys Who Wait on Senators and Congressmen.

An Indianapolis correspondent at Washington writes: Some interesting characters and peculiar bits of life are found in the pages of the senate and house of representatives. In the upper branch of congress there are about thirty-five pages. Their duties are well-known to the average reader. Their fields of labor are the floors of the two branches of congress. A page for the senate of the house, and vice versa. Sometimes a page is found, who is almost of age and nearly full-grown; but they average from 9 to 14 years, and most of them are very small in stature, and upon first appearance boyish in character. As years go on, if they are retained the little fellows become sagacious, often proud, and not infrequently imitate the statesmen in bearing and conversation. There is no better school for a boy in which to become an actor. He has the best of opportunity to study every phase of character. Speaking of the pages sometimes imitating the acts of their superiors, reminds me of an incident that occurred a few days ago. A very diminutive page who was borne upon the rolls of the last congress was superseded. When he learned that his place had been given to another he became considerably dejected, for this little fellow had dissipated in a mild way and had been profligate, so that he was found almost without funds, and was far away from home as the state of Missouri is from Washington. But the boy had been an observer and knew a trick or two. He studied the situation. He solved it. Going to his boarding-house he hastily packed up his effects without attracting the attention of anyone. With great caution he removed them to another quarter of the city. Then he went out to bid his confreres adieu. Meeting one of them, who was about 10 years old, and as tall as a man's arm is long, he said:

"Well, good-by, old fellow; I'm off. My companions have given me the shake. I was defeated in caucus and beaten in convention. The situation, however, leaves me a little flat. I am nearly broke; but I have found a way out. I will jump my board-bill. They all do it."

Sometimes the pages run in schools, like fish, and become clannish. Not infrequently one meets a crowd of them, all under three feet in height; at the midnight hour, making the town howl. Many of them smoke cigarettes and play billiards. Frequently the little fellows drink beer, for they can buy it anywhere at the counters. There is not a very great proportion of them, however, who fall into these channels of dissipation. Those who do generally come from the larger cities. Then the pages have a way of "hazing," and some of the capers they play upon plebeians or inexperienced boys are wonderfully severe and terribly embarrassing. One of the favorite tricks in the line of hazing is to take a new boy down in the lower basement under the hall of the house and show him the "rubber man." This basement is very dark and very broad and cavernous. Portions of it are unlighted, and the unsophisticated youth soon finds himself lost. The surroundings are weird and frightful, and it sometimes takes an hour to get out. Pages receive $74 per month during the session. Those in the house are generally changed every two years, but the boys in the senate are retained, and some of them grow up to manhood from childhood at their post of duty, as did Senator Gorman, of Maryland. It is said that a considerable number of the pages in the house are blood relatives to members, and sometimes the members have their sons appointed.

Bathing.

The man who doesn't habitually wash himself all over isn't a pleasant man to live in the same house with. He—he—well, the subject is not a pleasant one, and we won't get any closer to it. It is not what the ladies call "nice" to wear any of the same clothing at night that one does in the day time. Wives, have ready for your men clean, cool night garments. Farmers, when the day's work is over and you are ready to retire, wash your bodies thoroughly all over. Give yourself a good scrubbing in plenty of soap and water. The farmer who will go to bed with the dust and perspiration of the day still upon him is not fit to sleep in a bed. He is not in fact a civilized human being. Not! Off with your fixings and take a good bath. Then you will smell as sweet and sleep as sound as a clean baby. You will rise in the morning feverless and in good temper, ready to do a solid day's work.

A Peculiar People.

A correspondent gives some curious facts concerning the "jumpers" among the French-Canadians. He says: They attracted my attention as presenting some points of interest bearing upon the nervous system, showing to what a hyper-sensitive condition it may be brought by certain influences early begun and long continued.

I had from time to time heard lumbermen and others whose invocations led them to spend much time among the French camps speak of these "jumpers," but had given no credence to the, as I thought, absurd stories they related in regard to them, until one day, while attending to my duties in the waiting-room of my fumigating station, I incidentally let fall the window near my desk by turning the button suddenly, thus letting the frame fall a short distance, making a quick sharp noise, when three out of seven French-Canadians who were sitting near, awaiting their certificates of inspection, leaped into the air as if they had been shot, at the same time uttering a yell which

Capt. Ellery A. Garland came into town from Newington on Wednesday morning, the 10th, to look after the schooners D. K. Ham and Emily A. Staples, which are commenced to be put in readiness for summer work. Capt. Frank P. Coleman, formerly of the Emily A. Staples, left this city Wednesday morning for Bristol, R. I., to take command of the fine schooner Emily Denison, formerly of Boston, now purchased by a retired sea captain of Saco, Me.

Physicians Have Found Out

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive sub-cutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous, chalky deposit which produces stiffness and distortion of the joints. No fact, which experience has demonstrated in regard to Hostetter's Stomach Bitters, has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

SPROAT'S SYRUP OF TAR CO.—Gents: I have used your SPROAT'S SYRUP OF TAR AND WILD CHERRY as a Cough Remedy in my own family, and have seen its beneficial results among my neighbors and friends. I consider it a wonderful medicine for Coughs, Colds, Bronchial Troubles, Soreness of the Chest, Pains in the Lungs, &c., as I have never known it to fail in effecting a cure.

Very sincerely yours, GEORGE F. PRATT.

It was considered probable on the 10th inst. that a large majority of the votes cast the previous day on the constitutional convention question, were in favor of calling it.

The Root of all Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does, by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not even a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

Spare the Birds.

The Massachusetts legislature is taking up the question of the indescriminate slaughter of birds for the adornment of women's hats and bonnets, and none too soon. Statements made before the committee show that ten thousand were killed in one year in a single district of Cape Cod, and such varieties as the blue-bird, the scarlet tanager, the golden robin and other picturesque and tuneful species have already been seriously diminished in numbers. It is a very cruel and thoughtless vanity that insists on being gratified at the expense of the lives of the beautiful songsters of the woods and field, and the law should interfere to prevent it, if nothing else will.

Terrible Disaster.

The tug John Markee blew up near Long island, Boston harbor, at 7:30 o'clock A. M. on the 10th inst., and all on board, five in number, were instantly killed, the tug being shattered to atoms, and one body thrown some 200 feet into the air. The cause of the disaster will probably never be known. Her crew were all capable, steady men; the captain, C. A. Nickerson of East Boston, aged thirty-five years, leaves a wife and two children; the mate, Charles F. Hopkins, aged twenty-seven, belonged in Hampden, Me., and was unmarried; Denison H. Crocker, the engineer, was part owner in the tug, a widower, forty-three years old, and belonged in Bath, Me.; the fireman, F. W. Crocker, aged thirty-five, was the engineer's brother, and leaves a wife and three children in Hyde Park, Mass.; Albert D. Smith, the cook, was twenty-five years old, and lived in East Boston. The bodies of Capt. Nickerson and the fireman were recovered, and a few bits of wreck were picked up.

MATTERS IN YORK.

YORK CORNER, ME., March 8th.

On Thursday last Charles Hill, a son of Mr. Benjamin Hill, by accident was thrown from his wagon and stunned, and appeared rather wild for the rest of the day. He is all right now.

On Thursday evening the wagons of Mr. Timothy Furbish and Mr. Edmund Moulton collided near York Corner; the parties were thrown out, and the wagons are minus arms. The night was quite dark, and 'tis no use for anybody to say they were intoxicated, for neither of them indulges in any spirituous liquor in any form.

On the same evening the Ramblers' club gave at S. S. S. Hall a very fine drama, entitled "Down by the Sea." Although it was home talent, it fairly eclipsed many of the professional travelling shows. It is said, by critics, to have been one of the best entertainments ever given in that hall, and to a full house. They are urgently requested to repeat it.

The members of the U. O. G. C. will give the sixth (and last) of their course of entertainments on Thursday evening, the 11th inst. It will consist of the farce "Wide Enough For Two," with the following caste:

Mr. Wickersworker, a chicken crank, H. E. Evans
Hiram Brush, his level-headed partner, W. G. Moulton
Ferdinand Cowley, A. C. Moulton
Fritz Kellar, a Dutchman, J. E. Norwood
Pump, a negro, F. L. Donnell
Miss Prune, a female crank, Florence Varrell
Stattira Bush, Hiram's daughter, Ellen E. Norwood

Music will be furnished by the Boston Banjo company, assisted by the celebrated violinists, Miss Lizzie D. Davis and Mr. A. W. Vitty, of Amherst, Mass. No postponement on account of the weather.

Edward E. Mitchell has closed his school in district No. 13. A term of seventeen weeks, and the most successful term, as everybody says, for years. Another point in support of "home talent," as Mr. Mitchell was born here in the district, and has always resided here. The scholars have been very much interested, and the attendance full.

The auditors' report is in the hands of the printer, but we have no figures to give at present. Election March 22d.

The ice-crop is all harvested, the writer bringing up the rear, filling the bin last week with very handsome ice thirteen inches thick.

Over one hundred tickets have been sold in this section in aid of the fair of the I. O. O. F. of Dover, to take place on the 9th, 10th, 11th and 12th insts.; a party will go from here "to see fair play." F.

The Audubon Society.

A society taking its name after the great naturalist, J. J. Audubon, has been established for the purpose of fostering an interest for the protection of wild birds from destruction for millinery and other commercial purposes. The headquarters of the society are at No. 40 Park Row, New York city. It invites the co-operation of persons in every part of the country.

A man who has been passing two-dollar bills raised to tens, in Portland and other places, arrived in Dover on the 9th inst., and passed a number of the raised bills there. The police have a good description of him, and his partner, for there are two engaged in the business. They were in this city on the 9th, and went to Dover by the afternoon train.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

Sold by all Druggists.

Price $1; Six bottles, $5.

The rules of the Maine Central railroad in regard to passes this year are more stringent than ever. None are issued to procure business or in consideration of business of any kind, and it is only in rare cases that any are issued at all. Every person on the train, whether employe or not, must show a ticket or pass, or pay fare. Passes are not even issued to employes excepting for use solely upon business of the railroad. Indications point to a heavy travel the coming summer, and the company are duly preparing for it, eight new passenger cars having already arrived. Every car on the road has during the winter undergone renovation. The equipment of the Maine Central ranks second to none in the country.

The graduating class of the Newmarket high school will not have the usual reception this year, out of respect to the memory of the late Miss Emma Tuttle, who was a member of the class, and who died from diphtheria contracted while substituting as school teacher to oblige a sick friend.

THE NEW DIRECTORY.

Mr. Wm. S. Metcalf, assistant editor of the new Portsmouth Directory now nearly ready for issuing by W. A. Greenough & Co. of Boston, gives the following items of interest regarding the number of names:

There were in the last Directory, (for 1883-'84,) 3384 names; in the preparation of the new one 485 of these names have been left out, 2899 being carried into the new volume. Of these 2899 names, 1876 have appended in the new volume the same remarks as to residence, place of business, occupation, etc., that were in the old one; while regarding 1023 names there are alterations in some or all of these particulars. There are added in the coming volume 971 names that were not in the old one, making a total of 3870, a net increase of 486.

AN OLD LANDMARK GONE.

Mr. Frank F. Boyce of Rye cut down on Saturday, the 6th inst., at the Foye farm at Odiorne's point, a walnut tree which measured 128 inches in circumference and forty-five inches in diameter, and was at least 265 years old, having that number of distinct concentric rings. It was nearly sound, and required three and a quarter hours of hard chopping to bring it to the ground. The Piscataqua river was discovered by Capt. John Smith in 1614, which was seven years previous to the date at which this tree sprouted.

AFFAIRS IN KITTERY.

KITTERY, ME., March 8th.

The 1st Methodist society of North Kittery, are preparing for a concert to be given in their church vestry on the 18th inst.

Miss Addie Remick, of the lower village, has been visiting Miss Susie Pettigrew the past few days at her home on Merrimac street, Newburyport, Mass.

Mr. John P. Brooks finished a successful term of school in district three, North Kittery, on Friday last.

"Observer" in last week's *Gazette* has put all the boys on the *qui vive* for that "farmer's buxom daughter," and we should not be surprised if every farmhouse within forty miles of "Hedumeticus" received a call from some of our Good Templar friends in the next four weeks.

SUB ROSA.

CAPT. CARLTON'S MEETINGS.

The Methodist Episcopal church at South Eliot, Me., has been holding extra meetings for the past two weeks, conducted by Capt. Carlton, who is becoming very popular as an evangelist. The meetings have been of deep interest and profit, and it was remarked by many that the attendance night after night surpassed anything seen in South Eliot for four years. Capt. Carlton is a fluent speaker, and for fourteen years was an actor. He left on Tuesday for Haverhill, Mass., and from there goes to Vermont.

PARTICIPANT.

HAMPTON JOTTINGS.

HAMPTON, March 8th.

The Wallace Musical Comedy company, of Portsmouth, which played in the town hall Monday evening last, did not have a very large house, it being a very cold, windy night, when not many people cared to be out of doors. They will repeat the play, however, Friday evening, the 12th inst., in Union hall, a fine new hall which Landlord Whittier of the Union house has just completed, and which is really quite an addition to his hotel. Mr. Whittier has also made improvements on the interior of his house, and we understand that he has dispensed with his bar; we hope such is the case, and predict success to him in the future by so doing.

Geo. A. Bailey of Manchester, Grand Chief Templar of the Grand Lodge of New Hampshire, and William E. Noyes, of Portsmouth Past Deputy Grand Templar of the Grand Lodge of Maine, were in town Saturday last and visited several prominent temperance people here with a view toward instituting a lodge of Good Templars in this town. We understand they met with considerable encouragement from members of the Ladies' Temperance Union, and we hope ere long to see such an organization for for the benefit of our young men. C.

RYE TOWN MEETING.

At the annual "March meeting" held on Tuesday, the 9th inst., the following business was transacted:

TOWN OFFICERS CHOSEN.

Moderator, Gilman H. Jenness;
Town Clerk, John O. Drake;
Treasurer, Charles J. Brown;
Selectmen, Albert C. Locke, Albert H. Drake, Emery Woodman;
Assessors, Thomas I. Marden, Orin S. Green, William I. Holmes, Moses Clark;
Auditors, Charles D. Garland, Irving J. Seavey;
Janitor of Town Hall, A. H. Hodgdon;
Collector of Taxes, John O. Foss;
Fish and Game Warden, Henry L. Varrell.

Vote on the calling of a convention to revise the constitution, "yes" fifteen, "no" sixty-eight.

Voted to raise $6500 by taxation.

Voted to appropriate from said amount $1500 for schools, and $2000 for highways.

Remarks were made by Charles J. Brown, Esq., Hon. E. B. Philbrick, Thos. W. Rand and Horace Sawyer, on the "Sleeper legacy," and the general impression these remarks made on the minds of those present was, that said legacy would be pretty much absorbed by courts and lawyers by the time it is, if ever, decided who is entitled to it—the town or the two religious societies.

The meeting was well attended but devoid of any excitement, and the whole business was transacted inside of two hours. The highest vote cast for any town officer was eighteen, and the only contest was on tax collector, the successful candidate receiving two votes to one for his opponent.

From the treasurer's report it appears that the present liabilities are notes to the amount of $2400, at 3 1-2 per cent interest, all held by parties in town; and as there is cash on hand to the amount of $941.94, and $7.53 due from the collector of taxes, it leaves the balance against the town $1450.53. The reduction of the debt during the past year was $2707.40.

The town received from savings bank tax $2534.17, and from railroad tax $197.60.

The "Annual Report of the Selectmen, Treasurer and Superintending School Committee," was printed in good shape by Charles W. Spear, Rye Beach.

Another town meeting next week, to choose a board of education.

NAT.

Atkinson's "Aphrodite" company at Music hall this evening.

Miss Elizabeth S. Cushman, daughter of Elbridge Cushman, president of the Plymouth County (Mass.) Agricultural society, died in Lakeville, Mass., March 9th, aged twenty-four years. Miss Cushman was graduated at Wellesley in 1884, and has since taught school in Dover, and the late term at Greenland academy.

This evening, at Music hall, the great barber-shop scene.

There were a considerable number of teams in the city from York county on Wednesday, the 10th inst. The weather was very fine, and most of the vehicles were on wheels, but some farmers, deceived by the late fall of snow, came in on runners. The travelling was rather bad for both.

CHARLES G. EMMONS.

Mr. Charles G. Emmons of Manchester died in New York on Sunday, March 7th, at the age of thirty-six years. Mr. Emmons was at one time clerk of the Manchester municipal court; was assistant clerk of the state house of representatives in 1878 and '79, and clerk in 1881 and '83. As a hotel man he was widely known, having been chief clerk of the Crawford house, White mountains, and for several seasons manager of the Tip Top house on Mount Washington. He was well known in this city, having been clerk of the Rockingham house, and assistant manager of the Hotel Wentworth at Newcastle, for two years. During the winter of 1883 and '84 he had charge of a hotel in Bermuda. He started from Manchester last month for San Francisco, where he was to have assumed control of a large hotel for the Pacific railroad, but was taken ill in New York with the disease which caused his death.

Charles E. Laighton & Son have for sale the Virgin salt, price ten cents a package, with a beautiful lithograph of a pair of doves thrown in.

On Tuesday afternoon of this week one of the clerks at the Globe Grocery Co. left a lighted candled on a box of merchandise in the cellar, and being called away, left it burning. About an hour after, another clerk going into the cellar after goods discovered that the candle had fallen down, and several boxes of merchandise were blazing quite lively. By the use of a Harden hand grenade, of which a dozen are hung up on the premises, the fire was extinguished without an alarm. It was a narrow escape from a serious fire.

The Boston *Traveller* of the 10th inst. says: "Hon. Frank Jones continues to improve slowly, and his physicians say that he will probably be strong enough to return to his home at Portsmouth the latter part of this week. He has entirely abandoned the idea of going to Florida to spend several weeks this spring, believing that he will recover his health at home with the return of warm weather."

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Forenost among the strongest, richest and most success-ful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel Installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in a monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

would have done credit to a North American Indian. From that time I was on the watch for these strange characters, and, when possible, made inquiries of them through my interpreter in regard to the cause of their condition.

Before speaking of this, perhaps it will be well to enumerate some of the manifestations which have given them the characteristic name of "jumpers." One or two instances will be sufficient. Recently one of them, a French-Canadian of small stature, came out from an adjacent camp to the postoffice. Just as he was about to ask the postmaster for his mail, he being a total stranger to the official, a man of 65 years of age, someone knowing the fellow to be a "jumper" mischievously cried out: "Grab him by the throat!" The fellow sprang like a cat and grasped the old man by the throat, and held on until removed, the irate postmaster pouring forth torrents of invectives on the poor fellow, who really was perfectly guiltless.

Another unfortunate woodchopper had just come into camp from two days' work, and was standing near the large camp-heater, in which was a very hot fire, whereupon somebody cried: "Grab the furnace!" No, sooner were the words said than the poor fellow obeyed the order, and as a result left a scorched pattern of each hand on the nearly red-hot pipe, thus rendering him unfit for his work in the woods for some weeks.

As stated above, I have endeavored, when possible to investigate as to the cause of this peculiar and distressing condition; and while I find, without doubt, that primarily it is due to an inherited nervousness, the immediate cause is in taking such children, when small, and while firmly held tickling them until convulsive symptoms appear. —*Medical Record.*

Eggs are Eggs.

The wife of a certain suburban resident was that nuisance among good cooks—a perpetual borrower. One day it was a cupful of sugar, the next a box of blueing and the clothes-wringer, and so on. And she wasn't half as good at returning as she was at borrowing. One day in the midst of her cooking not an egg was there to befound. Over she went to one of her neighbors, a widow of small means, and borrowed the two or three eggs she happened to have in the house. Several weeks elapsed, when one forenoon she appeared in the widow's kitchen with three eggs in a paper bag.

"Good morning, Mrs. S. I have come to return something you let me have the other day. I had boiled eggs for breakfast this morning and these are three I had left over. Eggs are eggs, you know."—*Boston Record.*

A cigar smoking doctor says that when other smokers ask him for a light he offers them a box of matches, but never his cigar. "Gentlemen suppose," said he, "that I do this because my own cigar is not well lighted. The real reason is that I wish to avoid the risk of contagion from any one disease out of a dozen or more which may be transmitted by putting into the mouth an article infected persons have handled."

The native who carried from the field the body of the Napoleonic Prince Imperial when he lost his life fighting in South Africa was presented with a diamond ring and pensioned by the Empress Eugenie. He came to Massachusetts and was lost sight of, but the ring was found last week in a Boston pawnshop.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtJan

Whisky Without Fusel Oil.

(From the Philadelphia News.)

It is a fact not generally known that there is not a medicine to-day that enters so largely into the practice of the medical profession for the treatment of the sick and debilitated as alcohol in the form of whiskey. There is not an intelligent physician in the country that has not had occasion to prescribe it daily, nor a hospital, infirmary or curative institution that does not keep it constantly on hand as a need. In its pure state it is acknowledged to be the best stimulant, the best curative, and the only cure for convalescence, hemorrhages, malaria and dyspepsia. It will no doubt astonish our readers, when informed and sustained by statistics, that nearly one-sixth of all the whiskey sold in this country, at this time, is dispensed by druggists and grocers. So important is alcohol in the treatment of disease that Professor Austin Flint, of the Bellevue Hospital, Medical College, New York (Professor of the Principles and Practice of Medicine), says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century." Two ounces of alcohol contain more nutriment than ten ounces of lean meat. It is the only thing that enters the blood direct, without digestive effort of the stomach, and it is, therefore, peculiarly fitted for the weak and debilitated. Whiskey has always been recognized by the medical profession as the best form in which to take alcohol, only one objection being urged against it, i.e., the presence of fusel oil. The elimination of this deadly poison has for centuries been the cause of more investigation and experiment among scientists and chemists, owing to the important part whiskey plays in the treatment of disease, than any one medicine known to the pharmacopœia. It was not until within the last decade that the secret of elimination was accidentally discovered in Canada, by old Mr. Duffy, who bequeathed it to his son, who organized the Duffy Malt Whiskey Co. of Baltimore, Md., which company now possesses the secret, and it is to-day the discoverer and sole manufacturer in the world of an absolutely pure whiskey. Already famous, it is universally known as Duffy's pure malt whiskey, which, aside from being pure, combines a food and stimulant quality.

John A. Logan is said to be decidedly happy. He has found out the secret of successful campaigning. It is a plentiful supply of Dr. Bull's Cough Syrup. It keeps a man calm and serene.

The old tea and coffee firm of Claflin, Allison & Co., of Boston, have made an assignment, with liabilities of $75,000.

Those persons who do not need iron, but who are troubled with nervousness and dyspepsia, will find in Carter's Little Nerve Pills a most desirable article. They are mostly used in combination with Carter's Little Liver Pills, and in this way often exert a most magical effect. Take just one pill of each kind immediately after eating and you will be free from indigestion and dyspepsia. In vials at 25 cents. Sold by all druggists.

Prince Bismarck is said to be suffering from general prostration.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest.

Twenty persons were killed and many wounded by a railroad collision in France, between Mentone and Monte Carlo.

J. P. Morris, cashier of the Girard house, Philadelphia, Pa., writes, November 27th, 1884: "For the past twelve years I have been a sufferer with what is known to the medical profession as lumbago. Having been recommended, about five years ago, to try Allcock's Porous Plasters, I did so, and was more than astonished at the result. I found almost immediate relief on their application. I wear one constantly now, and would not be without them. I consider them invaluable."

A nephew of Jules Verne fired two shots at him on the 10th inst., intending to kill him. Verne was slightly wounded in one leg.

Take Ayer's Sarsaparilla, in the spring of the year, to purify the blood, invigorate the system, excite the liver to action, and restore healthy tone and vigor to the whole physical mechanism. Remember that quality, not quantity, constitutes the value of medicine.

The spinners in the knitting mills at Cohoes, N. Y., were ordered out by the Knights of Labor on the 10th inst., causing a general shut down; 5000 operatives are idle.

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. I did try them, and now I am a well man and can eat anything. Sulphur Bitters are a great few to doctors.—George Bastett, N. Y. C. and H. R. Railroad.

BETTER THAN PROMISES

Is positive proof.

What has been done in many cases can still be done in others. Sufferers from rheumatism and neuralgia can find relief if they wish. In proof of this statement the following letters are submitted:—

East Somerville, Mass., Jan. 26, 1886.

I have been asked to give my testimony as to what good there is in Athlophoros as a cure for rheumatism, and I simply say to those who are suffering from it try it, and if it does not give relief or a permanent cure it will be a most extraordinary case. In my own case it is a well-known fact among many of my acquaintances it knocked the rheumatism out of me.

GEO. C. BOERUM, U. S. N.
44 Franklin street.

East Douglass, Mass., Jan. 25, 1886.

One-third of a bottle of Athlophoros cured me of inflammatory rheumatism. Being a cattle dealer my business compels me to be around in all kinds of weather and by constant exposure I contracted a severe and painful attack of inflammatory rheumatism in the hips and arms, which defied the supposed healing virtues of most every known remedy. Hearing that Athlophoros was doing wonders I tried it with the above gratifying results. Although the rheumatism has not troubled me for nearly a year, I always keep Athlophoros where I can lay my hands on it, and now instead of the disease defying the medicine matters are reversed. I feel perfectly safe for I *know* Athlophoros will cure rheumatism. E. P. HEATH.

Boston, Mass., Jan. 8, 1886.

Yes, sir; Athlophoros *will* cure rheumatism and so far as my experience goes it is the only medicine that *will* make a complete cure, for I have tried most every thing with no effect. Certainly there was no good effect from my long use of the many so-called rheumatic cures, for all proved worthless; but when I saw with my own eyes what Athlophoros had done for a friend of mine—*cured him of rheumatism*—I tried it, and two doses of it relieved me so much as to permit me to put my feet on the ground, and in twenty-four hours I was standing on my feet, after which I steadily improved and soon was entirely rid of the rheumatism. So I truthfully say to anybody suffering with rheumatism take Athlophoros and you will be cured.

GUSTAF NELSSON, 216 Harrison Av.

Boston, Mass., Jan. 8, 1886.

I was suffering terribly with inflammatory rheumatism and thought I would just try Athlophoros. It did so, receiving immediate relief after taking three or four doses without any deleterious effects from it. I can honestly recommend it to any one suffering from muscular or inflammatory rheumatism. E. S. RICHARDS.

50 Washington street.

Boston, Mass., Jan. 19, 1886.

I desire to express my feeling of gratitude for the benefit I received from the use of Athlophoros, a medicine of genuine worth; being afflicted with that common but painful disease, inflammatory rheumatism, and being laid up because my feet were so swollen I could not stand up, I commenced using Athlophoros. Before half of the first bottle was used I was able to walk to my store. I continued to use it until in a short while my rheumatism disappeared entirely, the cure complete. I recommend Athlophoros because I know it to be an article of merit.

93 Prince St. FRANK SCHILLER.

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS Co., 112 Wall Street, New York.

Chinamen and Chinamen.

I have learned, writes H. Sherwin in the *Overland Monthly*, that there are Chinamen and Chinamen. As well judge the Maine farmer lad by the New York city arab as the well-bred, honest, steady young fellow from the rice farms up the river from Canton, by the Hong Kong street cooly or dock rat. Most people are quite without discrimination in selecting a Chinese workman, and seem to think it is pure luck whether they get a clear-skinned, bright-eyed boy, modest, intelligent, and trustworthy, or a hard-looking old opium smoker. It is perfectly possible to select with some certainty; but the only way I know to do it is to be acquainted with some sensible, trustworthy Chinaman, and explain to him what you want, and if it is his opinion that you will be a fair and agreeable employer, whom he can feel justified in recommending to his friends, you will, as soon as he can find the right man, be very satisfactorily supplied. But if you have a bad reputation as an employer—if you are unreasonable or bad pay or unpleasant in your ways and inconsiderate of a servant's feelings, you will be politely told, month after month, that no suitable boy has yet been found. For these farmers' boys are self-respecting fellows. They will not take insulting treatment, nor even rough jokes; they will not bear aggressions on their personal dignity. I have known one of them to leave a place because some article of food was locked up from him, on the ground that there was only enough to go around the family; yet he would, probably, if nothing had been said to him, have estimated that someone must go without, and silently refrained from taking any himself, as I have often known them to do, even when it was a favorite dish. Many a household has been suddenly deprived of its very satisfactory cook because someone had mocked him rudely or put hands on him roughly. It is worth while to note this, in view of the popular idea that a Chinaman will go anywhere and endure anything for money. On the contrary, many of this class of Chinamen will throw up a paying position and remain some time out of work sooner than receive indignity.

They are, in fact—I speak for my own acquaintance among them; others may have a different experience—gentlemen. They show instinctively a simple refinement and careful breeding. In my own home we have in more than a dozen years had only two cooks, handsome young fellows from the same village; and in all these years, spent under the same roof, in the isolation of a country house. I may say that I have had pretty fair opportunity to know these boys. And I have found them both essentially gentlemen. I have never seen a European foreigner of their humble class who approached them in refinement, simple dignity, and unfailing sense of propriety. I do not know how many of our own boys could go to a foreign land and carry off such a position so well. In a somewhat cruder way, the farm hands that I have seen much of show the same native refinement and propriety, though they are often bashful and awkward. And I do not doubt that they all have been, in fact, carefully bred in their simple homes by painstaking parents. When they become certain that you intend no ridicule, and will listen with entire respect, they will tell you a little about their homes, and from their fragmentary accounts it is easy to get an idea of the plain, honest, and temperate peasantry from which they come; and it is an idea that must give one a sincere respect for them.

Drinking One's Money's Worth.

How many of us drink intelligently when we visit celebrated springs? We pay our five dollars a day, and that certainly ought to entitle one to drinking as much as one likes. So we rush blindly on, into our first visit, running a race with old habitues who have come fortified by their physician's carefully guarded opinions. Of course it doesn't kill us on the spot. Perhaps in solitary cases the soaking may work good, although it wasn't the spring to be prescribed for us, but one exactly the opposite in its properties. At any rate, we return home satisfied to have obtained our money's worth. That satisfaction goes a long way toward good health, it is true.—*Margaret Sidney, in Good Housekeeping.*

The popularity of theatrical entertainments in London may be inferred from the statement of the manager of one of the theatres that during the seventeen years his house had been open its receipts have been no less than £675,000, or an average of $200,000 a year.

According to General Morin, the eminent expert, the proper temperature in well-ventilated places is as follows: Nurseries, asylums and schools, 69 degrees; workshops, barracks and prisons, 59; hospitals, 61 to 64; theatres and lecture-rooms, 66 to 69. In dwellings in this country it has been the custom to keep the temperature at 65 to 70 degrees.

"We bend the knee, but not the elbow," enthusiastically exclaimed an orator at a temperance meeting the other evening. "That's so," said an unreclaimed sinner on a back seat. "It's the only way you can get your mouth to the bunghole."—*National Weekly.*

A father was very much annoyed by the foolish questions of his little son. "Johnny, you are a great source of annoyance to me." "What's the matter, pa?" "You ask so many foolish questions. I wasn't a big donkey when I was of your age." "No, pa, but you've growed a heap since."—*Troy Press.*

It is charged that the most shameless repeating and fraudulent voting prevailed in Biddeford on the 8th inst., and that on a fair vote the republicans would have carried a majority of the wards. Four men were arrested on the 9th by Sheriff Small; their names are Frederick Gillis, William Smith, Edward Smith and Lawrence Charlton, and it is claimed that they are all residents of Portland. At a preliminary hearing on the 10th they pleaded not guilty, waived examination, and were bound over in $500 bonds each to the May term of the supreme court.

The Rev. E. W. Allen, formerly Pastor of the West Church, Haverhill, Mass., writes this flattering testimonial:

SPROAT'S SYRUP OF TAR CO.—Gentlemen: I can speak of your SPROAT'S SYRUP of TAR and WILD CHERRY in terms of the highest praise, and gladly recommend it to all sufferers from Coughs, Colds, Throat and Lung troubles. Very sincerely, E. W. ALLEN.

☞ Sold by all Druggists and Grocers.

DR. HAM'S AROMATIC INVIGORATOR.

SURE CURE FOR

LOW SPIRITS, DYSPEPSIA, NERVOUSNESS, HEADACHE, Cold Feet, Weak Back, Nervous Complaints, KIDNEY COMPLAINTS, MELANCHOLY, DESIRE TO DIE, and INTEMPERANCE.

As a MEDICINE it is quick and effectual; curing the worst and most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in from four or five minutes to Twenty-Four hours.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, feeble, nervous, and sickly to health, strength, and vigor.

Nightly Dissipation.—Persons who, from dissipating too much over night, feel the evil effects of the poisonous liquors in violent headaches, Sickness at Stomach, Weakness, Giddiness, etc., will find that one dose will remove all bad feelings.

Ladies of weak and sickly constitutions should take the INVIGORATOR three times per day; it will make you strong, healthy, and happy; remove all obstructions and irregularities from the Menstrual Organs, and restore the bloom of health and beauty to the sickly, shrivelled, and wasted cheek or face. All Druggists and Dealers.

PROF. CHS. LUDWIG VON SEEGER,

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the horde of trashy cure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Calisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

Invaluable to all whose Run Down, Nervous, Dyspeptic, Bilious, Malarious or afflicted with weak kidneys. Beware of Imitations.

HER MAJESTY'S PATCHES COSMETIC GLYCERINE.

Used by Her Royal Highness the Princess of Wales and the nobility. For the Skin, Complexion, Eruptions, Chapping, Roughness. $1.00. Of druggists.

Biliousness

Is very prevalent at this season, the symptoms being bitter taste, offensive breath, coated tongue, sick headache, drowsiness, dizziness, loss of appetite. If this condition is allowed to continue, serious consequences may result. By promptly taking Hood's Sarsaparilla, a fever may be avoided or premature death prevented. It is a positive cure for biliousness. Sold by all druggists.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

HAMPTON JOTTINGS.

HAMPTON, March 9th, 1886.

One of the windows in the apartments of Rev. Walcott Fay and wife was blown in during the recent tempestuous weather, and as it was impossible to replace it until the storm subsided they sought refuge by flight to Boston, but are now safely home again, in the same rooms at the residence of Mrs. Samuel Drake.

Mrs. Lamprey, widow of the late Hon. Uri Lamprey, had her shoulder dislocated by accidentally stepping in front of a passing sleigh in the street near her residence.

The new school law is a general topic of discussion, and some technical points seem to confuse both legal and non-legal brains, one being the statute time for electing the school board. Doubtless there is some indefiniteness in the law, but on these points the Supreme court in its recent decision of Sargent vs. Union School District in Concord, states: "If it is found * * * that any clause taken in its strict literal sense, would not express, but would defeat the legislative will, it is to be construed with such liberality as will execute the proved design of the law-making power." The new law was designed merely to amend and improve, but not to annul or abolish, the grand old common school system of New England, and hence, all the old laws are in full force, excepting in the very few points changed by this new act of the last legislature. The law directing and limiting the time for calling the annual school meeting *was, and is, and will be* until altered or repealed by the legislature, between the "first Tuesday in January and the second Tuesday in March." See Gen. Laws, chap. 87, p. 209.

Town meeting to-day. Small attendance. Usual routine business. Vote on constitutional convention — "Yes," fifty, "No," twenty-nine. Committee appointed to report on repairing town houses. Appropriated $300 to the high school for ensuing year. Voted to pay lawyers' fees in suit decided by Supreme court against the squatters on the lee way of the ocean or "Beach Hill." * *

Fast Day, April 8th.

Governor Currier and council on the 11th inst. appointed Thursday, April 8th, as a day of fasting and prayer.

Walter H. Page, Esq., local editor of the *Times*, was united in matrimony with Miss Georgie S. Church on Wednesday, 10th inst., at the residence of the bride's father, Mr. Daniel Church, Rev. Dr. Alden officiating. The newly wedded pair started Wednesday evening on a trip to New York and Washington. We don't know of anybody more deserving of an occassional vacation than the hard-working newspaper man, but about the only time he ever gets one is when he gets married. We wish the couple lasting happiness in their new relation.

Seven iron-platers were discharged from the department of construction and repair at the navy yard on the 10th inst., and still the lack of money available for that department is such that the remaining employes (except the bosses and clerks) will have to lose ten days each during March.

The schooner Agnes E. Downs, Capt. Levi Downs master, arrived in the lower harbor on the 11th inst. from Boston, where she had just finished delivering a cargo of frozen herring from an eastern port. She will fit out for a southern mackerel cruise, and will start about the 25th inst.

Wentworth Lodge, Knights of Pythias, of Newcastle, will celebrate the 5th anniversary of the lodge on Wednesday evening, the 17th inst., by a ball and supper.

The schooner War Eagle, which has for a considerable time been hauled up on the flats near the mouth of Chauncy's creek, Kittery, is reported to be offered for sale.

The Constitutional Convention.

Returns from 184 cities and towns received in Concord up to the evening of the 10th inst., gave the following vote on the constitutional convention: Affirmative, 9658; negative, 8314; majority in favor, 1334. All but four or five of the remaining fifty towns to hear from are small, and it is believed that they will increase the majority in favor of the convention. On the returns received the following counties show majorities in the affirmative: Belknap, Carroll, Merrimack, Hillsboro, Cheshire, Grafton and Coos; and the following in the negative: Rockingham, Strafford and Sullivan.

NEW AND YET OLD.

I have been searching the bible for forty-six years, to get light concerning the various subjects it treats. I find there are two organic beings now in heaven, namely, God, the creator of the heavens and the earth that now is, and his son Jesus Christ, who was born of a woman, who at that time lived under the Mosaic dispensation, but later died under the gospel dispensation. These two beings are to have two separate literal kingdoms located on the earth, under the whole heavens, at two separate points of time. One on the earth as it now is, and the other on the earth as it shall be when God shall create a new heaven and a new earth out of the ashes of this present earth, and that is thereon, when God makes good his promise to his son, Christ, that he shall have the heaven for his inheritance and the uttermost parts of the earth for his possession, and that his kingdom shall be from the rivers to the ends of the earth.

When Christ does come back from heaven presently, literally to this earth, and every eye shall see him for itself, then the kingdom of this world will become his (Christ's) and he will then reign king on the earth, and every person who ever lived on the earth, who has fallen asleep or died (which is only sleep), will then have a resurrection to life and will stand on this sin-cursed earth once more, and then a separation will be made among the people by Christ, the king. Then the good and faithful will be taken bodily off from the earth, but the unfaithful and wicked will be left on the earth, to be burnt with the earth into ashes after the great battle of God is finished. This battle will be literal, as much so as any battle that has ever been fought between two nations. You can read about it for yourselves as recorded by Jeremiah, the prophet, in the twenty-fifth chapter. We read in other places of this event, how every man's hand shall be against his brother.

For Instant Use

An invaluable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S
Cherry Pectoral

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 187 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most precious of all the remedies I have ever used." W. H. Sickler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Ayer's Cherry Pectoral

with me. It is without a rival for the cure of bronchial affections."

"APHRODITE."

The new musical farce under the above title was performed at Music hall on Thursday evening by Atkinson's company, to a good audience. Some little friction was observable here and there in the movement of the piece, consequent, undoubtedly, on its being new; but there is a good deal of fun in it, and unlike the sketchy plays "of the Tourist class" there is a distinct and entertaining plot running through it, and worked out to the end. The last act, the Japanese tea party, is the best of all. The play was well received by the audience, and will prove a popular one.

THE POST-OFFICE VESTIBULE.

Mr. Editor: I am by no means a chronic complainer, preferring to bear the evils that we have, when they are bearable, rather than make a fuss; but the manner in which the hoodlum and bummer element is allowed to run the vestibule of the post-office right along, is disgraceful to those in charge of the building, and an outrage on every decent person who has occasion to enter the place on business. That the vestibule is filthily dirty in comparison with the state in which it was kept during the past sixteen years, could be borne; but when a self-respecting and valued female domestic returns from the post-office, and respectfully but firmly announces that she will not again go to the office for the mail, not caring to face the gross and unchecked profanity and vile obscenity which is the regular thing there in the early evening, I think it is high time to speak, in the interest of common decency, if of nothing else.

From what the girl told my wife, and the result of enquiries of others, I learned that on this particular evening, (Wednesday last,) about quarter past seven, the vestibule being then to a great extent filled with people, many of them ladies, one of the gang of hoodlums who regularly infest the place at that hour made an insulting remark to a young man, apparently a respectable mechanic, who was passing, and who gave him a slight shaking for his insolence. The gutter-snipe prudently held his tongue still until the young mechanic was near the door at the other end of the vestibule on his way out, when, apparently realizing the necessity of taking some action to avert disgrace in the eyes of his chums, the hoodlum yelled out a remark of the most filthily vile character, loud enough to be heard by every person inside the doors. The janitor of the building, who was standing near the young ruffian, laughed!

Happening on Thursday to mention to a lady friend the girl's refusal to visit the post-office again, the lady replied, "Oh! I don't blame her; I don't go to the office myself now, in the evening, unless I am accompanied by a gentleman. The last time I went there, two big boys were struggling on the floor in front of my box, wrestling, and when I said 'Will you please move, so that I can get at my box?' one of them looked up and said: 'We'll move when we get d—d good and ready!' I didn't wait for them, but retreated without my mail."

Under the management of Collector Howard and Postmaster Pierce, the vestibule was kept open from nine in the forenoon to six in the evening on Sundays, and no abuses ever arose therefrom; under the present management it has been closed during all but two hours of the day, on account of the irruption of bummers and loafers in the afternoon. I would respectfully suggest to the management of the building that the vestibule doors be hereafter closed and locked at four o'clock in the afternoon on week days, as after that hour its principal use appears to be as a rendezvous for half-grown wharf-rats—a receptacle for the scum of the back-slums gutters.

AN INDIGNANT DEMOCRATIC VOTER.

[From the Penny Post.]

"WILL THEY KEEP?"

Harden "Star" Hand Grenades cannot and do not Deteriorate with Age.

A few days ago we published a note from a gentleman in this city, inquiring where "Hand Grenades" might be found; stating that the escape from a very serious conflagration on Austin street early last week was due to the very effective use of a single grenade in the hands of a neighbor, and that the knowledge of where they are kept should be in the possession of every citizen who desires to have the means at hand to extinguish incipient conflagrations. We believed at the time, and so stated, that all first-class grocery stores kept them, but are now informed that A. P. Wendell & Co., No. 2 Market Square, are now, and have been for two years past, local agents for these grenades, a large quantity being kept on hand at all times. These grenades should be kept in every house; they cost but a trifle, and might prevent direful calamities.

It is well known that the recent fire at Kittery Point, by which the Blaisdell farm buildings were destroyed, could have been put out had fire grenades been at hand, and what makes this case seem more regretable is this fact—that Mr. Blaisdell was urged, when in this city a day or two previous to his loss, to purchase some of these grenades, but neglected to do so. That they do not deteriorate with age is well attested by the following:

[Extract from the Supplementary Report made on the Harden Hand Grenade by B F. Isherwood, Chief Engineer, May 21, 1864, to Hon. W. E. Chandler, Secretary U. S. Navy.

"*There is no doubt the mixture within them will retain its efficiency undiminished during an indefinite period.* The gasses developed from the liquid by heat *are the best that modern chemistry can furnish* for the extinction of flame, which they accomplish, not only negatively, by excluding atmospheric oxygen, but positively, by direct antagonism.

LEGGETT & MYERS,
Thirteenth and Charles Sts.,
ST. LOUIS, December 3, 1884.

HARDEN HAND GRENADE FIRE EXTINGUISHER CO., Chicago, Ill. *Gentlemen:* We have had your grenades throughout our works now for about a year. To satisfy ourselves that they "remain good until used," as was guaranteed when purchased, a number were put to a very severe test last evening. Flames covering a surface some twelve or fifteen feet, reaching a height not less than twenty, were instantly extinguished by three or four grenades, proving beyond a shadow of doubt all that was at first claimed for them. Yours truly,
LEGGETT & MYERS TOBACCO CO.

Go and see the race on common buggy wheels at Franklin hall to-night.

The bicycle riding at Franklin hall to-night will introduce many novel features, such as playing polo on wheels.

Miss Florence P. Whilden of this city, the promising and already highly proficient young solo pianist, on Wednesday evening, the 10th inst., assisted at a grand concert given in the hall of the Young Men's Christian Union of Boston, and was complimented by being given the first and last numbers on the programme, her selections being from Chopin, Whitney, Beethoven and Rubinstein. This must have been quite a tax on the young lady's endurance, she having taken part the previous evening in the charity concert in this city, and besides her stated pieces, responded to encores on each appearance.

Mr. Albert A. Woodward has been appointed janitor of the Rockingham and First National banks and the Portsmouth savings bank, in place of Ebenezer Wyatt deceased.

Captain J. Albert Sanborn and wife, who went to Hungary about eight months ago, have arrived home. They left Hungary on Feb. 3d, and arrived home on March 6th.

Wilson & Lester's costumer will be at Franklin hall to-day with 500 costumes, varying in price from 25 cents to $2.00.

WHAT IS DYSPEPSIA?

Among the many symptoms of Dyspepsia or indigestion the most prominent are: Variable appetite; faint, gnawing feeling at pit of the stomach, with unsatisfied craving for food; heartburn, feeling of weight and wind in the stomach, bad breath, bad taste in the mouth, low spirits, general prostration, headache, and constipation. There is no form of disease more prevalent than Dyspepsia, and none so peculiar to the high-living and rapid-eating American people. Alcohol and tobacco produce Dyspepsia; also, bad air, rapid eating, etc. BURDOCK BLOOD BITTERS will cure the worst case, by regulating the bowels and toning up the digestive organs. Sold everywhere.

A Novel Feature in Investments.

The wheel country after having undergone a period of depression is now asking itself, what business has least been affected and unjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

I have been taking your medicine Athlophoros and it has helped me very much. I will recommend it to any one for rheumatism. I think another bottle, making three in all, will cure me. Mrs. M. A. Johnson, 12 Vine street, Lawrence, Mass.

The fishing schooner Welcome, at Gloucester on the 10th inst. from Georges, reports on Feb 16th lost overboard Antone Enos, a single man twenty-four years of age, belonging to the Azores islands.

Those persons who do not need iron, but who are troubled with nervousness and dyspepsia, will find in Carter's Little Nerve Pills a most desirable article. They are mostly used in combination with Carter's Little Liver Pills, and in this way often exert a most magical effect. Take just one pill of each kind immediately after eating and you will be free from indigestion and dyspepsia. In vials at 25 cents. Sold by all druggists.

The captain, manager and first baseman of the Boston base ball nine for 1886 is Mr. John Morrill.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest.

There is a shortage of over $78,000 in the accounts of County Treasurer Hollingsworth, of Vincennes county, Indiana.

J. P. Morris, cashier of the Girard house, Philadelphia, Pa., writes, November 27th, 1884: "For the past twelve years I have been a sufferer with what is known to the medical profession as lumbago. Having been recommended, about five years ago, to try Allcock's Porous Plasters, I did so, and was more than astonished at the result. I found almost immediate relief on their application. I wear one constantly now, and would not be without them. I consider them invaluable."

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. I did try them, and now I am a well man and can eat anything. Sulphur Bitters are a great fee to doctors.—George Bastett, N. Y. C. and H. R. Railroad.

Capt. S. E. Braun and Attorney M. E. Grace had a discussion with pistols in the custom house at New Orleans, and successfully perforated each other three times apiece. Neither of them will have anything more to do with fire, in this world.

Take It This Month.

Spring rapidly approaches, and it is important that every one should be prepared for the depressing effects of the changing season. This is the time to purify the blood and strengthen the system, by taking Hood's Sarsaparilla, which stands unequalled as a spring medicine, and has endorsement of a character seldom given any proprietary medicine. A book containing statements of the many wonderful cures it has accomplished, will be sent upon application to C. I. Hood & Co., Apothecaries, Lowell, Mass. 100 doses one dollar.

THE HOPE OF NEW ENGLAND.

The last census is not altogether pleasant reading in many portions for the sons of New England, but it conveys lessons which they cannot afford to ignore. If it tells that Maine and Vermont stood stationary as regards populations between 1870 and 1880, it also records the rapid growth and prosperity of many cities and towns which are beginning to tread upon the heels of older communities. It seems to say that to manufactures, not to agriculture, must New England apply herself, and that to the skill of her artisans must she look for her old-time supremacy. This changed condition of affairs is recognized in many enterprising cities, a good example of which may be found in Waterbury, the bustling Connecticut city upon the Naugatuck that is so rapidly coming to the front as a manufacturing center. Waterbury has wide-awake citizens who take every opportunity to push it and to welcome new ideas. The advantage of such a progressive spirit is well shown in the case of G. W. Angell, who lives at No. 204 South Main street, Waterbury, and who gives this personal experience:

"For twenty years I have suffered tortures from chronic rheumatism. The doctors said I was incurable, but thanks to Athlophoros, I have now taken a new lease on life. I had tried numerous remedies with the hope of at least allaying my suffering, but all failed until a friend advised me to try Athlophoros. I did so, and as the result am now looking and feeling as though I had never known what rheumatism was."

Mrs. E. Vickers, of No. 46 Pleasant street, says:

"It is owing to Athlophoros that I am now alive. I suffered with inflammatory rheumatism for years, most of the time being perfectly helpless. One bottle of Athlophoros cured me. I can sincerely say that there is nothing like it for the speedy relief and permanent cure of rheumatism and can recommend it to all suffering from that disease."

The testimony is reinforced by that of Mrs. Jane Downey, of No. 24 Pleasant street, a near neighbor of Mrs. Vicker's, in this story of her case:

"Two bottles of Athlophoros cured me of inflammatory rheumatism. My family physician advised me to take the remedy, saying that he had done all he could for me, but could give me no relief. Athlophoros drove the rheumatism away, and I am happy to say that it has never come back. My daughter, who suffered terribly from rheumatism, was also cured by taking half a bottle of the medicine."

If you cannot get ATHLOPHOROS of your druggist, we will send it express prepaid on receipt of regular prices—one dollar per bottle. We prefer that you buy it from your druggist, but if he haven't it, do not be persuaded to take something else, but order at once from us as directed. ATHLOPHOROS Co., 112 Wall Street, New York.

SO BLUE.

"My child, you have more than fulfilled every hope I ever formed of you."

Magdalen Foster blushed with pleasure at her father's words, as well she might, for the letter in her hand announced that the papers sent up by her at the recent classical examination entitled her to the ninth place in the first class.

She was tall and stooped slightly, her complexion, though clear, was colorless, and she had the reflective, full look that is not infrequently the sign of habitual study. Yet her face was singularly sweet in expression, the open, tranquil brow seemed incapable of frowning, the brown eyes might be dreamy, but never irate.

"Magdalen," continued her father, "are you still willing to become my amanuensis?"

"Oh, papa," returned the girl, eagerly, "I shall be so proud if you will let me."

Mr. Foster was an eminent student of the classics, and it had always been Magdalen's great ambition to help him in the preparation of his valuable works.

She did not foresee all the results of her college achievements, and of this new relation to her father. It did not occur to the simple-minded girl that there was anything in what she had done to alienate her from her old acquaintances. Yet so it was. Quite unconsciously she awed her contemporaries, who, girls and young men alike, fought shy of so distinguished a "bluestocking." She remained Miss Foster only in name; to all intents and purposes Nora was the elder sister. While Magdalen had been poring over her books, Nora had studied the art of making herself agreeable, and assiduously cultivated a coterie of useful gifts.

One evening they were taken by surprise by the unexpected arrival of Will Fairburn, an old friend and playfellow. Dinner was just being served, and the young man took his seat among them, laughing and putting up his hands as if to petition against the volley of questions and exclamations with which he was saluted.

"I haven't distinguished a single word any one has said," he declared at last.

"But I imagine you are asking where I sprang from and what I've come about. Briefly, then, I'm off to the west in a month's time, and have come to bid you all a long farewell."

"Farewell!" exclaimed all the Fosters.

"What do you mean?"

"I had $25,000 left me by my aunt," Will proceeded to explain, "and a friend strongly advises me to invest it in cattle. He says they pay tremendously and the life is delightful. I have consulted every possible authority and really don't see that I could do better. I hate office work, I haven't the brains to take up a profession, and farming here is no go. And I consider that I am rather cut out for a rancher."

He ended in a tone of modest self-appreciation, which was not unwarranted, for he was a man of splendid physique. Besides which, all his tastes fitted him for an occupation demanding physical rather than mental ability. He had never cared for study. So long as he could scrape on at school and college without disgracing himself he was content, and devoted his heartiest energies to the athletic sports in which his soul delighted.

Dinner over, Mr. Foster rose almost immediately from the table.

"Can you spare me an extra hour this evening, Magdalen?" he asked.

"Certainly, papa, I will come at once."

"Magdalen is a good deal changed," remarked Will, as he and Nora strolled out into the garden together. Nora offered her own explanation, taking care to speak in the most affectionate sisterly tone.

"Yes," she said; "you are right. You see ever since Magdalen returned from Wellesley she has been encouraged in her devotion to study. People express the greatest admiration for her talents; then papa has made her his secretary, and so, without being in the least conceited, she naturally feels that she is superior to the girls she ordinarily meets. You know, Will, I can't help thinking it was a mistake to let her grow so very learned. I think it is a woman's part to be helpful and domestic, to take interest in the good management of small matters, and in the welfare of those about her."

"Why can't Magdalen be domestic as well as intellectual?" demanded Will moodily. "I don't see the incompatibility."

Nora did not choose to tell him that Magdalen had begged to be allowed to take part in the household affairs and that she herself had opposed the suggestion. She had gained a character for domesticity, and she did not wish to have her supremacy shared.

"I dare say there is no actual incompatibility," she admitted gently; "but Magdalen is so wrapped up in her work for papa that we never think of occupying her mind with matters which I am quite willing to see after myself. Why should she be bothered? She is not the girl to marry, unless indeed"—Nora laughed gaily—"she could find a man that was all intellect and had no bodily needs to be ministered to."

Poor Will! Magdalen joined them in the garden later on, but for his own sake he held aloof from her. The girl was greatly hurt, as of old she had been his special friend. Too shy to complain however, she shrank into herself, and with a pang of regret, saw Will fall into the way of the world—treat her, namely, with distant respect, and Nora with familiar friendliness. He had not been at Foster's many days before his name was coupled with Nora's by all the match-makers in the neighborhood. The good people were much mistaken. Will might walk, ride, or play tennis with Nora or even constitute himself her

Not Symptoms, but the Disease.

It would seem to be a truth appreciable by all, and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms, should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Indigestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other maladies are not palliated merely, but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is its best protection against disease.

The New Jersey assembly has passed a measure authorizing the construction of a bridge across Staten Island sound.

From B. F. Liepsuer, A. M., Red Bank, N. J. I have been troubled with catarrh so badly for several years that it seriously affected my voice. I tried Dr. ——'s remedy without the slightest relief. One bottle of Ely's Cream Balm did the work. My voice is fully restored and my head feels better than for years.

In regard to Ely's Cream Balm, for catarrh, my answer is, I can recommend it as the best remedy I ever used.—Dr. J. S. Vaughan, Dentist, Muskegon, Mich. See adv't.

Mr. J. Schrader, a book-keeper at 11 German street, Baltimore, Md., states:—"I've used Salvation Oil for rheumatism from which I've suffered greatly for a long while and can say it entirely relieved me. I would not be without it at any cost."

The infant son of Ex-Secretary of the Navy Chandler, now nearly a year old, was christened at the All Souls Unitarian church in Washington on Sunday, the 7th inst. His name is John Parker Hale, for Mrs. Chandler's father, the late John P. Hale.

Three Reasons

Why every one needs, and should take Hood's Sarsaparilla in the spring:—

1st: Because the system is now it its greatest need. Hood's Sarsaparilla gives strength.

2d: Because the blood is sluggish and impure. Hood's Sarsaparilla purifies.

3d: Because, from the above facts, Hood's Sarsaparilla will do a greater amount of good now than at any other time. Take it now.

At Bridgewater, N. H., on the 11th inst., Mrs. Rivers Mitchell attacked Mrs. Frank Pillsbury with a razor, and gashed her shockingly on the face, shoulder, bosom and both arms. Jealousy was the cause of the attack. Both the women are young, and live with their husbands.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

A number of houses in the city of Cosenza, southern Italy, were wrecked by an earthquake a few days ago. Several persons were injured, and one was killed.

A Note of Admiration.

The Washington *Post* says: We admire the stand taken by numerous eminent physicians in changing the mode of treatment of coughs and colds, and publicly endorsing Red Star Cough Cure because it is efficacious, free from dangerous ingredients and without morphia or opium. This excellent remedy costs but twenty-five cents.

Naval Intelligence.

Lieut. Comdr. M. B. Buford is detached from duty as inspector of the eighth lighthouse district, and ordered to settle accounts.

Lieut. J. C. Burnett is detached from the Independence, and ordered to the coast survey.

Lieut. G. Blocklinger and Ensign E. M. Bostick are detached from the coast survey, and placed on waiting orders.

Lieut. David Peacock is ordered to the coast survey.

Lieut. Comdr. William W. Meade has been ordered as assistant inspector of the eighth lighthouse district.

Commodore Wm. T. Truxtou retired from command of the Norfolk navy yard on the 11th inst., and went on the retired list the same day by limitation of age.

Capt. George Brown was ordered to take command of the Norfolk navy yard March 11th, on the retirement of Commodore Truxton.

Pay Inspector John H. Stevenson has been detached from the Tennessee, and ordered home and to settle accounts.

Paymaster H. F. Swan has been ordered to the Tennessee as fleet paymaster of the North Atlantic squadron.

Lieut. Chauncey Thomas has been detached from the Nautical Almanac office, and ordered as aide to the admiral commanding the North Atlantic squadron.

Foster's Democrat says that the conduct of the national administration has had a bad effect in Barrington, and caused the success of the republican ticket. The town has had a democratic majority for some years. At the recent election a board of selectmen were chosen, consisting of two republicans and one democrat. When Frank Jones' native town repudiates the democracy, President Cleveland may well pause and consider where he will bring up unless he heeds the advice of *Foster's Democrat* and returns to the line of duty expected of him by his party friends. It may not be wholly owing to Mr. Cleveland's perversity that Barrington has outgrown her democracy; a social library has lately been re-established in the town, and the young people have begun to have broader ideas in regard to many things, and this is not conducive to the increase of the democratic vote.

Capt. Jack Saunders arrived in this city on Thursday morning from Dover point, to arrange for fitting out the schooner J. Chester Wood, which has been laid up at one of the south end wharves during the winter; she has already nine freights of bricks engaged in advance.

Rev. Mr. Whittier, who some weeks ago conducted a series of revival meetings at Rye, and later was engaged in similar work in Vermont, on Sunday evening, the 7th inst., closed his connection with a very successful series of meetings in South Berwick, where great interest has been aroused and still continues, the meetings still being held nightly under direction of the pastors of the several churches.

For Instant Use

A reliable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S
Cherry Pectoral

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 187 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most precious of all the remedies I have ever used." W. H. Schekler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Ayer's Cherry Pectoral

with me. It is without a rival for the cure of bronchial affections."

BOSTON, March 12.—The average circulation of the *Boston Sunday Globe* for February was 97,155. Last year, same month, it was 58,462, a gain of 38,693 copies! These figures show the enormous increase of the *Globe* in all the enterprising cities and towns of New England.

Do you read the *Sunday Globe*? If not, order it today. You cannot afford to be without it.

The Portland *Argus*, democratic, speaks as follows concerning the four repeaters who were arrested on the 9th inst. in Biddeford for voting too many times the previous day for democracy and reform: "All four of them are graduates of the notorious 'Stafford block,' Portland's famous resort for the vilest of the vile. 'Finger' Smith is a sneak thief, and has served terms in reformatory institutions. His brother has been repeatedly jailed for drunkenness, and Charlton has served out numerous sentences for selling rum. Altogether they are a 'sweet lot.'"

Capt. Thomas Ames is about completing the repairs made by himself and one assistant on the schooner Loella at Chauncey's creek, Kittery; when finished she will have received a new stern and quarters, and a new house on deck. As soon as completed she will proceed to Boston, there to load superphosphates for Converse & Co. of Dover.

MUSIC HALL--SENSIBLE SUGGESTIONS.

The concert on Tuesday evening was worthy of its object, and successful in its performances. It was highly creditable to the company on the stage, and all concerned.

We have heard an inquiry made by many,—Why is it necessary to begin so late as eight o'clock in this season? Why not begin at half-past seven? Many feeble and aged persons want to be present on such an occasion, and do not like to be so late in getting home, and we have reason to believe that an earlier hour would be more convenient in general.

We have a suggestion also to make in reference to the repeating of parts. The habit of the clapping of hands until the performer comes out again is open to very serious objection. To say nothing of the risk of overdoing the matter and making the exercises tedious before the end, it is a fact that such applause is not in itself a proof of appreciation. Other motives come in. If the first performer is called out again, the second will be sensitive if the same demonstration is not made, and so on. This is human nature. After one has been called to a second appearance, the friends of the others will persist in the clapping of hands until each has received the same recognition. Otherwise somebody's feelings are hurt. And so the applause ceases to be a proof of appreciation, and degenerates into a mere courteous form to conciliate sensitive feelings. Applause is well as an encouragement, but when it is persisted in so long as to call person after person out a second time, it is carried too far and loses all its significance.

This article is from a deeply interested hearer.

MARCH 11th, 1886.

SUPREME COURT--LAW TERM.

The adjourned session of the law term of the Supreme court was held in the senate chamber at Concord on Friday, when decisions were announced in several cases.

In the matter of J. W. Towle, the order of the court was that he be suspended from the office and duty of a counsellor of this court until Jan. 1, 1887.

Julia A. Pickering vs. McLaurin F. Pickering. Parties are tenants in common of certain real estate in Congress street. Deft. sought to deduct from the income of estate collected by him $370 for necessary repairs and $40 for insurance. Repairs were proper, but made without notice or consent by the plaintiff. The court held that the sum of $370 could be deducted from the gross income of the estate. The claim for insurance effected in the name of defendant was disallowed. Hatch for pltf.; J. W. Emery for deft.

Gignoux, assignee, vs. Downs, was continued.

Joseph E. Trask vs. James D. P. Wingate; exceptions overruled.

St. Mary's Benevolent Association vs. Dennis J. Lynch, John Conlon and William Morrissey. The court requires further facts to be established before the rights of the parties can be definitely passed upon. Case recommitted and continued. J. W. Emery for pltf.; Frink & Batchelder for Lynch; Page for Conlon.

On the Strafford county docket, in the case of the appeal from the decree of the probate court disallowing the proof of the will of Gen. Alfred Hoitt of Dover, Judge Blodgett gave an opinion sustaining the will, holding that the change in the estate of the testator since the will was executed, (some time since, and followed by a large increase of the estate,) the death of the first wife and one child, and the finding of the will among unimportant papers, did not work a revocation. The decree of the probate court is reversed, and the will sustained. J. Smith for appellants: Marston: Frink for the contestants of the will.

On the Hillsborough county docket, in case against the Manchester & Lawrence railroad where shares were transferred by a Massachusetts executor of a non-resident stockholder without local administration in this state, and the proceeds were not accounted for by the executor, the court held that there was shown no loss or damage to the estate which might not have been sustained had that transfer been made under local administration. Bill dismissed.

On the Carroll county docket, in case Morey et al. vs. Sohier, appeal for probate of will of Dr. Bmis the court decided as to one of the issues raised, and the case is returned to the trial term in Carroll county, the *pro forma* verdict for the plaintiff Morey (sustaining the will) being set aside.

MUSIC HALL.

The Barry & Fay comedy company began a brief engagement of two nights and a matinee at the Grand last evening, appearing in their new comedy, "Irish Aristocracy." The play has been rewritten, but is substantially the same as it was given here before by these artists, the most noticeable change being the introduction of several new characters and the lengthening of the dialogue. The cast is uniformly a strong one, and is the best company ever presented. The play contains an abundance of humor, is void of vulgarity, and the audience last evening was kept in a continuous roar of laughter.—*Rochester Herald.*

The Irish aristocrats will appear at Music hall on Monday evening, and reserved seat tickets can now be secured at Goodrich's.

The Harvard College Quintet Club, assisted by Miss Clara A. Hunt of Boston, soprano, and Miss Addie L. Nichols of Boston, reader, will give a concert at Music hall on Friday evening next, with tickets at twenty-five, thirty-five and fifty cents. Tickets will be on sale at Goodrich's, Tuesday.

Contractor Shanahan has doubled his excavating plant,—engine, crane, etc.,—at the sewer, and can now run two steam drills at once when desirable. Messrs. Trefethen & Connor were laying bricks on their end of the sewer on Friday.

The original document of the agreement between Marcus P. Norton and the cities of Manchester, Concord, Nashua, Dover and Portsmouth, in regard to the Knibbs valve suit, in which the cities are released from all liability of the infringement of the Knibbs valve patent, which has been missing for some time, has been found by City Clerk Kidder carefully stored away in the city safe, where he put it when handed to him for safe keeping by Ex-Mayor Putnam.—*Manchester Union.*

The brig Kodiack was towed direct to the navy yard on her arrival this week, she having on board 500 tons of anthracite coal for the department of construction and repair.

The sails of the three-masted schooner Charles H. Trickey, Capt. Jonathan Kelley, belonging to the Dover Navigation Co. and wintered at Eldredge's wharf, were being bent on Thursday; she sailed for Lancsville on Friday to load paving stones for Philadelphia, thence returning with coal for Dover.

The schooner Mary L. Allen, Goldthwaite master, arrived at this porton the 12th inst. from Brunswick, Ga., with hard pine lumber to J. Albert Walker, and was berthed at the Concord railroad wharf, for the repair and extension of which the lumber is destined.

The schooner Wingaersheek, Capt. Frank Adams, was on Friday bending her sails at the wharf in the rear of the Eldredge Brewing Co.'s office, preparatory to starting on the summer's work. As for a number of years past, she will this season be employed in transporting sand from Plum island to Boston, this port and other places.

Mr. Frank Clarkson was in town on Thursday from Kittery Point. He drives with his trading team through Kittery, and thinks the people of the point should be accommodated with increased conveniences over the roads and bridges thereof which he is capable of judging.

PSORIASIS, OR SCALY SKIN.

I, John J. Case, D. D. S., having practised dentistry in this county for thirty-five years and being well known to thousands hereabouts, with a view to help any who are afflicted as I have been for the past twelve years, testify that the CUTICURA REMEDIES cured me of Psoriasis, or Scaly Skin, in eight days, after the doctors with whom I had consulted gave me no help or encouragement.
NEWTON, N. J. JOHN J. CASE, D. D. S.

DISTRESSING ERUPTION.

YOUR CUTICURA REMEDIES performed a wonderful cure last summer on one of our customers, an old gentleman of seventy years of age, who suffered with a fearfully disfiguring eruption on his head and face, and who had tried all remedies and doctors to no purpose. J. F. SMITH & CO.
TEXARKANA, ARK.

MORE WONDERFUL YET.

H. E. Carpenter, Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years standing, by CUTICURA REMEDIES. The most wonderful cure on record. A disfigurement of a life time from his daily. Physicians and his friends thought he must die. Cure sworn to before a Justice of the Peace and Henderson's most prominent citizens.

$200 FOR NOTHING.

Wm. Gardon, 57 Arlington Ave., Charlestown, Mass., writes: "Having paid about $200 to first-class doctors to cure my baby, without success, I tried the CUTICURA REMEDIES, which completely cured, after using three packages."

cavalier and escort on every possible occasion, but secretly his heart went out toward Magdalen. Yet how, after Nora's words, could he dream of betraying his devotion? How could he, a man whose only attainments were those of physical strength and agility, hope to please a girl thrown both by training and natural bent in the midst of purely intellectual interests? Sadly he told himself that she was not for him. And Magdalen as sadly told herself that somehow she had forfeited Will's friendship, by which, had he only known it, she had set great store. He seemed to her the perfection of a gentleman, and perhaps his want of learning was the thing she liked best about him; so cordially did she hold her own blueness in abhorrence. Thus were the two kept apart by a phantom barrier raised between them by Nora, who, without caring for Will herself, resented his preference for Magdalen. She was under no misapprehension as to his feelings, and yet a petty jealousy debarred her from doing what lay in her power toward bringing about a better understanding between him and her sister.

Will's last day arrived. A large tennis party was to take place at Foster's in the afternoon, as a sort of farewell entertainment for him, and he did his best to throw off the despondency which oppressed him.

"Will you play to-night, Magdalen?" he asked, very hesitatingly in the morning.

Magdalen shook her head.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodJan

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unijured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $600,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he has now entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the interest from which it is estimated will yield 20 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

DYSPEPSIA.—Its Nature, Causes, Prevention and Cure. By JOHN H McALVIN, Lowell, Mass. 14 years Tax Collector. Sent free to any address.

CONSUMPTION. I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, I am so strong in my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give express and P. O. address. Dr. T. A. SLOCUM, 181 Pearl St., New York.

DEAFNESS Its CAUSES and CURE, by one who was dear twenty-eight years. Treated by most of the noted specialists of the day with no benefit. *Cured himself* in three months, and since then hundreds of others by same process. A plain, simple and successful home treatment. Address T. S. PAGE, 128 East 26th st., New York City.

I CURE FITS! When I say cure I do not mean merely to stop them for a time and then have fits come back again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not sending me a case. Send my express and P. O. address. I will prove it. Address DR. H. G. ROOT, 183 Pearl St., N. Y.

Ayer's Pills are purely vegetable, perfectly safe, do not gripe, and are a splendid tonic.

The trouble at the Reading railroad shops in Reading, Penn., is settled, and the men are again working full time.

A man's wife should always be the same, especially to her husband, but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," at least so they all say, and their husbands say so too!

Twenty-four more students of Lafayette college at Easton, Penn., have been suspended from recitations for hazing a freshman.

We think we can cure a bad case of backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters, than by any other application, and after the backache is cured, you can still wear the plaster without discomfort for two or three weeks or longer. This combination of smart weed and belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.

Second Comptroller Maynard has disallowed two claims of John Roach, one of $88,840, for extra work on the United States monitor Puritan, and the other of $30,274, for watching, care, towing and pilotage of the monitor Roanoke from March 17, 1877, to Sept. 24, 1883.

THE WRONG WAY TO GO UP STAIRS.

Going up stairs on one's hands and knees is a method of ascent not uncommonly seen among infants who are just learning the mysteries and perplexities of ambulation, but fortunately it is seldom that those of mature years have to resort to such means of progress. Mrs. J. C. Chapman, a well known resident of Mansfield, Mass., says that she once tried it and failed, and that others may be deterred from a similar experience it is perhaps worth while to give her experience. Mrs. Chapman now walks as upright as any one, and gives this account of her attempt:

"I was perfectly helpless with an attack of acute rheumatism, and was all doubled up. I could not sit upright even long enough to eat a meal. I tried once to get up stairs on my hands and knees, but failed. After taking everything recommended by my friends, and not getting the least benefit from anything, I despaired of ever getting around again. I had lost all hope of being cured when, like a gleam of light, Athlophoros was recommended to me by a friend who had used it with entire success. I took it and have never been troubled with rheumatism since, now three years. I can cheerfully recommend Athlophoros to any body suffering with rheumatism, for I know from experience that it will make a complete and permanent cure."

From J. A. Crane & Co., prominent druggists of Orange, Mass., comes this statement of a case that came under their observation:

"Mr. Shubel Briggs, of this place, has bought Athlophoros of us. He stated to us to-day that his wife before taking it could not move herself in bed, as she was suffering from a severe attack of rheumatism. After taking a few doses of Athlophoros she could move easily, and before two bottles were finished she had recovered completely and has not been troubled since. Mr. Briggs himself, who was troubled with stiffness in the joints, used some of the Athlophoros and experienced decided relief."

Charles H. Minchew, of Taunton, tells this story of his wife's cure, which was not unlike that of Mrs. Briggs:

"My wife had been afflicted with rheumatism for some time, and I employed a doctor who failed to do her any good. I happened to see Athlophoros advertised and concluded to get and try it. It worked like a charm, curing my wife completely, and I cannot speak too highly of it."

Mr. George H. Surgens is foreman of the cloth room of the Flint mill, Flint Village, Fall River, Mass. He lives at No. 140 County Street, Fall River. Of his wife's case he says:

"My wife was treated by four different doctors for a severe case of neuralgia of six years' standing. Her sufferings were terrible and the physicians could not allay them, though using the most powerful medicines all the time. As she was getting worse and worse I bought a bottle of Athlophoros, and that brought the first and only relief my wife had. Now she can attend to her household affairs and other duties as though she had never experienced the tortures of that dread disease, neuralgia. When Athlophoros can be had at the nearest drug store nobody should suffer from neuralgia or rheumatism."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

CARTER'S LITTLE LIVER PILLS.

CURE Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c., while their most remarkable success has been shown in curing

SICK Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also cure all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But alas! all sick head

ACHE is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

SO BLUE.

"No," she said shyly. "I don't play tennis."

"Of course not," laughed Nora. "Will, what an extraordinary idea! As if you didn't know Magdalen was above tennis."

"It is not that," said Magdalen, coloring; "but that tennis is above me. I tried it again and again at Wellesley, but it was never any good. I only spoil every set I play in."

"Oh, well, you can't play or you won't," said Nora, impatiently; "it's all the same."

Nora's sudden ill temper seemed very uncalled for, but she was irritated by the disappointment on Will's face. Presently, however, her equanimity was restored, and she said, putting her hand to the young man who had turned to her, "I will be your partner, and you, Magdalen, need not play, but shall talk to the people—that is, if papa can spare us his walking dictionary of old antiquities."

Another allusion to her blueness! Magdalen gave her sister an appealing look and turned away. Will fell into a brown study. During the afternoon he played a good deal with Nora as his partner, and the two proved an invincible couple. As Nora was fully occupied with the game, Magdalen was called for once to do her share in receiving and talking to the guests. They were more than ever impressed with her intense blueness, for the poor girl had the heartache, and found it strangely hard to look bright and smiling. Many were the remarks made to her about Will and Nora, who certainly played admirably together. In the middle of one exciting set, a young married lady, who was sitting next to Magdalen, whispered confidentially, "Those two are made for one another, aren't they? Depend upon it they will be partners in earnest before Mr. Fairburn leaves."

Magdalen turned a little pale as she answered evasively. "Every one likes to have Nora for a partner."

"Yes, yes, I know; but not in the sense I mean. What a loss she will be to us all! Now tell me do you think Mr. Foster will let her go with him, or will they have to wait?"

This was going too far, Magdalen thought.

"The question has not been discussed yet," she replied distantly; and, awed by her manner, the young lady subsided into silence.

Magdalen went up to her room, when the party was over, in a very miserable frame of mind. As she cast a retrospect over her life of late, it seemed to her that her success at Wellesley had cost her everything she most cared about. She did not know how much her three years at Wellesley had done for her. She was not in a position to realize the all-important difference between her habit of mind and that of Nora's, between her unworldliness and Nora's worldliness.

The twilight deepened, and at last Will could delay the inevitable leave taking no longer. Magdalen kept out of the room. Will's going was the most terrible thing that had ever happened to her, and she would rather not say good-bye at all, than have to do it carelessly before them all.

"Where is Magdalen?" asked Will presently.

"She was looking out something in Herodotus for me just now, Will," said Mr. Foster. "Eva, go and call her; tell her that Will is waiting to say good-bye."

Poor Will! It was a bitter thought that she could not leave her Greek of her own accord, even to bid him farewell.

"Magdalen is not in the study, papa," said the child, returning. "Jane says she saw her go down the garden into the shrubbery."

"I will go to her there," said Will hastily.

The place referred to was a small preserve just outside of Mr. Foster's garden, and it was not many minutes before Will found Magdalen. She was lying on the ground in the dusk, her face buried in her hands, and her whole frame shaken by violent sobs. In a moment he was kneeling by her side.

"Magdalen," he exclaimed anxiously, "what is it?"

At the sound of his voice Magdalen rose, and checked her tears. "Nothing, Will," she said, with quivering lips.

"Don't say nothing when you mean something," said Will. "Maggie, tell me what is the matter?"

He was the only person that ever called her Maggie, and now the old pet name, used for the first time this visit, renewed the confidence that had existed between them as children.

"I'm so unhappy," said Magdalen, "so dull, and blue and stupid. I am no good to anyone, and nobody cares for me."

"Now, Maggie," said Will, "you have told at least half a dozen fibs. You are not dull, you are not stupid and you are not blue, at least, if you are blue, blueness is particularly charming; you are good for a great deal, and everybody cares for you."

Magdalen shook her head.

"Don't be unreasonable," remonstrated Will—"what about me? Don't I care for you?"

His voice was full of a tenderness which Magdalen shyly ignored.

"You used to," she said.

It was all over with Will; no power on earth could have held him back from pouring out his confession to her.

"Magdalen," he said, "if I tell you I love you, worship you, think of you night and day, could you answer anything but that you don't care whether I do or not?"

It was out now. Magdalen stood and gazed, as if she could not believe her ears, at the hand that had grasped hers.

Not Symptoms, but the Disease.

It would seem to be a truth appreciable by all, and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms, should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Indigestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other maladies are not palliated merely, but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is its best protection against disease.

Some relics of the missing life-boat's crew of the steamer Idlewild have been found along the Connecticut shore, but none of the eight bodies have been recovered.

Carter's Little Liver Pills will be found an excellent remedy for sick-headache. Thousands of letters from people who have used them prove this fact. Ask your druggists for them.

Train Robbery and Murder.

Masked robbers secured possession of the baggage car on a Chicago, Rock Island & Pacific railroad train which left Joliet, Ill., at 12:45 A. M. on the 13th inst., before the train reached Morris, the next stopping place. They then made their way into the United States Express Co.'s car, and after a desperate fight with the messenger, H. S. Nichols, killed him and robbed the safe, obtaining a sum of money estimated at from $25,000 to $100,000. The murder was discovered when the train reached Morris, but the murderers had escaped. They will be lynched if caught.

Cruelty to Animals.

Col. Marvin, state agent of the anti-cruelty society, on the 10th inst. visited Belmont, and prosecuted David Sawyer, a wealthy citizen of the town, for failing to provide his horse with proper food, drink and shelter, in consequence of which the animal died in terrible torture. The hearing was before Justice E. P. Thompson of Laconia, and Sawyer was held in $300 for the supreme court.

Benjamin Plummer of Belmont was also arraigned before Justice Thompson, charged with causing the death of a two-years-old steer by starvation and lack of shelter. He is well off, but of miserly habits; was found guilty, fined $20 and costs, which he paid, and was discharged.

Other cases of neglect were investigated, and the offenders placed on probation, with the assurance that unless the abuses were remedied their cases would be brought before the grand jury of Belknap county on the 23d inst.

On Friday, the 12th, Col. Marvin prosecuted Stellman and Isaiah Locke, farmers, of Raymond, before Justice Nutting of Candia, for starving a stock of cattle. Isaiah proved that his brother had sole charge of the cattle, and was discharged; Stellman was found guilty, fined, and placed under $100 bonds to obey the law for one year.

Probable Murder.

The skeleton of a woman was found hidden under some brush in the woods near Archer's pond, Wrentham, Mass., March 11th, by two young men who were rabbit hunting. Two holes in opposite sides of the skull, evidently made by a 32-calibre pistol ball, denote murder. The remains, which are supposed to have been hidden there for at least two years, were dressed in winter clothing, apparently once of good quality; a bag containing a comb, tooth brush, button hook and handkerchief was found under the brush; also a large neck-chain with locket attached, a smaller chain, two rings, a cameo earring, string of white glass beads, etc. The locket contained the portraits of two men, but neither they nor the woman had been identified up to the night of the 13th.

Mr. Editor: I was glad to see that your correspondent calls attention to the late hour of beginning performances at Music hall. Many suburbans are deprived of the pleasure of visiting your beautiful hall for this reason. The last time I was present the curtain did not rise till about twenty minutes past eight, when the entertainment could as well have begun at half-past seven. This lateness of commencement has had the effect to keep me at home always, unless there is some pronounced attraction which I *must* see. SPRUCE CREEK.

Editor of Chronicle: Your correspondent who visited Music hall makes sensible suggestions. The manager of Music hall would be entitled to the thanks of every one if he would establish an earlier hour for the commencement of entertainments, and advertise the *precise hour.* The Boston theatre advertises to begin at 7:45 P. M., and does it. In Portsmouth strangers can never know from the advertisement when a performance is to begin. But worst of all is the habit into which a portion of the audience have fallen, of dropping in between eight o'clock and half-past because they infer that the curtain will not rise till at least a quarter-past eight, and they dislike to sit a long time before the services begin. STEADY HABITS.

Mr. Editor: I am pleased that a democrat has had the courage to rise above his party, and condemn the manner in which gamins are permitted to make the post-office vestibule hideous at certain hours. But if the present national administration is powerless in this respect, why cannot our vigilant and efficient police force permit an officer to occasionally visit those scenes of annoyance. The place is a disgrace to a city like ours, and if the general government remains in a condition of "innocuous desuetude" regarding this public wrong, why cannot the municipal authorities check the evil? The public will not always suffer thus. Other aid must be invoked. K. L.

WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, March 9th.

Amount of live stock at market: Cattle, 1,065; Sheep and Lambs, 2,410; Calves, 885; Horses, 223; Swine, 19,901.

Prices of Market Beef—A few choice, $8 00; extra, $7 50 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 50 @ $6 50; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen ℔ pair, from $100 @ $155; Farrow cows, $15 @ $30; Fancy cows, $50 @ $80; Milch cows and calves, $25 @ $48; yearlings, $10 @ $18; two years old, $14 @ $28; three years old, $24 @ $40.

Swine—Western fat, live, 4¾ @ 5¼c ℔ lb; northern dressed hogs, 5¾c ℔ lb.

Prices of Sheep and Lambs—In lots, $3 50, $3 50 @ $4 00 each; extra, $5 00 @ $6 00, or from 5¾ @ 6c ℔ lb.

Veal Calves 2¾ @ 6¾c ℔ lb.

Prices of Hides, Tallow and Skins—Brighton hides, 7¾c ℔ lb; Brighton tallow, 4c ℔ lb; country hides, 6 @ 7c ℔ lb; country tallow, 2¾ @ 3¾c ℔ lb; calf skins, 10c ℔ lb; pelts, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

There were more cattle from the northern states, also a larger supply from Maine. There appeared to be a very fair demand and prices were fully sustained. There were some very choice cattle on sale from New Hampshire, Maine and Massachusetts, and also from northern New York a few head of the fancy stamp. Wool brought more cattle to market was the light supply last week. A number of western cattle were sold from $5 30 @ 5 90 ℔ hundred lb. live weight.

New Milch Cows—The supply was very light and sales mostly confined to small lots.

Fat Hogs—Not any changes in values, and the supply heavy from the west.

The Sheep Call—There has been an improved tone to the market. Butchers were, although not desirous to have it known, more anxious to buy, having bought light last week. We heard of sales on sheep at 6c as an outside rate on choice flocks. One lot contracted for last week at 5¾c, delivered to day, would have sold on the market at 6c. Several lots are engaged for next week, and probably as high as at to-day's rates, as sheep cost last week full ¼ @ ½c advance.

Veal Calves—The range of last week still retained, with a good demand.

Live Poultry—The supply only 600 lbs. sold at 10 @ 12c ℔ lb.

For Instant Use

As a reliable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S
Cherry Pectoral

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 187 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most potent of all the remedies I have ever used." W. H. Sickler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Ayer's Cherry Pectoral

with me. It is without a rival for the cure of bronchial affections."

New Hampshire Patents.

The following list of patents, granted March 9th, to citizens of New Hampshire, is specially reported by Franklin H. Hough, solicitor of American and foreign patents, No. 925 F street, N. W., Washington, D. C.:

E. R. Angell, Derry, privy.

Arthur S. Campbell, Manchester, palette-knife and brush-scraper.

L. K. Warner, Claremont, ladder.

The whole number of patents granted to citizens of the United States for the week ending March 9th was 429.

Maledictions loud and deep are being heaped upon the new sewer, by reason of the closing of Vaughan street, thereby causing great inconvenience to the heavily loaded teams from the freight cars. When the summer travel commences, unless the sewer be previously completed there is likely to be much disarrangement of transportation. Some people think that arrangements might be made so that the travel could be unobstructed.

The river fishermen are bringing plaice into the market. These fish are just now coming out of the mud after being bedded through the winter; they are considered by some persons as being very delicious, while others would sooner eat a sculpin.

Spring Medicine

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

Hood's Sarsaparilla

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

"There is no blood purifier equal to Hood's Sarsaparilla." E. S. FIELDS, Rochester, N.Y.

SPECULATION.

It is said that almost 1200 tickets in the "gift distribution" of the Odd Fellows' fair in Dover last week were sold in this city, and as the result four prizes were won, namely: Ten dollars, cash, by Hall Varrell; $5, by John Wood; $2, by Frank Broggi; live pig, by J. Gardiner Locke. This was an average of one prize to about 300 tickets. The first prize, $500, was won by a young Irish girl of Dover, a recent arrival in this country. A piano was drawn by a Mrs. Woodman, formerly a resident of this city.

MUSIC HALL.

This evening, at Music hall, "Irish Aristocracy" will hold the boards. Concerning this entertainment the Denver *Inter-Ocean* says:

Michael Muldoon and Michael Mulcahey are two Irish characters as we see them almost daily in real life. The force and realism of Messrs. Barry & Fay, their humor and make up form a combination very rarely met with. The "parlor-skate" scene is one of the funniest ever produced on the stage.

The Baltimore *News* says:

It is full of genuine Irish wit, which finds in the interpretation given it by Messrs. Barry & Fay a particularly pleasant treatment. In its peculiar line nothing has been seen so good in Baltimore for a long time, and it fully deserves the encomiums given it by the press of other cities. During the whole performance the audience was kept in roars of laughter.

Tickets as usual; to be procured at Goodrich's. See advertisement.

At Music hall next Thursday evening Miss Lizzie Evans, "the little electric battery," will appear as Chip in the four-act comedy-drama "Fagg's Ferry," supported by a strong company. Tickets at Goodrich's to-morrow.

NAVY YARD WAGES IN 1862 AND 1886.

As everything connected with labor and wages now attracts attention, a comparison of the rates of pay in the Portsmouth navy yard in 1862 and 1886 may be of interest. The following table shows the per diem compensation of workmen at that place then and now:

	1862.	1886.
Foremen	$4.00	$5.00
Shipwrights	2.00	3.20
Millmen	2.25	2.70
Millmen (2d class)	1.75	
Sawyers (pit)	1.75	3.00
Painters	1.75	2.70
Boatbuilders	1.75	2.88
Coopers	1.75	3.08
Machinists	2.00	2.94
Machinists (2d class)	1.75	
Writers	2.00	3.31
Writers (2d class)	1.50	
Riggers	1.50	2.00
Masons	2.25	
Watchmen	1.25	2.80
Blacksmiths	2.00	3.08
Laborers	1.12	2.00
Laborers (2d class)	.90	1.78

The scale of wages for 1862 is taken from the pay-roll of July in that year, when there were about 1100 men employed in the yard, the pay-roll footing up to over $36,000.

A FAMILY MATTER.

The drawing of the big "gift enterprise" at the Dover fair last week reminds some of the elder citizens of Christian Shore of a lottery drawing at the Shore when they were boys. Soon after the report of the drawing was noised about, some of the ticket holders, being anxious to ascertain the result, called at the house of the principal manager for that purpose, at a somewhat late hour. After considerable rapping had been done on the door, an upper window was raised, and in answer to the eager enquiry of the committee the announcement was made: "I want you to understand that there wasn't any prizes drawn outside of the G——e family!" The committee retired.

There was but a small attendance at the Franklin hall skating rink, Friday evening, when the Star Bicycle & Carnival combination gave an entertainment, and but few costumes were hired, though handsome ones were procurable at low rates. Messrs. Wilson and Lester, the managers, gave a surprising exhibition of bicycle riding, and riding on common buggy wheels.

City workmen are engaged in trimming the trees damaged by the ice storm, lopping off the broken limbs, and where the trees are evidently ruined, cutting them down; the work in each ward is superinded by an alderman from that ward. On Saturday, shortly before noon, the fire-alarm gong was twice sounded through the fire-alarm and telegraph wires being brought in contact by falling limbs.

The jurors drawn for service in the United States district court in this city this week have been notified that their services will not be needed. They were to have tried the Winchester distillery case, but a different arrangement has been made.

General dissatisfaction with the management of things seems to be the state of affairs in this city just now. "A School Committee-man of Seven Years' Election" writes us as follows: "The attention of the mayor, chairman *ex-officio*, and of the secretary and members of the board of instruction of the city of Portsmouth, is invited to the disorders occurring in and around the grounds of the different school houses of this city. The neighbors are harassed by the most alarming shrickings of the pupils, and a citizen dare not pass at recess time except that he wishes to run the gauntlet of missiles or insults. Of all the nuisances in this line, the Bee Hive on Hanover street excels. This would hardly have occurred under the regime of the old-fashioned committees of the school districts, who were elected 'Of the people, by the people and from the people.'"

The train from the eastward on Saturday forenoon was an hour late, owing to a delay of some kind on the Maine Central road.

BURDOCK BLOOD BITTERS CURES *Dyspepsia.*

Dyspepsia.

GENTS:—I feel it my duty to say respecting Burdock Blood Bitters, that it is the best medicine I ever took. I suffered two or three years from stomach troubles and dyspepsia as well as from liver and kidney complaint. I was not able to attend to my business. My wife was affected in much the same way. We read of your Bitters in the papers and made up our minds that we would *try them.* The result is my wife and I began to improve at once, and I am now able to do more hard work than before in ten years. It relieved my kidney troubles as well. We both wish you, the makers of it, Godspeed.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and uninjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the Investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to bear interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

PSORIASIS

And All Itching and Scaly Skin and Scalp Diseases Cured by Cuticura.

PSORIASIS, Eczema, Tetter, Ringworm, Lichen, Pruritus, Scald Head, Milk Crust, Dandruff, Barbers', Bakers', Grocers' and Washerwoman's Itch, and every species of Itching, Burning, Scaly, Pimply Humors of the Skin and Scalp, with Loss of Hair, are positively cured by CUTICURA, the great Skin Cure, and CUTICURA SOAP, the exquisite Skin Beautifier externally, and CUTICURA RESOLVENT, the new Blood Purifier internally, when physicians and all other remedies fail.

PSORIASIS, OR SCALY SKIN.

I, John J. Case, D. D. S., having practised dentistry in this county for thirty-five years and being well known to thousands hereabouts, with a view to help any who are afflicted as I have been for the past twelve years, testify that the CUTICURA REMEDIES cured my Psoriasis, or Scaly Skin, in eight days, after the doctors with whom I had consulted gave me no help or encouragement.
NEWTON, N. J. JOHN J. CASE, D. D. S.

DISTRESSING ERUPTION.

YOUR CUTICURA REMEDIES performed a wonderful cure last summer on one of my customers, an old gentleman of seventy years of age, who suffered with a fearfully disfiguring eruption on his head and face, and who had tried all remedies and doctors to no purpose. J. F. SMITH & CO.
TEXARKANA, ARK.

MORE WONDERFUL YET.

H. E. Carpenter, Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by CUTICURA REMEDIES. The most wonderful cure on record. A dustpanful of scales fell from him daily. Physicians and his friends thought he must die. Cure sworn to before a Justice of the Peace and Henderson's most prominent citizens.

$200 FOR NOTHING.

Wm. Gordon, 27 Arlington Ave., Charlestown, Mass., writes: "Having paid about $200 to first-class doctors to cure my baby, without success, I tried the CUTICURA REMEDIES, which completely cured, after using three packages."

GOOD AND RELIABLE INSURANCE

— PLACED BY —

JOHN PENDER,

— AT THE —

National Block Insurance Agency.

[Concluded from 1st page.]

At last a smile of wonderful happiness stole about her lips.

"Why, Will," she said raising her eyes to his; "it was just you that I minded most of all about; but you don't—you can't really mean—"

Will did not find it very difficult to satisfy her that he could and did mean all and more than he had said. Great was the amazement of the Fosters when presently they re-entered the sitting-room together, and Will announced that he never meant to say good-bye to Magdalen at all.

Mr. Foster's consent given, he changed his plans, invested all his capital in the east after all, and eventually settled down on a large farm near the Fosters, as happy a husband, with as happy a wife, as was to be found in the United States.

Is this possible? Could they live for long together without a difference between them becoming a discord? Yes; for the wise "Professor at the Breakfast-Table" points out to us, "it takes a very true man to be a fitting companion for a woman of genius, but not a very great one."

Professor V. C. Riley, the well-known entomologist, has presented to the National Museum his collection of insects, which contains over 20,000 species, and more than 150,000 mounted specimens, besides additional unmounted material. A large number of books and phamplets accompany this gift, which is considered one of the most valuable ever received by the government.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodJan

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal for the erection of the statue, **in order to raise funds for its completion**, have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar Each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, bronzed Statue and nickel-silvered, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, with PLUSH STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The Pedestal Fund of $100 000 completes the Pedestal, but it is estimated that $100 000 yet needed to pay for the iron fastenings and the creation of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

Handsome versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

The speeder and stubber tenders in the Johnson Manufacturing company's mill at North Adams, Mass., have been given an advance of $1.00 per week.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

Work will be resumed at the Studebaker wagon works, South Bend, Ind., the Studebakers having decided to settle satisfactorily with the Knights of Labor.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker house, Boston.

The smallpox is reported to be very bad in Japan, and to be spreading without any effort being made to prevent it in the Corea.

Ayer's Hair Vigor stimulates the hair to a vigorous growth. It contains all that can be supplied to make the hair beautiful and abundant, removes dandruff, and renders the hair flexible and glossy.

Mrs. Sophia J. Norton of Woodtick, Conn., claims to have been confined in the Middletown insane asylum while sane, by her husband, who was infatuated with a pretty cousin, Miss Minnie Norton.

John H. Kimball, of Westfield, Chautauqua county, N. Y., writes May 20th, 1885, that he was suffering with rheumatic fever, and had constipation so bad that many times he went twelve days without an evacuation. Given up by physicians, he as a last resort took Brandreth's Pills, two every night for seven weeks. Now he is an entirely well man, and never uses any other medicine for himself or family. He will answer any inquiries.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

Henry J. Hall, a wealthy mining engineer, aged seventy-two years, shot himself in the Fifth Avenue hotel, New York, March 12th, while suffering from aggravated dyspepsia.

For twenty-five years I have been afflicted with catarrh so that I have been confined to my room for two months at a time. I have tried all the humbugs in hopes of relief, but to no success until I met with a friend who had used Ely's Cream Balm and advised me to try it. I purchased a bottle to please him, and from the first application I found relief. It is the best remedy I have ever tried.—W. C. Matthews, justice of the peace, Shenandoah, Iowa.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which offers and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by solid, substantially ballasted road-bed, smooth tracks of continuous steel rail, unchainably built culverts and bridges, rolling stock so near perfection as human skill can make it, the safety appliances of Pullman Palace Cars and Sleepers, and that exacting discipline which governs the practical operation of all the details of business of this route are Transfers at all connecting points in Union Depots, and the unexpressed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Palace Drawing Room Sleepers of the latest design, and sumptuous Dining Cars in which are elaborately cooked meals are delicately served. Between Chicago and Kansas City and Atchison are also given the celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route for those who wish to visit the mineral lands of Interior Dakota.

Still another DIRECTED LINE, via Seneca and Kankakee, has been opened between Chicago and Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

McCLELLAN AND BURNSIDE.

The recent death of General McClellan leaves but few living of those unfortunate commanders who found themselves unequal to the great responsibilities placed upon them during the civil war. Burnside, Halleck, "Fighting Joe" Hooker, and others, had passed away before him, honored by the nation they had served, after having lived down the hostile criticism their official acts had excited. Equal justice will be done to General McClellan, and a true estimate of his abilities as an organizer and a soldier will be recorded. In his political ambition the genial Burnside was far more successful than his old commander, and death found him a senator from Rhode Island. McClellan might have been a cabinet officer but for factional quarrels in New Jersey which made his appointment inexpedient.

Rhode Island's devotion to her handsome senator illustrates a happy characteristic of the smallest State which still distinguishes her. General Burnside was not a native of "Little Rhody"—having come east from Indiana—but he had the right timber in him, and was made governor and afterward senator of his adopted State. The same spirit may be seen in her citizens to-day in their hearty reception of that which will be of benefit to them. A case in point is that of Mr. John A. Bishop, of Central Falls, R. I., who tells this story:

"For eighteen years I suffered with neuralgia and never got any relief until I took Athlophoros. After that had cured me of the disease I became afflicted with sciatic rheumatism, for which I was treated by two doctors. Neither of them did me any good, in fact I grew worse under their treatment. Again I began taking Athlophoros, and, strange as it may seem, relief came almost instantly. The pain abated so that I was able to get around in less than three days, and as I daily grew stronger the rheumatism left me altogether."

Mrs. S. T. Goss, of No. 42 Dudley Street, Providence, can confirm this seemingly wonderful cure out of her own experience. She says:

"For thirty years I suffered with muscular rheumatism, during which time I used every known remedy and all sorts of prescriptions from physicians. At times I would gain a little relief, but only for a short period, after which the disease would attack me with renewed violence. It was while I was suffering one of these very severe attacks that a friend spoke to me of the wonders Athlophoros was doing and advised me to try it. I did get a bottle and in two days after beginning to use it was on my feet. Athlophoros is now kept in my house and is looked upon as indispensable. It is the greatest preparation I ever knew of and will cure rheumatism just as it is chained it will do."

Mr. J. D. Payne, one of the most prominent citizens of Westville, Ga., where he has pleasant home on Fountain street, is outspoken in his praise of Atlophoros.

"I did not think there was any cure for rheumatism," he says, "but I am pleased to say that there is and that it is Athlophoros. Three doses of it cured my wife of rheumatism."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he doesn't do it do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

Scotch Fishermen's Houses.

The houses, as I can testify from a recent inspection, are substantial and commodious, and for the most part have been built at a very cheap rate. There is nothing flimsy or ill-finished about them. The smallest, with two good apartments, and out-door conveniences, cost a little more than £100. Some that have been more recently constructed have cost more than £200. But these are fine houses, with a commanding sea-view, and contain not only accommodation for a native family, but likewise apartments to be let to summer visitors. Fishermen and fishermen's families, from the nature of their occupation, are not usually remarkable for neat houses or tidy habits, and those of Cockenzie have not yet got rid of all the old ways. Outside some cottages there is decidedly room for improvement; inside, the houses are usually well kept and comfortable. In visiting a few, I came on one where an invalid girl of 20 had been confined to bed for three years and a half. The best room in the house had been given up to her; it was airy and well lighted, neatly papered, and thoroughly clean. The fisherman's daughter lay on the bed, bright and happy in spite of her long trial; owing much, no doubt, to a good mother and an affectionate family, but much more to the sunshine which divine grace poured down on her, and that made her, "though sorrowing, yet rejoicing."

The construction of comfortable dwellings on land is not the only department of social reform in which these honest fishermen have recently embarked. Their dwellings on the sea have been wonderfully improved. During the last twenty or twenty-five years they have become possessed of a fleet of upward of one hundred decked vessels, worth, perhaps, with their furnishings, £500 each, in which they are enabled to go to the deep-sea fishings; in point of fact, they do their work on a system of rotation, now fishing at home, by-and-by off the coast of Ireland, then proceeding to the herring fishing at Berwick or Peterhead, or perhaps the fishing of Lowestoft. It is a pleasure to think that they are, for the most part, very exemplary in their behavior in these expeditions. Many of them are not only devout, but try to be good to others, they hold their prayer-meetings together, and try to bring in the careless. Most of them are Presbyterians, a few Methodists, and a few Plymouth brethren. Being so much from home, the religious influences they come under are somewhat varied, and some of them get a preference for a more demonstrative style of service than that which is natural in Scotland.

Another work in which they have made great exertions is the construction of a harbor. Port Seton was destroyed by a storm early in the century; and the harbor constructed more recently by Col. Cadell was quite too small for the enlarged and ever-increasing business of the place. So, again under the guidance of Mr. Ovens, and with the help of loans, they have built a capacious harbor, at a cost of more than £20,000. This cannot fail to react on the prosperity of the place in other respects, so that what seemed thirty years ago a decayed and struggling little village bids fair now to become an increasing and prosperous town.—*Prof. Blaikie, in the Quiver for February.*

Sixty-three of the students of Wesleyan University, Ohio, were severely reprimanded for attending a performance of "Richard III." The faculty of the college, it is inferred, labor under the impression that "Richard III." is a spectacular drama, with a ballet of thirty-three young ladies of assorted ages and no skirts.—*Norristown Herald.*

"What makes it so dark in the stable when the sun goes down?" inquired the little bay filly in the loose box. "Because, child," replied the gray cart-horse in the stall, "this is the equine nox." "What kind of an ox could that be?" asked the Berry ox in the next apartment; and then all the family in the great, dark barn kept silent, while the little mule with zebra legs sang, "O, hay, ma'ma!"—*Brooklyn Eagle.*

Recently in a Sunday-school not far from Springfield, Mass., the superintendent had given out to be sung hymn No. 6 in the Gospel Hymns, when an impulsive singer started off with a solo of No. 6 in the Sunday-school Quarterly, which reads:

"I was a wandering sheep,
I did not love the fold."

Finding himself alone at the end of the second line he subsided, when the school, with as much solemnity as possible, took up the song given out, as follows:

"There were ninety and nine that safely lay
In the shelter of the fold;
But one was out on the hills away,
Far off," etc.

There is a little curly-headed, bright-faced boy in one of the suburbs who bids fair to equal in quick wit the heroes of "Helen's Babies." This little four-year-old was told by his father to go upstairs and bring down a book for him. The urchin looked up slyly from under his long eyelashes, and, without saying a word, held out his hand. "What's that for?" inquired the astonished father. "Money," was the prompt and laconic reply. "Money? What do you want a tip for? Don't you know you ought to do these things for love?" "I do," replied the young hopeful, in his prettiest lisp, "love—of money."—*Boston Gazette.*

At Harvard the relative magnitude of the stars is the chief object of study; at Princeton, spectroscopy; at Allegheny Observatory, the dark part of the solar spectrum and the effect of the invisible heat rays on the earth; at the National Observatory, positions and orbits of satellites; at Cincinnati, double stars; at Chicago, Jupiter's surface, and at Albany and Yale, perfecting maps of the heavens.

Not Symptoms, but the Disease.

It would seem to be a truth appreciable by all, and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms, should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Indigestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other maladies are not palliated merely, but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is its best protection against disease.

Consumption

Can be Prevented and Cured by the Timely Use of Sproat's Syrup of Tar and Wild Cherry.

Read this testimonial from the regular Treasurer of Bristol County, and Secretary of the Southern Massachusetts Masonic Relief Association:—

SPROAT'S SYRUP OF TAR CO.—Gents: I have used your SPROAT'S SYRUP OF TAR AND WILD CHERRY as a Cough Remedy in my own family, and have seen its beneficial results among my neighbors and friends. I consider it a wonderful medicine for Coughs, Colds, Bronchial Troubles, Soreness of the Chest, Pains in the Lungs, &c., as I have never known it to fail in relieving a case of Cough. GEORGE F. PRATT.

Very sincerely yours,

"Man wants but little, here below, nor wants that little long;" sang the hermit of Goldsmith. Perhaps he does, if he is thinking of colds, but if he is thinking of cough remedies, he wants it good when he gets it. Dr. Bull's Cough Syrup meets the wants of suffering humanity, and is all one wants here below to stop the ravages of pain.

Timothy O'Shea, committed to the state prison from Rockingham county for five years for highway robbery, has been pardoned. He had served between one and two years.

SICK-HEADACHE. — Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved, writes: "Hood's Sarsaparilla is worth its weight in gold." Reader, if you are a sufferer with sick headache, give Hood's Sarsaparilla a trial. It will do you positive good. Made by C. I. Hood & Co., Lowell, Mass.. Sold by all druggists. 100 Doses One Dollar.

Joseph Farnum of Peterborough has been appointed a member of the board of agriculture in place of David H. Goodell, who declined a reappointment.

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

A tenement house in Dover owned by Bryant Peavey was partially burned March 13th; loss $500; insured $1,600. The tenants were Thomas Murphy and Mrs. Richard Pollard; the furniture was badly damaged, the loss to each tenant being $300; Murphy was insured, but Mrs. Pollard had no insurance.

The Force of Public Opinion.

A recent medical discovery was at first thought to be a patent medicine scheme, but when found purely vegetable and containing no medical poison or opiates, and yet that it promptly cured the most obstinate cases of cough or lung trouble, boards of health and public men endorsed it, and hospitals adopted it successfully in their treatment of wasting diseases. The discovery is Red Star Cough Cure, and is sold for twenty-five cents a bottle.

Steamship Oregon Sunk.

The steamship Oregon, of the Cunard line, 7250 tons gross register, and which when owned by the Guion line was rated the fastest steamship afloat, is afloat no longer, having been run into off Fire island between three and four o'clock Sunday morning, March 13th, by a large three-masted schooner deep loaded with coal, and sunk. The steamer had on board at the time 185 first cabin passengers, sixty-six second cabin passengers and 389 steerage, and a crew of 255 men,—896 persons in all, who were all safely taken off by the New York pilot boat No. 11 and the schooner Fannie A. Gorham, which bore down to their assistance about eight o'clock. The work of transhipping the people was finished at eleven o'clock, not a life being lost.

The Oregon was built by John Elder & Co. at Glasgow, and launched in Jan. 1883. She was 520 feet long, 54 feet beam, 40 3-4 feet depth of hold, and had accommodations for 1452 passengers. The total loss on vessel and cargo is estimated at $1,500,000.

The captain, Cottier, thinks the schooner which sunk her went down with all hands immediately after the collision, as she was not seen afterward. The steamer lies in 140 feet of water, with her topmasts showing.

A Big Difference.

It is proposed to give the widow of Gen. Hancock a pension of $2,000 a year. This we do not object to; but the prompt manner in which the proposition is acted upon is in striking contrast with the delays and captious fussiness with which the meritorious claims of many a poor widow or mother of a humble private soldier are postponed in the pension office. There are widows whose husbands have died from disease incurred in the army during the late war, who are compelled to labor and to wait while the relicts of the officers are served with an alacrity truly wonderful. There is a fault in the system which should be remedied.

Parity in Politics.

A prominent New York city democrat, whose devotion to reform was endorsed by a re-election as a member of the board of aldermen, undertook to testify that the aldermen were not bribed to give the charter to Sharp's Broadway railroad. It came out in the evidence that this member of the reform party had been the receiver of a large lot of silver ware stolen from a residence up town in broad daylight, the thieves taking it to his place of business and selling it there. When confronted by the detectives he offered $100 as a bribe to the officers, and finally paid $1,100 as restitution to the owner of the ware. Being a prominent democratic politician he escaped indictment, as his influence was too much for the district attorney (who owed his election to the alderman's political power) to interfere with him. And of such is the democracy of New York city.

Identified.

The remains of the woman found murdered at Wrentham, Mass., have been identified as those of Agnes Anastasia Long, who disappeared from her home in East Attleboro in October 1884.

How About This?

When the United States steamer Tallapoosa was run down and sunk in a narrow channel by a coal-laden schooner whose captain was unable to box the compass, there were many facetious paragraphs in the newspapers regarding the inefficiency of our naval steam vessels which could not keep out of the way of sailing crafts.

But now the well-equipped Clyde-built ocean steamship Oregon, constructed by the best "contractors" in the world, and owned by the Cunard line, which is officered by the most cautious men of all who cross the Atlantic, is run down and sunk in the open ocean by a coal schooner, we shall perhaps hear that our merchant marine as compared with the British steamer is a power upon the seas, and that the sinking of the Tallapoosa was after all not caused by the fault of any one connected with the navy, but by those in charge of the schooner!

The loss of the splendid ship of the Cunard line makes a bad break in their hitherto excellent record for safety, as it will doubtless be found, on investigation, that somebody has blundered.

Lawrence Charlton, William Smith, alias "Finger" Smith, Edward Smith, John Gillis and Frederick Gillis, the Portland bummers and sneak thieves who were arraigned in Biddeford on Wednesday of last week for illegal voting, and waiving examination, were bailed out by prominent democratic "fine workers" of Biddeford, were again arrested in Portland on Friday on a charge of conspiracy, and on Saturday were held by the Biddeford court in $1,000 each for the supreme court. This was a little too steep for the fine workers, so the bummers were lodged in Saco jail.

Leonard F. Foss of Biddeford was arrested last week for stealing a valise from J. H. Nichols of Bernardston, Mass., Nov. 28th, 1884. Mr. Nichols was on a wedding tour at the time, and the valise was stolen in the cars on the Hoosac Tunnel line. The valise and some of its contents, and an immense lot of other stolen property, was found in Foss' house; he has lived in Biddeford about a year, and has been suspected of being a thief.

Joseph H. Cote, of Biddeford, has resigned his position as watchman at the Portland custom house. Mr. Cote's name has been mentioned in connection with the late election frauds in Biddeford.

For Instant Use

As a reliable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S

Cherry Pectoral

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 157 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the best proof of all the remedies I have ever used." W. H. Stickler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Ayer's Cherry Pectoral

with me. It is without a rival for the cure of bronchial affections."

It is contended that the statement as to the great increase of savings bank deposits in the state, of over a million and a half dollars from 1884 to 1885, is premature. The *Union* says the report of the condition of the banks cannot be made before June, and that not more than two-thirds of the banks have been examined. There is no doubt that the present mode of sending to every one the blank inventories of all taxable property, to be filled out, has had the effect to send large sums into the treasuries of the savings banks. The interest on deposits is largely kept in the banks, and a natural increase of deposits has always been seen, but it is hardly to be supposed it can reach the figures referred to above.

Where is the need of all this expenditure advocated by Secretary Whitney and the house committee on naval affairs, for the construction of new naval steamers? If Queen Vic should be so reckless as to send fleets of her naval iron pots over here, on hostile thought intent, we can send out a fleet of coal schooners and sink the whole blessed lot.

Spring Medicine

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

Hood's Sarsaparilla

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

LOAN AUTHORIZED.

At a special meeting of the stockholders of the Portsmouth Machine Co., held on Monday, Vice President Fay presided. The directors were empowered to issue $75,000 of five per cent bonds, to run twenty years, with an option of the company to pay in ten years.

MUSIC HALL.

Of "Fogg's Ferry," which is to be played at Music hall on Thursday evening with Miss Lizzie Evans in the part of "Chip," the New Orleans *States* says it is "the best play of its class upon the stage. The steamboat scene is intensely exciting and evoked rounds of applause." The *Dramatic News*, of New York, says it is "a better play than any of Lotta's." Tickets now on sale at Goodrich's; see advertisement.

"WOODMAN, SPARE THAT TREE."

Mr. Michael Griffin, with a set of good tree climbers, some of them sailor men, is accomplishing a good work in pruning the trees in ward two, and removing dead limbs. Our trees in the public streets have long been in need of judicious pruning, a work which has been neglected of late years. The removal of several dead trees on State street, which marred the beauty of that thoroughfare, is a commendable improvement. There are many scrubby and shabby trees about town which should be cut down. It is just as easy to have a symmetrical and graceful elm or maple as to permit a crooked, gnarled and misshapen tree to encumber the earth and offend the eye. True, the residents near the ancient excrescence may deplore the loss of an old acquaintance, but when we consider how many shade trees we have in our streets in a climate almost always cool, it ought to be the rule to remove all ill-shaped and scrubby ones, and let them give place to a thing of beauty. With such a number of trees in our streets and public parks (?) there should be employed a forester whose duty it should be to see that trees were judiciously kept in order. In some streets, on a dark night, the gas-lights can hardly be seen at any distance by reason of dense foliage, which in frequent instances prevents a proper amount of sunshine resting on our houses. This extreme is certainly not conductive either to health or happiness. Had some of our trees been properly trimmed the effects of the visit of the Frost King in January would have been far less detrimental.

NEWINGTON TOWN MEETING.

In spite of the cold, disagreeable weather of Tuesday, the 9th inst., the ardor and enthusiasm of "the ever-faithful" democrats of Newington reached the boiling point and flowed over with the intention of making havoc with the aspirants for office in the democratic-republican ranks, who were known to be candidates, and who had the disease both in chronic and periodical forms, the objective point being to make as many "yearlings" as possible, and, curious enough, the agitation was not at all about any question of town government, but was wholly confined to a determination to have one set of men, rather than another, bear the sceptre of office, and this irrespective of any consideration, seemingly.

Mr. Henry Bean, who had been on the board of selectmen for twelve consecutive *months*, and who had acted as chairman ever since the resignation (?) of his predecessor, was supplanted, and Mr. Jackson M. Hoyt chosen in his place. Mr. John Greenough was chosen to fill the vacancy occasioned by the resignation (?) of Mr. Benjamin S. Hoyt; and Darius Frink, Jr., (being the only candidate elected of the opposition party) was chosen, vice J. B. Pickering resigned (?).

William L. Furber was elected town clerk, in room of Henry H. Downing—incumbent last year.

Israel S. Hoyt was chosen treasurer.

V. M. Coleman was elected a member of the board of education.

Although Mr. Frink met with a determined opposition, he "weathered the storm," and his victory over his opponent was of that kind which makes it difficult to give the credit of it to the exertions of his friends, or the blunders of his foes—'twas by the skin of his teeth that he now wears the palm of victory. CITIZEN.

Among the attractions at the Methodist fair will be singing by Miss Mollie Mack, violin playing by Miss Fannie P. Hoyt, and readings by Mr. Pickard and Mr. Rockwood.

There is to be a social assembly in Franklin upper hall on Wednesday evening, 24th inst., under the management of Mr. Peter Williams. Music by Lord & Metcalf's orchestra. Tickets fifty cents; ladies free.

The 500 operatives in Sawyer's woollen mills at Dover were on Monday notified that from that day one hour would be allowed for dinner, instead of forty-five minutes as heretofore.

Mr. Albert Magee and wife arrived home on Saturday afternoon from Santa Barbara, California.

W. Whittaker of Boston has taken a contract under Mr. Shannahan to finish the lower end of the sewer. Mr. Shannahan is thus through with active work on the sewer.

We learn that the Wallace Musical Comedy company, recently formed in this city, owing to the lateness of the season and the difficulty in obtaining good dates, has decided to break up for the present.—*Times.*

It is understood that the Portsmouth cricket club would like to play its home games on the grounds of the Manchester base ball association. Manchester people have seen very little of this game, and its introduction here would be something of a novelty.—*Manchester Union.*

Rev. H. L. Wheeler of Newton Centre, Mass., will preach in the Unitarian church in this city next Sunday, March 21st.

The United States fish commission steamer Fish Hawk arrived at the Charlestown navy yard on the 13th inst. from this port. The damages sustained to her upper works at the time she bounced around in Portsmouth lower harbor, hitting one fishing schooner after another, and then going back to hit them over again, have been repaired; but no trace has been found of her steam launch, valued at $2,500, which went adrift in the same gale. The Fish Hawk arrived back at this port again on Monday, coming up to the navy yard in the afternoon.

The tug Clara Batemen went on the ways at Kittery on Monday, to have her bottom cleaned and painted.

Mr. Ira Whidden of Newington goes out this spring with Capt. Call in the schooner Chilion, coasting, as chief officer. Mr. Whidden, from his ten years or more experience as seaman and officer on vessels trading between the Piscataqua and Massachusetts bay, is familiarly acquainted with the coasts of New Hampshire and eastern Massachusetts.

Capt. Cheney, of the gondola Hardchance, (formerly the H. P. Spinney,) has commenced his regular trips between this city and South Berwick.

Major Smith, supervising engineer of the eastern district, opened last Thursday seven bids for the removal of the wreck of schooner Waldemar from Belfast harbor, Me. The lowest bid was by Solon S. Andrews of Biddeford, and the contract was awarded to him.

There is living in this city a widow who accompanied her former husband in Co. C. of the New England regiment in the Mexican war, to the city of Mexico, under Gen. Franklin Pierce, afterward president of the United States. She administered to the sick and wounded throughout the campaign, and was notably fearless; when any disabled and invalid soldiers needed care and attention, "Ann" was sent for, and never failed to respond. Why does not some senator or representative of the six New England states see that she in her declining years should receive a pension from the government she served so well? V.

There was no meeting of the board of mayor and aldermen last week, the board at the meeting on the 4th inst. having adjourned subject to the call of the mayor, who stated that he might be absent from the city an indefinite period of time. The question recurs, "When would the board meet again should the mayor absent himself permanently?" The city charter requires that the city councils should assemble every Thursday evening. INQUISITOR.

The following are the names of liquor-law breakers of Newmarket who were raided and taken before the Exeter police court last week, and the disposition made of their several cases: Albert Furber, liquor, fined $50 and costs; Nealey Morgan, lager beer, $50 and costs; Thomas O'Brien, beer, $10 and costs; Thomas Brennan, liquor, $50 and costs; Garrett Evans, beer, $10 and costs; Patrick Haley, liquor, bound over in $200 for his appearance at the April term of the supreme court.

The salt-water reservoir inside the north millbridge, commenced some months ago to furnish water for use by the fire department in case of need, has been completed, and will furnish an unlimited supply of water on the lowest course of tides.

Read what the people say concerning the ability of Dr. Thomas' Eclectric Oil to cure asthma, catarrh, croup, colds, etc. Mrs. Jno. Koch of Buffalo, says: "For croup it is decidedly efficacious." [Mrs. Jacob Hellner of Marion, Ohio, says the same thing.] S. S. Graves, Genoa, N. Y., writes: "Had asthma of the worst kind, took one dose of Thomas' Eclectric Oil and was relieved in a few minutes. Would walk five miles for the medicine and pay $1 a bottle for it." Dougat C. R. Hall, Grayville, Ill., says: "Cured an ulcerated throat for me in twenty-four hours." "Sat up in bed and coughed till the clothing was wet with perspiration. My wife insisted that I use Thomas' Eclectric Oil. The first teaspoonful RELIEVED me." E. H. Perkins, Creek Centre, N. Y., Thomas' Eclectric Oil is also a Tried-Tor external application for rheumatism, cuts, scalds, burns, bites, bruises, etc. When visiting the druggist, ask him what he knows of Dr. Thomas' Eclectric Oil; if he has been long in the drug trade, he sure he will speak highly of it.

Worked Wonders.

"My daughter was very bad off on account of a cold and pain in her lungs. *Dr. Thomas' Eclectric Oil cured her in twenty-four hours.* One of the boys was cured of sore throat. This medicine has worked wonders in our family." Alvah Pinckney, Lake Mohonk, N. Y.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unimjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectus and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

PSORIASIS

And All Itching and Scaly Skin and Scalp Diseases Cured by Cuticura.

Whiskey a Medicine.

(From the Detroit Free Press.)

It is now a fact, established and unquestioned, that pure, unadulterated whiskey is a Medicine. Prof. Wm. B. Carpenter, M. D., F. R. S., F. S. G., Examiner in Physiology, University of London, Prof. Med. Juris, University College, say: "To put alcohol aside would be equivalent to denying our right to employ any substance whatever as a medicine—a doctrine that would deprive us of all the medicine in the pharmacopœia." Prof. H. C. Wood, Prof. of Therapeutics, University of Penna., says: "In phthisis (consumption) and its congener, scrofulosis, there can be no doubt as to the great value of alcohol." Prof. Austin Flint, Prof of Principles and Practice of Medicine, Bellevue Hospital Colleges, N. Y., says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century." Prof. John Parrish, author of "Alcoholic Inebriety from a Medical Standpoint," Burlington, N. J., says: "We know that alcohol will steady the heart, slow the pulse, warm the skin, calm excitement, and we ought to use it." Prof. M. G. Greenfield, M. D., author of "Alcohol: Its Use and Abuse," "Appleton's Health Primers," says: "It is idle to ignore the results of experience with alcohol in disease. An intelligent comprehension of its action will have greater influence in promoting temperance than admission to a dogma. Prof. John Gardner, an eminent London physician, says: "The advocates of total abstinence, signally fail to produce evidence in support of their opinion that all stimulants are inimical to health and longevity. Science, common sense, Holy Scriptures and all experience testify to the benefits to be derived." Prof. Willard H. Morse, Westfield, N J., in his "Notes on Amylism as a Factor in Diseases of the Cerebral Convolutions," says: "Putting preference upon malt, I submit that whiskey from malt is the whiskey to be preferred." Prof. Albert E. Menke, D. Sc., F. C. S., F. I. C., Prof. of Organic Chemistry, Kentucky State College, late Chemist Dept. of Agriculture, Washington, D. C., says of Duffy's pure malt whiskey: "It is peculiarly fitted for medicinal or any other purposes where a carefully prepared and unadulterated whiskey is required." "The Western Medical Reporter," a monthly epitome of Medical Progress, Dr. J. K. Harper, A. M., M. D., publisher, Chicago, Ill., says: "Duffy's pure malt whiskey is meeting with special favor by many physicians. When an alcoholic stimulant is needed for the sick or convalescent, this famous malt whiskey should be given."

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to complete the funds for its completion,** have prepared, from model furnished by the artist, a *perfect fac-simile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed; Pedestal, nickel-plated,—**One Dollar each**, delivered.

No. 2 Statuette, *twelve inches high*, finely bronzed and nickeled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal Heavily Nickeled, with gray statuettes, **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* fund of $100,000 completes the Pedestal, but it is estimated that $60,000 is yet needed to pay for the iron fastenings and the erection of the Statue.

The sale of the Miniature Statuettes will produce the desired amount.

My wife has been a great sufferer from neuralgia and rheumatic difficulties for fourteen years. Since taking Athlophoros she has been comparatively free from pain and can walk better than before for several years. Rev. S. Donaldson, Lyndon, Vt.

Mrs. W. H. Trowbridge, wife of one of the leading business men of South Framingham, Mass., poisoned herself March 12th, while insane.

Handsome versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

Mrs. Rose Doherty of Woburn, Mass., was killed by the cars in Cambridge on the 13th inst.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Kitatic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. Hubbard & Bro., New Haven, Conn., is on every package.

The Dime savings bank of New Brunswick, N. J., has gone under, the secretary and treasurer, Arthur S. Ogilby, having stolen $80,000, about the entire assets of the bank.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker house, Boston.

A brutal pounding match between Jack Dempsey of New York and George Le Blanche of Boston occurred on Sunday morning at Larchmont, L. I., in an old fish house, and Le Blanche, otherwise known as "The Marine," was defeated. Both the bruisers were badly used up.

Ayer's Hair Vigor stimulates the hair to a vigorous growth. It contains all that can be supplied to make the hair beautiful and abundant, removes dandruff, and renders the hair flexible and glossy.

Capt. Crocker of Cohasset, Mass., father of Capt. Aubrey Crocker, who commanded the Puritan in her race with the Genesta, hung himself last week, through fear of becoming blind. He was highly respected.

John H. Kimball, of Westfield, Chautauqua county, N. Y., writes May 20th, 1885, that he was suffering with rheumatic fever, and had constipation so bad that many times he went twelve days without an evacuation. Given up by physicians, he as a last resort took Brandreth's Pills, two every night for seven weeks. Now he is an entirely well man, and never uses any other medicine for himself or family. He will answer any inquiries.

At College Hill, Ky., a colored boy fourteen years old poisoned Mrs. Deathroy, her daughter and the cook. It is probable that he will be lynched.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

A mad bull dashed among some 400 school children at Cleveland, Ohio, just as the school had been dismissed, and a dozen or more were injured, three of them seriously. A man was also terribly gored. The police killed the bull.

For twenty-five years I have been afflicted with catarrh so that I have been confined to my room for two months at a time. I have tried all the humbugs in hope of relief, but to no success until I met with a friend who had used Ely's Cream Balm and advised me to try it. I procured a bottle to please him, and from the first application I found relief. It is the best remedy I have ever tried.—W. C. Matthews, justice of the peace, Shenandoah, Iowa.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees the utmost degree of personal security afforded by a solid, thoroughly ballasted roadbed, smooth iron of the heaviest section, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air brakes, and that excellent discipline which governs the practical operation of all its trains. Other specialties of this route are its connections at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains leave between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are equipped with Reclining Chair Cars, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

is the shortest and favorite line between Chicago and Minneapolis and St. Paul, where connections are made with Union Depots, and all points in the Dakotas and British Provinces. Over this route Fast Express Trains are run to the northern lakes, summer resorts, picturesque localities, and hunting and fishing grounds of Northern and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

AS INVALUABLE AS FLOUR.

Ansonia and West Ansonia are two thrifty towns in Connecticut that have become famous for their brass works. These are not their only claims to distinction, however. Apart from many pleasant features common to progressive New England communities, they possess a number of citizens of advanced views who are at present engaged in a work of peculiar interest. One of these is Mr. Reuben Locke, whose home is on Hill Street, West Ansonia, and who is highly esteemed by his fellow citizens. Why he is active in his present work he thus explains:

"Five spoonfuls of Athlophoros cured me of a very stubborn attack of inflammatory rheumatism. I cannot express my feelings of joy at having at last found a medicine that did what the doctors failed to do for me. I esteem Athlophoros as I would my dearest friend, and recommend it because I know that it will do all that is claimed for it."

Mr. J. V. Wightman, of Ansonia, is no less enthusiastic and positive in his belief in the efficacy of this great remedy. He says:

"I believe, in fact I know, that there is nothing like Athlophoros. It cured me permanently of a very severe case of muscular rheumatism. I have recommended it on the strength of my own case to a number of people suffering with rheumatism and neuralgia, and they have one and all been cured by it, and the good work still goes on. On every side I hear the highest praise of Athlophoros."

From Providence, R. I., the same good news is reported. The happy messenger of glad tidings in the present instance is Mr. Isaac Crocker, who is well known to many people in Providence as the paper carrier who brings them their daily papers. Mr. Crocker rejoices over the cure of his son which he describes as follows:

"In the winter of 1882 and 1883 our son, who was then fourteen years old, was very sick with inflammatory rheumatism. He was confined to his bed and suffered greatly. He was very sick until the spring, and his trouble continued up to February of the present year (1885), when he saw Athlophoros advertised. At that time he was unable to move his feet. After taking two doses he could move them without pain, and by the time he had taken half a bottle he was cured. We have recommended Athlophoros to a neighbor who is 75 years old and it has helped him more than anything he ever tried. We would as soon think of being without flour as without Atlophoros."

Mrs. Millie M. Davis, of No. 193 Whalley Avenue, New Haven, says:

"For three months I suffered dreadfully with muscular rheumatism. In that time I was treated by four different physicians, none of whom relieved me of the pain and distress. They said I had waited too long, and their medicine had no effect. I did not experience the much-sought relief till I took Athlophoros, the very first dose of which eased me so much that I could, for the first time in a great while, sit down to eat my meals. I steadily improved and in a short time was completely cured of rheumatism. I gladly add my testimony to that of the many others who have been cured by Athlophoros."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it of your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

An Old Acquaintance.

A few days ago, while an old grey-haired man was sitting in one of our hotels, a stranger got off a train which had just arrived and passed through the waiting-room. He eyed the old man closely, and over the face of the latter flashed a look of recognition.

"Pardon me," said the stranger, "your face has a familiar look to me, yet I can not place you! Perhaps I'm mistaken."

"Oh, no," answered the elderly gentleman, "I know you are not mistaken. I know you like a book."

"Indeed!"

"Yes, sir. You used to board with me."

"Is it possible," said the stranger.

"Yes, sir; and you left without paying your board."

"That, sir, can not be," said the newcomer, very much confused.

"Oh, but it can. I say you left without paying your board, and you left in the night."

By this time the stranger was furious. He grew red with anger, and intimated that only by the grey hairs of the tormentor saved him from violent treatment.

"You need not get mad," said the old man coolly, and enjoying immensely the stranger's discomfiture. "You did all these things and left your baggage behind you."

"See here, old man, who in —— are you any way, and where are you from?"

"I am, sir, Captain Jack Warner, and you are Quartermaster Murphy, and you escaped from the prison at Libby while I was commissary of that institution."

"My God!" was the stranger's ejaculation, as he warmly clasped the hand of the old ex-rebel, "are you, indeed, the old commissary? Well, you are right. I did board with you; and I gave you the slip, too," he continued, laughing.

Quartermaster Murphy belonged to a New York Regiment and was captured and sent to Libby. It was the practice of the rebels to allow those persons who were practitioners of medicine to attend the sick in the prison hospital. They were allowed the freedom of the grounds, to go and come at will. One day a green country would not allow the men to pass, when he was sharply reprimanded by Captain Gibbs, and told that those men who wore red ribbons on their coat lapels (this was the insignia of the doctors) should pass unmolested. Murphy overheard this and profited by it. In the inside of his vest he had some red flannel, and, tearing off a strip, he pinned it to his coat, and, watching his opportunity, he got past the guard and reached the Union lines in safety.

The meeting described herein is the first since those days when, as captor and captive, they dwelt within the walls of the famous southern prison.—*St. Louis Republican.*

Some Good Advice.

It is said that the wine-cup has occasionally circulated among the legislators, and some have even achieved celebrity by this convivial disposition. Of one who has since achieved reputation as a lawyer the following story circulated among his legislative friends. He attended a ball one evening, and in the course of the festivities he became somewhat too joyous. Seeing this, one of his friends approached him and advised him to seek his room and bed. The young lawyer said nothing, but with great solemnity took a dollar bill from his pocket and thrust it into the hand of his friend.

"But I don't want money," said the gentleman, "I merely suggested that you go to bed."

"Take it, take it," was the reply in the blandest of tones, "I've charged $2 for a good deal poorer advice than that!"—*Boston Record.*

Not Symptoms, but the Disease.

It would seem to be a truth appreciable by all, and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms, should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Indigestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other maladies are not palliated merely, but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is its best protection against disease.

Purify Your Blood.

Among spring preparations, do not neglect that which is most important of all—your own body. During the winter the blood absorbs many impurities, which, if not expelled, are liable to break out in scrofula or other disease. The best spring medicine is Hood's Sarsaparilla. It expels every impurity from the blood, and gives strength to every function of the body. Sold by all druggists.

Time to Stop It.

Jem Smith, the champion pugilist of England, says he will fight John L. Sullivan for $10,000 and the diamond belt. There should be some way found of checking the epidemic of brutal ruffianism now sweeping over the country. If a few of these so-called champions were sent to the penitentiary the effect would no doubt be salutary.

A Frightful Record.

From an article in the *Cape Ann Advertiser* we learn that the three months ending March 1st, 1886, were characterized by severe losses to the fishing fleet, in what are known as the Christmas and January gales. Twelve vessels were lost, three of them with all on board, comprising forty-two men. Add to this twenty-four washed overboard or lost overboard while visiting their trawls, the total number of lives lost from the Gloucester fishing fleet in that period is *sixty-six*. Fourteen widows have been left, and thirty-five fatherless children. The vessel property was valued at $87,000, on which there was an insurance of $63,691 in the Gloucester Mutual office, and $4,700 in the Boston Marine. The names of the lost vessels are as follows: Schooners Onward, Rater, Adelia Hartwell, Ivanhoe, Cleopatra, *Mabel Dilloway, I. H. Higgins, *Hyperion, Lizzie H. Haskell, Mary E. McDonald, Anne D., and *Virginia Dare. Those with the star attached were lost with all on board.

Legislative Restoration of Dismissed Officers.

W. E. Chandler publishes in "The United Service" magazine a paper on the "Restoration to the Army and Navy of Ex-Officers." He denies that Congress has power under the constitution to oblige or advise the president to appoint a particular individual to a specially-created office, and he thinks it is time to return to the fundamental principals of the constitution; that it is time for the executive branch of the government to resist legislative encroachment in this direction—an encroachment which, as he points out, has grown up because both branches have happened hitherto to be in accord concerning the special result accomplished through the encroachment. Mr. Chandler holds that whatever reparation or restitution can be afforded by legislation alone the legislature may undoubtedly give; but where such cannot be given without an appointment to office, the legislature must stop short. Of the list of all the special acts which are now claimed to be justifying precedents Mr. Chandler says that it includes some officers of merit; "but it is safe to say of them, as a whole, that they have been grossly injurious to the military service. Most have reappointed worthless officers, and some of the most notorious drunkards in the navy have been restored, one of them afterward sinking, while drunk, a naval vessel, and destroying eleven lives." It is not necessary to say that the article refers to the Fitz-John Porter case. "The United Service" is full of papers valuable and entertaining to the civilian as well as to the military and naval men.

MATTERS IN YORK.

YORK CORNER, ME., March 15th.

The entertainment of the U. O. G. C. at S. S. S. hall on Thursday evening last was a pronounced success. The hall was well filled, a good entertainment was given, and the patrons were pleased with their investment. After the entertainment was over, music by the violinists was furnished, and those who wished tripped the light fantastic toe till the wee sma' hours.

We see by the *Gazette* of last week that "Capt. Ed. Baker has opened the new post-office at York village in the furniture store of Charles Blaisdell, who has recently removed from Sewall's bridge to the Golden Cross block." This is a rare piece of news to the people of this place. And not so very rare either, as nearly the same thing was reported in your paper several weeks ago. This last item, however, has no more truth in it than the other. With a little care the *Gazette* will be able to maintain its heretofore good reputation for reports of a truthful nature, but "ye musn't (hic) bleeve all ye (hic) hear, Mary."

Among the one hundred or more tickets of the I. O. O. F. fair at Dover, held in this section of the town, only one drew a prize, that being owned by Peter Franklin, who drew two dollars. Quite a large delegation of ticket-holders of this place attended the drawing. P.

Lieutenant S. C. Lemly has been detached from the Vandalia, now at this navy yard, and ordered to the Asiatic station on special duty, which includes an examination of the accounts of Paymaster G. R. Watkins, attached to the Ossipee. Lieut. Lemly left last week to join the Asiatic squadron by way of San Francisco.

Mrs. Robeson, mother of Ex-Secretary Geo. M. Robeson of the navy, died recently at the homestead in New Jersey. Her ancestors were early colonial settlers and she of distinguished revolutionary descent. Her grand-father, Wm. Maxwell, commanded the New Jersey line under Gen. Washington. Her father, George C. Maxwell, was a representative in Congress in 1811, and her brother, J. P. B. Maxwell, in 1837-1843, and her son, George Maxwell Robeson, from 1876-1880. Mr. Robeson married a Baltimore lady, and thus two of the oldest colonial families in the country were united. The Ex-Secretary and Mrs. Robeson still spend most of their time in the winter season at his handsome residence in Washington, and make a long summer sojourn at their cottage at Little Boar's Head.

Messrs. Cuppies, Upham & Co. of Boston will shortly publish a work upon "Small Fruits; their propagation and cultivation," including the grape; by William H. Hills, Esq., of Plaistow. Mr. Hills has devoted much time to fruit growing, and has written many interesting and instructive articles for the press upon this subject. As a treatise by a practical cultivator of fruit trees, the book will doubtless have an extensive reading.

The April number of the "Southern Bivouac" will have the first two illustrated articles on the Virginia Cavaliers, written by Miss K. M. Rowland of Baltimore. The illustrations are portraits from a number of old photographs, and are unusually interesting. The invention of a cotton picker means as much to the south as did the invention of the mowing maching to the north and west. H. N. Starnes describes at length in the Bivouac for April the latest claimant to this honor, which he judges to be successful. The article is accompanied by a series of drawings and illustrations which, for the first time, make the principles of the invention intelligible.

For Instant Use

As a reliable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 187 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most potent of all the remedies I have ever used." W. H. Stickler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Hood's Sarsaparilla

Combines, in a proportion peculiar to itself, the active medicinal properties of the best blood-purifying and strengthening remedies of the vegetable kingdom. It will positively cure—when is the power of medicine—Spring Debility, Headache, Dyspepsia, Catarrh, Salt Rheum, Scrofula, and all Diseases caused by a low state of the blood.

"I suffered three years with blood poison. I took Hood's Sarsaparilla, and think I am cured." MRS. M. J. DAVIS, Brockport, N. Y.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

Is so vastly superior to any other sarsaparilla or blood purifier, that one has well said: "Its health-giving effects upon the blood and entire human organism, are as much more positive than the remedies of a quarter of a century ago, as the steam-power of to-day is in advance of the slow and laborious drudgery of years ago."

"While suffering from a severe bilious attack in March, 1883, a friend in Peoria, Ill., recommended Hood's Sarsaparilla. I tried the remedy, and was permanently cured." J. A. SHEPARD, travelling agent for Devoe & Co., Fulton Street, N. Y.

Purifies the Blood

"I tried a dozen articles to cleanse my blood, but never found anything that did me any good till I began using Hood's Sarsaparilla." W. H. PEEK, Rochester, N. Y.

"My wife was troubled with dizziness and constipation, and her blood has been in a bad order—in fact she has been all run down. Hood's Sarsaparilla is doing her a wonderful amount of good." F. M. BALDWIN, druggist, Blanchester, Ohio.

"I was for five years a sufferer with boils, all run down, and was at one time obliged to give up work. Before taking all of two bottles of Hood's Sarsaparilla, was entirely cured." R. M. LANE, Pittsburgh, Pa.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. Took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

TUESDAY, March 16th.

Eugene Cousins, Joseph Mott and Henry Moran, charged with breaking glass, were discharged after examination.

MUSIC HALL.

The Cincinnati *Gazette* speaks in glowing terms of Miss Lizzie Evans, the charming little actress, who is to appear at Music Hall on Thursday evening. It says: "The magnet, Lizzie Evans, is a young actress in her third season as a star. She acts *con amore*, or rather she scarcely acts at all, so well does she counterfeit nature. She is equally at home in tear bringing, pathetic passages, in arch ingeniousness, and in comedy. She never offends by overdoing, and she is never offensive even to the most refined taste." Tickets now on sale at Goodrich's.

Miss Nichols more than satisfed the high expectations which had been formed as to her excellence as a reader. Slight and graceful in figure, easy and natural in gesture, with a wonderfully clear, strong and sympathetic voice, she commanded the attention, aroused the enthusiasm, and fairly won the hearts of her audience.—*Concord Patriot.*

At Music hall Friday evening, with the Harvard college Quintet club.

At Music hall, next Monday evening D'Oyly Carte's Opera Co., under the management of Mr. John Stetson, will present the "Mikado" (authorized performance) with full orchestra, author's stage business, special scenery, and a cast including Miss Agnes Stone, Miss Alice Carle, Miss Mamie Cerbi, Messrs. N. S. Burnham, Roy Stanton, J. W. Herbert, Harry Allen, Louis Monico, Miss Mary Beebe, and a mammoth chorus. Tickets on sale at Goodrich's, Friday morning.

UNITED STATES COURTS.

In the United States district court on Tuesday, in the case of United States vs. Lyman Clark, a libel for the forfeiture of a distillery at Winchester, the defendant's counsel stated that some offer of compromise had been made to the internal revenue department, pending the consideration of which he asked that the case be continued. The jurors who had been summoned to appear had previously been notified that they would not be required to be present. The case was continued, the claimant having leave to file his answer to this libel in sixty days. Frink, United States attorney, for the United States; Rolfe for the claimant.

In the circuit court, Judge Clark ordered the issue of the venires for the May term.

In case Taft vs. town of Plymouth, an equity suit for an alleged infringement of a patented road scraper, a stipulation was filed for a decree in favor of the complainant, damages to be assessed at two hundred dollars. Livermore & Fish for complainant; Burleigh & Adams, and Pusey of Philadelphia for deft.

PROBATE COURT--LEAVITT. J.

Judge Leavitt held the March session of the Probate court in this city on Tuesday. The most interesting proceedings consisted of a hearing upon the question of the sufficiency of the sureties on a bond given some time since to the judge of probate, in the insolvency proceedings of a bankrupt estate. One of the counsel acted in the dual role of counsel and witness. The hearing was participated in by Messes. Hatch and Hodgdon on one side, and Messers. Page, Frink and Batchelder on the other. The proceedings, notwithstanding the multiplicity of counsel, seemed to lack the customary gravity of such usually dignified hearings, while the lawyers vied with each other to make up in sharp hits and legal bruises what was apparently lacking in the way of evidence. The court, however, seemed to comprehend the situation.

THE EIGHT-HOUR LAW.

A report from the committee on claims has been made to the national house of representatives, recommending the passage of a bill for the adjustment of the accounts of the employes of the government arising under the eight-hour law. The report speaks as follows of the persistent disregard of the plainly expressed provisions and intent of the law, by men who, holding the highest positions of honor and trust in the nation, had sworn to faithfully execute all laws:

This law was passed June 25, 1868. Some of the officers of the government observed it; others disregarded it, and exacted work or afforded pay according to ten or more hours. This various practice added discrimination and partiality to other injury, and complaint was justified on the double account. The original law was the expression of a policy that had been long urged, and has been since continuously approved. Its benefit was to be immediate, and successively available day by day. Day by day, instead, it was denied or evaded, and there is now no relief but in an act of Congress. To refuse it is to assent to or connive at the violation of the original law.

John Pearson & Son of Newburyport have generously donated four boxes of their nice bread to the Methodist fair, two of their pilot bread and one each of cream and Graham gems.

The relatives and friends of Mrs. Effie R. Shapleigh, mother of Mr. W. A. Shapleigh of Melrose, Mass., gathered at his residence on Saturday evening, March 13th, the occasion being the 80th anniversary of Mrs. Shapleigh's birth. Mrs. Shapleigh was born in Rye in 1806, but notwithstanding her advanced age retains full possession of her physical and mental faculties, and enjoyed the celebration very much. She was the recepient of many valuable presents.

Remember that the fair at the Casino is Thursday and Friday evenings, March 18th and 19th. There will be a great variety of attractions.

It is reported that the schooner Satellite, a well known bricker, has been purchased by George Scott and others of this city, and will be commanded the coming season by Capt. Horace Burns. Before starting she will receive a new deck and be put in good repair by Mr. Warren Keen. The schooner D. K. Ham, Capt. Garland, is being repaired by Mr. Keen, and made ready for sea.

Miss Hunt possesses a clear, pure soprano voice that filled the building throughout, and her brilliant execution and captivating stage manners took the house by storm.—*Cobleskill (N. Y.) Index.*

At Music hall Friday evening, with the Harvard college Quintet club.

If you have decided to take a spring medicine, and some of the many preparations of Sarsaparilla have been thought of, let us remind you that "Preston's Sarsaparilla" is honestly and conscientiously compounded, and has stood a test of nearly a half century.

Mr. Shanahan, contractor for the big sewer, denies the report that he has sublet to W. Whittaker of Boston the construction of the lower end of the sewer. He says there is no foundation whatever for the story.

Dr. Harry Hall, of Fort Collins, Colorado, is visiting his father, Dr. J. F. Hall, in this city, after an absence of many years.

Mr. Wm. H. Preston of this city has accepted a position with the firm of Carter, Carter & Killum of Boston, wholesale drug dealers, of which firm his brother, Mr. Andrew P. Preston, is a member.

Geo. W. Ryer, advance agent of Stetson's Mikado company, was in this city on Tuesday. The company will play in Music hall next Monday evening.

THE BELL OF ST. JOHN'S.

[Captured by the English in an expedition against New France, this bell was presented to Queen's Chapel, (now St. John's) Portsmouth, New Hampshire. Having been broken in 1896, when the old building burned, it was recast.]

From yonder bell the sweetest music steals
Swell after swell. Although most earnestly
It strives to ring out joyous wedding peals,
Each tone is tinged with sadness; so to be
Is doubly meet. Time was when full and free,
That bell poured forth a merrier melody
To lovers' ears; and troops of maidens then,
With laugh and song, in perfect sympathy
Rejoiced. Of bridal bells, no happier e'er have been.

Now among its country's foes constrained to dwell,
Its friends long dead and buried far and wide
In foreign lands; its bitterest notes still tell,
By trembling undertones it cannot hide,
To those who in the love of right abide,
A tale of many wrongs, and hopes that died
With Acadie. O, faithful bell, thou'rt true,
Sweet singer of the east, what'ere befide!
Nor foeman's furnace could thy first fond love subdue.

—EDWIN RUTHVEN WEEKS, Kansas City, Mo.

The selectmen of Kittery have surveyed the route for the new road on Gerrish's island. It is rumored that Mr. Goodwin, who owns a fine farm on the island which he occupies as a summer residence, has offered to build a substantial iron bridge across Chauncey's creek, provided the town will exempt him from taxation while the bridge stands. The offer (if it has been made) is not likely to be accepted, as the taxes in ten or a dozen years would amount to more than the cost of the bridge, and the structure, if good for anything at all, would last much longer than that.

In the recent destructive ice storm the majestic elm on the parsonage ground of the Congregational church at Kittery Point was greatly injured, so that its symmetry is gone. It was known to be 145 years old, and was planted by Rev. Dr. Stevens, the ancient pastor. It had never shown any sign of decay. It was the most towering and attractive object in all that beautiful region.

CONSTIPATION!

There is no medium through which disease so often attacks the system as by Constipation, and there is no other ill flesh is heir to more apt to be neglected, from the fact material inconvenience may not be immediately felt from irregular action of the bowels. When there is not regular action the retention of decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing piles, fistula, headache, impure blood and many other serious affections. BURDOCK BLOOD BITTERS will immediately relieve, and one bottle positively cure or relieve any case of Constipation.

"Was troubled for a year with torpid liver and indigestion, and after trying everything imaginable used BURDOCK BLOOD BITTERS. The first bottle revived me and the second cured me entirely."—J. S. Williamson, Rochester, N. Y.

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion,** have prepared from model furnished by the artist a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*—the Statue bronzed; Pedestal, nickel-silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, *in same metal, twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each.**

No. 3 Statuette, *twelve inches High*, finely chased, Statue bronzed; Pedestal, **Heavily Silver-Plated**, with RUBY STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100,000 completes the Pedestal, but it is estimated that $50,000 yet needed to pay for the bed, foundations and the erection of the Statue.

Life-Subscriptions for the Miniature Statuettes will produce the desired amount.

Address, with remittance,

NO. 5 ELM STREET.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and the money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

The dominion authorities are busily engaged in an effort to secure the Canadian lands bordering upon Niagara falls, at a reasonable price, so as to purchase them and make them public grounds, as on the American side.

My wife has been a great sufferer from neuralgia and rheumatic difficulties for fourteen years. Since taking Athlophoros she has been comparatively free from pain and can walk better than before for several years. Rev. S. Donaldson, Lyndon, Vt.

Joseph McCall, who had just been released from jail, while intoxicated at Chambersburg, Pa., March 13th, went into a lime kiln and went to sleep. He was overcome by gas, and, fire breaking out, was burned to death.

Handsome versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

The San Pablo, which left San Francisco, Cal., March 14th, for China, took out 1200 of the celestials.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

By a railroad accident near Marshall, Mich., on Friday night, eight persons were quite seriously injured. Of these three or four will probably die.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker house, Boston.

At Newburg, N. Y., Sadie, a seven-year-old daughter of George Taggart, died March 12th from convulsions caused by jumping the rope.

Ayer's Hair Vigor stimulates the hair to a vigorous growth. It contains all that can be supplied to make the hair beautiful and abundant, removes dandruff, and renders the hair flexible and glossy.

The funeral of Mrs. Brewster, wife of ex-Attorney General Brewster, took place from the chapel of Oak Hill cemetery, in Georgetown, D. C., on Sunday.

John H. Kimball, of Westfield, Chautauqua county, N. Y., writes May 20th, 1885, that he was suffering with rheumatic fever, and had constipation so bad that many times he went twelve days without an evacuation. Given up by physicians, he as a last resort took Brandreth's Pills, two every night for seven weeks. Now he is an entirely well man, and never uses any other medicine for himself or family. He will answer any inquiries.

Col. R. K. Phillips was robbed and mortally wounded at Portland, Oregon, by two unknown men, one night last week. He had been out-spoken against the Chinese outrages, and the leaders of the mob had threatened his life.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

A skirmish is reported to have come off near Suakim, in the Soudan, between a detachment of the garrison and a band of Arab rebels, in which thirty of the Arabs were killed.

For twenty-five years I have been afflicted with catarrh so that I have been confined to my room for two months at a time. I have tried all the humbugs in hopes of relief, but to no success until I met with a friend who had used Ely's Cream Balm and advised me to try it. I procured a bottle to please him, and from the first application I found relief. It is the best remedy I have ever tried.—W. C. Matthews, justice of the peace, Shenandoah, Iowa.

Father Purcell announced at St. Joseph's Catholic church in Pittsfield, Mass., last Sunday, that all funerals and marriages must be attended in the morning hereafter, that bodies must not be exposed to view in the church, and floral tributes are not to be brought into it.

The warmer weather often has a depressing and debilitating effect. Hood's Sarsaparilla overcomes all languor and lassitude.

Five thousand coal miners in the Cumberland region of Pennsylvania had a meeting on the 15th inst., and resolved on a general strike. Owing to this action the bituminous coal districts of Pennsylvania, Maryland, Virginia and West Virginia will be thrown entirely idle, except one colliery, and 12,000 miners will be out of employ.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important midcontinental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is one of the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that *sense of personal security* afforded by a solid, thoroughly ballasted road-bed, smooth tracks of continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are 2 Daylights at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars in which are served meals not equaled by any extent. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Popular Short Line Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

CONSUMPTION. I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease to any sufferer. Give Express and P. O. address. DR. T. A. SLOCUM, 181 Pearl St., New York.

DEAFNESS its CAUSES and CURE, by one who was deaf twenty-eight years. Treated by most of the noted specialists of the day with no benefit. Cured *himself* in three months, and since then hundreds of others by same process. A plain, simple and successful home treatment. Address T. S. PAGE, 128 East 26th St., New York City.

I CURE FITS! When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, FALLING SICKNESS a life long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a Free Bottle of my infallible remedy. It costs you nothing for a trial, and I will cure you. Give P. O. and Express, and I will cure you. Address H. G. ROOT, 183 Pearl St., N. Y.

Not Symptoms, but the Disease.

It would seem to be a truth appreciable by all, and especially by professors of the healing art, that to remove the disease, not to alleviate its symptoms, should be the chief aim of medication. Yet in how many instances do we see this truth admitted in theory, ignored in practice. The reason that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted. Ind gestion, fever and ague, liver complaint, gout, rheumatism, disorder of the bowels, urinary affections and other maladies are not palliated merely, but rooted out by it. It goes to the fountain head. It is really, not nominally, a radical remedy, and it endows the system with an amount of vigor which is its best protection against disease.

President George O. Lord of the Boston & Maine railroad, who has been dangerously ill at his home in Newton, Mass., is slowly recovering.

For twenty-five years I have been afflicted with catarrh so that I have been confined to my room for two months at a time. I have tried all the humbugs in hopes of relief, but to no success until I met with a friend who had used Ely's Cream Balm and advised me to try it. I procured a bottle to please him, and from the first application I found relief. It is the best remedy I have ever tried.—W. C. Matthews, justice of the peace, Shenandoah, Iowa.

WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, March 9th.

Amount of live stock at market: Cattle, 1,065; Sheep and Lambs, 2,410; Calves, 385; Horses, 233; Swine, 19,901.

Prices of Market Beef—A few choice, $8 00; extra, $7 50 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 50 @ $6 50; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen ℔ pair, from $100 @ $185; Fancy cows, $15 @ $30; Fancy cows, $30 @ $50; Milch cows and calves, $25 @ $48; yearlings, $10 @ $18; two years old, $14 @ $28; three years old, $24 @ $40.

Swine—Western fat, live, 4¾ @ 5¼c ℔; northern dressed hogs, 5¼c ℔.

Prices of Sheep and Lambs—In lots, $2 50, $3 50 @ $4 00 each; extra, $5 00 @ $6 00, or from 3¼ @ 6c ℔.

Veal Calves 2¼ @ 6½c ℔.

Prices of Hides, Tallow and Skins—Brighton hides, 7½c ℔; Brighton tallow, 4c ℔; country hides, 6 @ 7c ℔; country tallow, 2¼ @ 2½c ℔; calf skins, 10c ℔; pelts, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

There were more cattle from the northern states, also a larger supply from Maine. There appeared to be a very fair demand and prices were fully sustained. There were some very choice cattle on sale from New Hampshire, Maine and Massachusetts, and also from northern New York a few head of the fancy stamp. What brought more cattle to market the light supply last week. A number of western cattle were sold from $5 30 @ 5 90 ℔ hundred ℔, live weight.

New Milch Cows—The supply was very light and sales mostly confined to small lots.

Fat Hogs—Not any changes in values, and the supply heavy from the west.

The Sheep Call—There has been an improved tone to the market. Butchers were, although not desirous to have it known, more anxious to buy, having bought light last week. We heard of sales on sheep at 6c as an outside rate on choice flocks. One lot contracted for last week at 5¾c, delivered to day, would have sold on the market at 6c. Several lots are engaged for next week, and probably as high as ⅛ to day's rates, as sheep cost last week full ¼ @ ½c advance.

A LETTER-CARRIER'S STORY.

"A letter-carrier has his ups and downs as every one else has, I suppose," said one of these messengers of Uncle Sam the other day, in speaking of his experiences, "but take it all in all I would rather be a carrier at $1,000 a year than a clerk at $1,200. In the first place our position is assured as long as we are honest and attentive to our duties, and then we have our little perquisites that net us more than people generally think. I used to have a route along Beacon street near the Public Gardens, and it was a very cold Christmas indeed when the rich nobs didn't remember me to the extent of $300 or $400. For letters that brought good news I have often been given crisp $5 notes from the pleased recipients. And then the little romances, and sometimes deep disappointments and heart-burning that we know off I shall never forget the pale, anxious face with which an old millionaire used to greet me every morning for a long time, as he opened the door himself in answer to my whistle, and nervously reach for his letters. His hands would tremble as he tore open the envelopes, and then would come a long sigh of relief when he found there was no bad news. At last there came a letter that blanched his face whiter than the paper on which it was written, and he fell down senseless all in a heap at my feet. I helped to carry him up to his room, but never saw him again. Pretty soon a new family moved into the house. It was some financial trouble, I suppose, and the letter had brought ruin to the old gentleman, who had a big family to support."

Letter-Carrier W. B. Goodale, of Hartford, Conn., tells a not less interesting story, though happily its ending is not so tragic. Mr. Goodale is well known in Hartford, and his many friends to whom he had often as a carrier brought tidings of sorrow and of joy, were much pleased to receive his present message:

"For three months," he says, "I was confined to my house with inflammatory rheumatism. So severe, indeed, was my affliction that the doctors took such heroic measures as to prescribe forty grains of morphine a day, beside steaming me five hours and dosing me with all sorts of medicine. I had three doctors, but their combined skill failed to give me any relief. Finally I became discouraged and determined to let the disease do its work. I had a pair of crutches made and was nervously awaiting the worst, when a friend came to see me and advised me to try Athlophoros. After much persuasion I consented. I took the first dose at six o'clock in the evening and two more during the night. The next morning, for the first time in three months, I was able to go to work, greatly to the astonishment of my friends, who all thought I would never get around again. As Athlophoros cured me I believe it will cure anybody suffering with rheumatism. It has many friends in Hartford since the people have seen that it will do all that is claimed for it."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

OUR NEW YORK FASHION LETTER.

SPRING MILLINERY:—MATERIALS:—TRIMMINGS:—MARCH NOTES.

Ours in perpetuity, seems the capote bonnet. I know not wherefore, except it be its size, or rather its lack of size. Winds do not catch it, it needs but little trimming; a small amount of material only for the making. Winter feathers rising in quite an unsuitable tuft on top, are to be succeeded quite as unsuitably by spring flowers, such as hyacinths, jonquils, daffodils, tulips, poppies, heath, etc., to the neglect of vines,—at least to their present neglect, since there is talk of low-crowned midsummer flats on which they will appear. On the high-crowned spring hats, the high arranged blossoms will look better than on bonnets, because they will have something to rest upon. Smooth Milan and Dunstable straws are brought out; Tuscan is conspicuous, or one can choose among Neapolitans and fancy straws. Of course we have black and colored bonnets and hats, but the chief novelty in millinery will be the prevalence of light colors. White in different tinges, and a great deal of pale yellow.

TRIMMINGS

Are constantly of gauze or crape, these being tribal names that include families varied according as crinklings, cordings, plaids or boucle loopings appear, while near of kin come tulle and crepe lisse. Heavier, but also on the same order, are Japanese crapes showing lovely floral decorations. Ribbons are a power, evincing unusual range of character, from thin gauze, muslin or canvas to velvet, or we see unions of thick and thin in the same ribbon set in stripes, though there are velvet flecked gauze or bonne ribbons; in almost all, the picot edge giving an unmistakeable look of newness. Beaded, too, will be our belles. Jet, both large and small, is stylish, but chief of all perhaps, large colored glass beads cut in mathematical shapes, and often conspicuously set in clusters. Lord & Taylor exhibit many other new ideas in millinery and

MATERIALS

As well. Thoroughly canvassed shall we be,—illuminated canvas, that is, having many colored wool loops thickly set, canvas embroidered, canvas striped or plaided, velvet figured canvas, canvas striped with silk, or velvet lace worked canvas. These are only some of the different canvasses, but with all styles of decoration come plain goods for combination. Cotton bareges are new and look so like wool that it is hard to distinguish; batiste both in wool and cotton is largely imported, the wool being thinnest among the thin wools such as veilings, albatross, etc., that have taken hold of late. Crocodile cloth is a thin wool with stripes in self color or bright contrasts, and cable cloth displays coarse threads set in lines or squares. Jersey webbing is not the least among spring importations, but ready made jerseys show that ladies appreciate comfort, especially when joined with style as in the Ipswich jersey, which at a reasonable figure shows a fine genuine black, warranted not to crock, and finished with an appearance of silk. The knitting is close and firm, so that white will not show through; the cloth being strong and so elastic as to ensure a good fit.

MARCH NOTES.

The Almeda is our leading parasol, its distinctive feature being the capacity for forming two shapes. Put up to one height its contour is attractive, but raised yet more the centre becomes a little sunken, equally graceful but showing more of special newness. The trimmed Almeda has a long ferule, giving a walking-stick look when closed, with ribbon bow tied about the natural wood handle. The lace trimmed Almeda has a short top and bow on the outside. Lace covers this year are all in one, and devised to show as much as possible the pattern of the lace. Stripes are conspicuous in parasols which take their cue from materials.——On some high hats, the trimming is massed at the back instead of the front, and in millinery everywhere we notice the partiality for trimming set in high loops which sometimes are so full as to obviate necessity for flowers, but again, these bristling loops and notched ends serve as a support for some small aigrette, pompon or bunch of blossoms.

LUCY CARTER.

We think we can cure a bad case of backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters, than by any other application, and after the backache is cured, you can still wear the plaster without discomfort for two or three weeks or longer. This combination of smart weed and belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.

The Root of all Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does, by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not even a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

The New York School of Acting.

The influence of the Paris Conservatoire upon French dramatic art was a prominent motive in the conception of a "school of acting" in America. From a close study of its methods as well as those of the German Theater-schulen, a course of training adapted to the needs of the American stage was prepared. In the several departments (which are under the charge of specialists) the latest scientific investigation into the mechanism and expressive functions of the human body have been stimulated and trained by the best artistic methods. The American nervous vivacity is thus tempered by German science, moulded by French tradition and example.

The New York school is not, like the French Conservatoire, under the charge of the government. The dean and the faculty are the governing body; its rules those of a well-conducted theatre, with a stage manager and regularly-called rehearsals. The students, like their young French contemporaries, show the greatest respect for the opinion of their instructors, and a genuine enthusiasm for the instruction. It is the aim of the instructors to show practical results, and some very satisfactory artistic work has already been accomplished on the stages of several New York theatres by members of the school.

Nice Officials.

The Chicago *News* of recent date "goes for" the present officials of that city, from the mayor down, charging that a large part of the brothels, gambling dens and low saloons are owned by them, and that there is no pretence on their part of observing the laws. The *News* proceeds to particularize that Carter Harrison, the mayor, is owner of the place run by Ed. Havill and patronized by degraded characters of both sexes, besides being the proprietor of a number of other saloons; that no less than nine members of the present city council are owners of saloons and dives which openly disregard the city ordinances; that a brother of Congressman (formerly alderman) Frank Lawler, is part proprietor of "The Buckingham," a saloon and dance house of the lowest description; and that several present and ex-county commissioners whose names are given, together with other city and county officials, are owners of saloon property. The *News* shows how in this way city and county officials and politicans generally are in co-operation with keepers of saloons and dives, many of which are owned by themselves, to make inoperative city and state laws relating to the closing of them at midnight and on Sunday.

Mrs. Anna A. Cooledge, wife of Policeman Cooledge of Boston, was brought into court in Boston on the 16th inst. on a charge of conspiracy with Adrian L. Mellen of Baltimore to procure the murder of Mrs. Edward L. Mellen, and pleaded guilty to the charge. Mellen is in Mexico, and will have to stay there, the authorities having evidence enough to send him to state prison if they ever get hold of him. His hotel business in Baltimore, which was the most flourishing in the city, has gone down to nothing, and is for sale. As a subornor of murder, Bro. Mellen is not a success.

"I ran around the corner, wishing to catch that car, and I sprained my ankle for my pains. Could you tell me what to do?" "What to do? Don't you know? Get a bottle of Salvation Oil. It will cost you only 25 cents and is bound to cure you."

The Pontoosuc Woollen company, Pittsfield, Mass., have advanced wages averaging ten per cent. Other mills will follow their example soon.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker house, Boston.

Ayer's Hair Vigor stimulates the hair to a vigorous growth. It contains all that can be supplied to make the hair beautiful and abundant, removes dandruff, and renders the hair flexible and glossy.

The body of George Ladd of East Bridgeport, Conn., who was drowned at the time the steamer Idlewild was wrecked, has washed ashore.

John H. Kimball, of Westfield, Chautauqua county, N. Y., writes May 20th, 1885, that he was suffering with rheumatic fever, and had constipation so bad that many times he went twelve days without an evacuation. Given up by physicians, he as a last resort took Brandreth's Pills, two every night for seven weeks. Now he is an entirely well man, and never uses any other medicine for himself or family. He will answer any inquiries.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

The Flowers that Bloom in the Spring

Are no less welcome than the result of the 189th Grand Monthly Drawing of The Louisiana State Lottery, on Tuesday, February 9th, 1886, at New Orleans, La. It is continued thus. The First Capital—$75,000—was drawn by No. 57,705, sold in fifths, each at one dollar. One was held by Annie Smith, a colored cook at No. 118 Liberty St., New Orleans; one by Andrew Doyle, care of Thos. Sheahan, 59 Broadway, New York city; one by Fredk Scharf, a German shoemaker at No. 704 DeKalb Ave., Brooklyn, N. Y.; one by W. R. Jones and five friends at Murphysboro, Ills., &c. The Second Capital was drawn by No. 78,398 sold also in fifths (at $1 each) one was held by Gottfried Anderson, on steamer "Linwood," at Market St. wharf, San Francisco; another was paid to Wells, Fargo & Co. Express Company; another to a party in Memphis, Tenn., &c. Third Capital Prize—$10,000—was also sold in fifths One to D. B. Henry, Carlisle, New Mexico; one to W. F. Rudolph, No 1413 West St., one to W. M. Pinnacane, both of Oakland, Cal., all collected through Wells, Fargo & Co.'s Express, etc., etc. Fourth Capital Prizes, $5,000 each, were drawn by Nos. 2,946 and 59,882 sold generally all over—Vicksburg, Miss.; San Francisco, Cal. etc. So it goes on constantly. The 191st Grand Monthly Drawing will take place at noon, Tuesday, April 13th, and any information desired can be had on application to M. A. Dauphin, New Orleans, La. *Now is a time to be left next time.*

For Instant Use

As a reliable remedy, in cases of Croup, Whooping Cough, or sudden Colds, and for the prompt relief and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Bluffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults." John H. Stoddard, Petersburg, Va., writes: "I have never found a medicine equal to

AYER'S
Cherry Pectoral

for the prompt relief of throat and lung diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house." Mrs. L. E. Herman, 137 Mercer st., Jersey City, writes: "I have always found Ayer's Cherry Pectoral useful in my family." B. T. Johnson, Mt. Savage, Md., writes: "For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most potent of all the remedies I have ever used." W. H. Sickler, Terre Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumption. We now regard the Pectoral as a household necessity." E. M. Breckenridge, Brainerd, Minn., writes: "I am subject to Bronchitis, and, wherever I go, am always sure to have a bottle of

Ayer's Cherry Pectoral

with me. It is without a rival for the cure of bronchial affections."

KITTERY PUBLIC LIBRARY.

The adjourned annual meeting of the trustees of the Rice public library was held at Kittery on the 17th inst. The treasurer's report states the following condition of the finances at the close of the year 1885:

Income for the year 1885 has been—

From interest on bonds,	$1,668.60	
" " " notes, etc.,	983.55	
" fines,	3.45—	$2,055.00

Expenditures—

For books	$160.98	
Periodicals and papers,	68.83	
Rent and expense of rooms,	135.16	
Salaries,	425.00	
Trustees' expenses,	66.04—	$848.01
Net income,		$1,206.99
Amount of loan Jan. 1st, 1885,	$19,000.00	
Paid during year,	1,000.00—	$18,000.00
Bonds,		20,450.00
		$18,456.60
Cash Dec. 31st, 1885,		2,573.54
Total,		$21,023.54

The report was accompanied by the usual certificate that the securities, etc., had been examined by the auditors, and was accepted.

The report of the committee on conduct of library showed the number of books purchased during the year to be 111; number presented, twenty-seven; whole number in library, 2687; cost of books, $3139.12; number of books issued during the year, 8162; number of patrons of the library, 1290.

The trustees re-elected Moses A. Safford president, Ephraim C. Spinney treasurer, William H. Hackett secretary.

The plans for the new library building are expected to be received within a few days; and it is the purpose of the trustees to at once proceed to contract for the construction of the building.

THE MACHINE COMPANY'S BONDS.

We are informed that there is an inaccuracy in the statement contained in the *Penny Post* of Tuesday, the 16th inst., that the bonds of the Machine Co. "are to be issued because the company is about to purchase heavily of costly machinery to engage in the manufacture of reapers and mowing machines." The company has a contract to build a certain number of mowing machines, for the manufacture of which it has adequate facilities. The proceeds of the bonds are to be used in taking up the floating debt created heretofore for working capital. The capital stock being mostly absorbed in the cost of buildings, machinery, etc., the enlarged business of the company needed more funds than remained after the payment of cost of the plant, etc. Instead of creating new stock, the plan of the directors has been to issue these bonds at a rate of five per cent (not six per cent, as stated in the *Penny Post* of Wednesday,) and to use them as needed. The bonds will be a good investment, and doubtless will find a ready sale.

MUSIC HALL.

This evening "the little electric battery," Miss Lizzie Evans, will appear as "Clip" in the comedy drama "Fogg's Ferry." She will be remembered by Portsmouth theatre-goers as the "Clip" in "A Messenger from Jarvis Section," played here by Barney McCauley's company three or four years ago. She is accounted one of the best soubrette actresses on the stage, the equal of Lotta or Maggie Mitchell; and the play in which she is starring, with her own company and special scenery, is one of the most entertaining of its class. Tickets at Goodrich's.

At Music hall, tomorrow evening, the Harvard College Quintet club will give a concert of the rollicking college songs and glees, and will be assisted by Miss Clara A. Hunt, soprano soloist, and Miss Nichols, reader. Seats now procurable at Goodrich's.

Arrived at last. The renowned "Eddy Boys," who have been startling all Europe with their wonderful manifestations, will appear in Music hall next Sunday evening. Admission only ten cents.

Stetson's Mikado company, with special scenery and stage effects, the authors' orchestration and stage business, imported Japanese costumes, and such artistes as Miss Mary Beebe, Miss Agnes Stone, Miss Alice Carle, Miss Mamie Cerbi, and Messrs. Burnham, Stanton, Herbert, Allen and Monico in the cast, will present the Mikado in Music hall on Monday evening next. Reserved seats will be on sale at Goodrich's to-morrow morning.

A PROPER MOVE.

The *Penny Post* of March 17th said: "City Marshal Norton last night made a raid on the hoodlums at the post-office, and cleaned out the whole tribe that had congregated there. He has, we understand, issued an order to the police to call there on their several beats in that vicinity, and to arrest all loafers and bring them before the United States commissioner. The marshal will be upheld by everybody in the course he has taken, and as he proposes to strictly enforce his orders we have no question that the element who have made that building a nuisance will find he is not to be trifled with. It has for a long time been a mooted question of the right of the police to interfere on that property, but the marshal has ascertained that there is a United States statute giving the United States court power to enforce the state law, when there is no United States law covering the case." Every decent person in the city will support the marshal in any measures he may take to suppress the bummer nuisance which has for months past been so great an annoyance at the post-office.

The readings by Miss Addie L. Nichols were exceptionally fine. She has a very pleasing manner which never fails to find response in her audience.—*Lowell Times.*

At Music hall to-morrow evening.

The committee in charge of the Methodist fair, believing that lotteries in connection with fairs are wrong, and knowing that voting articles away always makes trouble and ill feeling, have decided at the start to have neither. They deserve credit for that decision and for sticking to it, although otherwise a great deal more money might probably have been made.

The stockholders of the Barney Myroleum company held their annual meeting at the Kearsarge house in this city on Wednesday, March 17th, and elected the following directors to serve for the ensuing year: Charles Hall of Boston, Geo. T. Barney of Boston, and Herman A. Tarlton of Portsmouth. Subsequently at a directors' meeting Chas. H. Hall was elected president, treasurer and clerk of the directors, and Herman A. Tarlton secretary. The meeting then adjourned.

$100 Reward.

A REWARD OF $100 will be paid for the recovery of a Steam Launch belonging to the Fish Hawk, probably sunk between Newcastle and Whalesback Light.

If you have decided to take a spring medicine, and some of the many preparations of Sarsaparilla have been thought of, let us remind you that "Preston's Sarsaparilla" is honestly and conscientiously compounded, and has stood a test of nearly a half century.

The *Times* says that "Capt. C. F. Duncan, of the firm of Keen & Duncan, has brought the interest of his partner in the steamer James Sampson, and will hereafter run the boat on his sole account. She is to be newly fitted up and put in excellent order, as also the landings, in season for the approaching season. Capt. Duncan, who has navigated her for the past five years, will continue in charge. He is an experienced captain on the river and coast, courteous and popular, and his boat cannot fail to be a favorite with travellers and excursionists this summer."

At a meeting of the North Parish, held Tuesday evening of this week, the following were re-elected wardens for the ensuing year: Marcellus Bufford, Charles E. Myers, John S. Rand, Thomas J. Billings and Newton Johnston.

A Novel Feature in Investments.

The whole country after having undergone a period of depression is now asking itself, what business has least been affected and unforjured?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which it is estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospectuses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

PSORIASIS

And All Itching and Scaly Skin and Scalp Diseases Cured by Cuticura.

PSORIASIS, Eczema, Tetter, Ringworm, Lichen, Pruritus, Scald Head, Milk Crust, Dandruff, Barbers', Bakers', Grocers' and Washerwoman's Itch, and every species of Itching, Burning, Scaly, Pimply Humors of the Skin and Scalp, with Loss of Hair, are positively cured by CUTICURA, the great Skin Cure, and CUTICURA SOAP, the exquisite Skin Beautifier externally, and CUTICURA RESOLVENT, the new Blood Purifier internally, when physicians and all other remedies fail.

PSORIASIS, OR SCALY SKIN.

I, John J. Case, D. D. S., having practised dentistry in this county for thirty-five years and being well known to the thousands I have benefited, with a view to help any who are afflicted as I have been for the past twelve years, can tify that the CUTICURA REMEDIES cured me of Psoriasis, or Scaly Skin, in eight days, after the doctors with whom I had consulted gave me no help or encouragement.

NEWTON, N. J. JOHN J. CASE, D. D. S.

DISTRESSING ERUPTION.

Your CUTICURA REMEDIES perfect a wonderful cure last summer on one of our customers, an old gentleman of seventy years of age, who suffered with a fearfully distressing eruption on his head and face, and who had tried all remedies and doctors to no purpose. J. F. SMITH & CO.
TEXARKANA, ARK.

MORE WONDERFUL YET.

H. K. Carpenter, Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by CUTICURA REMEDIES. The most wonderful cure on record. A dust-ainful of scales fell from his daily. Physicians and his friends dreaded he must die. Cure sworn to before a Justice of the Peace and Henderson's most prominent citizens.

$200 FOR NOTHING.

Wm. Gardon, 87 Arlington Ave., Charlestown, Mass., writes: "Having paid about $200 to first-class doctors to cure my baby, without success, I tried the CUTICURA REMEDIES, which completely cured, after using three packages."

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion,** have prepared, from model furnished by the artist, a *perfect fac-simile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed; Pedestal, nickel silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, with PLUSH STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuette, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The New York World Fund of $100,000 completes the Pedestal, but it is estimated that $50,000 yet needed to pay for the iron fastenings and the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will help outside the federal amount.

A Public Benefaction.

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody knows keeps them clean twice as long. Beware of imitations. See that the name J. C. HUBINGER & BRO., New Haven, Conn., is on every package.

Handsome versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at Initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks, continuous steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and the employe who knows how to prevent the practical operation of all its trains. Other specialties of this route are Transfers at connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison, are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and commodious Dining Cars, in which elaborately cooked meals are leisurely served. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

is the Shortest and Favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains run through the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Northern Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of Interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

BETTER THAN PROMISES

Is positive proof.

What has been done in many cases can still be done in others. Sufferers from rheumatism and neuralgia can find relief if they wish. In proof of this statement the following letters are submitted:—

East Somerville, Mass., Jan. 26, 1886.

I have been asked to give my testimony as to what good there is in Athlophoros as a cure for rheumatism, and I simply say to those who are suffering from it try it, and if it does not give relief or a permanent cure it will be a most extraordinary case. In my own case it is a well-known fact among many of my acquaintances it knocked the rheumatism out of me.

GEO. C. BOERUM, U. S. N.
44 Franklin street.

East Douglass, Mass., Jan. 25, 1886.

One-third of a bottle of Athlophoros cured me of inflammatory rheumatism. Being a cattle dealer my business compels me to be around in all kinds of weather and by constant exposure I contracted a severe and painful attack of inflammatory rheumatism in the hips and arms, which defied the supposed healing virtues of most every known remedy. Hearing that Athlophoros was doing wonders I tried it with the above gratifying results. Although the rheumatism has not troubled me for nearly a year, I always keep Athlophoros where I can lay my hands on it, and now, instead of the disease defying the medicine matters are reversed. I feel perfectly safe for I *know* Athlophoros will cure rheumatism.

E. P. HEATH.

Boston, Mass., Jan. 8, 1886.

Yes, sir; Athlophoros *will* cure rheumatism and so far as my experience goes it is the only medicine that *will* make a complete cure, for I have tried most every thing with no effect. Certainly there was no good effect from my long use of the many so-called rheumatic cures, for all proved worthless; but when I saw with my own eyes what Athlophoros had done for a friend of mine—*cured him of rheumatism*—I tried it, and two doses of it relieved me so much as to permit me to put my feet on the ground, and in twenty-four hours I was standing on my feet, after which I steadily improved and soon was entirely rid of the rheumatism. So I truthfully say to anybody suffering with rheumatism take Athlophoros and you will be cured.

GUSTAF NELSSON, 216 Harrison Av.

Boston, Mass., Jan. 8, 1886.

I was suffering terribly with inflammatory rheumatism and thought I would just try Athlophoros. I did so, receiving immediate relief after taking three or four doses without any deleterious effects from it. I can honestly recommend it to any one suffering from muscular or inflammatory rheumatism.

E. S. RICHARDS.
50 Washington street.

Boston, Mass., Jan. 19, 1886.

I desire to express my feeling of gratitude for the benefit I received from the use of Athlophoros, a medicine of genuine worth; being afflicted with that common but painful disease, inflammatory rheumatism, and being laid up because my feet were so swollen I could not stand up, I commenced using Athlophoros. Before half of the first bottle was used I was able to walk to my store. I continued to use it until in a short while my rheumatism disappeared entirely, the cure complete. I recommend Athlophoros because I know it to be an article of merit.

[Written for this paper.]

Yes, he was a pattern brother,
Sturdy, and just like none other,
Very good, sweet soul.
He was but a trifle wiser
Than us all, this odd adviser
Just now growing old.

But we knew not how to please him—
This good man; 'twere sure to tease him
If we went too fast;
Or if slow, and yet more slowly,
Looking downward, meek and lowly,
This "would never last."

If we went heads up, straight onward,
We were surely tending downward—
"Pride must have a fall."
If we lived on very truthful,
Only laughing with the youthful,
We were sinners all.

So you see we could not please him,
All things fair were sure to tease him—
Nothing suited well.
Now we'll please ourselves—be honest—
Praying God have mercy on us—
And 'twill all be well.

State of New Hampshire.

A PROCLAMATION

By His Excellency, Moody Currier, Governor, for a day of Fasting, Penitence and Prayer.

With the advice and consent of the Council I hereby appoint

THURSDAY, the 8th of April, next,

as a day of fasting, penitence, and prayer. I recommend to the people of this State, in their places of public worship, around their family altars, and in whatever place in God's great temple they may find themselves, to observe the day by such abstinence and fasting as may conduce to health and sobriety; by such penitence and good resolutions as may lead to better living; by such supplications and confessions as may naturally produce the blessings they desire; and, by reverently and honestly looking back over the period of their past lives, so to take account of their lost opportunities, their wasted energies, and the little progress they have made in developing the bigger and better life within them, that their coming days may be more profitable to themselves and to the world.

Given at the Council Chamber in Concord, this eleventh day of March, in the year of our Lord one thousand eight hundred and eighty-six, and of the Independence of the United States the one hundred and tenth. MOODY CURRIER.

By his Excellency the Governor, with advice of the Council.

A. B. THOMPSON, Secretary of State.

Salvation Oil is the greatest cure on earth for pain. It affords instant relief and speedy cure to all sufferers from rheumatism, neuralgia, headache, sore throat, pain in the back, side, and limbs, cuts, bruises, &c. Price twenty-five cents a bottle.

William Bedford's shoddy mill at Laconia was damaged $600 by fire, March 16th; insured.

Two houses owned by Thomas Good and one by Jacob Sawyer, at Suncook, were burned March 17th, twelve families and two saloons being burned out. Total loss about $11:000, with partial insurance.

We think we can cure a bad case of backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters, than by any other application, and after the backache is cured, you can still wear the plaster without discomfort for two or three weeks or longer. This combination of smart weed and belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.

WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, March 9th.

Amount of live stock at market: Cattle, 1,085; Sheep and Lambs, 2,410; Calves, 385; Horses, 223; Swine, 19,901.

Prices of Market Beef—A few choice, $8 00; extra, $7 50 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 00 @ $6 50; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen ℔ pair, from $100 @ $185; Farrow cows, $15 @ $30; Fancy cows, $50 @ $80; Milch cows and calves, $25 @ $48; yearlings, $10 @ $18; two years old, $14 @ $28; three years old, $24 @ $40.

Swine—Western fat, live, 4¾ @ 5¼c ℔ lb; northern dressed hogs, 5¾c ℔ lb.

Prices of Sheep and Lambs—In lots, $2 50, $3 50 @ $4 00 each; extra, $5 00 @ $6 00, or from 2½ @ 6c ℔ lb.

Veal Calves 2¾ @ 6½c ℔ lb.

Prices of Hides, Tallow and Skins—Brighton hides, 7½c ℔ lb; Brighton tallow, 4c ℔ lb; country hides, 6 @ 7c ℔ lb; country tallow, 3½ @ 3¾c ℔ lb; calf skins, 10c ℔ lb; pelts, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

There were more cattle from the northern states, also a larger supply from Maine. There appeared to be a very fair demand and prices were fully sustained. There were some very choice cattle on sale from New Hampshire, Maine and Massachusetts, and also from northern New York a few head of the fancy stamp. What brought more cattle to market was the light supply last week. A number of western cattle were sold from $5 30 @ 90 ℔ hundred lb, live weight.

New Milch Cows—The supply was very light and sales mostly confined to small lots.

Fat Hogs—Not any changes in values, and the supply heavy from the west.

The Sheep Call—There has been an improved tone to the market. Butchers were, although not desirous to have it known, more anxious to buy, having bought light last week. We heard of sales on sheep at 6c as an outside rate on choice flocks. One lot contracted for last week at 5½c, delivered to day, would have sold on the market at 6c. Several lots are engaged for next week, and probably as high as at to-day's rates, as sheep cost last week full ¼ @ ½c advance.

$500.00 REWARD —IF— Sproat's Syrup of Tar and Wild Cherry Fails to Cure any case of Cough, Cold or Consumption in its early stages.

As a MEDICINE it is quick and effectual; curing the worst and most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in from four or five minutes to **Twenty-Four hours.**

It will instantly revive the most melancholy and drooping spirits, and restore the weak, feeble, nervous, and sickly to health, strength, and vigor.

Nightly Dissipation.—Persons who, from dissipating too much over night, feel the evil effects of the poisonous fusel oil in the morning, Sickness at Stomach, Weakness, Giddiness, etc., will find that one dose will remove all such feelings.

Ladies of weak and sickly constitutions should take the INVIGORATOR three times per day: it will make you strong, healthy, and happy; remove all obstructions and irregularities from the Menstrual Organs, and restore the bloom of health and beauty to the sickly, shrivelled, and wasted careworn face.

TRUNK REPAIRING! Specialty. Trunks called for and returned without extra expense at

John S. Tilton's Harness Dispensatory 18 CONGRESS STREET.

Anybody can catch a cold now. The trouble is to let go, like the man who caught the bear. We advise our readers to keep a bottle of Dr. Bull's Cough Syrup handy.

The house and barn of Edward W. Purington, of Epping, were burned on the night of the 17th inst. The barn contained a few tons of hay.

The Root of all Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does, by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not even a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

The Rochester *Leader* says: "The first labor strike in this country and resulting successfully, of which record is preserved, occurred among the factory girls of Dover, N. H., in 1827. The girls paraded the town with a flag and a brass band, and the employers quickly yielded to their demands."

A Beautiful Present.

The Virgin Salt Co., of New Haven, Conn., are making one of the best offers ever made in order to introduce their salt. Go ask your grocer for Virgin Salt and get a pair of doves beautifully lithographed in ten colors on a large card, nine by ten inches. Virgin salt is absolutely the cleanest, purest and whitest salt ever seen or used. Put up in fancy-colored packages lined with enameled paper to prevent salt from hardening. A large package only costs 10cts.

Portsmouth Chronicle.

FRIDAY, MARCH 19, 1886.

The Labor Problem.

There seems to have spread all over the land a movement of discontent among the labor element, based upon the ground that it is not sufficiently paid, and is obliged to give more hours for a day's work than ought to be the rule.

To the long-worked editor of a daily morning paper who may have had a protracted experience with the "rights of labor," the aspect of the case seems unfortunate for the bread-winners. There is no evidence or assertion that save in a few instances of large monopolies, there is at present any especially great profit resulting from the manufacturing and mechanical enterprises of the country, either at home or abroad. If the laborer and mechanic, at a rate far higher than is paid elsewhere in the world, cannot live in this land of food production at the prices paid for their labor, it is not difficult to perceive that their places will ere long be filled by those from other countries, who may be attracted by the prospect of higher wages than are paid, for example, in Great Britain or on the continent, and we shall shortly see coming to our shores hosts of foreign workmen. The supply will be so much in excess of the demand that a reduction of prices of labor must follow as a matter of course, and in the end the means adopted for an increase of wages will be succeeded by a depression in prices of a day's work.

We can foresee no other result than this. The workman who has a day's work to sell will be just as much affected by the amount of labor offering itself in the market, as is the manufacturer to be regulated in his sales by the law of demand and supply. But we presume the managers of strikes will differ with us in this theory.

The Loss of the Oregon.

In the United States district court at Trenton, N. J., on the 17th inst., the North German Lloyd Steamship company, owners of the steamship Fulda, filed a libel against the owners of the Cunard steamship Oregon, to recover salvage on seven cases and one package of diamonds, valued at $200,000, rescued from the wrecked vessel.

That there was a gross lack of discipline on the Oregon after the collision, and that the saving of all hands was due solely to "Cunarder's luck," (including the wonderful good luck of having a smooth sea and light wind at the time of the disaster,) and not to good seamanship before the crash or good management aft-rward, is proved by the statements of old ocean travellers who were among the passengers.

The fact that not even a plank or spar of the schooner which is alleged to have sank the Oregon has been found, and that so little evidence as to the existence of any such vessel has been brought forward, leads some persons to doubt whether after all there was any collision; a submarine torpedo boat, or a dynamite explosion or gas explosion in the bunkers, being cited as more probable causes of the wreck.

The Wrentham Mystery.

The locket found with the remains of Agnes A. Long in Wrentham, Mass., has been identified as being made by W. A. S. Blackington of Attleboro, and one of the pictures in it as a likeness of Charles Snell of the same place. Mrs. Stowers, wife of the suspected murderer of the girl, was reported on the 18th to be in a critical state, consequent on excitement over the charges against her husband, and his flight from home. Her maiden name was Annie Godfrey, and during the summer of 1884 she and Agnes Long boarded at the same place with Stowers, and there was much rivalry and many sharp disputes between the two girls, as to which should have Stowers' attentions. It is supposed the girl was murdered in a carriage on the night of Nov. 22d, 1884.

Massacre of Negroes.

At Carrollton, Miss., March 17th, while a magistrate's trial was proceeding in the court house regarding some trouble between two negroes and a white man named J. M. Leddell, in which Leddell was wounded, a band of fifty white men, mounted and armed with Winchester rifles, rode into town, surrounded the court house, and opened a deadly fire on the unarmed colored men in the building, ten of whom were shot dead, three others dying soon after. All the others, with two or three exceptions, were more or less seriously wounded.

The Massachusetts senate on the 17th inst. ratified the lease of the Worcester, Nashua & Rochester railroad to the Boston & Maine.

In the superior civil court at Boston, March 17th, the case of Susan Wentworth, admx. of the estate of Adelaide W. Lord, vs. the Eastern Railroad Co., was begun. This is an action to recover $6,000 for personal injuries received. On Sept. 18th, 1884, Adelaide W. Lord was a passenger on a train for Portland, Me., and at Chelsea, in alighting from the cars, fell, as is alleged through the carelessness of the defendant company's servants, and received injuries from which she died. The defence is a general denial.

The Flying Yankee train was reported off the track at Kittery on Thursday evening, but with slight damage.

The town election in South Berwick was held on the 17th inst., and resulted in a general victory for the democrats, for the first time in eight years.

Agents of the Fitchburg railroad were in Biddeford on the 16th inst. in the interest of the railroad, to examine the goods found in the possession of Leonard F. Foss, recently arrested in Biddeford for theft. Among other articles they found a large trunk which was recognized as having been stolen from the Fitchburg road at North Adams in September, 1883. It was the property of Mrs Emma A. Parmenter, wife of the editor of the Troy *Press*, who was paid $988 for it by the railroad, after all hope of finding it had been abandoned. Foss was once an engineer on the Fitchburg and other railroads. Tools valued at over $1000, and large quantities of other goods, all evidently stolen, were found stored in Foss' house.

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and improve the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Kennedy, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can say that I know no other to be so good as a cathartic medicine. I can't do without them in my family." C. H. Moore, Elgin, Ill., writes: "Suffering from Headache, and Loss of Appetite, I was advised and debilitated my system. I was obliged to give up work. After taking under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

EDDY BOYS!

The Most Wonderful Mediums Living, assisted by

EDITH HERRINGTON,

The Charming Young Medium and Whistling Soloist.

A few of the many Manifestations that take place at Seances given by the Eddy Boys to convince the public that our

DEPARTED FRIENDS CAN RETURN:

Many Spirit Forms are seen and recognized by their friends. A Grand Square Piano rises from the floor and floats in the air. Musical Instruments float about the Hall keeping time. The boys are put in sacks and nailed to the floor, still tests go on. Materialization of real, natural flowers. Sealed letters are read and answered. Disembodied thieves and the spirit carpenter. Ring mystery and lock slate writing. Cold hands melt in the grasp of mortals. Sweet William, the unearthly gardener. Delicious music by the spirit Band. Lights shown like stars. Many Articles moved. Spirit forms walk out in full view of the audience. Tables rise up into the air with gentlemen upon them. Spirit arms, faces and hands are seen in full view. Musical Instruments are played while in the hands of the audience. Floating hands and luminous guitars. Pillow shoes and handcuffs are opened by the Spirits, cords taken off while the boys are tied with 100 feet of rope. Water demagnetized while the Mediums are securely bound. Manifestations while being held by the Investigating committee. Hundreds of other marvellous phenomena.

☞ No deception either by glowing promises of impossible things, no glittering machinery or apparatus, no conjuring or trap-doors, the power that aids them is not dependent on fraud.

MUSIC HALL.

The audience at Music hall on Thursday evening was small in comparison with what the entertainment presented deserved, but it was an appreciative and enthusiastic one; the applause being hearty, and Miss Lizzie Evans twice called before the curtain. Miss Evans is enough to redeem a poor play and an inferior company; but "Fogg's Ferry" is one of the best plays of its class, and the support is good throughout. The company will make another date here in a few weeks, and will then have a full house.

This evening the Harvard College Quintet club will give one of the concerts of college songs and glees, with warbles and whistling solos, which have given so much satisfaction wherever they have appeared. They will be assisted by Miss Hunt, soprano soloist, and Miss Nichols, a young lady reader of a high order of merit, and undoubtedly will give a first-class entertainment. Tickets at Goodrich's.

The Eddy Boys, who will appear at Music hall in spiritualistic manifestations and materializations, have for ten years past created much interest in Europe, and puzzled investigators and scientists without number. Admission ten cents.

The D'Oyly Carte Opera Co., under the management of John Stetson, will present the Mikado in Music hall Monday evening, with full orchestra and chorus, and unexcelled cast of soloists and actors. Seats now on sale at Goodrich's. See advertisement.

THE FAIR.

The Casino was packed with people on Thursday evening, the opening of the Methodist fair. The building was beautifully decorated with flowers, evergreen and bunting, and brilliantly lighted. Among the many beautiful articles offered for sale, special attention was attracted by a fire screen presented by W. J. Sampson & Co., having on one side a peacock, and on the other a bouquet of flowers, painted on velvet by Miss Gertrude Sampson, daughter of the senior member of the firm. Miss Mollie Mack sang several selections in a most pleasing manner, and there was some excellent reading. The collection of war relics is is of great interest.

The fair will continue this afternoon at 2:30, and this evening; the admission *in the afternoon* will also admit to the gallery of war relics. First-class entertainment in the evening.

There was quite a high tide on the 17th inst., and on the ebb a good deal of ice came down from the head waters of the Piscataqua.

City Clerk Goodrich has received from the authorities of Newcastle a blank on which to make sworn return of the city's taxable property in Newcastle. This is supposed to be a gentle reminder of the Pest island matter.

A gentleman residing on Middle street has purchased the estate corner of Middle street and Richards avenue, and will soon occupy the house as a residence. The house was built in a most thorough and expensive manner by its former owner, the late Albert L. Jones, and since the decease of his widow it has been unoccupied. The passers-by on Thursday gladly saw signs of prospective occupation of the premises. Painters, steam-pipe fitters and other mechanics have begun to put the house in order for an early occupancy of the new owner. The premises having been sold at private sale, the terms are not made public.

The big wooden vane which from the days of the Sheafe family had indicated the direction of the wind from a staff on top of the brick block on Market street at steamboat wharf, until it was blown down by a violent gale some months ago, having been rescued by Mr. George Scott at the time, has been by him repainted and restored to its old position.

The local assembly of the Knights of Labor is rapidly increasing in membership, nearly twenty candidates being taken in at the meeting this week, and over sixty others proposed.

Mr. La Brie, late musical director of the Wallace Musical Co., will join the "Aphrodite" company on the 24th inst. in a similar capacity.

Mr. Yeaton Jenness died in Roxbury, Mass., on the 16th inst., of pneumonia. He was born in Rye sixty-five years ago, but had resided in Roxbury many years, having long been engaged in the express business there. He arrived home from South Carolina, where he had passed the winter for the benefit of his health, a few days before his death.

In Gloucester, March 17th, United States Marshal Gallup arrested John F. Mehlman, master of the fishing schooner Eliza, of Marblehead, Mass., on a charge of stealing on the high seas certain fishing trawls belonging to the schooner Flying Dart of this port. The accused skipper was taken to Boston for examination.

Capt. Seaward of Kittery Point, who has for several years past commanded the schooner Mystery, has sold his share in that vessel to Capt. Baker of York, who has been running the schooner Rockaway, and who will this season command the Mystery.

Capt. John J. Call, who for four years past has commanded the schooner Chilion, and made her pay the owners a handsome dividend, is to have built for him a new vessel, a large portion of the stock being already taken. Sae will be constructed by Wm. F. Fernald, on the lines of the Cocheco, which has been one of the best-paying crafts built on the river, carrying a large cargo on a light draught of water, sailing well, and being a fine sea-boat. The new vessel will be 102 feet on the keel, 115 feet over all, thirty feet beam, and 7 1-2 feet in the hold; will have a centre-board, three masts, and carry 350 tons of coal. Her keel will shortly be laid. Mr. Ira Whidden of Newington, who has had good coasting experience as seaman and mate, is to take charge of the Chilion as master.

Schooner B. Frank Nealley, Oliver master, of the Dover Navigation Co.'s fleet, bound from Tampico, Mexico, for Camden, N. J., was towed into the lower bay at Mobile on the 9th inst., short of provisions; since reported as having arrived at Camben on the 16th.

The U. S. S. Enterprise, recently attached to the Asiatic squadron, arrived off Sandy Hook on the 17th inst. This is the vessel that was built in the Franklin shiphouse at the Portsmouth navy yard by Contractor Griffiths, at the same time a sister ship, the Essex, was being built in another shiphouse on the yard by the government, the ostensible object being to settle the question as to whether contract labor was the cheapest for government to employ, all things being considered. Just what decision was reached in this particular case we never heard.

A. C. Amazeen, saloon keeper, has gone into insolvency.

The fishing schooner Flying Scud, at Gloucester from Georges, reports that on Feb. 28th one of her crew, Charles Publicover of La Have, N. S., aged twenty-five years and having a wife in Gloucester, was washed overboard and drowned. The schooner also had her decks swept, loosing three anchors and fifty fathoms of cable.

Schooner Sunshine, at Gloucester on March 17th from Georges, reports seeing on Feb. 27th a vessel partly submerged and apparently new, supposed to be a fishing vessel, on the southern edge of the bank.

Sick Headache.

GENTS:—I have been subject to Sick Headache for years, and have tried, in vain, many advertised remedies and several physicians, but all to no purpose. At last I tried your B. B. Bitters—without much faith, I admit—but to-day I can truly say, that after taking the third bottle I have not suffered from it. I recommend it to all my friends; several have been cured by it. My little grandson was permanently cured of Biliousness and Sick Headache, which were so severe as to cause convulsions. They have all ceased since he commenced the use of B.B.B.

A Novel Feature in Investments.

The investor, who, after having undergone a period of depression is now asking itself, what business has least been affected and unjurest?

Such a business, industry or corporation, that can make a better showing now than before the crisis attracts the attention of capital, merits the confidence of investors and is being eagerly sought for.

There is such a business, and it has heretofore been monopolized by English and Scotch capital until some three hundred millions have been invested in the Ranche and Cattle business of this great country.

Foremost among the strongest, richest and most successful American Companies stand the United States Land and Investment Company, 145 Broadway, New York, which is now offering $500,000 First Mortgage 6 per cent 10-Year Bonds, for subscription at 90 cash, or at par, upon a novel installment feature which appeals to the Farmer as well as the Banker, the Clerk and Mechanic as well as the Millionaire, and to all who desire to invest their savings at better rates of interest than any bank will allow.

This company issues certificates of indebtedness in One and Five Dollars, each representing an Installment, and when the investor has purchased $50 of these certificates he becomes entitled to a $100 Gold Bond, First Mortgage, bearing 6 per cent interest, which he can obtain upon presenting his certificates or forwarding them by letter to the Company's Office, 145 Broadway, N. Y.

The remaining $50 due on the Bond being payable to the Company in monthly installments not exceeding $5.

The Bond commences to draw interest on delivery the same as if fully paid. In addition to which the Company gives as a Bonus, *Free*, one fully paid up share of stock of the value of $25.

Those desiring to buy their Bonds outright for cash can do so at 10 per cent discount in $100, $500 or $1000 Bonds and receive one, five or ten shares of stock *Free*. The Bonds are secured by property owned absolutely by the Company, estimated to be worth $3,000,000, and this money received from sale of Bonds will be invested in Cattle, the income from which is at the estimated will yield 30 per cent upon the stock after paying 6 per cent on the Bonds.

Applications are being forwarded in great numbers daily, and all those who desire to subscribe should send at once for Prospect-uses and full information to The United States Land and Investment Company, 145 Broadway, New York.—"*The N. Y. Financier.*"

STATUE OF "LIBERTY ENLIGHTENING THE WORLD."

More Money Needed.

The Committee in charge of the construction of the pedestal and the erection of the Statue, **in order to raise funds for its completion,** have prepared, from model furnished by the artist, a *perfect facsimile* Miniature Statuette, which they are delivering to subscribers throughout the United States at the following prices:

No. 1 Statuette, *six inches in height*,—the Statue bronzed; Pedestal, nickel silvered,—at **One Dollar each**, delivered.

No. 2 Statuette, in same metal, *twelve inches high*, beautifully bronzed and nickeled, at **Five Dollars each**, delivered.

No. 3 Statuette, *twelve inches high*, finely chased, Statue bronzed, Pedestal, **Heavily Silver-Plated**, with FLEUR STAND, at **Ten Dollars each**, delivered.

Much time and money have been spent in perfecting the Statuettes, and they are much improved over the first sent out. The Committee have received from subscribers many letters of commendation.

The *New York World* Fund of $100 000 completes the Pedestal, but it is estimated that $200,000 yet needed to pay for the iron fastenings and the erection of the Statue.

Liberal subscriptions for the Miniature Statuettes will produce the desired amount.

Address, with remittance,

RICHARD BUTLER, Secretary,

How to laundry linen as it is done in Troy, N. Y., has been kept a secret long enough; it can and should be done in every family. The *Elastic Starch* is the only starch in the United States that is put up by men who have a practical knowledge of the laundry profession. It requires no cooking, keeps the iron from sticking and linen from blistering while ironing, and gives shirts, cuffs and collars that stiffness and beautiful polish they have when new, which, everybody know, keeps them clean twice as long. CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in the system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of perfect security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of steel rails, well ditched, substantially built culverts and bridges, rolling stock, a near perfection as human skill can make it, the safety appliances of modern buffers, platforms and air brakes, and that exciting discipline which governs the practical employees of all its branches. Other specialties of this route are Transfers at all connecting points in Union Depots, and its unsurpassed comforts and luxuries of its Passenger Equipment.

The Best Equipped Fast Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and Superb Palace Dining Cars, in which elaborately cooked meals are leisurely served. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars.

The Famous Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the hunting places, summer resorts, picturesque localities, fishing and boating grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of Interior Dakota.

The Shortest DIRECT LINE, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

THE HOPE OF NEW ENGLAND.

The last census is not altogether pleasant reading in many portions for the sons of New England, but it conveys lessons which they cannot afford to ignore. If it tells that Maine and Vermont stood stationary as regards populations between 1870 and 1880, it also records the rapid growth and prosperity of many cities and towns which are beginning to tread upon the heels of older communities. It seems to say that to manufactures, not to agriculture, must New England apply herself, and that to the skill of her artisans must she look for her old-time supremacy. This changed condition of affairs is recognized in many enterprising cities, a good example of which may be found in Waterbury, the bustling Connecticut city upon the Naugatuck that is so rapidly coming to the front as a manufacturing center. Waterbury has wide-awake citizens who take every opportunity to push it and to welcome new ideas. The advantage of such a progressive spirit is well shown in the case of G. W. Angell, who lives at No. 204 South Main street, Waterbury, and who gives this personal experience:

"For twenty years I have suffered tortures from chronic rheumatism. The doctors said I was incurable, but thanks to Athlophoros, I have now taken a new lease on life. I had tried numerous remedies with the hope of at least allaying my suffering, but all failed until a friend advised me to try Athlophoros. I did so, and as the result am now looking and feeling as though I had never known what rheumatism was."

Mrs. E. Vickers, of No. 46 Pleasant street, says:

"It is owing to Athlophoros that I am now alive. I suffered with inflammatory rheumatism for years, most of the time being perfectly helpless. One bottle of Athlophoros cured me. I can sincerely say that there is nothing like it for the speedy relief and permanent cure of rheumatism and can recommend it to all suffering from that disease."

The testimony is reinforced by that of Mrs. Jane Downey, of No. 24 Pleasant street, a near neighbor of Mrs. Vickers, in this story of her case:

"Two bottles of Athlophoros cured me of inflammatory rheumatism. My family physician advised me to take the remedy, saying that he had done all he could for me, but could give me no relief. Athlophoros drove the rheumatism away, and I am happy to say that it has never come back. My daughter, who suffered terribly from rheumatism, was also cured by taking half a bottle of the medicine."

If you cannot get ATHLOPHOROS of your druggist, we will send it express prepaid on receipt of regular price—one dollar per bottle. If you think that you may be from home when the medicine arrives, if you haven't it, do not be persuaded into accepting a substitute, but order at once from us as directed. No Boon that Science has Conferred Has been fraught with greater blessings than that which has accrued to the inhabitants of malarial ridden portions of the United States and the tropics from the use of Hostetter's Stomach Bitters. The experience of many years has but too clearly demonstrated the inefficiency of quinine and other drugs to effectually combat the progress of intermittent, congestive and bilious remittent fevers, while on the other hand, it has been no less fearly shown that the use of the Bitters, a medicine congenial to the frailest constitution, and derived from purely botanic sources, affords a reliable safeguard against malarial disease, and arrests it when developed. For disorders of the stomach, liver and bowels, for general debility and renal inactivity, it is also a most efficient remedy. Appetite and sleep are improved by it, it expels rheumatic humors from the blood, and enriches a circulation impoverished by malassimilation.

Rev. J. C. Overbaugh of Washington, N. J., a Baptist clergyman with a wife and family, having compromised himself by osculatory exercises among his flock, especially favoring the younger and handsomer members, announced on the 13th inst. the preaching of his farewell sermon on the 14th. He did not appear in his pulpit, however, and it turned out that the reason for his absence was the discovery by Mrs. DeHart, mother of a young school girl, of a letter from the reverend gentleman to her daughter, laying the plans for an elopement.

S. B.—You win the bet. St. Jacobs Oil is the only proprietary medicine that ever received gold medals at world's fairs.

Capt. John Adams of Allston, Mass., is dead, at the age of eighty-nine years and four months. He was a soldier of the war of 1812, war taken prisoner, sent to Dartmoor Prison, and was on board the British man-of-war Shannon, on his way to Halifax, when that vessel captured the Chesapeake in Massachusetts bay.

Handsome versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

James T. Waddell, who resigned from the United States navy in 1861 to enter the rebel service, and who commanded the last rebel cruiser afloat, the British steamer Sea King, renamed the Shenandoah, with which vessel he after the close of the war destroyed the American whaling fleet in the Arctic ocean, is dead. For years after his piratical exploits he was afraid to return to the United States, but when he did come nobody cared to trouble him. He afterward commanded a steamship running between San Francisco and Japan, and piled her up on an island. Recently he has been admiral of the Maryland oyster navy.

We think we can cure a bad case of backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters, than by any other application, and after the backache is cured, you can still wear the plaster without discomfort for two or three weeks or longer. This combination of smart weed and belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.

WATERTOWN UNION LIVE STOCK MARKET.

For week ending Tuesday, March 9th.

Amount of live stock at market: Cattle, 1,085; Sheep and Lambs, 2,410; Calves, 285; Horses, 225; Swine, 10,000.

Prices of Market Beef—A few choice, $8 00; extra, $7 50 @ $7 75; first quality, $7 00 @ $7 25; second quality, $5 00 @ $6 50; third quality, $4 00 @ $4 50.

Prices of Store Cattle—Working oxen @ pair, from $100 @ $185; Farrow cows, $15 @ $30; Fancy cows, $30 @ $60; Milch cows and calves, $25 @ $48; year-lings, $10 @ $18; two years old, $14 @ $28; three years old, $24 @ $40.

Swine—Western fat, live, 4¾ @ 5¼c ℔ lb; northern dressed hogs, 5¾c ℔ lb.

Prices of Sheep and Lambs—In lots, $2 50, $3 50 @ $4 00 each; extra, $5 00 @ $6 00, or from 2¾ @ 6c ℔ lb.

Veal Calves 2¾ @ 8¾c ℔ lb.

Prices of Hides, Tallow and Skins—Brighton hides, 7¾c ℔ lb; Brighton tallow, 4c ℔ lb; country hides, 6 @ 7c ℔ lb; country tallow, 2¾ @ 3¾c ℔ lb; calf skins, 10c ℔ lb; pelts, 75 @ $1 15 each; selected, $1 25 @ $1 50; dairy skins, 50 @ 75c each.

There were more cattle from the northern states, also a larger supply from Maine. There appeared to be a very fair demand and prices were fully sustained. There were some very choice cattle on sale from New Hampshire, Maine and Massachusetts, and also from northern New York a few head of the fancy stamp. Went brought more cattle to market was the light supply last week. A number of western cattle were sold from $5 30 @ 90 ℔ hundred ℔, live weight.

New Milch Cows—The supply was very light and sales mostly confined to small lots.

Fat Hogs—Not any changes in values, and the supply heavy from the west.

The Sheep Call—There has been an improved tone to the market. Butchers were, although not desirous to have it known, more anxious to buy, having bought light last week. We heard of sales on sheep at 6c as an outside rate on choice flocks. One lot contracted for last week at 5¾c, delivered to day, would have sold on the market at 6c. Several lots are engaged for next week, and probably as high as at to-day's rates, as sheep cost last week full ¼ @ ½c advance.

DUFFY'S PURE MALT WHISKEY.

What Eminent Chemists say.

PROFESSOR REMIGIUS A. MOTT, PH. D., F. C. S., New York, writes:

"Analysis shows Duffy's Pure Malt Whiskey to be entirely free from Amylic Alcohol, commonly called fusel oil. In the sick room it should meet with great success."

PROFESSOR A. E. MINNE, D. SC., F. C. S., F. I. C., Professor of Organic Chemistry, Kentucky State College, President Agricultural Dept., Washington, D. C., writes:

"I have made an analysis of Duffy's Pure Malt Whiskey and found it absolutely pure, containing a trace of fusel oil. It is peculiarly fitted for medicinal purposes."

PROFESSOR HARLEY L. BYRD, late President of Faculty and Professor Baltimore Medical College, writes:

"From careful analysis of your Duffy's Pure Malt Whiskey, I find it free from fusel oil and other objectionable materials. It is specially recommended in all cases requiring alcoholic stimulant."

PROFESSOR WILLARD H. MORSE, Westfield, New Jersey, (Reply to Dr. Loocock's questions, upon his article, "Notes on Amylism as a Factor in Diseases of the Cerebral Convolutions," New England Medical Gazette, November, 1885, p. 495,) writes:

In another place I have spoken of the well-worth of malt, and do not need to repeat my well known opinions here, but touching upon the suggestive words of Dr. Loocock I may be allowed in calling attention to a fact which bears closely on the matter at issue. Putting preference upon malt, and calling attention to its chemistry compared with that of the product of distillation, I submit that whiskey from malt cannot be so readily distilled beyond the point when the last C2 H6 O is distilled over, and is therefore the whiskey to be preferred. Two puppies were fed, one on a half pint of the best Bourbon Whiskey for twenty days, and the other on the same quantity of Duffy's Pure Malt Whiskey for the same length of time. They were then killed, and the former was found with well-defined cerebral lesion, and the latter without any such lesion and without any hepatic circuses. (inflammation of the liver). Moreover, a third Malt Whiskey instead of his Bourbon stuff, came to the laboratory for our plate what the difference in effect might signify, as contrary to his former experience, he had stopped on the way to universal scleroses, and had no alcoholic tremors, or muscular atrophy."

The Root of all Evil.

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does, by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not even a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

A New York Alderman Trapped.

Alderman Henry W. Jaehne was arrested in the New York city hall at noon on the 18th inst., and taken at once to police headquarters. He is charged with bribery. He is the one in whose jewelry store Mrs. Hamilton's stolen silverware was melted after it had been stolen. She traced the property to him, and he paid her $1,100 in settlement of her claim. For a long time he has been directly charged with being a "fence" for stolen goods, and it was in his safe that the "boodle" used to bribe the aldermen of 1884 was secreted. Rumors that other arrests will follow are rife. Great excitement prevails among the city hall politicians, and on every side is heard the question, "Whose turn next?" The special charge against him is that he received a bribe in consideration for which he voted for the granting of the franchise to build a road on Broadway to the Broadway Surface Railroad company, after the resolution granting the franchise had been vetoed by the mayor. District Attorney Martine, under the direction of Judge Gildersleeve, ordered the papers for bail to be drawn, fixing the amount of bail at $15,000. Joe O'Donnell, who keeps a liquor store at the corner of Twenty-fourth street and Sixth avenue, was accepted as bondsman. While the papers were being drawn Jaehne sat smoking a cigar in the private office. He did not appear to feel very badly over his arrest, and seemed to take it as a matter of course.

The Oregon Wreck.

A gas-lighted buoy, showing a white light, has been placed 500 feet south of the wreck of the steamship Oregon in 20 1-2 fathoms of water, about eighteen miles east of the Fire island whistling buoy. It is painted red, and bears the word "Oregon" in black letters. The latest theory advanced regarding the Oregon disaster is that one of the lower cylinder heads burst out, and that the piston-rod crashed through the side of the vessel. A diver of the Boston wrecking company will go down and investigate the wreck as soon as the weather will permit. Should the edges of the hole be found driven in, all speculation as to the cause of the disaster will be set at rest; should the edges be turned outward, it will be proof that the ship was destroyed by some internal force.

Reform Methods of Securing Victory.

A despatch from St. Louis, Mo., to the New York *Tribune* states that the quo warranto proceedings instituted by Ex-Mayor William M. Ewing against Mayor Francis and other democrats who have had control of the city of St. Louis since the last election, have disclosed remarkable frauds. Mayor Francis was elected by an alleged majority of 1,575 over William L. Ewing, republican. Nearly the whole republican city ticket was defeated by about the same majority. They contested the election, and finally resorted to proceedings in quo warranto, having been beaten in the first more. Evidence has been submitted which showed that twenty-five dead men voted in one precinct in the first ward. Two hundred and sixty-four men voted from a house where only four lived. Ten prominent citizens, away from the city at the time, are recorded as having voted. Evidence is in the hands of the republican committee showing that over 2,000 fraudulent votes were cast at that election. Democratic methods in St. Louis and in Biddeford are evidently just the same.

The secretary of the navy has issued an order dismissing from the Annapolis naval academy Cadets Gilen Waters, of Georgia; Benjamin Staber, of New York; H. L. Guedon, of Texas, and W. T. Gillespie, of Virginia, on the charge of hazing Cadet L. S. Driggs. The cadets were tried in January by court-martial, and a question having arisen as to the jurisdiction of the court, the whole matter was referred to the attorney general for his opinion. He held that the court was competent under the law, and that the offence charged constituted hazing within the meaning of the statute.

The manufacture of uniforms for seamen according to the new naval regulations is being carried on slowly. All the old style of uniforms are being replaced with the new, but the old uniforms will not be abandoned throughout the service at once; the change will be gradual. The bureau of equipment and recruiting is awaiting the arrival of the new clothing regulations with patterns for the new uniforms before taking active steps to put the change fully into effect.

John H. Devereux, president of the Cleveland, Columbus, Cincinnati & Indianapolis railroad, whose death has recently announced, will be recollected by his surviving schoolmates as having attended school at William C. Harris' private school in this city during his boyhood days. He came here from Marblehead, Mass., and had another schoolmate from there, William H. Brown; both of whom were very much beloved by their comrades. Devereux was a kind-hearted and affectionate lad, of whom the boys were very fond. His family was a noted one in his native town. He was a good scholar, and excelled most especially in mathematics, whereby he soon obtained the attention and regard of his teacher, than whom no better one ever appeared before in Portsmouth, and never has since. Faults, as in the case of all teachers, were found with Mr. Harris, but he was thorough in his literary teachings, and correct in his advice as to the morals and deportment of his pupils; and after his death in his school room he was lamented by them all. Devereux was commanding in his presence, and agreeable and pleasant in his manners and address. Thus pass and fade away our friends and companions of our schoolboy days. SCHOOLMATE.

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. P. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

The Charming Young Medium and Whistling Soloist.

A few of the many Manifestations that take place at Seances given by he Eddy Boys to convince the public that our

DEPARTED FRIENDS CAN RETURN:

Many Spirit Forms are seen and recognized by their friends. A Grand Square Piano rises from the floor and floats in the air. Musical Instruments float about the Hall keeping time. The boys are put in sacks and nailed to the floor, still tests go on. Materialization of real, natural flowers. Sealed letters are read and answered. Disembodied thieves and the spirit carpenter. Ring mystery and lock slate writing. Cold hands melt in the grasp of mortals. Sweet William, the unearthly gardener. Delicious music by the spirit Band. Lights shown like stars. Many Articles moved. Spirit forms walk out in full view of the audience. Tables rise up into the air with gentlemen upon them. Spirit arms, faces and hands are seen in full view. Musical Instruments are played while in the hands of the audience. Floating bells and luminous guitars. Prison doors and handcuffs are opened by the Spirits, coats taken off while the boys are tied with 100 feet of rope. Water dematerialized while the Mediums are securely bound. Manifestations while being held by the Investigating committee. Hundreds of other marvelous phenomena.

March April May

When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with pimples. I bought a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up without that tired and languid feeling, and my appetite improved." R. A. SANFORD, Kent, O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLET, Boston, Mass.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and invigorant. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

"Hood's Sarsaparilla did me a great deal of good. I had no particular disease, but was tired out from overwork, and it toned me up." MRS. G. E. SIMMONS, Cohoes, N. Y.

Hood's Sarsaparilla

"For seven years, spring and fall, I had scrofulous sores come out on my legs, and for two years was not free from them at all. I suffered very much. Last May I began taking Hood's Sarsaparilla, and before I had taken two bottles, the sores healed and the humor left me." C. A. ARNOLD, Arnold, Me.

FRIDAY, March 19th.

George Berry, drunk, fine $3, costs $6.90; county farm in default of payment.

Clarence J. Caswell, charged with assaulting Sarah T. Caswell, was held in $100 for his appearance on the 20th, and furnished bail.

RAILROAD ACCIDENT.

In the *Chronicle* of Friday morning last we reported a rumor that the Flying Yankee train had left the iron at Kittery the previous evening, without damage to any person, that being all (and more) than could be learned from the railroad employes. The real trouble was with a freight train from the eastward, No. 248, a "hot box" on a car of that train causing the derailing and smashing of two ice-laden cars just beyond the overhead bridge in Kittery. The Flying Yankee, which was behind, and several freight trains which came up later, were delayed at Butler's crossing in Kittery until four o'clock Friday morning, by which time the track had been cleared by the wrecking train sent from this city. The passengers and baggage were transferred from the Flying Yankee to a special train at Kittery depot by Stoddard's teams and Hett's baggage wagons, and taken to Boston only a few hours fate. The eastbound Pullman train, which arrived here at nine o'clock, proceeded by way of the Portsmouth & Dover branch, which route it is reported will soon be adopted as the regular one for this train.

BOSTON GOSSIP.

The Boston correspondent of the *Tribune* thus writes of literary ladies who have many friends in this city:

One of the women of the semi-literary stripe is Mrs. Annie Fields, who since the death of her husband, James T. Fields, has lived in comparative seclusion in the Charles street house, which Henry James has graphically and truthfully described in the first chaper of his "Bostonians." Mrs. Fields now reposes on Mr. Fields' laurels, and dispenses "literary atmosphere" to that clique which twenty years ago made Boston a "brainy centre." Mrs. Celia Thaxter, fair, plump and fifty, and Miss Sarah Orne Jewett, with her dark, sombre face, are Mrs. Fields' nearest friends and almost constant companions. When Mrs. Thaxter is not at the Hollis street theatre seeing "The Mikado" she is painting delectable little figures on china or writing poems that have the curl of the salt sea waves all through them. She and Mrs. Fields are strong spiritualists, and it was at the latter's house under Mrs. Thaxter's patronage that some startling "materializations" took place last winter, which scared everybody half to death. Mrs. Fields' public manifestations are now confined to an occasional poem in the Greek manner contributed to the Atlantic and to the practice of out door charity.

One of the naturally gifted women to be constantly met in society when she is at her Boston home is Mrs. Louise Chandler Moulton. She is the one woman versemaker who has attained a reputation beyond the seas. No woman of the day writes sonnets as she writes them, and her critical correspondence has the merit of perfect finish of style, and that logical insight which is a rare possession in her sex. Her stories are mediocre, but that she is a "born poet" none can deny. The faculty of poetic expression is more clearly developed in her than in any woman writer who can now be recalled. Sentimentality and the most generous appreciation of other's powers are the prominent qualities of Mrs. Moulton's character. She is lovable to all her woman friends and they flock around her with unceasing devotion. Although her home is situated in the unfashionable South End quarter, her Friday "afternoons" are attended by a representation of the best people in literature, society and art. Were it gallant to allude to a lady's age, there could be no harm in mentioning that Mrs. Moulton does not look hers. She is blonde, with a redundancy of physical charms which are kept in proper check by the skill and taste of a Parisan dressmaker.

Possibly the correspondent has at a late hour perused some of Mrs. Moulton's "Bed-time stories," which have had the intended effect to put him to sleep without inducing unpleasant dreams. But perhaps it is enough for one woman to be an acknowledged poet, beloved by her sex, and possess the charms which fascinate every one who sees her.

March 20th—first day of spring—Ugh!

The Methodist Fair at the Casino will be continued this (Saturday) evening; admission ten cents, admitting to all parts of the hall. The gallery of war relics has been largely increased.

Mr. Editor: I am glad to see the formation of a musical society in Portsmouth. Such an institution should be encouraged, as it does much to increase a taste for musical education, and develope at times our local talent. I would suggest that the society resume the name of the "Portsmouth Handel Society," which flourished sixty years ago with Major Samuel Larkin as president, Andrew W. Bell, Jr., as treasurer, and Nath'l B. March as secretary. In those days there were many excellent musical societies in our state, of which leading citizens were officers. ALTO.

A large number of tickets for the Mikado, to be performed in Music hall on Monday evening by D'Oyly Carte's Opera Co., were marked off on the plan at Goodrich's before noon on Friday, though the sale did not commence till nine o'clock that morning. There will be a large audience at this authorized presentation of the opera, and persons desiring good seats will act wisely in securing them to-day.

The old chapel building used for many years by the Middle street Baptist society will be torn down immediately, and replaced by a waiting room for the pastor and choir. The dimensions of the new structure will be fifteen feet by twenty on the ground.

Col. Marvin, state agent of the N. H. S. P. C. A., on Wednesday, the 17th inst., prosecuted Isreal Sawyer before Justice Hayes of Alton, for dragging a fallen horse along the road for quite a distance with a yoke of steers hitched to a chain around the horse's body. Sawyer was adjudged guilty, and sentenced to pay a fine and costs. On Thursday Col. Marvin had Asa P. Hall arraigned before Judge Wentworth of the Rochester police court, for not properly feeding and sheltering his horse and cow; he was found guilty, and paid a fine and costs.

The city directories for 1886 are now being distributed in the city.

The winter term of the public schools closes on Saturday, March 27th, for the usual two weeks of spring vacation.

The schooner Mary Willey, Capt. Williams, is now fitting out for the summer lumber trade between this city and the Penobscot.

John F. Mehlman, the Marblehead fishing skipper arrested on the 17th inst. in Gloucester for stealing on the high seas fishing trawls belonging to the schooner Flying Dart, was on the 18th held by Commissioner Hallett in Boston in $300 bail, to answer to the complaint before the United States district court.

It will be seen by reference to the advertisement in another column that the Eddy Boys, the noted spiritualistic mediums, assisted by Miss Edith Herrington, medium and whistling soloist, will on Sunday evening appear in Music hall. For a list of the feats which it is claimed they will perform, we refer to the advertisement. The price of admission is only ten cents.

The room of the P. S. H. & F. club on Daniel street is to be put in good repair, Mr. Henry T. Ridge having leased the building for a term of ten years.

There were some fifty or sixty tons of ice distributed along the railroad track in Kittery on the 19th inst., the result of the accident to a freight train the previous evening. The cakes were cut in the northern part of the state, and were twenty-six inches thick, and very clear.

New England Descendants of Kings.

BOSTON, March 19.—Many people all over New England are of royal blood, and boast that they had as ancestors the occupants of English, Scottish or Irish thrones. A gentleman who has made the matter the study of years has just completed the list for New England, and the result will be given entire in the next Boston *Sunday Globe*. It will interest people whose names are Phillips, Carruth, Hill, Lee, Brown, Drowne, Vose, Morris, Harrison, Tucker, Cary, Dane, Parsons, Tracy, Hyde, Huntingdon, Carroll, Pope, Buchanan, Blodget, Lincoln, Haynes, Lord, Taylor, Stiles, Elliott, Babcock, Vance, McIlraine, Sullivan, Winslow, Arnold, Tyler, Waller, Mercer, Chauncey, Boyd, Merrill, Forsyth, Preble, Temple, Whiting, Winthrop, Warren, Rogers, Ellis, Chapman, Parkman, Shaw, Adams, Coolidge, Appleton, Jewett, Goodrich, Meigs, Mitchell and Safford.
